EDMUND G. BROWN JR.  
GOVERNOR

January 10, 1977

## Budget Message

To the Members of the Legislature of California:

Limits impose restraints but also create possibilities.

The budget I submit to you today calls for no new taxes, provides substantial homeowner property tax relief, senior citizen renter assistance, and substantially meets the Serrano principle of equal school funding.

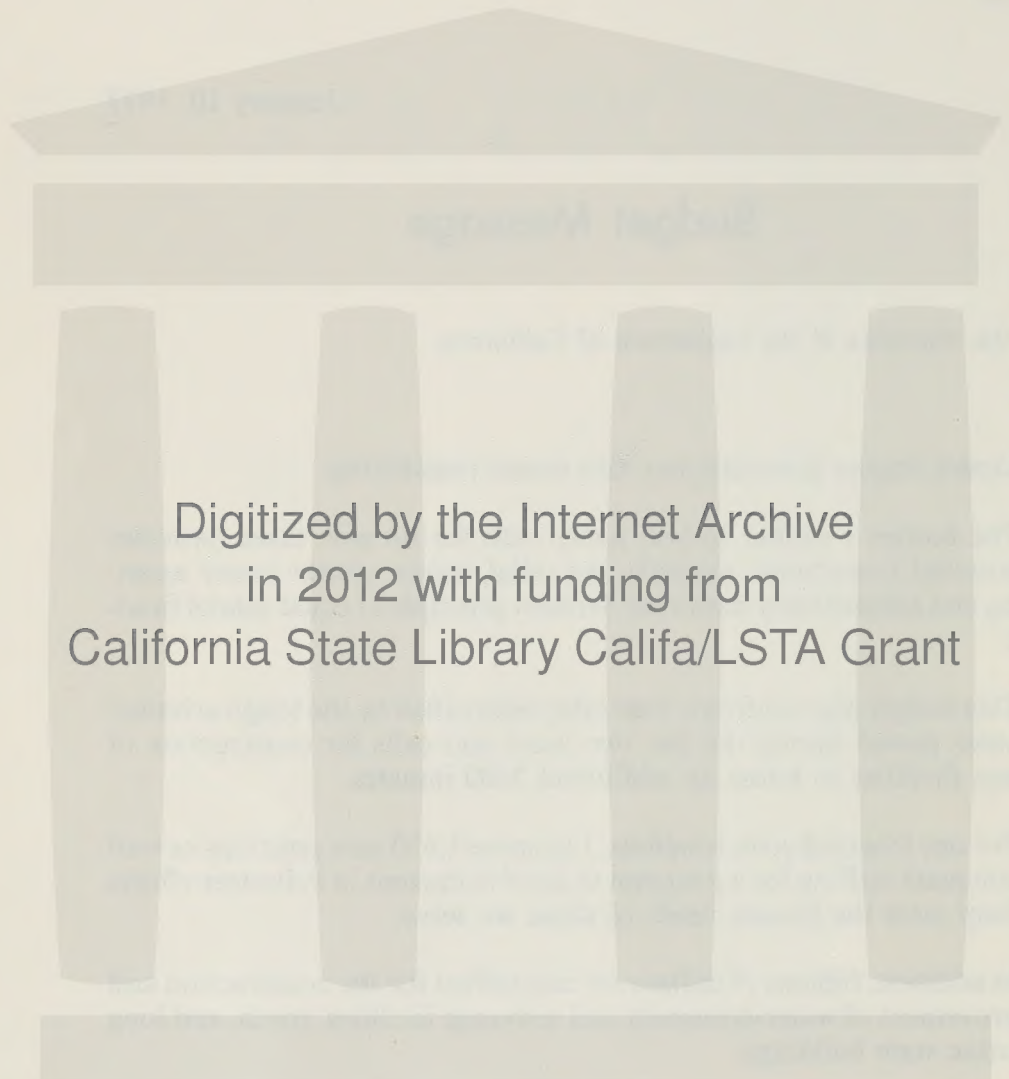

This budget also confronts the reality intensified by the tough criminal statutes passed during the last two years and calls for construction of prison facilities to house an additional 2400 inmates.

For our troubled state hospitals, I propose 1,630 new positions as well as adequate staffing for a program to involve citizens in volunteer efforts to help meet the human needs of those we serve.

In addition, billions of dollars are committed for the construction and improvement of water-treatment and sewerage facilities, roads, and long overdue state buildings.

State funds for creative and artistic endeavor have been increased 300 percent. A society is more than bricks and mortar and must commit itself to the human spirit.

*Edmund G. Brown*  
Governor

<sup>1</sup> The General Budget Summary includes the revenues and expenditures of all state funds and activities that reflect the cost of state government and selected bond fund expenditures. The transactions involving other nongovernmental cost funds are excluded.

<sup>2</sup> The Federal Revenue Sharing Act of 1972 requires the funds received by each state to be deposited in a trust fund and expended in accordance with state laws. These funds are reserved until appropriated by the Legislature.

There is a revenue surplus of \$157 million for 1976-77 and \$574 million for 1977-78:

	<b>1976-77</b>	<b>1977-78</b>
<sup>3</sup> General Fund Unrestricted:		
Current revenue and transfers .....	\$10,986,165,253	\$12,356,981,213

# Reserve for Legislative Programs

## Homeowners' Tax Relief

State government since the late 1960's has attempted to alleviate the property tax burden on various segments of the economy through tax relief programs. As a result of these existing programs, the state is now the largest taxpayer paying approximately 11.8 percent of the total property tax in 1976-77. This represents 11.4 percent of the total General Fund budget.

With this magnitude of expenditures for property tax relief, why is there still such a public outcry by homeowners against this tax? The outcry is largely a result of growing property taxes caused by accelerating property values. During 1974-75 to 1976-77, average increases in single-family residences were significantly greater than the total roll. Thus, residential property tax increases are far outstripping gains in personal income, which means that the property tax is taking an ever-widening portion of homeowners' income.

To bring the property tax burden in line with taxpayers' income, it is proposed that a new property tax assistance program be added to provide direct cash payment to those homeowners who are hardest hit by property tax increases. The program is as follows:

If a homeowner's property taxes exceed a specific percentage of household income, which ranges from 3 percent for incomes less than \$10,000 to 5 percent for incomes over \$30,000, the state will provide a direct cash payment equal to 75 percent of the excess taxes.

The amount of tax will be based on the first \$67,000 of home value including the current \$7,000 homeowner exemption. In addition, the maximum state payment will be limited to \$700. The program will begin in the 1977-78 fiscal year and will be based on 1976 income and 1976-77 property taxes.

This program provides direct and immediate relief, but it must be accompanied by constitutional and statutory measures that address the problem of escalating assessments of single-family residences that cause homeowners to pay an ever-increasing share of the total property tax.

It is proposed to establish a split roll effective

on the 1978 lien date to stop the shift of the burden of the local property tax to single-family residences. The split roll will provide long-range relief by maintaining the composition of the local property tax base at the 1978 level for the future.

A local property tax rate limitation program is currently in law. Because of rapid increase in assessed value, it has not been effective. It is proposed to modify current law to provide a more effective limit on property taxes to meet the original objectives of the Legislature. This statutory limit will recognize reasonable growth and will be based on increases in personal income and local population changes. The continuation of the new direct assistance program will be contingent on the enactment of a statutory limit on property taxes and passage of a constitutional amendment authorizing a split roll.

Since more stringent limits will be placed on local property taxes, a complete review will be made of state-mandated programs.

## Serrano

The current school financing system has been found to be in violation of the equal protection clauses of the California Constitution by the California Supreme Court. The *Serrano v. Priest* case that resulted in this decision was originally introduced in August of 1968 and after a series of appeals was decided in September 1974 by Judge Jefferson in Los Angeles Superior Court. This decision was appealed to the California Supreme Court which upheld the Jefferson Court decision finding the present school finance system to be unconstitutional.

In response to the Supreme Court's determination, the Administration has reserved \$220 million of new funding from available resources to allow us to begin to make the necessary modifications in the funding of our schools.

The Administration will be proposing a program for our elementary and secondary schools to be phased-in over a five-year period from 1977-78 to 1981-82. This program will not require any increases in state taxes nor a new state

tax. It is designed to provide a quality education in our elementary and secondary schools, improve the competency of our students, insure that public resources are applied in a substantially equitable manner, and provide property tax relief to those taxpayers most burdened with the property tax load.

The program will increase the State's share of the cost of the Foundation Program guarantee from 40 percent to 45 percent. The guaranteed foundation will be allowed to grow each year on the basis of the society's ability to pay and will provide significant tax reductions for our taxpayers in our low-wealth districts. It also will preserve the control of our public schools at the local level where the needs of the community can best be determined and met in the most effective manner.

In addition to correction of the inequities related to wealth in our existing financing system, the program will provide funds to restructure and revitalize our K-12 schools. The existing categorical programs of a general education nature must be incorporated into the financing of our basic education program on an equalized basis. The current Master Plan for Special Education Pilot Program, which will expire at the end of 1977-78 would be expanded statewide with minor modifications to meet the requirements of Federal legislation and to ensure fiscal responsibility. Special needs of schools and students will be addressed, and the problems of the Teachers' Retirement System brought to manageable proportions.

The program will provide by 1981-82, \$1,172,000,000 of additional state funds above that now being provided in 1976-77. This five-year program will allow our public schools to plan for an orderly growth of state support so that the teachers may get on with the business of teaching our children without the concern of seeking new funds each year.

The program will place heavy emphasis on the State Board of Education and the Superintend-

ent of Public Instruction. Their leadership and direction are essential to restructuring and revitalizing our schools. It also will require the active participation of parents, teachers, students, and school administrators in the identification of needs and the development of plans to meet these needs at the local level.

With the proposed restructuring and the assurance that public resources are going to be equitably available, California can improve the competency of our students, revitalize its public school system and substantially comply with the dictates of the recent court decision.

#### **Senior Citizen Renters' Relief—**

To provide additional tax relief to the most needy renters, generally living on a fixed income, the Senior Citizen Renters' Program will be proposed to be expanded from its current schedule with maximum income of \$5,000 to provide assistance at incomes up to \$12,000. The current statutory equivalent property tax of \$220 will be expanded to \$300 and the assistance schedule used for the Senior Citizens' program for homeowners will be adopted.

#### **Correctional Facilities—**

The Department of Corrections will be submitting to the Legislature, by March 1977, a report outlining its facility needs. In anticipation of the potential findings of this report, \$94,270,000 in General Fund is being reserved for working drawings, construction, and equipment for 2,400 additional beds in Southern California and repair and upgrading of San Quentin.

#### **Reserve for Pending Litigation—**

The state is currently a defendant in numerous lawsuits at both the trial and appellate stages. Prudent fiscal management dictates that a \$102,400,000 reserve be established to cover the possibility of adverse judgements.

## *Legislative, Judicial, and Executive*

Article VI of the Constitution creates the **JUDICIAL COUNCIL** to administer the State's judicial system. Legislation was passed during the 1976 Legislative Session which created an ongoing workload for the Council in the areas of uniform determinate sentencing and circuit court judgeships (Chapter 1139 and 1355, Statutes of 1976). Funds are included in this budget to support these legislated programs.

Under Government Code Section 75101, the State makes **JUDGES' RETIREMENT FUND** contributions equal to 8 percent of the salaries of all authorized justices in the State's judicial system. A like amount is deducted from the salaries of all active justices for deposit in the fund.

The fund is actuarially unsound, and requires yearly General Fund augmentations to pay retirement allowances, death benefits, and refunds. In 1975-76, these budget augmentations totalled \$1,750,000. In 1976-77 and 1977-78, \$2,755,626 and \$558,694 respectively, will be required.

Section 75110 of the Government Code declares that the Judges' Retirement System shall be fully funded and actuarially sound on and after January 1, 2002.

The **OFFICE OF PLANNING AND RESEARCH** serves the Governor and his Cabinet and the Legislature as the staff for long-range planning and research, and constitutes the comprehensive state planning agency. The Office of

Appropriate Technology was established in OPR by Executive Order B-18-76 to assist and advise the Governor and all state agencies in developing and implementing less costly and less energy intensive technologies of recycling, waste disposal, transportation, agriculture, energy and building design.

The **DEPARTMENT OF JUSTICE**, through the constitutional office of the Attorney General, is responsible for ensuring uniform interpretation and enforcement of laws and for representing the state in civil and criminal proceedings.

Staff increases are proposed for workload growth in the areas of: (1) legal services for state agencies, (2) criminal writs and appeals, (3) Parent Locator Service, (4) EDP support, and (5) the Bureau of Identification.

Other significant changes include staff increases in the area of consumer protection and the conversion from federal funds support to General Fund support of criminalistics laboratories in Santa Rosa and Modesto and the Comprehensive Data System in the Bureau of Criminal Statistics.

As a result of Chapter 952, Statutes of 1976, the Department of Justice's budget includes a legislative mandate program to reimburse counties and cities for costs incurred in the destruction or obliteration of records relating to arrests or convictions for possession of marijuana.

Seventeen positions and \$922,882 are being added to the State Controller's budget to strengthen administration of the *UNCLAIMED PROPERTY LAW*. Chapter 578 Statutes of 1975 reduced the holding period for unclaimed demand deposits from fifteen to seven years and for stock certificates from twenty to seven years. Chapter 25 Statutes of 1975 provides that after January 1976, travelers checks and money-orders escheat to the state of purchase rather than state of sale. In 1976, the program was further impacted with the passage of five bills. The positions will allow the State Controller to undertake a vigorous effort to collect the increased amount of abandoned and unclaimed property resulting from the new laws. The increased effort is estimated to produce additional General Fund revenues of \$6.8 million.

The *LOCAL MANDATED PROGRAMS* provide state reimbursements to local government entities (under authority of Chapter 1406 Statutes of 1972 as amended) for increased costs associated with new or expanded programs or for sales and property tax revenue losses resulting from mandates contained in state laws or executive regulations effective after January 1, 1973. As a result, the State Controller paid \$24.1 million to local governments during the 1975-76 fiscal year, and payments of \$37.9 million and \$52.8 million are anticipated for 1976-77 and 1977-78, respectively.

The Department of Finance is responsible for estimating the reimbursable costs associated with the Local Mandated Programs. The Department has formed a separate unit for this purpose and has developed policies and procedures to assist local governmental agencies in implementing provisions of Chapter 1406 Statutes of 1972.

The State Controller's budget displays for information purposes individual items of legislation containing appropriations to reimburse local entities for additional costs or sales and property tax revenue losses due to state mandates. Departments which administer the programs affected by or related to the mandates show the expenditures in their budgets.

The major emphasis of the *PERSONNEL INFORMATION MANAGEMENT SYSTEM (PIMS)* will be changing from the initial development of "basic" subsystems to the addi-

tion of capabilities to these subsystems. The Employment History Data Base, a major subsystem, has become operational and the Payroll Subsystem is scheduled to become operational in November 1977. The State Controller recently reorganized its operation to reflect the new emphasis on operation rather than development of PIMS. The developmental funds for the additional capabilities are being placed in the requesting departments' budgets; State Personnel Board, Public Employees' Retirement System, State University and Colleges and the Controller's Office. When the development work on the remaining subsystems is completed, the PIMS's development program will be terminated.

The *STATE BOARD OF EQUALIZATION* will be administering a new yield tax on all timber harvested from privately or publicly owned land as required by Chapter 176, Statutes of 1976 (Forest Taxation Reform Act). Proposed expenditures of \$904,166 in 1977-78 will be funded from the Timber Tax Fund. The Board is also responsible for auditing requirements of the Emergency Telephone Users Surcharge Program mandated by passage of Chapter 443, Statutes of 1976, which will require an expenditure of \$44,781 funded from a General Fund Special Account.

Fourteen reimbursable positions are being added for the additional workload for state administered local taxes, caused primarily by an executed agreement to administer the Santa Clara County Transaction and Use Tax Ordinance, effective October 1, 1976.

To increase field audits in the Sales and Use Tax Program, 23 positions are proposed for 1977-78 at a cost of \$361,796, which will result in an estimated increase in state revenues of \$2 million annually.

The *SECRETARY OF STATE'S* 1977-78 budget contains an increased appropriation of \$19,810 to implement Chapter 415, Statutes of 1976 which requires the printing of lobbyists registration statements pursuant to the Political Reform Act of 1974 and to make the statements available to the public.

The proposed General Fund budget for 1977-78 totals \$7,310,110. Staff is proposed for workload increases in the filing of corporate docu-

ments, election procedures, investigation of complaints regarding notary publics and accounting office functions.

The *COMMISSION ON VOTING MACHINES AND VOTE TABULATING DEVICES* has in the past been contained in the Secretary of State's budget. Commencing in the 1977-78 fiscal year, the Commission will be presented as a separate budget and Budget Act item in accordance with an opinion issued by the Office of the Attorney General and the intent of the legislature as expressed in Section 6556 of the Elections Code identifying it as an independent state agency. Accordingly, 1.5 positions and \$43,337 General Fund support is proposed for the budget year.

The *PUBLIC WORKS EMPLOYMENT ACT OF 1976* was passed by Congress last summer to stimulate the national economy. This law (PL 94-369), provided a total of \$3.25 billion nationwide of which the State of California may receive \$50 million to carry out state administered projects. Title I funds in the Act provided \$2 billion for construction, renovation, repair or other improvements of local public works projects. Title II of the Act provided a total of \$1.25 billion specifically for antirecession fiscal assistance to states and local governments to maintain essential services.

Title I funds were requested to provide financing of several construction and repair projects. Five projects have been approved for a total of

\$1.4 million, and project activity is expected to begin in the near future.

Title II expenditures are expected to create a significant beneficial impact on the State's economy, particularly in reducing unemployment and preventing further increases in the unemployment rate. Several Title II projects totaling approximately \$21 million have already been approved and funded to provide urgently needed services which will directly benefit all citizens throughout the State. For example, \$8.5 million will be used to provide additional and improved service to over 6,000 developmentally disabled citizens in 21 regional diagnostic and counseling centers. Other approved funding includes over \$700,000 to the Agriculture and Services Agency for a statewide pesticide use plan and related environmental impact study, and over \$1.2 million to the Department of Industrial Relations to monitor minimum wage laws and working conditions and to enhance present administration of the 1974 Uninsured Employers Act. Approximately \$20 million will be targeted for the health and welfare and higher education programs to provide jobs on maintenance and repair projects.

It is the intent of the Administration to use all available Title II resources to fund broad-base service areas where high priority needs are known to be critical. This funding will not only help the economy, but it will provide jobs to California citizens on special services and projects of several departments working with and through local agencies and communities of the State.

## *Agriculture and Services*

In response to supplemental language to the Budget Act of 1976, the *DEPARTMENT OF FOOD AND AGRICULTURE* has added two positions to initiate a long-range planning function.

The direct marketing program begun in June of 1976, with the intention of bringing producers and consumers together, is being continued in 1977-78.

Recent legislation passed by Congress has mandated Federal inspection of grain and commodity exports. California, acting under Federal delegation, has assumed inspection duties formerly carried out by private firms. These duties are in addition to the prior existing inspection program. A total of \$822,676, which is reimbursed by the industry, has been added to the 1977-78 budget to allow the Department to meet this increased workload.

In October of 1976, viable Gypsy Moth egg masses were discovered in San Jose. Eradication of this pest, which attacks virtually all fruits and vegetables, was begun with Department of Food and Agriculture Emergency Funds. Funds have been redirected from other eradication programs to fund this effort in the budget year.

*FINANCIAL ASSISTANCE TO LOCAL FAIRS* shows an increase of \$996,000 in 1977-78. This increase reflects the projected revenue to be derived from an additional 1 percent take-out at fairs conducting horse racing where pari-

mutuel wagering takes place. These provisions were established by Chapter 354/76.

*DEPARTMENT OF CONSUMER AFFAIRS.* In response to an Attorney General opinion, the Legislature provided General Fund support for those activities of the Division of Consumer Services which are not related to the boards and bureaus. General Fund support for the Division will be \$879,733 in the current year \$990,515 in 1977-78.

In an effort to increase its effectiveness and become more efficient, the Board of Medical Quality Assurance will be establishing its own investigative unit by transferring staff from the Division of Investigation as part of an overall reorganization. In addition, legislation will be introduced at the 1977 Session to retain the Healing Arts boards in this department.

Legislation will be introduced during the current legislative session to transfer the smog station inspection and vehicle emission inspection staffs from the Bureau of Automotive Repair to the Air Resources Board.

The 1977-78 budget for the *FRANCHISE TAX BOARD* contains an additional \$482,000 to increase state revenues by expanding the Board's audit activities. The Board's staff conservatively estimate that this augmentation will produce additional revenue of \$2.8 million annually.

Chapter 1060, Statutes of 1976, expanded the

Senior Citizen's Property Tax Assistance program and extended a similar program to low-income, elderly renters. For administration of Chapter 1060, the Franchise Tax Board budget contains an additional \$.5 million for 1976-77 and \$.7 million for 1977-78.

The objective of the *DEPARTMENT OF INDUSTRIAL RELATIONS* is to foster, promote, and develop the welfare of California's wage earners, to improve their working conditions, and to advance their opportunities for profitable employment. Several of the Department's programs will make major thrusts in 1977-78 to better achieve this objective.

The Division of Labor Standard Enforcement will initiate a new, concentrated enforcement effort, designed to benefit primarily low-income wage earners. This program begins in 1976-77 with a \$.5 million Federal grant under Title II of the Public Works Employment Act of 1976 and is continued in the budget year using both Federal and state funds.

The Division of Fair Employment Practices will also receive a Title II grant in 1976-77. The Division will use \$1.4 million in Federal funds to reduce its large backlog of complaints. This budget proposes that 21 positions established with the grant be continued for the last half of 1977-78 with \$230,000 from the General Fund.

The Cal/OSHA program in the Division of Industrial Safety will expand significantly with the implementation of Chapter 1067, Statutes of 1976. Chapter 1067 contains a \$1,000,000 appropriation to establish a new carcinogen control program prior to July 1, 1977. This budget proposes to fund the program in 1977-78 at a level of \$1,500,000, half of which will be Federal funds. The Occupational Health Section of the Department of Health will conduct inspection and enforcement activities under contractual agreement with the Department of Industrial Relations.

The Division of Industrial Accidents is in the process of restructuring its method of handling Workers' Compensation appeals so that decisions will be obtained more quickly and at less cost. Due to a substantial increase in the number of appeals, the Division will require an additional 24 positions and \$350,000 in 1977-78.

The *DEPARTMENT OF VETERANS AFFAIRS* will be redirecting its resources from the Educational Assistance Program which is temporarily declining to the Discharge Upgrading Program which is designed to assist veterans who received less-than-honorable discharges.

The Federal Veterans Administration has increased its contribution rates for care of veterans which is reflected in reduced General Fund requirements for the Veterans Home in Yountville.

The *DEPARTMENT OF GENERAL SERVICES* continues to provide services at the lowest possible cost by infusing sound business practices into its operations. Improved systems and procedures have provided increased management accountability and aided the Department in meeting client needs.

This budget provides additional funds to assist the Department in its efforts to encourage small businesses to participate in state procurement operations.

The Department is increasing its efforts to achieve savings in the use of office copiers through a program of assistance to other agencies in the purchase or lease-purchase of the office copier machines.

Continued emphasis is being placed upon the State Building Program and this budget includes a significant capital outlay proposal which will lead eventually to a lessened requirement for more costly leased space to house state operations.

# *Business and Transportation*

Every California resident and visitor benefits directly from the State's interest in (1) promoting a sound financial and business community while protecting the public from economic loss and illegal or unethical business practices and (2) providing efficient, rapid, and safe movement of people and goods. These two broad areas are the primary concerns of the Business and Transportation Agency.

## **BUSINESS**

The Administration, acting through the Business and Transportation Agency, intends to enhance and formalize its relationship with California business. Beginning in the current year, and continuing through fiscal year 1977-78, increasing attention will be given to economic conditions and trends affecting private sector employment, commerce and industry in California.

Shifts in emphasis within the Agency and its member departments have been made to reflect the Administration's strong concern for the State's business outlook, job creation potential, and economic development. Budgets of the business regulatory departments will provide sufficient resources for these departments to meet their regulatory responsibilities during the 1977-78 fiscal year. Thus, this Administration will maintain its interest in fair lending, anti-

discriminatory practices and consumer protection.

The *STATE DEPARTMENT OF BANKING* intends strengthening its bank supervision function as a means of anticipating and controlling the effects of changing economic climates on state chartered banks. This approach, called "the overseer program", is designed to make better use of the department's examination program. Additionally, the Department will introduce legislation to establish the California Term Loan Program to increase the volume of commercial bank loans available to small businesses and thereby provide an effective incentive for job creation.

The budget request of the *CALIFORNIA JOB CREATION PROGRAM BOARD* represents a renewed effort to ensure expanded market participation by minority-owned firms, centering on the procurement potential in state government and the private sector. The existing Loan Guarantee program will be adjusted to obtain greater leverage for state guarantee dollars.

Program changes have been implemented to respond to recommendations of private sector interests, the Legislative Analyst and the Department of Finance.

The *DEPARTMENT OF CORPORATIONS* has maintained its enforcement activity to counteract suspected violations or evasions of

the Corporate Securities Law, as well as expanded its efforts to recoup investor losses by pursuing civil remedies. Additionally, enactment of the Knox-Keene Health Care Service Plan Act of 1975 gave the department primary regulatory authority over the state's prepaid health plans. The 1977-78 budget reflects minor adjustments to staffing based on experience gained with the program over the past year and a half.

The functions of the *DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT* were significantly expanded by enactment of the Zenovich-Moscone-Chacon Housing and Home Finance Act of 1975. The department's responsibilities and authority have been expanded in the area of rural development, State Housing Plan, technical assistance to local government, and economic development. The department continues its responsibilities for the regulation of mobile home and recreational vehicle construction, as well as for enforcement of the Mobile Home Parks Act.

Legislation establishing the *CALIFORNIA HOUSING FINANCE AGENCY* became effective with enactment of the Zenovich-Moscone-Chacon Housing and Home Finance Act of 1975. The principal function of the agency will be to sell tax-exempt bonds and use the proceeds to finance new construction as well as rehabilitation of existing housing units with low-interest loans. It also has authority to insure loans made by the agency or by approved mortgage lenders in areas meeting prescribed eligibility criteria using the Housing Rehabilitation Insurance Fund established by Chapter 2 of the 1975-76 First Extraordinary Session of the Legislature. The agency also must fulfill its mandated social role of responding to the housing needs of low- and moderate-income groups.

Inflation, increased claims experience, investment losses, and high interest rates continue to have an adverse effect on the reserves and assets of many insurance companies, particularly those writing casualty insurance. The *DEPARTMENT OF INSURANCE* continues its involvement in monitoring, and, in some cases, arbitrating, crises being experienced in professional liability lines, automobile liability, and in municipal liability insurance. Increasing surveillance of these companies has been necessary to

detect events or conditions which could lead to insolvency.

The consumer protection responsibilities of the *DEPARTMENT OF REAL ESTATE* will receive considerably increased emphasis during fiscal year 1977-78. Substantial increases in licensing and subdivision filing workload, coupled with a backlog of complaints regarding license abuses require augmentation of regulatory capability in the department consistent with sound enforcement technique. Particular attention will be devoted to enforcement of laws and regulations governing discriminatory marketing practices of licensees as well as the sale of illegal subdivisions.

A major activity of the *DEPARTMENT OF SAVINGS AND LOAN* during 1976-77 has been the implementation of an "anti-redlining" program, to assure compliance with Fair-Lending Regulations issued August 1, 1976. These functions, which include the collection and analysis of loan data, on-site compliance examinations and complaint processing, will be continued during fiscal year 1977-78.

The *DEPARTMENT OF ALCOHOLIC BEVERAGE CONTROL* has the primary function of enforcing the state liquor laws. The Department will be seeking a revision of its fee systems to enable its functions to be self-supporting. Contingent on the success of the fee revision effort, the Department will be adding an Internal Affairs Officer and expanding its training and personnel capabilities.

The *STEPHEN P. TEALE CONSOLIDATED DATA CENTER* was established in response to legislation which mandated the centralization of state computer facilities. Through centralizing all electronic data processing, the center is providing efficiency and economy to users of computing services.

The center incorporates a large-scale computing facility with remotely located satellite mini-processors of varying size and capability. The main objective is to make available to each user the portion of a computer required to effectively process that organization's data and applications. Thus the consolidated center becomes available to the largest or smallest user at a price compatible with its requirements.

## TRANSPORTATION

The *DEPARTMENT OF TRANSPORTATION (CALTRANS)* is committed to a balanced and interconnected transportation system that considers all modes and is consistent with social, economic, and environmental objectives. The 1977-78 fiscal year budget is based on this overall goal, but keeps expenditures within realistic funding levels.

This decade has witnessed the near completion of the interstate freeway and expressway system. This budget reflects the fact that the Department's first obligation to the taxpayer is to protect the enormous investment that has already been made in the existing highway system through maintenance and operational improvements. Remaining funding for new highway construction is aimed primarily at closing gaps in the existing system. Construction of new facilities, however, still represents nearly half of all planned capital outlay expenditures.

The six-year planning program prepared by Caltrans captures all available Federal Aid in order to exert the maximum multiplier effect from the expenditure of state tax dollars. The programming of highway projects over the same six-year period also stabilizes the level of staffing without the foreseeable need for sudden personnel reductions or increases. This stable utilization of manpower and dollar resources also ensures corresponding stability for the allied private construction industry.

It is fully recognized that the highest proportion of travel over the next several years will continue to take place by private automobile. This budget, however, encourages the more efficient use of existing facilities. This is achieved primarily by using the present highway system as the basic network for improved transportation services. Pursuit of alternatives to single passenger vehicle use will assist not only in reducing air pollutants and relieving highway congestion, but also in satisfying basic mobility needs of the elderly, the disadvantaged, and the handicapped.

The impact of transportation on the environment is also a significant concern of Caltrans, and this budget proposed specific efforts to mitigate adverse environmental effects.

The *DEPARTMENT OF THE CALIFORNIA HIGHWAY PATROL* is responsible for assuring the safe, lawful, rapid, and economical use of the state highway system. The primary objectives are to minimize death, injury, and property loss from traffic accidents, to minimize traffic delays, and to provide protection and assistance to the motoring public. The department also seeks to protect the public from the operation of unsafe vehicles, from vehicle theft, and from the environmental blight of abandoned/public nuisance vehicles. To meet these responsibilities, a support budget of more than \$200 million, along with capital outlay of \$1.2 million, is proposed for the 1977-78 fiscal year.

The budget for 1977-78 reflects adjustments to match program benefits with program costs. The significant adjustments are as follows:

1. The opening of the Academy to new cadet classes and a maintenance of uniformed personnel at current budgeted levels.
2. Funding of a pilot radar speed enforcement study to evaluate its impact on traffic safety.

The department's capital outlay budget includes funds to purchase facilities currently leased at Lancaster. The department will continue to update the statewide communication system by a proposed expenditure of \$675,000.

It is estimated that during the budget year the *DEPARTMENT OF MOTOR VEHICLES* will register and collect fees on 16,957,000 vehicles and maintain the records of 14,668,000 outstanding drivers licenses, including the processing of 800,000 original licenses and 3,334,000 renewal licenses. These major workload indicators reflect an estimated 0.22 percent increase in vehicle registration and an estimated 2.92 percent increase in outstanding drivers licenses in the 1977-78 fiscal year over the current year.

The basic workload budget of this Department has been initially prepared using engineered time standards against forecasted workload at the historical rate of utilization or efficiency to arrive at an estimate of personnel requirements. A lack of confidence in the system due to out-dated standards has made the updat-

ing of the standards a foremost priority. All standards will be current by March 1, 1977. In recognition that the system is not currently fully acceptable, the Department has projected its 1976-77 revised workload budget using a composite departmental percent of utilization to reflect total workload positions at 7,542.9 personnel years, 189.2 personnel years below that authorized by the Legislature. This same staffing level is being proposed for the budget year with the only increases coming from new statutes and new programs.

The Department will continue to explore the feasibility of administrative adjudication of traffic citations using state funds. If effective, this program will relieve the state court system of much of its traffic case burden.

The Department will begin the process of replacing its current computer system. Funding for this phase is confined to preliminary evaluations, preparations and training.

In the capital outlay budget, construction funds are included for Office Building at Simi Valley/Thousand Oaks and Oceanside.

## *Resources*

The *RESOURCES AGENCY* programs are directly concerned with protecting, preserving, enhancing, and developing the state's environmental wealth for the benefit of all Californians. Programs funded range from those designed to attain and maintain desirable standards of air and water purity, to forest fire fighting, forest management, flood control, water development, oil drilling regulation, and the creation of recreational opportunities.

The Resources Agency, under the direction of the Secretary for Resources, consists of the following Boards, Commissions and Departments: the Departments of Conservation, Fish and Game, Forestry, Navigation and Ocean Development, Parks and Recreation, and Water Resources; the Air Resources Board, the California Coastal Commission, the California Coastal Conservancy, the California Conservation Corps, the Colorado River Board, the Energy Resources Conservation and Development Commission, the San Francisco Bay Conservation and Development Commission, the Solid Waste Management Board, the State Lands Division, the State Water Resources Control Board and the nine regional Water Quality Control Boards.

The *DEPARTMENT OF FORESTRY* was created by Chapter 1300, Statutes of 1976, effec-

tive January 1, 1977. Under provisions of this statute, the Division of Forestry, formerly within the Department of Conservation, is abolished. No major program changes were made.

The goals of the Watershed and Fire Protection program, are the protection, conservation and development of California's forests (both commercial timber and wildland), watershed and range lands. Because of the unique level of hazard in the State, protection from fire is stressed.

The budget for 1977-78 proposes an increase of \$5.3 million (\$3.0 million reimbursed from local government) to implement a reduction in the work week of permanent fire suppression personnel from 84 to 72 hours. Also proposed is the modification of three modern aircraft for use as fire retardant tankers which will complete the tanker modernization program. Other changes incorporated in the budget are necessary to provide a continuation of the current program effort. These include additional funds to replace mobile equipment and replace safety clothing and personnel protection equipment used in fire suppression.

The Department's budget contains \$82.6 million in State funds, including \$1.5 million for Capital Outlay projects.

The principal objective of the *DEPART-*

**MENT OF CONSERVATION** is the protection, conservation, and development of the State's mineral, petroleum and soil resources. Protection of life, property and resources from geologic hazards is stressed.

The Geologic Hazards and Mineral Resources Conservation program is managed by the Division of Mines and Geology. In 1977-78 an increase of \$152,000 is proposed for the Division to assist local government in the review of mined land reclamation plans, to classify land areas according to mineral content, and to review and investigate geologic conditions of proposed nuclear power generation facilities. Funding in the amount of \$75,000 is to be provided by the Energy Resources Conservation and Development Commission.

The Oil, Gas, and Geothermal Protection program is managed by the Division of Oil and Gas. For 1977-78 an additional \$65,000 is provided to develop and maintain oil and gas reserve estimates and pool production capability, and to insure that division geologic reference maps are current.

A new element is being proposed for 1977-78 in order to give increased emphasis to the State's non-renewable resources. The new Land Use and Resource Protection element will be staffed with six new positions at a cost of \$206,000.

The Department's budget contains \$8.1 million in State funds for all programs in 1977-78.

The **DEPARTMENT OF FISH AND GAME'S** purpose is to perpetuate and enhance our fish and wildlife resources for the use and enjoyment of all California citizens. To meet this objective, the Department proposes a budget of \$38.9 million for the 1977-78 fiscal year to operate its six programs: enforcement of fish and game laws and regulations, wildlife, inland fisheries, anadromous fisheries, marine resources and environmental services.

In 1977-78, the Department program level remains substantially the same as in the 1976-77 fiscal year. However, increased operating costs have caused a serious strain on the Fish and Game Preservation Fund. Estimated revenue of \$27.8 million in 1977-78 from fishing and hunting license fees is not sufficient to maintain the current program. This budget proposes \$1.4 million from the General Fund and \$1.1 million from the California Environmental Protection Program Fund to support the Department's

nongame and environmental protection activities at the existing level. An additional \$100,000 is provided from the General Fund to fund a Sea Otter Study to enable the management of the species to be returned to the State by the Federal Government. The budget also proposes \$200,000 from the California Environmental Protection Program Fund to update the California Fish and Wildlife Plan of 1966.

The objectives of the **DEPARTMENT OF NAVIGATION AND OCEAN DEVELOPMENT** are: to develop and improve the waterways and boating facilities of the state; to promote safety of persons and property connected with the operation of vessels on state waters; to license yacht and ship brokers and salesmen; and to conduct a beach erosion program in cooperation with the federal government and agencies of local government. In 1977-78, the department proposes a budget of \$13.7 million to accomplish its objectives.

The Boating Facilities Program comprises over 78 percent of the department's budget. Grants are proposed for launching facilities at 18 locations throughout the State. Small craft harbor construction loans subject to availability of funds are planned for Blythe Marina (Riverside County); Coyote Point (San Mateo County); Fisherman's Wharf (San Francisco County); Martinez Marina (Contra Costa County); Monterey (Monterey County); Bodega Bay Speed Point Marina (Sonoma County); Port of Oakland (Alameda County); Queensway Marina (Los Angeles County); San Rafael Marina (Marin County); and five phase-funded loan projects at Benicia, Humboldt Bay, Oyster Point, Port San Luis and Richmond Marinas.

During the 1977-78 fiscal year the **DEPARTMENT OF PARKS AND RECREATION** budget provides for support and local assistance expenditures of \$85 million and \$57.2 million for new capital outlay.

The major activities of the department are to plan, develop, protect, interpret and operate the State Park System for an estimated 55 million visitor days in 1977-78. The department plans continuation of intensified efforts in two major areas—Urban Parks and Planning/Resource Preservation. The rapid increase in California's population has led to accelerated statewide urbanization, thus creating demand for acquisition and development of parks nearer urban centers.

Planning/Resource Preservation provides the foundation for the creation of a balanced State Park System that recognizes the diversity of recreation and preservation needs.

In 1977-78, \$2.2 million is proposed for workload increases related to State Park Operation. Major items included will provide additional staffing and operating expenses at Old Sacramento, Bolsa Chica, Lake Perris, El Capitan, Auburn-Folsom, and Hearst Castle. A total of 29 units will be augmented and one new unit, China Cove, will be opened requiring an additional 180.9 person-years. In addition, the Department is proposing \$1.6 million for minor capital outlay projects.

The Planning, Development and Resource Preservation programs propose increases totaling \$1.3 million which will provide general development planning, needs assessment—urban park program, archeological and historical services, and history preservation.

The Department's proposed \$57.2 million Capital Outlay Program includes \$38.6 million for acquisition and \$18.6 million for development. New appropriations requested include \$12.2 million from the 1974 State Beach, Park, Recreational and Historical Facilities Fund for developments throughout the state, with two major projects being at Old Sacramento and San Onofre; \$33.5 million from the State Urban and Coastal Park Bond Act of 1976 for major acquisition; and an additional \$11.5 million from various funding sources, such as the State Beach, Park, Recreational and Historical Facilities Fund of 1964, Collier Park Preservation Fund, Recreation, Fish and Wildlife Enhancement Bond Fund of 1970, Bagley Conservation Fund, Off-Highway Vehicle Fund, State Park Contingent Fund and the Park and Recreation Revolving Account in the General Fund for planning and various acquisition and development projects.

The \$31 million local assistance budget contains \$25 million from the General Fund for the Urban/Open-Space Grant Program, \$3.7 million from the 1974 State Beach, Park, Recreational and Historical Facilities Fund of 1974 and \$2.5 million from the Off-Highway Vehicle Fund.

The *CALIFORNIA EXPOSITION AND STATE FAIR*, although budgeted separately, is operated as a unit of the Department of Parks

and Recreation. The 1977-78 Budget proposes support expenditures of \$6.8 million, an increase of \$695,000. The entire increase is to be funded from an increase in anticipated revenue. Included are \$148,000 for staffing authorized in chaptered legislation, \$120,000 for completion of a 5-year program and master plan, \$57,000 for concessions staff, made necessary by the termination of the Master Concessionaire Contract, \$100,000 for continuation of Public Works Title II staffing, and \$270,000 for augmentation of various fair activities.

The Department, also, proposed \$146,000 Capital Outlay expenditures at Cal Expo for preliminary planning purposes.

The primary objective of the *DEPARTMENT OF WATER RESOURCES* is management of California's water resources for maximum beneficial use while recognizing the limited extent of those resources and the competing needs which must be satisfied.

With General Fund support remaining level, the Department has redirected its program in the last two years to be consistent with their water management policy. This policy emphasizes stretching existing supplies, maximizing water conservation and reclamation of waste water, balancing of competing needs for water, and generally exercising statewide leadership in the management of water resources consistent with existing law, and with human and environmental needs.

The Department's planning program has been directed toward finding solutions to a number of critical water problems in several areas of the State, as well as providing data and other studies directed toward broader matters of statewide interest. The 1977-78 planning program budget proposal emphasizes increased activities in regional studies and in the conservation and use of water studies. New sources of water to complete the yield of the State Water Project will be studied, particularly emphasizing conjunctive use of ground and surface waters, instead of relying singularly on surface reservoirs.

Although the construction of the State Water Project is complete, several facilities remain to be developed. Ongoing design and construction activities will be directed to completion of staged facilities and addition of other planned facilities, including additional power plants. The Delta Alternatives Study, which was completed in

1976-77, contains a series of items which will be studied at the preliminary design stage during 1977-78. This study was a review of alternatives to the Peripheral Canal, and was designed to select needed actions to provide adequate water supplies for the state and federal projects, while at the same time providing Delta protection.

Funds for repayment of the principal and interest on the outstanding general obligation and revenue bonds continue to be the largest item in the State Water Project budget.

The Department will continue to administer the Public Safety and Prevention of Damage program which contributes the state's share of approved flood control projects constructed by the Federal Government by reimbursing local agencies for acquiring lands, easements, and rights-of-way for these authorized flood control projects. Within this program, the 1977-78 budget includes the support staff and functions of the Reclamation Board.

The Department will also continue to meet its statutory responsibilities for the safety of dams within the State. The cooperative study evaluating seismological activity of the Foothill Fault System along the western edge of the Sierra Nevada will also be continued in 1977-78.

A new activity, as a result of the passage of the "California Safe Drinking Water Bond Law of 1976" will be a joint effort with the Department of Health. After the Department of Health has developed a priority list of substandard domestic water systems, the Department of Water Resources will process applications and negotiate contracts for loans with water supplies for construction, improvement or rehabilitation of domestic water systems.

The *AIR RESOURCES BOARD* is charged with the primary responsibility for controlling air pollution in California from both vehicular and stationary sources. The total Air Pollution Control Program cost for 1977-78 is \$29 million which includes \$4.8 million to provide financial assistance to local air pollution control districts.

Continuing emphasis in the stationary source control effort will be placed on developing and updating an inventory of sources, developing standards and regulations which are economically and technologically feasible, and, in cooperation with local air pollution control districts, enforcement of those standards.

Vehicle emission control activities will be ex-

panded to include testing of after-market parts for compliance with vehicle emission standards. Additional effort will be placed on insuring that defective emission control systems are routinely replaced by manufacturers at no cost to the consumer.

During 1977-78 the Board will conduct and sponsor a \$5.2 million research effort of which \$3.1 million will be in contracts with universities and private research companies. Air monitoring for various specific objectives will continue and will be used to update the data base of known pollutants. Also, in cooperation with other entities at the state, federal and local levels, the Board will continue to develop a comprehensive air quality maintenance plan.

*CALIFORNIA COASTAL COMMISSION*. The budget proposal for 1977-78 represents an estimate of the full-year cost of the State coastal zone planning and management program authorized by Chapters 1330 and 1331, Statutes of 1976. This estimate is based on the workload experience of the predecessor commission, and is included pending completion of the appointment of the new commission which will review its programs and priorities and thus develop its operating budget.

The *CALIFORNIA CONSERVATION CORPS* was established in July, 1976 under the direction of the Secretary of Resources in order to accomplish two important and interrelated goals: (1) to further the development and maintenance of the natural resources and environment of the State and (2) to provide to the young men and women of the State meaningful, productive employment, training in employable skills, and educational opportunities. The Corps provides fire suppression services, protects and preserves the natural environment and develops the public resources to provide opportunities for greater public use. During 1977-78, over 1,000 young persons will be employed by the Corps and will be selected without regard to their prior employment or educational background.

All Corps members participate in a one month orientation and training program followed by residency in one of the sixteen base centers situated throughout the state for the balance of a one year commitment. Work projects which are undertaken may be in both urban and rural areas and are made by agreement with State agencies and other governmental bodies or

environmentally oriented private organizations.

The California Conservation Corp's budget for 1977-78 contains \$11.8 million in State funds for support of the program, plus \$500,000 for Capital Outlay projects.

The *ENERGY RESOURCES CONSERVATION AND DEVELOPMENT COMMISSION* was established in 1975 to ensure continuation of a reliable supply of energy for California at a level consistent with the state's needs.

During the 1977-78 fiscal year the Commission's principal objectives are: (1) to process Notices of Intent and Application for Certification of electrical generating facilities; (2) to promote more efficient use of energy in buildings, appliances, utility and industrial processes through the development of standards and other conservation measures; (3) to forecast and analyze the effects, growth, and distribution of the energy demand in California and the resources to meet this demand; (4) to provide technical expertise and leadership in developing contingency plans to cope with possible shortages of energy supplies; and (5) to carry out a program of research, development, and demonstration in energy sources, supply, consumption, and facility siting to make available new and useful energy systems and technologies.

To meet continuing program costs, \$19.9 million in net state funds is provided for the Commission, of which \$5.5 million will be expended for research and development. The Commission is funded through a surcharge on electrical energy consumption in California, however a General Fund loan of \$2 million is proposed in 1977-78 in order to stabilize the surcharge rate over the next two years.

The *STATE LANDS DIVISION* administers policies established by the Legislature and the State Lands Commission in the management and supervision of all statutory lands received from the Federal Government. Statutory lands include the beds of all naturally navigable waterways such as major rivers, streams and lakes; tide and submerged lands in the Pacific Ocean which extend from the mean high tide line seaward to the three-mile limit; swamp and overflow lands; vacant school lands; and granted lands.

The 1977-78 fiscal year budget includes an augmentation of \$112,000 to provide engineer-

ing support for the Division's increased emphasis in litigation; an augmentation of \$62,000 to provide legal support for the Division's land operations function; and, in addition, reimbursements have been increased by \$100,000 in order to fund legal research for other litigation. Additional land and mineral related revenues in the 1977-78 fiscal year are projected to be \$82.6 million.

The *SOLID WASTE MANAGEMENT BOARD* has the basic responsibility for establishing and maintaining a comprehensive statewide solid waste management and resources recovery program. Statewide standards, guidelines, and policies relating to solid waste management have been adopted, as was a statewide resources recovery program. A budget of \$1.8 million from the General Fund is proposed.

Although State minimum standards for solid waste handling and disposal have been established, to date the Board has not had the statutory authority for enforcement of these standards. With the enactment of Chapter 1309, Statutes of 1976, the Board is required to monitor local enforcement of County Solid Waste Management Plans and bring proceedings to correct improper or inadequate enforcement.

Through demonstration projects, the Board's resource recovery program will focus on siting, constructing and operating a facility to convert solid waste to energy pursuant to Chapter 1246, Statutes of 1976. In addition, the Board will initiate a program to ensure the sound management of environmentally dangerous wastes pursuant to the recommendations contained in the report requested by the Legislature in ACR 79 (1975 Legislature Session). This program will be carried out in cooperation with the State Water Resources Control Board and the State Department of Health.

The mandated responsibilities of the *STATE WATER RESOURCES CONTROL BOARD* and the nine Regional Water Quality Control Boards are the preservation and/or enhancement of the quality of California's waters, and the effective and efficient utilization of the State's water resources. To carry out these responsibilities two broad action programs have been formulated: The Water Quality Program and the Water Rights Program.

The Water Quality Program's budget proposal includes significant increased staffing for

nondesignated areawide planning (federally funded), toxic substances control, and wastewater treatment facility grant application processing. Also, a moderate increase in staff for surveillance, monitoring and enforcement is proposed to keep abreast of the growth in number of state-permitted dischargers. The accelerated grants application process is to be continued this year. For 1977-78, expenditure of \$100 million of Clean Water Bond funds will result in a total commitment of \$2 billion during the 1977-78 fiscal year in federal and State funds

for wastewater treatment facilities.

The major themes of the Water Quality Program's budget proposal are the reduction in time required to process a water rights permit, the elimination of a backlog of over 600 water rights applications by January 1, 1980, and the surveillance of existing permits and licenses to insure compliance with their terms. This last activity is of growing importance during the continuing dry year conditions which increase both the number of violations and their adverse impacts.

## Health and Welfare

Most of the programs administered by Departments in the **HEALTH AND WELFARE AGENCY** address the human needs of individuals on a direct, one-to-one relationship. These programs are large, complex, and hard to administer. It is difficult to assess their effectiveness and efficiency. The federal, state, and local governments, as well as private agencies, have become involved in a wide variety of functions over the years. While some of these programs date to beyond the turn of the century, others have grown to the multi-million or even billion dollar level within a few years.

The major state-administered programs are charted in Figures 1 and 2 over a 6-year period. The proposed General Fund expenditures for fiscal year 1977-78 for all departments in the

agency are shown in Table 1.

In formulating the **HEALTH AND WELFARE AGENCY** budgets, the Administration has primarily sought to help those who are least able to help themselves, to fill gaps in existing programs, and to implement additional controls on behalf of the taxpayers and in the interest of the clients served. The budgets within the Agency implement new programs initiated through legislative measures signed by the Governor. Additionally, they provide budget increases to meet normal workload adjustments. Both state operations and local assistance are provided a cost-of-living increase; unless otherwise determined by statute, local assistance programs receive a uniform 6%.

Table 1  
**GENERAL FUND EXPENDITURES<sup>1</sup> BY CHARACTER  
BUDGETED FOR THE HEALTH AND WELFARE AGENCY, 1977-78**

Selected highlights of proposed changes are reported here to point the direction in which the programs are moving.

### **Responding to Human Needs**

Basic to this Administration is the philosophy that state programs be sensitive to the human needs of those people who do not have adequate means of support. This budget carries out this philosophy by funding new programs or program changes which will assist people to live their lives in dignity.

The Governor signed into law Chapter 348, Statutes of 1976 (AB 2601), which provided a 6 percent increase in Aid to Families with Dependent Children (AFDC) grants and a \$3 per month increase in State Supplemental Payments (SSP), in addition to previously authorized cost-of-living increases. The General Fund cost for these increases in the *DEPARTMENT OF BENEFIT PAYMENTS* 1977-78 budget is estimated at \$54 million and \$25.3 million, respectively.

AB 2601 also provides that the State will continue to augment Federal Supplemental Security Income (SSI) grants to California SSI/SSP recipients, and that future Federal SSI increases will be passed on to recipients on a dollar for dollar basis. It assures a continuation of the standard of living established for over 700,000 SSI/SSP Californians. The General Fund cost in 1977-78 for maintenance of this standard of living will be \$82.6 million for pass-on of SSI increases and \$75.5 million for a cost-of-living increase on the SSP portion of recipient grants.

The Administration has a special concern about the quality of life in the remote areas of the State. The California Rural Health Corps in the *DEPARTMENT OF HEALTH* is budgeted at \$2,100,000 in 1977-78 from General Fund money appropriated by Chapter 1196, Statutes of 1976 (AB 2450). The Corps will provide state support to increase the number of medical personnel serving rural populations.

The Corps is one of many programs which respond to the unique needs of special populations for improved medical care. Other examples include public health nursing for the aged, advocated by the *DEPARTMENT OF AGING* and incorporated into the Health budget at

\$787,500 General Fund this coming year. An augmentation of \$239,400 new General Fund money is included to support full statewide implementation of the sickle cell program. Fifteen General Fund positions are proposed to develop medical and environmental measures for eradicating blood lead poisoning as a threat to the health of Californians, particularly children. Many severe health, behavior, and mental problems caused by blood lead poisoning in children can be reduced or eliminated through appropriate preventive action.

The Administration has been placing increased emphasis on services to the severely handicapped in the *DEPARTMENT OF REHABILITATION*. In order to continue this emphasis and also to improve services to the less seriously handicapped, an additional 40 positions are being added in the current and budget years.

This budget also establishes an intensified program directed at workers who have been injured on the job. Chapter 1435, Statutes of 1974 (AB 760) established vocational rehabilitation as a requirement for private sector employees under workers' compensation with the costs to be paid by the employer through insurance carriers. The *DEPARTMENT OF REHABILITATION* plans to develop a viable program responsive to the needs of workers, employers, and carriers. Initial funding and 66.5 positions for the program will be from Title II of the Public Works Employment Act of 1976. They will be continued by reimbursements from the insurance carriers.

Title II of the Federal Public Works Employment Act of 1976 authorized antirecession funds for state and local governments to use to maintain essential services. The *EMPLOYMENT DEVELOPMENT DEPARTMENT* was assigned the responsibilities for administration of the grants, which could reach up to \$50 million in the current and budget years.

Programs in the *EMPLOYMENT DEVELOPMENT DEPARTMENT* have traditionally been budgeted from Federal or special funds. This Administration is continuing the policy of utilizing Federal funds for job programs.

It is the intent to direct Title II funding toward high priority broadly based services which would provide jobs for several hundred persons

on projects throughout several state departments working with local agencies.

### **Enhancing the Quality of Care**

Changes have been made in several programs to enhance the quality of care given to people who are not able to lead normal lives.

During 1976-77, the Administration approved in principle the 1973 staffing standards for state hospitals. Studies of the impact and effectiveness of the new standards in three state hospitals indicate improvements in the level of functioning of developmentally disabled residents. A separate study indicates a need to increase direct care staff for programs serving acutely mentally ill persons. This increased staffing is provided to reduce the number of violent incidents and provide for the health and safety of both state hospital patients and employees.

Consistent with the Governor's approval, the *DEPARTMENT OF HEALTH* has administratively established 597.9 new direct care and treatment positions in 1976-77, in addition to 446 established pursuant to the Budget Act of 1976. The 1977-78 budget includes \$14.7 million to continue these new positions established in 1976-77. An additional \$6 million is proposed for 587.5 new treatment positions in 1977-78 to continue to move toward the recommended staffing level.

The *DEPARTMENT OF HEALTH'S* capital outlay program includes \$21.3 million for fire and life safety improvements in the state hospitals. This amount will complete funding at an accelerated rate for a program to meet fire and life safety requirements for projected hospital populations.

The number of developmentally disabled individuals being served by the regional centers has increased by approximately 6,000 additional clients in the current year. The cost of services associated with the caseload increase will require a current year budget augmentation for regional center operations and continuing care services. In 1976-77, \$8,462,637 has been authorized to the department from Title II of the Public Works Employment Act.

The 1977-78 budget includes \$16,020,372 from the General Fund to continue services to the 6,000 new clients added in the current year. The department projects a continuation of the

current caseload trend and anticipates 8,500 new clients in 1977-78. The budget includes \$9,823,590 from the General Fund to provide regional center and continuing care services for the projected 8,500 new clients.

In fiscal year 1976-77, an initial \$10.5 million was approved in the Budget Act in support of the policy of achieving equity in funding for county mental health programs. In fiscal year 1977-78, the Administration proposes another increment in this policy with a \$10 million augmentation. These funds will move toward equitable funding in those counties where the indicated need is greatest as determined by a set of 22 social indicators of need developed by the *DEPARTMENT OF HEALTH* and the Conference of Local Mental Health Directors. These funds will be used to improve programs according to the counties' local mental health priorities.

The quality of care given to over 30,000 foster children in the Boarding Homes and Institutions program (BHI) funded through the *DEPARTMENT OF BENEFIT PAYMENTS* is related to adequate payments to foster parents. Chapter 512, Statutes of 1976 (AB 3293), provided an increase of \$12.50 a month in the State's share of payments to foster parents.

The conservation camps in the *DEPARTMENT OF THE YOUTH AUTHORITY*, in addition to developing good work habits in a healthy outdoor environment, provide staff for the important jobs of fighting forest fires and carrying out needed conservation tasks. Parolees with camp experience have had a success rate which is above the statewide average for wards. As a result of the success of the first institution-based conservation camp at the El Paso de Robles School, two more such programs will be established in the budget year at the Dewitt Nelson Training Center and Ventura School. This will enable 100 additional wards to participate in the conservation camp concept. The Ventura School conservation camp will for the first time provide camp programs for young women.

The *DEPARTMENT OF HEALTH'S* responsibilities for regulating the health industry have been expanded under Chapter 854, Statutes of 1976 (AB 4001), to include a Certificate of Need Program for the modification, addition and construction of health facilities and services.

The Certificate of Need program was formulated in response to growing concern with the effect that excess bed capacity and duplication of expensive medical technology have on the quality and cost of hospital care. The budget for 1977-78 includes \$2.5 million in federal funds and fees to support the department's new role in comprehensive health planning and certificate of need activities.

### **Improving Efficiency and Effectiveness**

Many of the Agency's major programs have increased rapidly in recent years in both cost and clients served. (See Figures 1 and 2.) Three programs which have experienced problems in part attributable to their rapid growth are Medi-Cal, food stamps, and social services. The Administration is proposing in the budget increased monitoring, auditing, and review to insure that these programs are efficient and effective in reaching the people they were designed to help.

Three changes in the Medi-Cal program in the *DEPARTMENT OF HEALTH* most clearly demonstrate the Administration's intent. First, a Surveillance and Utilization Review Unit has been established to detect abuse and to monitor whether medical services are actually being performed for eligible people. The staff of 45 has been added administratively in the current year through funds from Title II of the Public Employment Act. Budget year funding will be provided through an internal redirection of field services personnel.

Second, the controversial Prepaid Health Plan program (PHP) continues to be scrutinized. The administration has adopted the policy that all plans will have to meet the stringent federal Health Maintenance Organization (HMO) standards in order to receive state contract approval. It is anticipated that there will be a sharp initial reduction in the number of contracts, with new plans being developed later in the budget year.

The Administration continues to support the PHP concept as having the potential for improving the health of people eligible for Medi-Cal. In the coming year, some individuals formerly enrolled in PHP's will receive coverage under the regular Medi-Cal program pending contract negotiations.

Third, physicians providing services to Medi-

Cal patients received increases in October 1976 with the implementation of Chapter 1207, Statutes of 1976 (AB 4242). The bill made it possible to equalize physicians fees across the state, and provided a mechanism for an orderly review of physician rates. Major increases were provided in the primary care procedures (20%) and maternity services (30%) with the intent of making physician services more available to people eligible for Medi-Cal.

Sixty-five positions were funded last year in the *DEPARTMENT OF BENEFIT PAYMENTS* to perform Food Stamp Efficiency and Effectiveness Reviews. This function was formerly a responsibility of county welfare departments. An additional 10 positions are proposed in 1977-78 to allow for a statistically valid sample to identify county problems and for outside verifications and contact with people who use food stamps. Many program deficiencies could go undetected if recipient contact were not a part of the review process.

The Homemaker/Chore Service Program has been growing at an accelerated rate since its inception in January, 1974. In 1975-76 it provided \$90.4 million for household and health care help for eligible adults. In 1977-78 it is estimated the cost will be \$126 million, an increase of 39% over a three-year period. The *DEPARTMENT OF HEALTH'S* existing staff of 12 in the In-Home Supportive Section will be increased by 28 for a total of 40 positions. The expanded unit will be responsible for increased monitoring, review, and control of Homemaker/Chore expenditures, with the goal of insuring that essential services are provided to people who need help maintaining their homes.

In addition to these shifts and additions of staff to improve efficiency and effectiveness, reorganizations involving the *DEPARTMENT OF HEALTH* are expected to improve the alignment of programmatic responsibilities. The State Office of Narcotics and Drug Abuse (SONDA) is to be merged with the Substance Abuse Branch (SAB). The hospital accounting and data reporting systems responsibilities of the California Health Facilities Commission will be moved into the Department of Health. Legislation or reorganization plans to implement these moves will be supported.

## **Implementing Legislation Affecting Delinquents and Criminals**

The passage of the Uniform Determinate Sentencing Act, Chapter 1139, Statutes of 1976 (SB 42), is a clear departure from the indeterminate correctional philosophy according to which the length of time served was to be related to "proof" of rehabilitation.

The Penal Code now contains the following statement of the purpose of incarceration:

"The Legislature finds and declares that the purpose of imprisonment for crime is punishment. This purpose is best served by making the length of sentence proportionate to the severity of the crime."

The statutes spell out in detail various procedural rights which are to be guaranteed to inmates who face the loss of time credits for misbehavior.

It is anticipated that changes in parole population will occur when SB 42 becomes effective. More intensive pre- and post-programming and supervision for felons will be provided. Funds are reserved to insure that adequate resources are available for intensive efforts with felons and to help restore parolees to a productive life. Plans for this program of work will be presented to the Legislature.

The budget reflects the abolishment of the Adult Authority and the Women's Parole Board, and the establishment of the more broadly constituted Community Release Board, as required under SB 42.

The Administration has formed a task force and is working with the major groups affected by

SB 42 to bring about a smooth transition, including support for prospective clean-up legislation.

The philosophy underlying processing of juveniles was clarified by legislation. Chapter 1071, Statutes of 1976 (AB 3121), requires that juveniles who are beyond parental control but who have not committed a crime, the "status offenders", must be treated separately from those who have committed offenses. On the other hand, AB 3121 requires that all 16 and 17 year olds charged with certain serious offenses must be the subject of hearings on their fitness to be tried as adults.

The primary impact of AB 3121 on juveniles will be felt first through the local juvenile courts and probation departments. Subsequent to the passage of AB 3121, analysis showed that there would be costs to local government in complying with the new law. \$1.3 million is requested in the current year and \$2.7 million in the budget year to reimburse local government for these mandated costs.

Various maximum sentence provisions of SB 42 will impact on some older Youth Authority wards by virtue of AB 3121 and the court case, *People vs. Olivas*. The control of a ward defined by law as an adult in the Youth Authority shall not be longer than maximum imprisonment for an adult not committed to the Youth Authority.

The impact of AB 3121, SB 42, and the *People vs. Olivas* decision are not fully evident and are not reflected in the Youth Authority population projections. The budget population projections remain level through the budget year.

# Education

All segments of education in California are experiencing steady-state enrollments except for the Community Colleges which are growing at a decreasing rate and are expected to approach a steady-state by 1980. The major efforts in this coming year are directed toward improving the quality of education and planning and implementing adjustments to current programs to reflect the change from prior periods of rapid growth.

The various segments of education are buffeted by the effects of continuing inflation. As a result of inflation, a constant program level of funding from year to year will not produce an identical level of operation for local programs or aid for students seeking an education beyond high school. Rather than reduce the scope of program services provided and to ameliorate the effects of inflation on all California students, the budget proposes a cost of living adjustment of approximately 6 percent in state funds for local assistance, categorical and student aid programs.

Changes to the existing system of financing our elementary and secondary public schools (K-12) will be necessary in 1977-78 in order to allocate public financing in a substantially equitable manner, provide a quality education within our means, and improve the competency of our students. Modification of the school financing statutes will be a major subject for consideration

by the 1977 Legislature. Since any action will require major changes in statutes, this budget does not reflect the possible effect of this decision.

## ELEMENTARY AND SECONDARY EDUCATION

California's children receive their educational foundation through our elementary and secondary public school system. The Governor's Budget proposes more than \$3 billion for K-12 in 1977-78. In light of the *Serrano v. Priest* decision by the California Supreme Court, this budget seeks to assure maintenance of a quality educational experience for 4.7 million students (ADA) without complicating implementation of a plan to allocate public financing in an equitable manner.

Table I displays the General Fund expenditures for elementary and secondary education proposed in the 1977-78 budget. The \$87.8 million funding increase for the Department of Education includes \$18 million for categorical program inflation, as well as funding for program expansion in the State Child Nutrition Program and Development Centers for the Handicapped, and for new programs in the State's special schools.

SCHOOL FINANCE

California's system of School Finance is based upon a sharing of expenses between the State and local school districts. The State's participation is governed by the Foundation Program, which determines the level of General Fund support of public schools. Apportionment of funds is based upon the Average Daily Attendance (ADA) of pupils.

On almost an annual basis, the Legislature has enacted cost-of-living adjustments to the Foundation Program to help local school districts cope with inflation. Chapter 208/73 provided automatic annual increases of \$63 per pupil for the 1975-76 fiscal year and \$66 for 1976-77 for both elementary and high schools. Another \$21 was added by Chapter 277/75 for 1975-76. In Chapter 323/76, an additional \$37 elementary and \$38 high school was added to the 1976-77 Foundation Programs. Figure I shows the increases in the Foundation Program since 1972-73. The existing school financing mechanism provides automatically for an annual inflation adjustment to the Foundation Program which is

included in proposed expenditures for 1977-78.

General Fund apportionments for our elementary and secondary schools are projected to be \$2,350.3 million in the 1977-78 fiscal year.

Considerable attention at the state level has been focused on the August 1974 *Serrano v. Priest* decision of the Los Angeles County Superior Court. This decision holds that the present K-12 state school financing system violates the equal protection clauses of the California Constitution. The judgment has been appealed to the State Supreme Court, and a final decision has been rendered.

Since the lower court's judgment has been upheld, major changes in California's system of school finance will be necessary. In considering additional funding for K-12 local assistance programs, the Legislature, the Superintendent of Public Instruction, and the Administration must weigh carefully the potential impact of the Court decision and avoid actions that would compound the difficulty in making the necessary changes in school financing.

Figure I

<sup>1</sup> Department of Finance estimates that the increase to the Government Purchases of Goods and Services Index, State and Local, to be 6.7 percent.

**SPECIAL EDUCATION**

*Master Plan for Special Education Pilot Program*

There are twenty-eight separate programs in California for children with exceptional needs. The growth of these programs has taken place in a largely unplanned, piecemeal fashion, which has resulted in a general lack of coordination among programs. Responding to this situation, the Legislature enacted Chapter 1532/74 (AB 4040), which established a single comprehensive program—the Master Plan for Special Education Pilot Program.

The flexible funding mechanism in the Master Plan allows schools to pool resources to meet the varied needs of exceptional children, either within a single district or by coordinating special education services as part of a regional program. The plan is also intended to integrate special education children into regular classrooms. Currently, many of these children are segregated into special classes where they have little opportunity to meet and interact with other pupils.

Fiscal year 1977–78 will be the third and final year for the Special Education Pilot Program. The 1977–78 budget proposes \$57.8 million to serve 50,000 exceptional students in this program. The ten responsible local agencies testing this concept of special education are: Contra Costa County (excluding Richmond and Mt. Diablo USD's), Humboldt/Del Norte Counties, Stanislaus County, Tulare County, Santa Barbara County, Los Angeles City Area D, Sacramento City, San Juan Unified, Santa Monica City, and the Whittier Area Cooperative School Districts.

Extensive evaluation of this pilot program is planned and results of the evaluation should provide the Administration and the Legislature with adequate data for making a decision about the possible statewide implementation of the Master Plan for Special Education during the 1977 legislative session. Legislation will be required to expand beyond the present pilot program.

*Development Centers for the Handicapped*

Development Centers for Handicapped Children provide training in functional self-help skills for pupils between the ages of 3 and 21 who are severely emotionally and physically handicapped. These pupils cannot attend other

school programs due to the severity of their handicaps. During the current year, 114 Development Centers will be operating in California. Chapter 407, Statutes of 1974 mandated that all eligible pupils be served by September 1, 1978. To meet the full-service mandate, the 1977–78 budget includes an increase of \$1,745,400 which will provide state support for 501 additional enrollments and \$723,000 for an inflation adjustment to the support and transportation rates.

**STATE SPECIAL SCHOOLS**

*Autistic Demonstration Program*

The 1977–78 Budget provides for the establishment of a new Autistic Demonstration Program at the three state-operated regional Diagnostic Schools for the Neurologically Handicapped. The program will provide residential instruction annually for a minimum of 12 autistic children who would not otherwise be served. Additionally, approximately 54 autistic children annually will receive comprehensive assessment which will identify their educational needs and enhance their development.

Accurate assessment of these students in order to understand their needs is vitally important. Many of these children have been inaccurately labeled as emotionally retarded because of their anti-social behavior. The Autistic Demonstration Program will employ standardized assessment instruments which have been developed through a successful three-year Federal project on autism at the Los Angeles Diagnostic School. These instruments can readily be employed at the Diagnostic Schools at a minimal cost. The Autistic Demonstration Program will provide a demonstration classroom to aid local educational agencies in the establishment and maintenance of their own effective programs for autistic children.

*Guidance Counselors*

Additional guidance counselors are being provided in the two State Schools for the Deaf. Since 1970–71, the high school population at these schools has increased by 61 percent. With this increase in high school population, it is becoming increasingly important to provide personal and vocational guidance for these students. Specially trained counselors will ensure that students are aided with adjustment

problems, personal/behavior problems, and career choices.

### **Construction**

An additional \$18,691,000 is provided to complete the development and construction of new facilities for the Special Schools for the Blind, Deaf and Multihandicapped in Fremont scheduled for occupancy in June 1979.

### **STATE CHILD NUTRITION PROGRAM**

The Legislature recognized, with the enactment of Chapter 1277/75 (SB 120), that there is a demonstrated relationship between child nutrition and the capacity of children to develop and learn. Hunger and malnutrition are restraints to effective education.

The State Child Nutrition Program is entering its third year of operation. The state program is operated in addition to a similar Federal program which supports child nutrition. The state program provides a basic reimbursement to school districts for each meal served to students. An additional state reimbursement is provided for meals served to needy students in low-wealth school districts.

Commencing in fiscal year 1977-78, public schools are required to provide at least one nutritionally adequate free or reduced price meal during each school day to *each* needy pupil. Compliance with this legislative mandate, which was embodied in Chapter 1277/75 (SB 120), means further expansion of the Child Nutrition Program in 1977-78. Proposed state funding for the Child Nutrition Program in 1977-78 is \$39 million. Total funding available to the schools for this program in 1977-78, including both State and Federal, is \$266 million.

### **CHILD DEVELOPMENT SERVICES**

Child Care Programs currently serve approximately 70,000 children. In addition, more than 19,000 children are served by the State Preschool Program. In 1976-77, additional Federal funds for child care enabled the state to offset \$3 million of General Fund expense. This \$3 million in state funds will be used to provide ongoing support for children added to child care agencies in midyear 1974-75, for whom local funds are no longer available. One million dollars of these funds will be used for this purpose in 1976-77 and \$2 million in 1977-78.

In 1976-77, Chapter 344/76 appropriated \$10 million to initiate the administration-sponsored

Alternative Child Care Program. The purpose of this program is to explore methods of reducing costs and developing new delivery systems while maintaining programs of high quality, so that more children may be served by available resources. An additional \$3 million is provided for this program in 1977-78 in order to annualize the level of service initiated in 1976-77.

A significant inflation adjustment has been included for child care preschool programs. The 1977-78 budget provides a general cost of living increase for State funded programs as well as a cost of living adjustment for the Federally funded child care programs. The available Federal funds have reached the federally established ceiling. A reduction in program level would result without this supplemental provision of State funds.

Total funding available for child care and preschool programs in 1977-78 is \$126 million, of which \$93 million is provided by State funds.

### **REGIONAL ADULT AND VOCATIONAL EDUCATION COUNCILS**

In an age when the number of educational programs has been growing, the Regional Adult and Vocational Education Councils (RA-VEC's) represent a move toward better planning and coordination. These councils were established by Chapter 1269/75 (AB 1821) as a replacement for Area Adult Coordinating Councils and Vocational Education Committees.

In addition to merging two previously independent entities, the new combined councils have a broader scope of responsibility over adult and vocational education.

Seventy-one RAVEC's have been established in 1976-77. Their objective is to eliminate overlap and duplication in vocational and adult education at the local level. Council review and approval is now required of all adult education courses, Regional Occupational Programs and Centers (ROP/C) courses, and other related courses offered within the regional council's jurisdiction.

Under the guidance and coordination of the councils, local educational institutions will adopt delineation and articulation agreements. These agreements are intended to eliminate duplication of course offerings, while guaranteeing the transferability of courses among institutions within a region.

To enable Regional Adult and Vocation Education Councils to carry out these important functions, \$1,325,000 is being provided in 1977-78. As the councils reach optimum effectiveness in 1977-78, each region will be able to reap substantial benefits through improved adult and vocation education and with a better use of public resources.

## POSTSECONDARY EDUCATION

The challenge to higher education in California is to continue to improve upon the quality of education in a period when large increases in funds will no longer be available as they were in the past decade when enrollments were spiralling. The most important activity will be the development of educational plans by the various segments. The Postsecondary Education Commission will develop a five-year plan for higher education that will integrate the planning efforts of the segments to meet this challenge.

The segments will be called upon to adjust their curriculums to meet changing student demands and continue their efforts to bring the disadvantaged student into the postsecondary education mainstream.

<sup>b</sup> Includes \$25 million one-time appropriation for the teaching hospital working capital advance.

## CALIFORNIA POSTSECONDARY EDUCATION COMMISSION

The 1977-78 budget proposes \$1,441,890 for the Postsecondary Education Commission, a 6.7 percent increase over 1976-77.

The Commission is charged with the responsibility of recommending statewide education policy for all segments of postsecondary education. An electronic data processing system is being developed by the Commission to provide a comprehensive data base of postsecondary education information. The system will quantitatively document the condition of postsecondary education in California, and provide data for analysis and development of future policy.

During 1976, the Commission completed a High School Eligibility Study. The study was conducted to determine if the percentage of California high school graduates eligible for admission to the University of California and California State University and Colleges is consistent with the percentages established by the 1960 Master Plan for Higher Education. This Plan specifies that the University is to select its students from the top 12.5 percent and the State University and Colleges from the top 33.3 percent of California public high school graduates.

The study reported that the University is drawing its entering freshman class from the top 14.8 percent of California public high school graduates and the State University and Colleges from the top 35 percent. These percentages are slightly higher than those established in the 1960 Master Plan. The Commission staff has recommended that UC and CSUC make appropriate adjustments in their respective freshman admission requirements to bring them within the guidelines of the Master Plan.

The Commission also completed a Health Manpower Study of Selected Health Professions in California in 1976. Its purpose was to determine California's health manpower needs from now until 1990 and whether our educational institutions can train the numbers and kinds of personnel required to meet those needs. The Commission concluded that increased statewide planning and coordination will be necessary to insure the development of an effective health manpower system for California.

## UNIVERSITY OF CALIFORNIA

The 1977-78 fiscal year budget provides a total of \$700.2 million from the General Fund for

the University of California. Excluding the \$25 million one-time General Fund appropriation for teaching hospital working capital in 1976-77, this budget proposes a \$44 million (6.7 percent) increase above the amount appropriated in 1976-77. This does not include any funds for employee compensation including salary increases which are included in a separate budget item and will be allocated to the University after enactment.

The budget provides a \$4.1 million General Fund enrollment generated increase to accommodate an increase of 373 FTE students on the general campuses and 512 FTE students on the health sciences campuses over the budgeted 1976-77 enrollment levels.

A \$2.8 million General Fund enrichment is proposed in the on-going level of instructional support in addition to a \$2.5 million one-time appropriation from the COFPHE fund for the purposes of funding the costs of instructional equipment replacement (\$2 million) and deferred maintenance (\$500,000). The deferred maintenance augmentation requires that the University provide matching funds from their own resources.

A \$3.3 million General Fund augmentation is proposed to fund the instructional laboratory costs heretofore funded from the student education fee. This funding shift will result in State financing of costs that are instructionally related as is now done for the California State University and Colleges. Additional study will be necessary to determine if there are other costs that properly should be borne by the State rather than student fees.

The 1977-78 budget proposes to continue student affirmative action efforts mounted with state and university funds in the 1976-77 fiscal year. The 1977-78 Governor's Budget proposes \$1,789,700 General Fund for student affirmative action and requires the University to continue to match these funds with \$1,464,300 in non-state funds. This will provide a total \$3,254,000 program for 1977-78.

Increased funds in the amount of \$33.8 million are proposed for fixed cost increases which include general price increase, library book price increases, utility price increases, merit salary adjustments and promotions, malpractice insurance premium increases, worker's compensation

and unemployment insurance. A total of \$807,000 is proposed to fund the workload associated with new space coming on line during the budget year. In addition, \$350,000 is proposed to fund the State's share of a \$700,000 increase in federal contract and grant administration, and \$800,000 is provided to fund the costs of social security coordination for new employees added during 1977-78.

A \$5 million General Fund loan to finance possible medicare/medical reimbursement shortfalls is being proposed for 1977-78. A similar loan was provided in 1976-77 to assist the University until such time as proceeds from claimed reimbursements are available.

#### **HASTINGS COLLEGE OF LAW**

The 1977-78 fiscal year budget proposes \$3.8 million from the General Fund for support of Hastings College of Law. Increases proposed for 1977-78 include the addition of a criminal advocacy program element to the existing civil advocacy programs of the Center for Trial and Appellate Advocacy. This new program will add an important dimension to the College's offerings and will be fully reimbursed from enrollment fee income. The budget proposes, on a pilot basis, the addition of two new scholarly publications to join the existing Hastings Law Journal and Constitutional Law Quarterly. The two new publications will be in the areas of Communications and Entertainment Law, and International Law. Continuation of these publications in the future will be a function of both academic acceptance and excellence and the ability of the publications to be self-supporting. The budget also includes the addition of funds for the purpose of securing a new computer-assisted legal research software package known as LEXIS. This will enhance both the instructional and research capabilities of the College.

#### **CALIFORNIA STATE UNIVERSITY AND COLLEGES**

The California State University and Colleges budget for 1977-78 provides a total of \$638.4 million in General Fund support. This is an increase of \$25.3 million (4.1 percent) above the amount appropriated for the 1976-77 fiscal year. This does not include any funds for employee compensation including proposed salary increases which are included in a separate budget item and will be allocated to CSUC after enactment.

The full-time equivalent (FTE) student enrollment for 1976-77 is now expected to total 233,786, down 5,624 (2.3 percent) from the originally budget level of 239,410. Pursuant to Section 28.9 of the 1976 Budget Act which requires an adjustment in the budget when enrollments vary more than 2 percent from budgeted FTE, an amount of \$1,016,576 has been unallocated in the current year by the Director of Finance.

This budget anticipates a 1977-78 enrollment level of 236,370 FTE students, up 2,584 (1.1 percent) from the revised 1976-77 level of 233,786. The State University and Colleges continue to project a "steady-state" enrollment condition in the future.

An additional \$2,790,314 is proposed in 1977-78 as a special adjustment to reflect a shift in student demand for courses in disciplines which are relatively inexpensive (e.g. social sciences) to those which are more expensive (e.g. engineering and health science). This amount will provide for an additional 142.9 faculty and 40 support positions.

In 1976-77, the Educational Opportunity Program in CSUC was increased \$3,039,043. This increase reflected the Governor's concern for increasing services to disadvantaged students. In addition to the \$275,676 which has been added to the program for normal price increases, a special augmentation of \$970,128 is being proposed in 1977-78. This amount will maintain the current level of first-year students and provide a 6 percent inflation adjustment to all student grants. The total number of students to be served in 1977-78 is estimated to be 21,187.

Increased funds in the amount of \$21.6 million are proposed for fixed cost increases which include price adjustments, merit salary and promotions, and to adjust operating expense categories affected by cost adjustments. An additional \$1,127,875 is included in this budget to support the CSUC Library Development Program. This amount will support the continued conversion of the library system which will lead to improve library usage and efficiency through interlibrary cooperation and automation.

#### **CALIFORNIA MARITIME ACADEMY**

The California Maritime Academy, located at Vallejo, was established in 1929 and became an independent public institution in 1972. In the

1974-75 fiscal year, the Academy was upgraded from a three-year to a four-year institution with the goal of being accredited by the Western Association of Schools and Colleges (WASC). The Academy has been granted candidate status by WASC and is expecting to be accredited in 1977.

The General Fund budget for 1977-78 is projected to be \$2,113,035. Projected enrollment for 1977-78 is 468 students, which represents a fifty percent increase over the 312 enrolled in 1974-75. The estimated enrollment for 1977-78 marks the completion of the transition to a four-year program at the Academy. The proposed budget reflects an increased level of support which is necessary for maintenance of the Academy as a four-year institution.

#### **CALIFORNIA COMMUNITY COLLEGES**

The California Community College System consists of 104 colleges in 70 districts and serves more than one million individual students. The doors of community colleges are open to high school graduates and persons over 18 years of age. The colleges offer a varied curriculum which permits individuals to choose the program best suited to them.

The system of California Community College financing is based upon a sharing of expense for average daily attendance (ADA) between the State and the local community college districts. The current financing system was enacted in 1976 by Chapter 323 (SB 1641) which removed the 1976-77 Budget Act's "cap" on State supported ADA. The effect of the "cap" and SB 1641 has been to moderate the rapid growth in Community College ADA. (Figure II)

The State's participation is determined by the State support for ADA in the prior year. This support amount is then increased for inflation. The adjustment for inflation is equalized based upon the wealth of the community college district in order to provide low-wealth districts proportionately greater amounts of State aid. Growth in ADA is supported by the State at a unit rate which is also equalized. The average State support to community colleges is depicted in Figure III.

Supplementing the regular State aid, is special aid for small community college districts (less than 3,001 ADA) and aid to districts with a relatively high adult population compared to the number of community college students.

Extended Opportunity Programs and Services received significant funding increases in 1976-77. In order to serve the same number of entering students in 1977-78 and recognize inflation, this budget proposes \$2,499,130 in additional funding. In recognition of inflation, the funds which go directly to students are included in this increase so that the average grant can be raised from \$228 to \$242. A total of 48,679 students will be served in 1977-78.

**Figure II**  
**COMMUNITY COLLEGE ADA**  
**(Annual)**

	1974-75 (Actual)	1975-76 (Actual)	1976-77 (Estimate)	1977-78 (Estimate)

<sup>1</sup> Foundation Program Average State Support for 1974-75 and 1975-76. SB 1641 Average State Support for 1976-77 and 1977-78.  
<sup>2</sup> State Support for only the ADA within the 1975 Budget Act cap.

**STUDENT FINANCIAL ASSISTANCE**

In 1977-78, state student financial assistance will total approximately \$106.8 million. The bulk of this aid (approximately \$77.9 million) is provided through grant programs administered by the Student Aid Commission. The remaining \$28.9 million is provided for educational opportunity programs and services in public higher education. In 1976-77, the number of new awards provided through the College Opportunity Grant program and EOPS were increased by 50 percent. These increases were the largest single-year increases in aid for disadvantaged students since the beginning of these programs. These changes reflect the Governor's priority of increasing opportunities for disadvantaged students. Table III shows the ripple effect of the increases authorized in 1976-77 and anticipates normal program growth over the next four years including the effect of legislation previously enacted and an inflation adjustment of 6 percent in selected student aid programs for 1977-78.

TABLE III

## SUMMARY OF STUDENT AID GRANTS AND SERVICES FOR HIGHER EDUCATION

SCHOLARSHIPS	1976-77	1977-78	1978-79	1979-80	1980-81
Number of Grants .....	39,111	43,022	46,208	48,282	49,024
Average Amount/Grant .....	\$1,208	\$1,233	\$1,245	\$1,257	\$1,257
Total Costs .....	\$47,228,304	\$53,046,126	\$57,528,960	\$60,690,474	\$61,623,168

## CAPITAL OUTLAY

Deciding upon the proper amount and timing of capital expenditures for education is a complex and difficult task. Problems relating to construction technology and design are different for each project, and in addition, there are the questions of the number and mix of students to be served and the most equitable method of financing the facilities ultimately approved.

Resources of two funds are proposed to fund the most critical state-supported capital outlay programs for education in the budget for the 1977-78 fiscal year. They are: (1) the Capital Outlay Fund for Public Higher Education, and (2) the Health Science Facilities Construction Program Bond Fund.

Income for the Capital Outlay Fund for Public Higher Education comes from tideland oil revenues. These revenues are not entirely restricted to use for educational capital outlay.

Revenues in the fund for 1977-78 are proposed to be expended for capital outlay facilities for the Department of Education, special schools of the Department of Education, the California Maritime Academy, the California State University and Colleges, the general campuses of the University of California, Hastings College of Law, and Community Colleges.

The Health Sciences Facilities Construction Program Bond Fund receives its income from the sale of general obligation bonds and is used exclusively to finance health science capital outlay projects for the University of California. The expenditures proposed in this budget will substantially exhaust the bonds authorized for this purpose by the electorate in 1972. There are no current plans to seek legislation to authorize additional health sciences bonds.

Table IV illustrates the relationship between fund sources and the use of those funds by the education segments.

TABLE IV  
TOTAL EXPENDITURES FOR MAJOR AND MINOR CAPITAL OUTLAY IMPROVEMENTS  
FOR THE SEGMENTS OF EDUCATION  
1977-78

	Department of Education	University of California General Campuses	University of California Health Sciences	Hastings College of Law	California State University and Colleges	California Maritime Academy	California Community Colleges	Total Capital Outlay Expendi- tures by Fund
Expenditure from:								
Capital Outlay Fund for Public Higher Education .....	\$24,786,750 *	\$17,334,000	—	\$2,346,300	\$17,877,000	\$840,550	\$27,028,600	\$90,213,200 *

Subtotal, Nonstate Support .....	—	\$21,290,000	\$7,791,000	\$22,330,000	\$8,284,000	—	\$24,888,988	\$84,583,988
TOTAL CAPITAL OUTLAY PRO- GRAM EXPENDITURE BY SEGMENT .....	\$24,786,750 *	\$38,624,000	\$32,472,000	\$24,676,300	\$26,161,000	\$840,550	\$51,917,588	\$199,478,188 *

\* Includes \$6,095,750 available from Item 389(a), Budget Act of 1974, as reappropriated by Section 10.50 of the 1977-78 Budget Bill.

The **DEPARTMENT OF EDUCATION** administers special schools for the handicapped children: one for education of the blind, two for the education of the deaf, and three for diagnosis and education of neurologically handicapped children. The 1977-78 fiscal year budget recommends \$108,000 with funding proposed from the Capital Outlay Fund for Public Higher Education. Projects proposed include: one minor project for the Diagnostic School for the Neurologically Handicapped Children, Southern California, totaling \$8,000 for planning a new playground area; and eight minor projects for the

Department of Education Building, Sacramento totaling \$100,000 as the final phase of the Department's remodeling master plan.

**SPECIAL SCHOOLS** for the blind/deaf and multihandicapped children, now located in Berkeley, have been deemed unsafe because of earthquake hazard, and a new site of approximately 91 acres has been purchased in Fremont. The 1974-75 Budget Act appropriated \$19,942,000 for planning, working drawings, and construction for the new facilities. The master plan, programs and schematic drawings are now complete and working drawings for both schools are

well underway, thereby permitting construction of a portion of the projects during the 1976-77 fiscal year. The Budget for 1977-78 fiscal year proposes an additional \$18,691,000 funded from the Capital Outlay Fund for Public Higher Education, bringing the total cost of the new facilities to \$38,933,000 excluding group II moveable equipment. The anticipated occupancy date is June 15, 1979.

The *UNIVERSITY OF CALIFORNIA* has two major capital outlay budgets: one pertains to the eight general campuses and the other to campuses which have health sciences programs.

*General Campuses*—The 1977-78 fiscal year budget recommends total state support of \$17,344,000 from the Capital Outlay Fund for Public Higher Education to be allocated as follows: \$4.4 million for minor construction projects, \$361,000 for Universitywide planning, \$2,981,000 for code and life safety projects, \$7,033,000 for energy conservation projects, and \$2,559,000 for alterations and utility related projects.

*Health Sciences*—For 1977-78 fiscal year, \$24,681,000 is proposed for funding from the Health Sciences Bond Fund. Combined with the prior funds already appropriated from the \$155.9 million bond issue, the 1977-78 program will substantially exhaust the bonds authorized for this purpose. The proposed capital outlay includes: \$100,000 for programming planning and general studies; \$493,000 for Dentistry; \$18,667,000 for Medicine; \$978,000 for Optometry; \$1,011,000 for life-safety, Public Health, and \$3,432,000 for Veterinary Medicine.

*HASTINGS COLLEGE OF LAW*—The 1977-78 fiscal year budget recommends state support of \$2,346,300 funded from the Capital Outlay Fund for Public Higher Education to be allocated for the following projects: \$1,639,000 for land acquisition; \$655,000 for preliminary planning and working drawings for a new academic facility; and \$52,300 for three minor projects related to correcting existing deficiencies.

*CALIFORNIA STATE UNIVERSITY AND COLLEGES*. State expenditures proposed for 1977-78 fiscal year total \$17,877,000. Included are \$4.4 million for minor projects and special repairs, to be allocated by the system; \$500,000 to continue the system's program to remove architectural barriers to the hand-

icapped; \$716,000 to continue orderly planning; \$4,406,000 to make existing and funded buildings operable (primarily equipment and utilities); \$3,404,000 for projects directly related to educational program needs; and, \$4,451,000 to alleviate support and code safety deficiencies including roads, campus utility systems and corporation yards. Funding is proposed from the Capital Outlay Fund for Public Higher Education of which \$570,000 of the total amount is proposed for repayment from proceeds to be derived from the sale of property in San Jose as provided by Chapter 1391, Statutes of 1976 and \$3,017,000 which will be repaid from moneys received from the sale of property in Ventura authorized by Chapter 23 and 1256, Statutes of 1976.

*MARITIME ACADEMY*. The 1975-76 Budget Act appropriated \$5.7 million for the expansion and improvements of the existing facilities to meet an anticipated growth in students and the new facilities will be available for occupancy during the 1976-77 fiscal year. For the 1977-78 fiscal year a total of \$840,550 is proposed, primarily for the next phase of needed facilities, funded from the Capital Outlay Fund for Public Higher Education.

*CALIFORNIA COMMUNITY COLLEGES*. In June 1976, the people did not approve a bond issue that would have provided funding for the California Community Colleges Capital Outlay Program. Failure of the bond issue results in the State Construction Program Fund being insufficient to finance the 1977-78 program. As in 1975-76 and 1976-77, the 1977-78 California Community Colleges Capital Outlay Program appropriations will be provided from the Capital Outlay Fund for Public Higher Education. Capital Outlay recommended for the 1977-78 fiscal year for Community Colleges totals \$51,917,588 with the State providing \$27,028,600 and the various districts contributing \$24,888,988. The State is supporting the following categories of capital outlay expenditures: (1) to protect life and general safety, including code deficiencies, \$376,400; (2) to make existing facilities operable, including equipment and necessary site development, \$3,590,800; (3) to meet the most critical needs for instructional capacity space at existing campuses for general academic, science, vocational technology and library-resource center programs, \$23,061,400.

# General Government

## Tax Relief

Tax relief is a major expenditure item, totaling almost \$1.5 billion in 1977-78. The first steps in establishing a program began in 1967 with the senior citizens' property tax assistance program. Homeowners' property tax relief and personal property tax relief were added in 1968. In 1971, state financing was begun to reimburse local government for losses incurred under the open-space program (Williamson Land Conservation Act). In 1972, tax relief for renters was added along with a program to reimburse local government for tax loss as a result of legislative changes in property or sales tax classifications or tax exemptions.

The following is a short discussion of each of the tax relief programs:

*Senior Citizens' Property Tax Assistance .....* **\$78,000,000**

This program provides financial assistance for local property taxes paid by low-income homeowners who are 62 years of age or older. Assistance levels were expanded to a maximum income level of \$12,000 and the maximum assessed value limit was increased by Chapter 1060, Statutes of 1976 effective in 1977-78.

*Senior Citizen Renters' Tax Assistance .....* **\$20,000,000**

This program will provide assistance to low-income renters, 62 years of age or older, to offset

a portion of local property taxes included in their rent. Assistance ranges from \$211 to \$9 depending on the claimant's income, with no benefits to individuals with incomes above \$5,000. The program, which was established in Chapter 1060, Statutes of 1976, will be effective in 1977-78.

*Homeowners' Property Tax Relief..* **\$818,000,000**

The Homeowners' Property Tax Relief Program reimburses local jurisdictions for revenue losses due to the \$7,000 market value homeowners' property tax exemption established in the State Constitution.

Chapter 1060, Statutes of 1976 significantly expanded the program by removing the prohibition against public assistance recipients receiving the exemption.

*Personal Property Tax Relief.....* **\$430,000,000**

This program provides reimbursements to local jurisdictions for property tax revenue losses due to the 50 percent exemption for inventory and livestock, as well as preferential treatment for motion picture films and wine and brandy.

In 1976, a United States Supreme Court ruling (*Michelin v. Wages*) had the effect of significantly expanding the reimbursable tax exempt base by imposing property taxes on imported goods no longer in transit.

*Subventions for Open Space* ..... \$21,000,000

The state's Open-Space Program was enacted to give local governments the means to adopt land use policies to preserve prime agricultural land and to provide adequate open space. State reimbursements are provided local governments and school districts to assist them in financing the revenues lost because of the placement of land under open space contracts (Williamson Land Conservation Act).

*Payments to Local Government for Sales and Property Tax Revenue Loss* ..... \$5,686,500

Chapter 1406, Statutes of 1972, provided that the loss of revenue to local government caused by a legislative change in classification of property or change in sales tax exemption shall be reimbursed by the state.

There are currently six property tax classifications and one sales tax exemption for which reimbursement is provided.

*Renters' Tax Relief* ..... \$125,000,000

This program was enacted in 1972 to provide tax relief to the renter. Chapter 99, Statutes of 1976 replaced the credit schedule, which ranged from \$25 to \$45 depending on adjusted gross income, with a flat \$37 per claimant.

The *FAIR POLITICAL PRACTICES COMMISSION* has primary responsibility for administration of the Political Reform Act of 1974. Proposition 9 of the June, 1974 election, which is the authority for the Commission, also provided for an annual one million dollar appropriation for their support to be augmented yearly based upon increases in the consumer price index. For 1977-78 the Commission is proposing an augmentation of \$10,000 for workload to its statutory budget allocation for a total of \$1,316,603 for its operations.

As required by Chapter 1075, Statutes of 1976 the *POLITICAL REFORM ACT* of 1974 is a new budget with \$3,117,917 which includes the additional amounts to be appropriated to other agencies to carry out their duties under the act and the additional amounts appropriated by the Legislature to the Fair Political Practices Commission.

Analysis of the time required to hold hearings has shown that funds provided to the *AGRICULTURAL LABOR RELATIONS BOARD* for the purpose of holding unfair labor practice hearings must be increased to alleviate the current backlog and also to meet the projected annual demand. The 1977-78 budget has been increased by \$1,307,000 to provide an added hearing capability. Of this amount, \$268,000 will be a one-time increase to handle the backlog projected from the late start in 1976-77.

In addition to holding elections and hearing complaints of unfair labor practice charges, the Board must investigate charges of "failure to bargain in good faith" where bargaining units have been certified. Funding for this responsibility has not been previously provided. In 1977-78, \$175,000 has been added to provide this capability.

The *EDUCATIONAL EMPLOYMENT RELATIONS BOARD* was established by Chapter 961/75. The Board governs collective bargaining between public school employers (including community college districts) and public school employees, with the exception of elected officials, management and confidential employees. The governance of the Board includes the conduct of representation elections, impasse proceedings, and hearings associated with unit determination and unfair labor practices.

The Board is currently projecting that the number of elections and unit determination hearings will continue at a constant level through 1977-78 while the number of unfair practice hearings will increase. In subsequent years activity in elections and unit determination hearings is expected to decrease while unfair practice hearings will continue to increase.

The *CALIFORNIA ARTS COUNCIL*, established by Chapter 1192, Statutes of 1975, is responsible for encouraging artistic awareness, promoting the employment of artists and developing art programs statewide. To accomplish this the council's 1977-78 budget contains a General Fund appropriation of \$3,981,956, primarily, for the support of their grants program.

In addition the *Arts Council* will be providing program assistance to the Office of the State Architect which will be responsible for purchasing and leasing works of art for state buildings

pursuant to Chapter 513, Statutes of 1976. \$700,000 is budgeted in the Department of General Services to carry out this program.

The Office of the *STATE PUBLIC DEFENDER*'s primary objective is to provide legal representation for indigents in the Supreme and appellate courts. Legislation passed during the 1976 Legislative Session (Chapter 1269, Statutes of 1976) requires the OSPD to represent prison inmates charged with crimes where a county public defender has refused representation due to a conflict of interest or other legal reasons. The budget year includes \$625,776 for support of 21.5 personnel which will be required to handle the additional workload created in this legislation. In addition, OSPD will be contracting with the Community Release Board for representation of prison inmates pursuant to Chapter 1139, Statutes of 1976, the uniform determinate sentencing program.

*EMPLOYEE COMPENSATION.* The 1977-78 Budget provides a total of \$235,800,000 for state employee's compensation. This amount includes sufficient funds to provide an increase of approximately 7.5 percent.

A total of \$162.7 million, which represents a 5 percent increase, is included for improvement in total equivalent compensation; except, the California State University and Colleges academic staff which warrants a 2.2 percent compensation increase according to the California Postsecondary Education Commission's study.

Other compensation improvements include \$8.4 million for anticipated increases in employee health benefit insurance premiums; \$22.2 million to provide an increase in the State's contribution to the Public Employee's Retirement System (PERS); and \$42.5 million for approximately 40 percent of state employees who are eligible to receive merit salary adjustments.

# *State Construction Programs*

Capital outlay construction is divided into several programs of which the most encompassing is the State Building Program. This program includes proposed capital outlay requirements for publicly supported education, higher education, health, corrections, and general office space. It also provides for meeting the requirements of several agencies, including the Department of Conservation, Department of Motor Vehicles, Department of the California Highway Patrol, State Highway Program, and the Department of General Services.

The District Fair Construction Program provides the necessary funding for the construction of facilities for district agricultural associations.

The Wildlife Conservation Program, as administered by the Department of Fish and Game and the Wildlife Conservation Board, provides for the protection, propagation, and management of the State's fish and wildlife resources. The State, Urban, and Coastal Park Bond Act, as approved by the voters in November, 1976, makes \$15,000,000 available to the Wildlife Conservation Board for acquisition and general development. In 1977-78 funds are proposed to be allocated for the necessary project planning for this expanded program with specific project funds to be requested in subsequent fiscal years.

The Parks and Recreation Acquisition and Development Program consists of the continuing development of facilities to meet California's recreational needs. The 1977-78 budget of this program includes \$57,243,739 for new capital outlay projects from the State Beach, Park, Recreational and Historical Facilities Bond Acts of 1964 and 1974, the Recreation and Fish and Wildlife Enhancement Bond Act, the Bagley Conservation Fund, the Park and Recreation Revolving Account in the General Fund, the Collier Park Preservation Fund and the State Urban and Coastal Park Fund.

The California Water Facilities Program reflects the funding of the State Water Project as it enters its 16th year. Construction work for those facilities necessary for the initial deliveries of water in Northern California, the San Francisco Bay area, the San Joaquin Valley and Southern California are operationally complete.

However, there is still considerable on-going design and construction activities for correcting deficiencies uncovered during operational testing and facilities phasing.

The Department of the Youth Authority's Capital Outlay Program of \$3,982,900 for the 1977-78 fiscal year covers a number of priority projects, including the replacement of security sound systems at the various schools and clinics, and working drawings for two gymnasiums at the Northern and Southern California Reception clinics.

The Department of Corrections Capital Outlay Program of \$2,741,088 for the 1977-78 fiscal year encompasses a number of projects, including the remodeling and upgrading of sewage plants at various correctional facilities to meet environmental quality standards.

The Department of Motor Vehicles Capital Outlay Program of \$1,944,980 for the 1977-78 fiscal year, proposes construction funds for two office buildings: Simi Valley/Thousand Oaks, and Oceanside.

The Department of the California Highway Patrol Capital Outlay Budget for 1977-78 includes funds in the amount of \$326,830 to purchase facilities currently leased at Lancaster. In addition, the department will continue to upgrade the statewide communication system by a proposed expenditure of \$675,000.

The Department of General Services Capital Outlay Program of \$91,706,700 for the 1977-78 fiscal year, covers a number of projects, including the continued revitalization of the State Office Building Program. In addition to the increased emphasis in Sacramento, this budget proposes significant projects in Los Angeles, Long Beach, San Francisco, and San Diego. The intent is to reverse the present use of existing high-cost, privately owned, state leased office space. The plan calls for new state office buildings to be more responsive to human, environmental, cost, social, and community concerns.

The Employment Development Department Capital Outlay Program for 1977-78 represents a continuation of construction of field offices for departmental activities, and includes eleven projects consisting of building additions, new

construction, site acquisition, general improvements, and planning funds. The total cost of \$3,257,680 for these projects will be recovered by the fund from which they are financed by monthly payments from federal sources.

The Department of Health's Capital Outlay Program of \$23,149,421 for 1977-78 includes \$21,290,880 for implementation of the fire and life safety program. In addition, funds are proposed for conversion of office space to laboratory space at the public health building in Berkeley and alterations to Office Buildings 8 and 9 in Sacramento. Planning funds are also proposed for the replacement of boilers and the construction of new boiler plants at several state hospitals.

The sources from which the capital outlay program is funded are described below.

1. Current revenues and any accumulated balances in governmental cost funds including moneys collected in the form of taxes, license and permit fees, interest on investments, and similar items of income.
2. Proceeds from the sale of general obligation bonds secured by the "full faith and credit" of the state. Outstanding bonds of this kind include (a) State Construction Program bonds and (b) State Beach, Park, Recreational, and Historical Facilities bonds. The repayment of principal and interest on such indebtedness constitutes a preferred claim on the financial resources of the state. Within this classification falls a special category referred to as "self-liquidating" bonds. Bonds in this category are the California Water Resources Development bonds. In the case of this special grouping, such bonds although legally possessed by the characteristics of general obligation bonds are serviced from the revenues produced by the ventures or projects financed in this manner.
3. Revenue bonds that are secured solely by the income derived from the use or operation of the facilities thus funded.
4. Trust certificates representing a form of capital financing which makes use of the large balances accumulated in trust ac-

counts or funds of the state. Because such funds are dedicated to meet future obligations, sound fiscal management dictates the investment of the currently unneeded cash in these accounts and funds. One way of investing these moneys is to purchase trust certificates issued by the state for the construction of general purpose office buildings.

5. Funding for all education capital outlay is from two sources: (1) the Capital Outlay Fund for Public Higher Education and (2) proceeds from sale of Health Sciences Construction Program Bonds. Capital outlay projects for the Department of Education, the Special Schools of the Department of Education, the University of California general campuses, Hastings College of Law, the California State University and Colleges, the California Maritime Academy and the Community Colleges are to be funded from the Capital Outlay Fund for Public Higher Education. Health Sciences facilities for the University of California are to be funded from the Health Sciences Facilities Construction Program Bond Fund.
6. The Local Public Works Employment Act of 1976 (Title I) provided a one-time federal grant in the amount of \$1.4 million to the State for construction, renovation, repair, or other improvements of local public works projects. This grant will provide 100 percent federal funding to be used to initiate the new projects and on-site activity must begin within 90 days of project approval.

To provide a complete and comprehensive picture of the state's capital outlay program all proposed projects are included in the capital outlay budget regardless of the source of financing.

Following the generally accepted principles of governmental accounting however, only expenditures from governmental cost funds are included in the budget totals. Expenditures from bond proceeds and other forms of borrowing are excluded—such expenditures are reported as expenditures of the fiscal years in which the payments on principal and interest are made.

# *Tax Expenditures*

## **Tax Expenditure Concept**

Traditionally, the Governor's Budget has reflected only those expenditures which are appropriated. A tax expenditure, on the other hand, is a revenue reduction that occurs as a result of an exemption, exclusion, deduction, tax deferral, credit, or preferential rate introduced into the tax structure. As the exempted item would ordinarily be subject to the tax, the beneficiaries are, in effect, being subsidized by government. However, because they are reductions in revenue, these special provisions are less visible than direct appropriations. Furthermore, they have not been subject to the same scrutiny given budgeted items. Consequently, these expenditures which are written into the tax laws have the effect of constricting the tax base and, theoretically, of keeping tax rates high.

Most special provisions are added to the tax codes for an indefinite duration. Once enacted they have tended to be permanent, though frequently it would be difficult to justify them as direct government subsidies. California's tax codes have many of these special provisions, some of which no longer serve any useful purpose, are incongruous with state objectives, or are unreasonably costly in terms of foregone revenue in relation to the benefits received.

Special provisions have been enacted to encourage certain activities or to support particular industries or organizational structures by offering reductions in tax liabilities at the expense of the policy of maintaining a broad and stable tax base. Substantiation that a subsidy was in the public interest has at times been held to a minimum. While many tax expenditures are both socially and economically desirable, others serve no purpose except to relieve certain taxpayers of tax liability; the latter can, therefore, be termed "tax loopholes."

Direct expenditures may operate more efficiently, economically and equitably than indirect tax subsidies. In fact, tax expenditures often provide tax relief for activities which

would occur in any event. A subsidy, on the other hand, could be more efficient in that it may be scaled and directed at a narrowly defined group for a needed purpose. Exemptions, exclusions and deductions enacted under the progressive rates of the personal income tax result in upside-down subsidies—the dollar savings increasing with the taxpayers' marginal tax rate. For instance, the exclusion of unemployment insurance benefits from the personal income tax is of little value for recipients whose sole source of income is from such payments; in these cases total income is generally less than the taxable income level. However, for taxpayers with additional sources of income, this exclusion could represent an annual subsidy of several hundred dollars. A direct appropriation for the unemployed could undoubtedly be structured in a more equitable fashion.

Tax expenditures were not identified in the Governor's Budget until 1975–76. It is now recognized that tax expenditures are equivalent to direct expenditures and should be subject to the same evaluation given budget items. Only those provisions that still serve a valid purpose and are the best possible alternative for achieving the desired goal should be retained as part of California's tax system.

Last year, the Legislature enacted one loophole closing measure which was recommended in the 1976–77 Governor's Budget. Chapter 128 eliminated the exemption of beer sold to military exchanges, messes and commissaries from the Alcoholic Beverage Tax as of January 1, 1980. However, the Legislature also added two new tax expenditures. Chapter 168 established a tax credit in the personal income and bank and corporation tax laws equal to 10 percent or \$1,000, whichever is less, for the acquisition cost of solar energy devices. This measure became effective in 1976 and will remain in force for five years. Chapter 534 provides a personal income tax deduction for contributions to an individual retirement account. The deduction

is limited to 15 percent of income or \$1,500, whichever is less.

Chapter 1762, Statutes of 1971 directed the Department of Finance to prepare a biennial tax expenditure report. These reports have reviewed expenditures made through the tax structure in order to provide a full accounting of total expenditures. While the first two reports reviewed the entire tax structure, the 1976-77 Tax Expenditure Report concentrated primarily on the sales and use taxes and the excise taxes in order to provide a more in-depth study. Chapter 575, Statutes of 1976, directs the tax expenditure report be included in the Governor's Budget. It also provides that the Department prepare legislation to implement recommended changes. Based on an in-depth examination of the various exemptions, exclusions, deductions, credits, deferrals, and preferential rates embodied in the personal income tax and the bank and corporation tax, the following recommendations are submitted:

<i>Tax Expenditure</i>	<i>Recommendation</i>	<i>Estimated Annual Revenue* (In millions)</i>
Corporate tax on preference income .....	Repeal \$30,000 exclusion, increase tax rate to 4.5 percent, add exploration and development expenses as an item of tax preference.	\$25
Personal tax on preference income .....	Add exploration and development expenses as an item of tax preference.	\$1
Percentage depletion for mines.....	Limit to cost	\$5
Soil and water conservation expenditures	Require capitalizing rather than expensing.	\$20
Research and experimental expenditures		
Trademark or tradename expenditures		
Circulation expenditures		
Organization expenditures		
<b>TOTAL .....</b>		<b>\$51</b>

\* Estimates were made on each tax expenditure individually and no allowance was made for their interaction.

It is also recommended that any of the above-listed tax expenditures which are retained as part of the tax system be subject to a December 31, 1980 expiration date, beyond which the provision would lapse if not re-enacted by the Legislature.

## RECOMMENDATIONS FOR LAW CHANGES

### *Tax on Preference Income:*

The tax on preference income was enacted in 1971 to insure that taxpayers with large real incomes were not able to take advantage of special provisions and avoid income taxes completely. *To strengthen this tax, it is recommended that the \$30,000 exemption allowed corporations be eliminated, the corporate tax rate be increased to 4.5 percent, and the excess allowed by the expensing of exploration and development expenses be included as an item of tax preference under both the personal and the corporate tax on preference income.*

Prior to 1975, the personal preference tax allowed a \$30,000 exclusion plus any net business losses. Chapter 1033, Statutes of 1975, reduced the exemption to \$4,000 for single returns and \$8,000 for joint and head-of-household returns and changed the tax rate to one-half the regular rates, ranging from .5 to 5.5 percent. Increasing the corporate preference tax rate from the present 2.5 percent to 4.5 percent would equalize the treatment currently provided personal income tax on preference income by taxing both at one-half the regular rates. In addition, the \$30,000 exclusion is excessive and unjustified and should be repealed. Allowing the deduction of net losses is sufficient to avoid imposing a tax on a corporation with no real net income.

The proposed inclusion of intangible drilling costs under the personal preference tax conforms with the Federal Tax Reform Act of 1976.

### *Percentage Depletion for Mines:*

Currently, taxpayers are allowed a deduction, based on either cost or a percentage of gross income, for the depletion of natural deposits, other than oil and gas. Cost depletion is much like depreciation in that it allows the recovery of costs over the life of the asset. However, percentage depletion allows the deduction of a specified percentage of gross income. Under percentage depletion, recovery may exceed the cost of the asset many times over. *Because the current percentage depletion allowance has a negative effect on tax equity it should be limited to cost.*

Percentage depletion originated to encourage risk exploration. First established for oil and gas

producers, it was eventually extended to over one hundred other minerals, principally in the interest of tax equity.

Because the allowance is directly linked to gross income, percentage depletion is principally of benefit to the most profitable mining firms. Thus, most of the tax savings go to twelve generally very profitable companies, out of about 135 mining companies with net income.

Since percentage depletion allows mineral producers to recover not only their original capital investments, but in many cases several times those amounts, the mining industry is given preferential treatment over other industries.

Recognition of these problems with percentage depletion led the Legislature to put rigid limits on the allowance for oil and gas producers (Chapter 75, Statutes of 1975). Percentage depletion for other natural deposits has continued, however, with the percentage allowed ranging from 23 percent for sulfur to 5 percent for sand and gravel.

It is estimated that closing this tax loophole will increase revenue by \$5 million in 1977-78.

*Expensing of Certain Costs:*

*It is recommended that the following items be capitalized:*

<i>Expenditure</i>	<i>Period of Amortization</i>
Soil and water conservation.....	10 years or longer
Research and experimental .....	5 years or longer
Trademark or tradename .....	5 years or longer
Circulation .....	5 years or longer
Organization .....	5 years or longer

*Amortizing these expenses over the suggested time periods would increase tax equity by more nearly matching the deduction allowed to the income yielded.*

Generally, expenses which improve assets and hence lead to increased income in future years are capitalized and depreciated over a period of years. However, California currently allows the taxpayer the option of either capitalizing or deducting these expenses as incurred. The taxpayer will choose the option that results in the greatest benefit.

This option was frequently provided as an economic incentive to encourage desirable taxpayer expenditures. The provision allowing the expensing of research experimental costs is one example. Federal conformity was also a factor.

In practice, tax deferrals designed to operate as economic incentives have basically resulted in windfalls to affected taxpayers. As federal tax savings are much more substantial than state tax savings, any real incentive comes from federal provisions.

It is estimated that closing this tax loophole will increase revenue by \$20 million. However, this would essentially be a one time gain.

**RECOMMENDATIONS FOR LEGISLATIVE STUDY**

*Military Pay Exclusion:*

The personal income tax included a \$1,000 exclusion for military compensation from 1952 to 1971. In the latter year, the exclusion was limited to military personnel on extended active duty. The following year a provision for retirement and reserve pay was reinstated with an income test so that the full \$1,000 exclusion would be limited to those with adjusted gross incomes below \$15,000 with the exclusion declining by \$.50 for every dollar over that amount. *Legislative study of this tax expenditure is recommended.*

A 1976 report prepared by the Advisory Commission on Intergovernmental Relations on preferential taxation of military personnel found that as a result of the increase in "pay designed to produce an all volunteer force . . . military persons are no less able to bear the burden of state and local taxes than are citizens in general."\* This conclusion was based, among other things, on the finding that currently, ". . . 'total military pay' is estimated to be in excess of civilian personnel in virtually every instance."(sic) Perhaps, military personnel should now be treated the same as other taxpayers. This apparently was the judgment of the Legislature when it repealed the beer tax exemption (Chapter 128, Statutes of 1976) on sales made to federal military installations.

This exclusion is particularly questionable for reservists who are working. Some reservists even draw their regular salary while they are paid for their military duties. The Federal Government does not have similar exclusions.

The revenue loss from the military pay exclusions will be approximately \$4.3 million in 1977-78.

\* "State Taxation of Military Income and Store Sales," Advisory Commission on Intergovernmental Relations, Washington, D.C., July 1976.

### *Tax Exempt Income:*

Not infrequently, exemptions are incorporated into the personal income tax law to aid low-income individuals. However, the progressive rate structure inverts the subsidy so that the greatest benefit goes to high-income taxpayers with little or no benefit to low income individuals. Current law exempts income below \$5,000 for a single taxpayer and \$10,000 for a married couple.

Exclusions for tax exempt income such as social security and unemployment insurance benefits produce such inequities. Never formally enacted, these tax expenditures arose from conformity with federal practice. The beneficiaries of these exemptions often are recipients of other sources of income for the year. An individual with an annual income of \$20,000, some of which was social security income for example, could pay about \$300 a year less in California personal income tax than other taxpayers with the same income from wages or salaries. *These provisions have no advantage for low-income individuals, as they are not subject to the income tax.* Seasonal workers regularly derive a portion of their annual income from unemployment insurance. This tax expenditure, in effect, subsidizes seasonal industries by allowing lower wages to be paid for the same annual after-tax compensation to the workers.

It is estimated that about one-fourth of the foregone revenue from the social security exemption and two-fifths of the revenue loss from the unemployment compensation exemption is attributable to persons whose annual adjusted gross income exceeds \$20,000. Direct assistance for the elderly and unemployed is preferable to tax exemptions which benefit only those with incomes high enough to be subject to taxation.

*The exemptions for social security and unemployment benefits are recommended for legislative review.*

The following table reflects the distribution of the estimated revenue loss by adjusted gross income class.

AGI Class	Estimated Revenue Loss (In Millions)	
	Social Security Exclusion	Unemployment Exclusion
\$0-\$10,000 .....	\$19	\$4
\$10,001-\$20,000 .....	31	11
\$20,001-\$40,000 .....	10	6
\$40,001 and over .....	5	4
Total .....	\$65	\$25

There are other areas of exempt income which have not been discussed here but which should also be subject to review, such as the exclusion of disability and lump sum insurance payments.

The exemption of interest on government bonds is also recommended for study. This exemption is provided in the California Constitution, Article XIII, Section 26. Only bonds issued by California or a political subdivision thereof qualify for this treatment. Although the original intent of this exemption was to aid local governments by giving investors an additional incentive to buy these bonds, the principal beneficiaries of this provision have been wealthy taxpayers. About 88 percent of the total estimated revenue loss of \$6 million goes to individuals whose annual incomes exceed \$50,000. The benefit to local governments from the state tax exemption is minimal. As the Federal Government also exempts this income from taxation, the interest differential between government bonds and other bonds is primarily attributable to the federal exemption.

If California taxed this income, interest rates on California government bonds would be increased somewhat. An unknown portion of these bonds are held by non-residents and non-profit institutions, from which California would not receive increased revenue. For these reasons, the net effect would be minimal.

An additional consideration is whether California would support the Federal Government instituting a similar tax and directly reimbursing local governments for a portion of the interest cost. If California repealed its exemption, it would be more difficult to oppose a similar federal action.

### *Cooperatives:*

*The exemption of cooperatives' income is recommended for examination by the Legislature due to the dramatic changes cooperatives have undergone since the establishment of this provision.*

Originally, cooperatives were a means by which farmers were able to avoid some of the inefficiencies of small-scale production, enabling them to compete against large corporations. This tax provision was intended as an aid to these small producers. It was based on the theory that income generated by cooperatives was

not profit, but savings produced through joint action.

Cooperatives in general, have grown tremendously in size and influence since this exemption was established. The theory that cooperatives are merely conduits for the flow of income rather than profit-producing enterprises is now questionable. A large number of cooperatives are huge multi-state or even multi-national corporations. In some areas, they have been powerful enough to supplant ordinary corporations. An additional problem in the exemption of cooperatives' income arises when the cooperative members are nonresidents. They are not subject to the California personal income tax because the income generated in California is attributable to the cooperative. The cooperative does not pay taxes because its income results from business done with its members.

A case can be made for treating large cooperatives as corporations. An in-depth study should be undertaken to determine such things as the number of cooperatives, annual income and distribution by industry class and the revenue effect of taxing this income. Such data would aid in formulating more equitable tax treatment for this sector.

#### *Capital Gains:*

Income realized from the sale of assets held for over one year is given preferential tax treatment. *This preferential treatment appears to raise inequities; legislative examination of the taxation of capital gains is recommended.*

This provision is largely of benefit to high income taxpayers. Such individuals not only have the most capital gains, but tax savings are greater due to their higher tax brackets. An estimated two thirds of the revenue loss is attributable to taxpayers whose annual income exceeds \$50,000.

Investments are made with a view to increased returns. The extent to which favorable treatment increases investments or aids capital mobility is not known, but is probably minimal. While federal tax considerations are definitely a factor, state tax rates, especially considering the deduction allowed for state taxes on federal returns, are strictly secondary.

Since 1971, California has allowed capital gains to be included in income averaging. Thus,

one of the original justifications for preferential capital gains treatment—that income is generated over a period of time yet taxed all at once—is no longer as significant.

The annual revenue lost through this provision is estimated to be \$100 million.

#### *Capital Gains at Death:*

Horizontal equity is negatively affected by the exemption of capital gains transferred at death. A taxpayer who sells a capital asset pays the capital gains tax. Another taxpayer who holds assets until death is able to leave them to his heirs with no income taxes paid on the gain. This treatment has been justified on the grounds that a hardship would be imposed in obtaining the money to pay the tax, as no sale or exchange has taken place. This liquidity problem is aggravated by the imposition of inheritance taxes at the same time. However, several forms of relief, such as an extension of time given a family business or farm, could be included to reduce this difficulty.

The estimated revenue expended through this provision is approximately \$35 million annually.

#### *Treatment of Deferred Compensation:*

Income is generally not recognized for tax purposes until it is realized. Thus, certain compensation—such as profit-sharing or salaries—which is deferred until retirement is not included in current taxable income. When the individual retires, this income becomes subject to taxation, usually at lower tax rates. Inequities arise from differences in the exclusion allowed various groups. *Legislative review of this area is therefore recommended.*

Individual retirement accounts (IRA's) and the Keogh Plan (available to the self-employed) have been established to take advantage of these provisions at both the federal and state levels. Under the Keogh Plan, a self employed person who establishes a pension plan for himself and his employees is able to set aside the lesser of \$2,500 or 10 percent of compensation for himself. A wage earner not covered by a qualified pension plan may establish an IRA and exclude contributions to this account up to \$1,500 or 15 percent of compensation, whichever is less. However, a person who incorporates his business may deduct up to 25 percent of his income

for such purposes. Thus, while most individuals are subject to fairly tight limitations, a stockholder-officer of a closely held corporation could exclude far greater amounts annually.

Inequities in this area might be avoided by standardizing the allowable exclusion.

## MAJOR TAX EXPENDITURES

The following table summarizes the 1977-78 major tax expenditures. Estimates were made on each tax expenditure individually and no allowance was made for their interaction. In some areas it is very difficult to obtain data for estimating tax expenditures. A variety of data sources were used in order to prepare estimates of these costs.

## ESTIMATED ANNUAL COST

(In millions)

### Sales and Use Tax

Food	
To be consumed at home.....	\$680
Candy.....	38
Vending machines—33% provision.....	10
Gas, electricity, and water.....	370
Vessels and aircraft.....	175
Cargo and returnable containers.....	95
Prescription medicines.....	55
Leases of motion pictures.....	14
Newspapers.....	10
Periodicals.....	10
Option to pay on cost rather than rental receipts.....	10
Sales by charitable organizations.....	2
Vending machine operators.....	2
Monetized bullion.....	1
Optometrists and podiatrists.....	1
Hot food sold to airlines.....	1
Total.....	\$1,474

*Costs not available*—Sales to U.S. government, sales to banks, common carriers, out-of-state contractors, printing materials, certain meals, property loaned to educational institutions and occasional sales.

### Bank and Corporation Tax

Exploration and development expenses.....	\$34
Accelerated depreciation.....	30
Research and experimental expenses.....	15
Depreciation of low-income rental housing.....	8
Percentage depletion.....	5
Exemption from preference tax.....	5
Bad debt reserves.....	4
Certain agricultural costs.....	2
Pollution equipment.....	1
Solar energy devices.....	1
Total.....	\$105

*Cost not available*—Cooperatives; lessee improvements; foreign sea or air carriers; periodical circulation expenses; deferral or organization expenses; certain dividends; real estate invest-

ment trusts; consolidated filing; installment sales; trademark expenses; life insurance proceeds; charitable contributions; tax exempt organizations.

### Personal Income Tax

Interest expense.....	\$425
Property, sales and vehicle taxes.....	225
Standard deduction.....	175
Employer contributions to pension plans.....	125
Capital gains exclusion.....	100
Charitable contributions.....	100
Employer contributions to health plans.....	80
Medical expenses.....	80
Head of household status.....	50
Capital gains at death.....	35
Income averaging.....	35
Expensing of certain agricultural costs.....	30
Compensation for injuries or sickness.....	25
Professional corporations.....	10
Casualty and disaster losses.....	7
Meals and lodging furnished by an employer.....	7
Accelerated depreciation.....	7
Interest on government bonds.....	6
Depreciation of low-income rental housing.....	5
Taxes paid to another state.....	5
Sick pay exclusion.....	5
Moving expenses.....	5
Self-employed retirement plans.....	5
Individual retirement accounts.....	4
Military pay and pensions.....	4
Exploration and development expenses.....	3
Scholarships and fellowships.....	3
Political contributions.....	2
Retirement income credit.....	2
Timber valuations.....	2
Income splitting for surviving spouse.....	2
Percentage depletion.....	1
Employee death benefits.....	1
Total.....	\$1,571

*Cost not available*—Small business first-year depreciation; periodical circulation expenses; research and experimental expenses; trademark expenses; exemption from preference tax; pollution equipment; rental value of parsonages; depreciation of child care facilities; child support and alimony payments; sale of residence; certain deferred compensation.

### Horseracing Tax

Preferential breakage treatment.....	\$4
--------------------------------------	-----

### Inheritance Tax

Preferential rates: class A and B.....	\$286
Specific exemptions.....	121
Charitable contributions.....	88
Marital exclusion.....	88
Total.....	\$583

*Cost not available*—Public pensions; armed services; war risk insurance; life insurance; non-resident intangible property; open-space land valuation; powers of appointment.

#### Gift Tax

*Cost not available*—Preferential rates, class A and B; community property; charitable contributions; specific exemptions; annual exemption; intangible property.

#### Insurance Tax

Nonprofit hospital service plans .....	\$17
Pensions and profit-sharing plans .....	9
Annuities .....	8
Fraternal benefit societies.....	1
Total .....	<u>\$35</u>

#### Alcoholic Beverage Taxes

*Cost not available*—Industrial spirits and wine; distilled spirits used in food products; sales to government agencies for scientific uses.

#### Motor Vehicle Fuel Taxes

Certain aircraft uses .....	\$38
Sales to military.....	<u>31</u>
Total .....	\$69

*Cost not available*—Rapid transit systems.

#### Motor Vehicle Fees

*Cost not available*—Government vehicles; local passenger common carriers; privately owned schoolbuses.

# Revenue Estimates

## THE ECONOMIC OUTLOOK

Nineteen seventy six was a year of strong economic expansion. Real gross national product rose at an estimated 6.3 percent, with notable gains in auto sales, housing investment, inventory building and net exports. The softness in demand during the second and third quarters of the year appears to have been a temporary respite from the heady pace of expansion which occurred earlier in the recovery. Consumer confidence is rising at the present time and appears likely to support continued expansion in coming months.

The current forecast was predicated on three basic assumptions:

- accommodation of the expansion by the Federal Reserve Board, with growth in the money supply varying from 5 to 7 percent during 1977.
- a tax cut of \$8 billion in 1977 and \$15 billion in 1978 to stimulate consumption.
- an increase of 12 percent in OPEC posted prices in December 1976, and an additional 10 percent in December 1977.

The Carter Administration appears to be developing policies that will ensure a revival of the consumer sector and provide a favorable climate for further business expansion. Tax rebates or cuts, already mentioned, should lead to further gains in confidence indexes.

Real GNP is projected up 4.8 percent for the current year with a further growth of 4.9 percent in 1978. Above-average gains are expected to occur in spending for durable goods, and for investment projects. The latter will be attributable to continued strength in homebuilding and to a long-awaited pickup in plant and equipment investment. It is also anticipated that the government sector will contribute more to overall growth during this year and next than in the past year because of policies designed to reduce unemployment—most probably through federally supported hiring at the state and local level.

Employment gains have been substantial recently. This has been reflected in personal income, with major gains in wages and salaries, dividends, interest income, and nonfarm proprietors' income.

It is anticipated that employment during 1977 will rise by 3 percent with a further 2.8 percent gain during the following year. Personal income, which increased by 9.9 percent during 1976, is forecast up 10.1 percent both this year and next providing momentum for the consumer sector. Much of the strength in purchasing is expected to be felt in autos. An estimated 10.2 million cars were sold during 1976, with strong demand for standard size cars. It is expected that total car sales in both 1977 and 1978 will amount to 10.8 million units. Demand for other durables is continuing strong. Sales of furniture and fixtures, for instance, are expected to rise more rapidly both this year and next, reflecting the developing strength in residential construction. The service and nondurable sectors will also continue to post substantial gains.

During the second half of last year, strong advances were registered in housing starts—primarily for single-family units, although moderate improvement in apartment units was also noted. The continued availability of mortgage money, relatively stable interest rates, and a backlog of demand have laid the foundation for further gains in this sector. More than 1.5 million housing starts were registered during 1976. It is expected that this will increase to 1.75 million during the current year, with a further rise to 1.8 million in 1978. The greater proportion of 1977 activity will again be in single-family building. By the following year, the oversupply of apartment units—still extant in some parts of the country—should be largely worked off, permitting a resurgence in this industry. The current forecast does not incorporate an assumption of a national housing program which would greatly stimulate activity.

There is some disagreement on the extent of the need for new plant and equipment investment at the present time, as various surveys of industrial capacity and utilization rates yield different results. It appears likely that capacity shortages will start to develop in some industries, stimulating new investment in those areas. It is estimated that plant and equipment spending will rise by 8.8 percent in real terms in 1977, with acceleration to an 11.2 percent growth in 1978.

The state and local government sector is likely to benefit from policies to reduce unemployment. Revenue sharing will assist state and local jurisdictions to maintain levels of service. In addition, programs such as CETA (the Comprehensive Employment and Training Act) and job training are expected to be used as a means of reducing unemployment in various regions. It has been assumed that such programs will be extended during the coming two years in line with stated administration policies.

Reflecting the improved economic situation, corporate profits will again be up strongly during the current year, rising by more than 13 percent to \$167 billion. This follows a 29 percent gain in 1976. A further advance of 8.7 percent has been forecast in pre-tax profits for 1978. This will lead to a substantial increase in dividends. It will also permit internal financing of many investment projects, effectively restraining demands on financial markets.

The Federal Reserve Board is expected to accommodate expansion with moderate increases of 5 to 7 percent in the money supply. With demand for loans from commercial banks remaining somewhat lower than anticipated and rising corporate retained earnings, no significant run-up in interest rates should occur. A gradual rise in the prime rate to slightly more than 7 percent during the second and third quarters of 1977, and moderate firming in short-term rates will not lead to a renewed inflationary spiral.

Consumer price trends have shown gradual improvement during the past year. Increases in wholesale prices which have recently occurred are not expected to be passed along to the consumer in full. There has been concern in the business community that the new Administration would push for wage and price controls.

This appears to have led to a practice of increasing list prices beyond what could be supported by market conditions in order to establish a higher base in the event such controls should be imposed. The probability of controls being reinstituted appears minor at the present time, given the noninflationary nature of the present expansion. Wholesale prices are therefore likely to be discounted in many instances, which should prevent a significant run-up in the consumer price index.

## **THE CALIFORNIA ECONOMY**

Expansion in California was substantial during the past year, with a gain of 3.8 percent in wage and salary employment (representing 293,000 jobs), and a rise of 10.5 percent in personal income. Major gains were posted during the year in nonaerospace manufacturing, (+6%), services (+5.1%), trade (+4.9%), and the finance-insurance-real estate sector (+4.5%). Nevertheless, the state's unemployment rate remained at relatively high levels, averaging 9.6 percent for the year. Of significance is the fact that the rate declined after mid-year and appears to be on a downtrend at the present time. Data on the civilian labor force, employment, and unemployment will be revised by April 1977 and may indicate that 1976 was even better than current data suggest.

The outlook for the state for the next two years is favorable. Major increases in employment will be achieved, with 290,000 wage and salary jobs added this year and a further gain of 270,000 jobs forecast for 1978. Concurrent with this expansion will be a gradual reduction in the state's jobless rate to an estimated 8.4 percent this year and 7.4 percent next. This drop will be accomplished by advances in civilian employment outstripping growth in the labor force.

Employment gains will contribute to the rise expected in personal income. Income is estimated at \$169.5 billion in 1977, an increase of 10.1 percent from the 1976 level. A further gain of 9.8 percent will carry the 1978 total to \$186.15 billion. Also a major factor in the advance will be property income, with sharply higher dividends and interest payments. Farm proprietors' income could experience some erosion from the forecast level during the year if the recent drought continues through 1976-77.

The employment and income gains registered in the State indicate the strength in consumer markets. Sales in California appear to have outpaced those of the nation during 1976 with strength particularly in autos, recreational vehicles, building materials, homefurnishings and various specialty categories, a situation which should continue both this year and next.

The construction sector has shown mixed trends recently. Nonresidential building remained sluggish during much of the past year. It is expected, however, that significant improvement will occur during 1977 with office-professional buildings and stores registering strong advances. Housing activity, on the other hand, has continued to outperform that of the nation.

Approximately 215,000 housing units were authorized in California during 1976, a rise of 63 percent from the 1975 level. Of these, 138,000 were in single family residences, with 77,000 multiple units authorized. Demand continues strong, even with relatively high prices on new units. Declining vacancy rates, in fact, suggest that the market will improve further in 1977. The current forecast is that 240,000 units will be constructed this year. By 1978, demand should support building levels of 275,000 units, with a shift toward apartment building.

The above forecast does not take into consideration any effects which may occur due to continuation of the drought.

## REVENUE ESTIMATES

State revenue during the 1977-78 fiscal year is estimated at \$14,229,806,067, approximately \$1,468 million above the \$12,761,632,707 anticipated during the current year and \$2,877,796,030 more than was received in 1975-76.

Tax yields generally follow trends in economic activity. The revenue estimates for 1977-78 reflect above-average economic growth.

Revenue for the General Fund is estimated at \$12,180,958,822 in the budget year—almost \$1.4 billion above 1976-77 and \$2.76 billion higher than actual 1975-76 receipts. This large increase will result from a continuation of high consumer spending levels due in part from the anticipated tax cut, from continued growth in personal income and from higher corporate profits. The three major General Fund tax sources account for \$7 out of every \$8 received by the General Fund.

Special fund revenue is expected to total \$2,048,847,245 in 1977-78, \$80.1 million more than the current year and \$120.6 million above 1975-76. Highway user tax licenses and fees make up most of special fund revenue.

Receipts for the General Fund and special funds for past, current and budget years are shown below.

## 1976 TAX LEGISLATION

An administration-proposed tax reduction program which provided income tax relief to low-income wage earners was enacted by the Legislature. The new law provides a 100 percent tax credit for married persons with less than \$10,000 of income and for single persons with less than \$5,000 of income. The law also calls for a diminution of the credit from 100 percent to zero as income increases from \$5,000 to \$5,080 for single returns and from \$10,000 to \$10,160 for joint and head of household returns.

This is expected to eliminate or reduce state income taxes for about one million taxpayers, and to reduce revenues by \$25 million in 1976-77 and \$23 million in 1977-78.

## GENERAL FUND REVENUE

Over 85 percent of aggregate state revenue is deposited in the General Fund. This includes collections from such levies as those on sales of tangible personal property, personal income, corporate profits and insurance premiums. For the most part, these taxes are related directly to business conditions. Hence, the estimates of revenue from each source flow directly from the economic assumptions outlined above. The influence of these economic factors upon the various tax bases and the methods used in preparing the budget revenue estimates are summarized in the following material.

### Sales and Use Tax—\$4,628,900,000

The sales tax—an excise tax imposed on retailers for the privilege of selling tangible personal property in California for final consumption in the State—is the largest single source of revenue for the state's General Fund. The sales tax was enacted in 1933 and was levied at a rate of 2½ percent. The use tax was enacted in 1935 as a complement to the sales tax, and has always been at the same rate as the sales tax. In 1955, the Bradley-Burns Uniform Local Sales and Use Tax Law was enacted, allowing cities and counties to impose a state-administered sales and use tax at 1 percent. The sales tax is based on gross receipts from sales of tangible personal property for final consumption, and the use tax is measured by the sales price of tangible personal property which is stored, used, or otherwise consumed in this state.

There were five exemptions in the original sales tax law:

1. Sales of tangible personal property which the State is prohibited from taxing under the United States or California Constitutions;
2. Sales of gas, electricity, and water when delivered to customers through mains, lines, or pipes;
3. Sales of gold bullion, gold concentrates, or gold precipitates by a producer or refiner;
4. Sales of tangible personal property used for the performance of a contract in public works executed prior to the effective date of the act; and
5. Sales of motor vehicle fuel taxed under the Motor Vehicle Fuel License Tax Law and not subject to refund. (This exemption was repealed, effective July 1, 1972.)

Many exemptions have been enacted since these original exemptions; some of the most important and their dates of enactment are food for home consumption (not including hot take-out food), 1935; newspapers and periodicals, 1941; prescription medicines, 1961; and candy (which was defined as a food product), 1971.

The sales tax rate has increased from its original  $2\frac{1}{2}$  percent to a rate of 6 percent ( $6\frac{1}{2}$  percent for the San Francisco Bay Area Rapid Transit District and the Santa Clara County Transit District). This rate includes the  $4\frac{3}{4}$  percent state rate, 1 percent uniform local sales and use tax rate, and a  $\frac{1}{4}$  percent county tax to be used for the support of local transit systems.

The  $\frac{1}{4}$  percent county tax was enacted in 1971 (effective July 1, 1972) at the same time the gasoline exemption was repealed and the state sales tax rate was decreased from 4 percent to  $3\frac{3}{4}$  percent. (The state rate has been at its current level of  $4\frac{3}{4}$  percent since April 1, 1974.) The  $\frac{1}{4}$  percent tax was levied to approximate revenues collected from extending the sales tax to gasoline. Each year an estimate is made to determine if  $\frac{1}{4}$  percent of all taxable sales raises the equivalent of taxing gasoline at 4 percent. If more is raised by the state sales tax on gasoline, the excess is transferred from the General Fund to the Transportation Planning and Research Account in the State Transportation Fund. If less is raised, the deficit is absorbed by the General Fund.

Two U.S. Supreme Court decisions, *Diamond National Corporation, et al v. State Board of Equalization* and *United States of America v. State Board of Equalization*, will result in state sales and use tax refunds of approximately \$45 million in 1976-77. The *Diamond National* case involved taxation of banks. Prior to 1969, federal law prohibited states from imposing any taxes on national banks other than one of four federally-approved methods, of which California chose a tax measured by net income. From 1969 through 1972, there was a moratorium on new taxes against banks. Since California has always held that the sales tax fell on the retailer and not the purchaser, any purchases made by banks within California had been subject to the sales tax. The *Diamond National* case held that the incidence of the state and local sales tax falls upon the bank and not the vendor. This decision has caused the State to refund sales tax paid by banks who have filed claims from 1965 through December 24, 1969.

The *United States of America v. State Board of Equalization* decision dealt with taxation of the U.S. Government. States cannot impose taxes directly against the U.S. Government, according to federal law. When the Sales and Use Tax Law was enacted, the U.S. Government was specifically exempted from the sales and use tax on purchases of tangible personal property. However, when leases became subject to the sales tax in August 1965, the U.S. Government was not exempted from sales tax on leases. The premise for the adverse decision in this case was the same as for the bank case, that the sales tax falls on the lessee, not the lessor. This decision has an on-going annual cost of \$4 million.

Changes in administrative procedures by the Board of Equalization and the Department of Motor Vehicles will result in a \$25 million gain in revenues in the budget year. As of November 15, 1976, an individual who purchases a vehicle from a private party must either present a bill of sale or certification of vehicle purchase price to the Department of Motor Vehicles for determining the use tax. The former method had allowed payment of use tax based on vehicle license fee depreciation schedules, which are generally lower than market value.

Taxable sales are estimated by two methods. One method utilizes a multiple regression equa-

tion to estimate total sales in constant dollars, using as independent variables disposable personal income in constant dollars, wage and salary workers in manufacturing and construction, new vehicles sold and the savings rate. Sales in constant dollars are then converted to current

dollars by application of the appropriate price factor. A second estimate is made by classifying taxable sales into 15 homogeneous groups, each of which is regressed on an appropriate economic factor. The two estimates are then reconciled. The final results are shown below.

**TABLE 3**  
**Taxable Sales in California (In millions)**

	1975	1976		1977		1978	
	<i>Actual</i>	<i>Estimated</i>	<i>Percent change</i>	<i>Estimated</i>	<i>Percent change</i>	<i>Estimated</i>	<i>Percent change</i>
Retail stores except automobiles and buildings .....	\$31,736	\$35,545	12.0	\$38,630	8.7	\$42,325	9.6
Motor vehicle dealers—auto parts, etc. ....	15,312	18,225	19.0	20,490	12.4	22,080	7.8
Building materials including contractors.....	6,634	7,880	18.8	9,000	14.2	10,075	11.9
Manufacturing, wholesaling, miscellaneous.....	19,794	21,850	10.4	24,405	11.7	26,950	10.4
Totals.....	\$73,476	\$83,500	13.6	\$92,525	10.8	\$101,430	9.6

Taxable sales in 1976 are estimated at \$83.5 billion, up 13.6 percent from 1975. This represents an increase in real terms of 7.9 percent, following two years of decline in real taxable sales. The strongest gains were shown in the retail building materials category and in new motor vehicle dealers.

Total taxable sales in 1977 are estimated at \$92.5 billion, up 10.8 percent in current dollars and 5.5 percent in real terms. Building and construction will continue to be strong in 1977 with a 14.2 percent growth in sales. New car sales are estimated to be up 8.8 percent in units resulting in a 12.7 percent increase in taxable sales.

In 1978 total sales are expected to increase 9.6 percent to \$101.4 billion, a 5.1 percent growth in real terms. The building and construction industries are again expected to show the strongest increases. New auto unit sales are projected at the 1977 level and gains in this category will be due to price increases.

The transfer to the Transportation Planning and Research Account in the State Transportation Fund was \$24.2 million in 1975-76 and \$13.3 million in 1976-77. The transfer to be made in 1977-78 based on 1977 calendar year sales is estimated at \$18.9 million.

Sales and use tax revenues, prior to the transfers to the State Transportation Fund, including revenue attributable to audit activities of the Board of Equalization and the effects of administrative and judicial changes, are:

1975-76 (actual) .....	\$3,742,524,389
1976-77 (estimated) .....	\$4,158,300,000
1977-78 (estimated) .....	\$4,628,900,000

#### Personal Income Tax—\$4,285,000,000

The personal income tax was enacted in 1935 at a rate which was graduated from 1 percent on net income over \$5,000 to 15 percent on incomes in excess of \$250,000. Both rates and levels of income subject to tax have changed significantly over the years. An extensive modification in 1971 provided for withholding and declaration of estimated tax, imposed a tax on preference income, revised capital gains treatment and added an 11 percent tax rate on taxable income above certain levels. Changes made during the last legislative session included: (1) an increase in the low-income tax credit, (2) a solar energy tax credit, and (3) extended the tax deferral of income to individual retirement accounts.

The personal income tax is the State's second largest revenue source producing over one-third of total General Fund revenues. The tax is imposed on net California taxable income (gross income less exemptions and deductions) with tax rates ranging from 1 to 11 percent. A personal credit of \$25 for single returns and \$50 for joint or head-of-household returns, plus \$8 for each dependent, is allowed against the computed tax to derive the taxpayer's actual liability. In addition, a tax on preference income, equal to one-half the regular rates, is levied on the following items of tax preference: depreciation and amortization in excess of the straight line method; excess investment interest; stock options (the amount by which fair market value exceeds the option price); depletion taken in excess of adjusted cost basis; the excluded portion of capital gains and farm losses taken against nonfarm gains.

The income tax is collected through a system of withholding, declarations of estimated tax, and payments on final returns. Withholding requires that the employer deduct state income tax from pay and remit these amounts to the State to be credited against the employees' income tax liability. Quarterly payments of estimated tax are required for income not covered by withholding.

Income tax revenue is determined primarily by the amount and type of income. The revenue attributable to each type of income fluctuates from year to year in response to changes in the amount of income received from each source and changes in the distribution of income among income brackets. Because of such differences in distribution, changes in the various income components have different impacts on income tax revenue. For example, capital gains are for the most part received by taxpayers in higher income tax brackets while wages and salaries are mainly reported by taxpayers in lower and middle tax brackets. Therefore, a fluctuation in capital gains income will have a greater impact on revenue than a similar dollar variation in wages and salaries because of the higher marginal tax rates.

For this reason, revenue from each type of income is estimated separately. Historic relations between type of income and tax attributable to that income are examined. These relationships are then applied to forecasts of income sources to obtain the revenue forecast. Tax attributable to capital gains is analyzed differently since a specific capital gains income forecast is not available. In this instance, historic trends in stock market activity provide the basis for the estimate.

The revenue estimates reflect the passage of Chapter 1060, Statutes of 1976, an expansion of the current 100 percent special credit for low-income taxpayers. This credit was increased from \$4,000 to \$5,000 for single taxpayers, from \$8,000 to \$10,000 for those filing joint returns, and from \$8,000 to \$9,650 for head-of-household returns. The credit diminishes to zero as income increases from \$5,000 to \$5,080 for single returns and from \$10,000 to \$10,160 for joint and head-of-household returns. This change will eliminate the income tax liability for almost one million taxpayers. The other changes

in the law were essentially minor in terms of both fiscal impact and the incidence of persons affected.

Total revenues for the years covered in this budget, after adjusting for legislation and adding collections due to audit activity of the Franchise Tax Board are:

1975-76 (actual) .....	\$3,089,962,557
1976-77 (estimated) ..	\$3,645,000,000
1977-78 (estimated) ..	\$4,285,000,000

#### Bank and Corporation Tax—\$1,750,000,000

The bank and corporation franchise tax, enacted in 1929, is a privilege tax levied on corporations doing business in California. The tax is measured by net income and is imposed at a 9 percent rate. A minimum tax of \$200 is imposed on all corporations except banks. The corporation income tax was enacted in 1937 to complement the franchise tax. It is levied, at the same rate as the franchise tax, on the net income of corporations which are not doing business in California but which derive income from California sources (primarily foreign companies engaged wholly in interstate commerce and holding companies).

Beginning in 1933, banks and other financial corporations were required to pay an additional tax on net income not to exceed 4 percent. This tax is determined annually as the ratio of personal property taxes paid divided by net income for all corporations other than banks, financial corporations, and utilities. The bank tax rate for the 1975 income year is 3.978 percent, up from 3.707 percent in the previous year.

The tax on banks is in lieu of all state and local taxes except those on real property and motor vehicles. Other financial corporations are subject to state and local taxes and fees, but they may offset all but real property taxes and motor vehicle fees against their bank tax. The following shows the history of bank and corporation tax rates:

Year	Tax Rate General Corporations (Percent)	Maximum Tax Rate on Banks and other Financial Corporations (Percent)
1929-32.....	4.0	4.0
1933-34.....	2.0	6.0
1935-42.....	4.0	8.0
1943-49.....	3.4	7.4
1950-58.....	4.0	8.0
1959-66.....	5.5	9.5
1967-71.....	7.0	11.0
1972-73.....	7.6	11.6
1973*.....	9.0	13.0

\*Beginning July 1, 1973

The Bank and Corporation Tax Law was amended in 1971 to impose a 2½ percent minimum tax on tax preference items. These items include depreciation and amortization in excess of the straight line method, depletion taken in excess of cost and the amount of "excess" additions to bad debt reserves by financial corporations. The tax applies to the amount by which items of tax preference, less \$30,000, exceeds any net losses for the year.

In 1976, there were two significant legislative changes that will affect bank and corporation tax revenues during the current and budget period.

Chapter 146 (AB 2991) provides for the non-payment of interest with respect to corporation refunds paid within 90 days after a timely return is filed. This law change will reduce interest paid

on refunds by \$5 million in the current year and by \$6 million in the budget year.

Chapter 168 (SB 218) authorizes a tax deduction for the acquisition cost of solar energy devices. This change will decrease revenue by an estimated \$1 million a year.

Revenue collections in the current and budget years depend upon corporate profits attributable to California during 1975, 1976, and 1977. Profits for 1976 were estimated from responses to a questionnaire sent to a sample of firms doing business in California. The survey indicates a wide variation in corporate profits among the several industry groups. The utility and oil industries are expecting the strongest gains, while the trade and construction industries are showing modest increases. The companies included in the sample approximate 50 percent of the corporate tax base. Actual and estimated corporate profits are shown in the following table:

**TABLE 4**  
**Taxable Corporate Income in California \***  
(In millions)

Industry	1974 Actual	1975		1976	
		Actual	Percent change	Estimated	Percent change
Agriculture .....	\$226	\$279	23.5	\$304	9.0
Mining and oil production** .....	1,148	946	- 17.6	1,431	51.3
Construction .....	363	464	27.8	484	4.3
Manufacturing .....	4,236	4,376	3.3	4,979	13.8
Trade .....	2,555	2,886	13.0	3,164	9.6
Service .....	778	906	16.5	1,026	13.2
Financials subject to the bank tax .....	847	912	7.7	1,227	34.5
Real estate and other financials .....	534	695	30.1	829	19.3
Utilities .....	1,166	679	-41.8	998	47.0
Totals .....	\$11,853	\$12,143	2.4	\$14,442	18.9

\* These figures represent income of corporations with accounting periods ending from August of the year shown through July of the following year. This method of reporting approximates the federal system of reporting corporate profits in the year earned.

\*\* Beginning in 1975 the allowance for oil and gas depletion was limited by Chapter 75, Statutes of 1975. This law change increased taxable corporate income by approximately \$335 million in 1975.

A comparison of the annual change in national and California corporate profits was used to estimate the California corporate tax base for 1977. In general, taxable corporate income in this state varies less from year-to-year than corporate profits nationally because a larger percentage of income in California is outside the volatile manufacturing sector. According to the 1976 survey, California corporate profits for 1976 increased by 18.9 percent whereas profits nationally rose approximately 29 percent. Based on a forecast of a 13 percent increase in national profits for 1977, California corporate income will total \$16.2 billion, up 12.2 percent from 1976.

After adjusting for legislation and adding payments attributable to audit activities of the Franchise Tax Board, total revenue is estimated as follows:

1975-76 (actual) ..... \$1,286,514,878  
1976-77 (estimated) .. \$1,575,000,000  
1977-78 (estimated) .. \$1,750,000,000

Insurance Tax—\$344,000,000

The taxation of insurance companies doing business in California began in 1853 when foreign and domestic insurers were required to pay a quarterly license fee of \$500 and \$250, respectively. In 1862, a gross premiums tax was enacted and levied on foreign insurers with less than

\$50,000 invested in California property. In 1910, a constitutional amendment subjected all insurers to a 1.5 percent gross premiums tax which was in lieu of all other taxes except taxes on real estate. Since its inception there have been relatively few rate changes in the gross premiums tax. Currently, the tax is imposed on the gross premiums written in the preceding calendar year less return premiums and dividends. The tax has been levied at the rate of 2.35 percent since 1949. Some pension and profit-sharing plans and annuities are taxed at 0.5 percent whereas surplus lines are taxed at 3 percent. Ocean marine insurers are taxed at 5 percent of underwriting profits.

Beginning in 1911, insurance companies were allowed to deduct all real estate taxes from their state tax liability. This deduction became quite large as a result of acquisitions by foreclosure during the 1930's. Accordingly, a 1942 constitutional amendment limited the deduction to the real estate taxes paid on an insurer's principal or home office.

In June of 1976, the voters of California approved a constitutional amendment which eliminated the principal office deduction beginning with taxes due on premiums written in 1976. The increase in revenues estimated for the current and budget years includes \$25 million and \$22 million, respectively, attributable to this change.

The insurance tax estimate is based on projections of premium growth for specific lines of insurance. Responses to a survey were obtained from 99 companies which account for a majority of the insurance written in California. The results of this survey indicated that premiums should increase 16.5 percent in 1976, and another 13 percent in 1977.

The estimated tax for the current and budget years and the actual tax collection in 1975-76 are as follows:

1975-76 (actual) .....	\$241,223,896
1976-77 (estimated) .....	\$310,000,000
1977-78 (estimated) .....	\$344,000,000

#### Inheritance and Gift Taxes—\$316,000,000

California's Inheritance Tax Law, adopted in 1879, was extensively modified in 1905 with the initiation of a progressive rate schedule which, for the first time, covered transfers to family

members. While there have been many modifications of the tax provisions over the years, its general structure has not changed. It is a tax on the right to succeed to property transferred at death and includes gifts made either in contemplation of death or with the intention that the transfer take effect at or after death. The primary responsibility for the tax liability rests with the decedent's estate.

The base of the inheritance tax is the market value of the property being transferred less certain deductions and exclusions. Taxable property includes all real and tangible personal property in the State, and, in the case of a decedent who was a resident of this state at date of death, intangible personal property wherever located. A progressive rate schedule, which varies according to the relationship of the transferee to the decedent, is applied to the taxable base.

Since enactment of the tax, various exemptions, deductions, exclusions, and credits have been added. The widely used exemption for charitable transfers initially surfaced in 1897. The credit for previously taxed property was put into effect in 1921. In 1935, the exclusion for the proceeds of life insurance policies was enacted. The exclusion for public pensions dates from 1956. In 1961, the wife's community property exemption was extended to all community property passing to a surviving wife. In 1967, the exemption for transfers to donees who are not related was increased from \$50 to \$300. In the same year, however, the specific exemption for aunts, uncles, and cousins was reduced from \$500 to \$300.

The treatment of transfers to a surviving wife has changed substantially since 1893 to reflect changing legal interpretations of community property. Today, there is no distinction between husband and wife or widow and widower for inheritance tax purposes.

California's Gift Tax Law was enacted in 1939 as a supplement to the inheritance tax on the grounds that large transfers made during the lifetime of a donor would otherwise escape tax. The tax is applied on the transfer of property by an individual to the extent that the transfer was made without full consideration. The property is valued at its market value on the date of the gift.

The Gift Tax Law presently provides for an annual exemption of \$3,000 from a donor to the

same donee. In addition to the annual exemption, the law provides a specific, one-time exemption which varies in amount according to the relationship of the donee to the donor. If the exemption exceeds the net gift in any calendar year, the residue may be applied to net gifts in subsequent years until the maximum allowable exemption has been exhausted.

The tax rate varies according to the relationship of the donee to the donor. Both the specific exemptions and the rates of tax are the same as those provided in the Inheritance Tax Law.

On January 1, 1976, a major change in both the inheritance and gift tax laws regarding transfers of property between spouses occurred. The distinctions between community, quasi-community, and separate property were eliminated and the specific exemption increased from \$5,000 to \$60,000. There should be only a minor revenue gain due to these changes, as the increase in the specific exemption should nearly offset the gains caused by the other changes.

The erratic movement of inheritance and gift tax receipts for the past, current and budget years is a result of recent state and federal law changes. At the state level, Chapter 661, Statutes of 1975, raised the interest rate on delinquent taxes to 12 percent per annum from 6 percent, effective January 1, 1976. This stimulated more timely inheritance tax payments, resulting in a one-time gain of approximately \$50 million in 1975-76. At the federal level, the "Tax Reform Act of 1976" made substantial changes to the federal estate and gift taxes, effective January 1977. The most significant change was to integrate the estate and gift taxes under a single rate structure. This change will eliminate the tax advantage in making gifts. The federal changes should result in greater gift tax receipts in 1976-77 to take advantage of the more liberal federal law in effect prior to January 1977. Gift tax receipts for 1977-78 and thereafter are expected to be substantially lower.

Estimated revenues for the inheritance and gift taxes are:

	(In thousands)		
	1975-76 Actual	1976-77 Estimated	1977-78 Estimated
Inheritance tax .....	\$299,409	\$280,000	\$305,000
Gift tax .....	17,240	27,500	11,000
Totals .....	\$316,649	\$307,500	\$316,000

## Cigarette Tax—\$279,400,000

The cigarette tax was enacted in 1959 at a rate of 3 cents per pack, and imposed on the distributor for the privilege of selling cigarettes in California. The rate was subsequently increased to 10 cents per pack in 1967, with 30 percent of the revenues going to local governments. Cigars and other tobacco products are not subject to this tax.

A projection of the total number of taxable cigarettes distributed in the current and budget years is the basis for the cigarette tax estimate. Using population 16 years of age and older, consumption of cigarettes in 1976 will be approximately 172.8 packs per capita, up slightly from 172.57 packs in 1975. Because per capita cigarette consumption appears to have reached a plateau, total cigarette consumption will increase only moderately, reflecting increases in population. Taxable distributions of cigarettes are estimated at 2.775 billion packs in 1976-77 and 2.835 billion packs in 1977-78. Revenues based upon these factors are:

	(In thousands)		
	1975-76 Actual	1976-77 Estimated	1977-78 Estimated
General Fund .....	\$188,742	\$192,200	\$195,600
Special Fund .....	79,868	82,400	83,800
Totals .....	\$268,610	\$274,600	\$279,400

## Alcoholic Beverage Excise Tax—\$134,300,000

The alcoholic beverage tax was enacted by the Alcoholic Beverage Control Act in 1935. In general, the tax is levied on distributions of distilled spirits, beer and wine from wholesaler to retailer.

The various rates applicable to alcoholic products have changed infrequently since 1935. The rate for still wines has remained unchanged since 1937 when it was reduced from 2 cents per gallon to 1 cent per gallon. The tax on beer has changed only once, in 1959 when it was doubled from 2 cents to 4 cents per gallon. The rate on distilled spirits of 100 proof or less has changed twice—in 1955 when the rate was increased from \$0.80 to \$1.50 per gallon, and in 1967 when it was increased to its current level of \$2.00 per gallon. The rates for sweet and sparkling wines have remained constant at 2 cents and 30 cents per gallon, respectively.

The alcoholic beverage tax estimate is based on a projection of the total number of gallons distributed in the current and budget years for each type of beverage. Estimated per capita consumption of each beverage is shown below:

**Apparent Per Capita Consumption  
(In gallons)**

	1975-76 Actual	1976-77 Estimated	1977-78 Estimated
Distilled spirits .....	2.46	2.49	2.54
Beer .....	21.64	22.65	23.55
Dry wine .....	3.10	3.29	3.48
Sweet wine.....	0.54	0.51	0.49
Sparkling wine .....	0.21	0.23	0.24

Estimated revenues for the current and budget years, compared with the actual revenue for 1975-76, are shown below:

**(In thousands)**

	1975-76 Actual	1976-77 Estimated	1977-78 Estimated
Distilled spirits .....	\$104,697	\$107,500	\$111,100
Beer and wine .....	20,616	22,000	23,200
Totals .....	\$125,313	\$129,500	\$134,300

**Horse Racing Fees—\$110,040,000**

Parimutuel betting on horse racing in California was authorized in 1933. The major portion of state horse racing revenue is derived from a license fee imposed on the total parimutuel handle (the amount wagered) and breakage (the odd cents not paid to winning ticket holders). Other sources of horse racing revenue are unclaimed parimutuel tickets, occupational license fees, fines and penalties.

The original law provided that the state parimutuel license fee be 4 percent. For meets handling more than \$25 million, the current schedule of rates provides for a base rate of 6.10 percent on the first \$20 million handle and one other rate, ranging from 5.70 to 7.45 percent depending on the total handle in excess of \$20 million.

Beginning in 1947, the State received the breakage attributable to the handle in excess of \$27 million. Breakage was defined as the odd cents by which the amount payable on each dollar exceeded a multiple of five cents. In 1959, the breakage was changed from five cents to ten cents, and the State received one-half of the breakage attributable to the first \$24 million wagered and all of the breakage on the handle in excess of \$24 million at each track. However, in

1967 a special provision was added that allowed all race meets which handle less than \$125 million (all meets except Santa Anita and Hollywood Park) to remit only the breakage attributable to the handle in excess of \$50 million to the State.

From July 1, 1970, to July 1, 1975, all meets which handled less than \$20 million were subject to a 5.5 percent rate rather than the normal 6.1 percent. This special treatment was permanently extended to the California State Fair and Exposition and all district and county fairs, and was granted for a one-year period ending in February 1977 for tracks handling less than \$25 million.

Chapter 1142, Statutes of 1976, enacted a daily license fee for certain meets with average daily handles less than \$400,000. The rates range from 2 percent to 4 percent. The only meets which currently qualify for this schedule are Golden Bear Raceways and Humboldt County Fair. This will result in a General Fund loss of \$480,000 in the budget year.

Chapter 28, Statutes of 1976, reinstated the 5.5 percent license fee for tracks handling less than \$25 million for a one-year period only.

Chapter 354, Statutes of 1976, increased the take-out at fairs from 15.75 percent to 16.75 percent. The additional revenue is to provide additional support funds for fairs and will amount to \$996,000 in the budget year.

Chapter 1148, Statutes of 1976, instituted the California Standardbred Sires Stakes Program. The program will provide for sires stakes races, breeder and stallion awards, and purse supplementation. These programs will be funded by giving all breakage at harness meets to the Sires Stakes Program. To compensate for the loss of revenues to the State, take-out is increased from 15.75 percent to 16.75 percent and is split between the State, track and purses. This will result in a \$180,000 revenue gain in the budget year.

Total handle of all race meets is expected to increase by 5.1 percent in 1976-77 and 7.4 percent in 1977-78. Total revenue from horse racing will increase by 5.4 percent in 1976-77 and 8.6 percent in 1977-78, with General Fund revenue from horse racing will register gains of 2.4 percent and 8.9 percent for the same periods.

## SPECIAL FUND REVENUE

Provisions of the California constitution, codes and statutes restrict the use of certain revenue for specified purposes, and these receipts are separately accounted in various special funds. In general, they comprise three categories of income: (1) receipts from tax levies which are allocated to specified functions; (2) charges for special services to specific groups; and (3) rentals, royalties and other receipts earmarked for particular purposes. Motor vehicle taxes and fees illustrate the first of these classes. License fees for the regulation of business and professions are typical of the second. Oil and gas royalties are examples of the third. Interest received by the investment of special fund money is deposited in the fund for which the investments are held.

Motor vehicle taxes and fees account for 79 percent of all special fund revenue. Principal sources of this income are the motor vehicle fuel taxes, registration and weight fees and vehicle license fees. During the 1977-78 fiscal year, \$1.7 billion will be derived from the ownership or operation of motor vehicles. Approximately \$782 million of this revenue will be returned to local governments. The remainder will be available for various state programs related to transportation and services to vehicle owners.

Thirty percent of cigarette tax revenue is deposited in a special fund for distribution to cities and counties. In 1977-78, receipts for this fund are estimated at \$83.8 million.

Charges for special services to industry, business and the professions, together with hunting, fishing and liquor licenses and other regulatory fees, will amount to \$116.0 million in 1977-78. Rents, royalties and other miscellaneous receipts are estimated to total \$102.3 million. The transfer of sales tax revenue to the State Transportation Fund is estimated at \$18.9 million. Interest from investments held for the various special funds is projected at \$27.7 million.

### Motor Vehicle Fuel Taxes—\$838,650,000

The motor vehicle fuel license tax and the use fuel tax provide the major sources of funds for maintaining, replacing, and constructing state highway and transportation facilities.

The Federal Tax Reform Act of 1976 requires that winnings over \$1,000 be subject to 20 percent withholding. Currently, there are no withholding requirements, although informational returns must be filled out on payouts based on betting odds of 300 to one or higher. This change could have a substantial effect on total handle; however, it was assumed for purposes of this estimate that this provision will be repealed.

Total parimutuel pools, receipts from horse racing, and the final distribution of such revenue among the various funds are shown below.

**Table 5**  
**Sources and Distribution of Horse Racing Revenue**  
(In thousands)

	1975-76 <i>Estimated</i>	1976-77 <i>Estimated</i>	1977-78 <i>Estimated</i>
Total parimutuel pools...	\$1,300,013	\$1,365,759	\$1,467,185

Fair and Exposition Fund .....	8,593	11,743	12,532
Wildlife Restoration Fund .....	750	750	750

### Other General Fund Revenue—\$449,301,059

Miscellaneous receipts for the General Fund will total \$449.3 million in the budget year; an increase of 12.4 percent from the corresponding figure for the current year and up 21.3 percent from 1975-76. Miscellaneous revenue is made up of eight categories: Medi-Cal aid reimbursements—\$119.0 million; interest income—\$143.1 million; pay patients and county board charges at hospitals—\$21.8 million; traffic penalties—\$23.0 million; General Fund share of liquor license fees—\$8.8 million; private car tax—\$8.4 million; royalties from oil and gas production on state-owned lands—\$5.2 million; and other—including the electric energy tax, telephone users tax, charges for certain services to business and individuals and sales of property—\$120.0 million.

The motor vehicle fuel license tax (gas tax) is a tax on the distribution of gasoline, natural gasoline, and other flammable liquids which are used in propelling motor vehicles, aircraft, and vessels. Distributions of diesel fuel, liquid propane gas, and bunker oil are not included under this tax. The current tax rates per gallon are as follows:

Motor vehicle fuel for highway use .....	7¢
Motor vehicle fuel for off-highway recreational use .....	7¢
Aircraft jet fuel .....	2¢
Fuel used in aircraft .....	7¢
Fuel used in vessels.....	7¢

When the motor vehicle fuel license tax was first imposed in 1923, it was limited to the distribution of fuels used for motor vehicles. In 1969, distributions of jet fuel became taxable at a rate of 2 cents per gallon. In recent years, the total or partial repeal of certain refund provisions has in effect further extended the tax, but revenue available for highway use has not increased. Since 1965, refunds for the distribution of fuel used in aircraft have been limited to 5 cents per gallon. In 1968, the refund provision for fuel used in vessels was repealed. In 1972, refunds for the distribution of fuel used in off-highway recreational vehicles were discontinued. These revenues are apportioned, however, to the fund which reflects the fuel's use; for example, revenues collected from the distribution of motor fuel used in aircraft are apportioned to the Aeronautics Fund.

Gasoline tax revenues are estimated on the basis of average gasoline consumption per vehicle and total vehicle registrations. Consumption levels in 1975-76 increased to 627 gallons, up from 611 gallons in 1974-75. Average consumption per vehicle is projected at 634 gallons for the current year and 637 gallons for the budget year. This forecast recognizes the increased proportion of standard and large size car sales, the high level of car sales in 1977 and 1978, and the improved economic situation which is expected to lead to increased travel. These factors are expected to more than offset the efficiency gains of new automobiles. Finally, the estimate of gasoline tax revenues assumes that the supply of gasoline will be adequate to satisfy demand through the forecast period.

The use fuel tax is imposed on diesel fuel, liquefied petroleum gas, and natural gas for use on state highways. This tax augments the gaso-

line tax in raising revenues for the construction and maintenance of highways.

The enactment of the tax in 1937 was limited to diesel fuels, reflecting the increasing importance of diesel-powered motor vehicles. In 1959 the tax on liquefied petroleum gas was shifted from the gasoline tax to the use fuel tax. In 1970 this tax was extended to natural gas.

The current rates are 7 cents per gallon of motor vehicle fuel (except for local transit systems which pay 1 cent per gallon) or per 100 cubic feet of compressed natural gas, and 6 cents per gallon of liquefied petroleum gas or liquid natural gas. In addition, a person may elect to pay a flat rate fuel tax based on vehicle weight in lieu of the tax on liquefied petroleum gas.

Highway consumption of diesel fuel is estimated by projecting the trend of past distributions with adjustments to reflect changes in the economy. Diesel consumption in 1975-76 increased 10 percent above the 1974-75 level of 750 million gallons. It is expected that consumption will increase to 897 million gallons in 1976-77 and to 978 million gallons in 1977-78 as a result of the improved economy.

Revenues from motor vehicle fuel taxes are shown below:

	(In thousands)		
	1975-76 Actual	1976-77 Estimated	1977-78 Estimated
Gasoline .....	\$710,643	\$744,650	\$772,650
Use fuel .....	55,912	60,000	66,000
Totals .....	\$766,555	\$804,650	\$838,650

#### Motor Vehicle Fees—\$816,722,000

California has imposed motor vehicle registration and weight fees in their present form since 1923. Originally, the Legislature granted permission to local governments to license motor vehicles and to charge a flat fee of \$1.00 per vehicle. In 1913 the State took over the task of registering vehicles and instituted a registration fee based on horsepower. When the state's highway user taxes were revised by the Vehicle Act of 1923, registration fees for all vehicles were established at a flat rate and additional fees based on weight were imposed on commercial vehicles.

Registration fees are levied on all motor vehicles, trailers, semi-trailers and certain types of dollies if they are driven, moved, or left standing on a highway. In addition to registration fees,

commercial vehicles pay fees based on their unladen weight. Weight fees range from \$5 to \$413. The registration fee for most motor vehicles is \$11; since 1975 additional charges ranging from \$50 to \$300 are levied on vehicles with high compression engines.

New vehicle sales in California are estimated to total 1,350,000 units in 1976. In 1977 and 1978, sales are expected to reach 1,470,000 and 1,480,000 units, respectively. New automobile sales are estimated at 910,000 for 1976, increasing to 990,000 in 1977 and remaining at the same level for 1978.

Allowing for scrappage and vehicles entering and leaving California, total fee-paid registrations at year-end are estimated at 16,593,000 for 1976 and 17,138,000 for 1977. Based on these estimates, registration and weight fees are expected to total \$326,479,000 in the current year and \$331,722,000 in the budget year. Drivers' license fees and various other charges related to vehicle operation make up the balance of motor vehicle fees. The actual and current year are not comparable because of the impact of year-round registration.

The vehicle license fee, established in 1935, is imposed for the privilege of operating a vehicle on the public highways of California. Only registered vehicles are subject to the license fee. Prior to the imposition of the license fee, motor vehicles were taxed as personal property under the property tax. However, because local administration of the tax on vehicles proved inequitable and easy to evade, the vehicle license fee was

established, and the local property tax on vehicles was repealed. Although it is a state imposed fee, the revenues collected, less administrative costs, are distributed to local government on a population basis.

The vehicle license fee is calculated on the vehicle's "market value"—the manufacturer's suggested base price, not including options, adjusted by a depreciation schedule. For motor vehicles, the schedule is based on a nine-year depreciation period, while for trailer coaches an 18-year depreciation period is used. A rate of two percent is applied to the market value to determine the fee. Revenue from this source is therefore contingent on the number of vehicles in the State, the age distribution of those vehicles, and their original base price.

Total revenues from motor vehicle fees are:

	<i>(In thousands)</i>		
	<i>1975-76 Actual</i>	<i>1976-77 Estimated</i>	<i>1977-78 Estimated</i>
Registration, weight, and other fees .....	\$373,576	\$364,129	\$372,722
Vehicle license fees .....	376,360	423,000	444,000
Totals .....	\$749,936	\$787,129	\$816,722

Other Special Fund Revenue—\$277,493,008

For the most part, nontax revenue flowing to special funds represents regulatory fees on business and professions, charges for special services to designated groups and royalties from oil and gas production on state-owned land.

For the budget year, these revenues will total \$277.5 million compared with \$268.8 million in the current year. Actual receipts in 1975-76 were \$297.9 million.

<sup>1</sup> Population estimated by the State Department of Finance.<sup>2</sup> Personal income, 1950 through 1975, from estimates by the Office of Business and Economics, United States Department of Commerce. Data for 1976 and 1977 are estimates by the State Department of Finance.<sup>3</sup> Taxes per capita computed on the basis of population January 1st, the midpoint of the fiscal year.<sup>4</sup> Beginning in 1966-67 most state revenues were placed on an accrual basis. Beginning in 1973-74, accounts receivable only are accrued.<sup>†</sup> Estimated.

Data may not add due to rounding.

NOTE: Data are shown for 1966-67 on both bases in order to facilitate long-term comparisons.

## LEGISLATIVE COUNSEL BUREAU

## Program Objectives and Description

The objective of this activity is to provide the two houses of the Legislature and the Committees and Members thereof, legal assistance in resolving a large volume of complex legal problems arising in connection with the legislative process, all of which must be resolved within a critical time span. The legal services furnished include opinion, bill drafting, counseling, attendance as Counsel at meetings of committees of the Legislature, and representing the Legislature in litigation. The Attorney-Client relationship is maintained, and all work is confidential.

In addition, this office provides necessary indices and appropriate tables necessary to identify legislative measures, and compiles and indexes statutes and codes.

This office is continuing in the development of a processing system to permit utilization of data processing in bill drafting and other operations of this office. Ultimately it should provide a computer file consisting of a text of all codes which can be used in research by the various state agencies as well as bill drafting.

## CALIFORNIA LAW REVISION COMMISSION

The primary objective of the California Law Revision Commission is to study the statutory and decisional law of this State to discover defects and anachronisms and to recommend legislation to effect needed reforms.

The Commission consists of a Member of the Senate appointed by the Committee on Rules, a Member of the Assembly appointed by the Speaker, and seven additional members appointed by the Governor with the advice and consent of the Senate. The Legislative Counsel is an ex officio nonvoting member of the Commission.

The Commission assists the Legislature in keeping the law up to date by intensively studying complex and controversial subjects, identifying major policy questions for legislative attention, gathering the views of interested persons and organizations, and drafting recommended legislation for legislative consideration. The efforts of the Commission permit the Legislature to determine significant policy questions rather than to concern itself with the technical problems in preparing background studies, working out intricate legal problems, and drafting needed legislation. The Commission thus enables the Legislature to accomplish needed reforms that otherwise might not be made because of the heavy demands on legislative time. In some cases, the Commission's study discloses that no new legislation on a particular topic is needed, thus relieving the Legislature of the need to study the topic.

At the 1976 session, one resolution and 12 bills were introduced upon recommendation of the Commission. The resolution was adopted, nine bills were enacted, one bill was passed by the Legislature but vetoed by the Governor, and two bills were held in committee. The nine bills enacted in 1976 (which added, amended, or repealed approximately 235 sections) dealt with a wide variety of subjects: partition of real and personal property, modification of contracts, relocation assistance, transfer of out-of-state trusts to California, turnover orders under the claim and delivery statute, prejudgment attachment, private condemnation for utility easements, service of process on unincorporated associations, and operative date of eminent domain law.

The Commission plans to submit five recommendations to the 1977 session. The major recommendation proposes enactment of a new comprehensive nonprofit corporation law. Other recommendations deal with wage garnishment procedure, sister state money judgments, liquidated damages, and damages in an action for breach of a lease.

The Commission may study only topics that the Legislature, by concurrent resolution, authorizes it to study. The Commission now has an agenda of 23 topics, including six new topics added by the Legislature at the 1975 session and one new topic added at the 1976 session.

## COMMISSION ON UNIFORM STATE LAWS

### Program Objectives and Description

In conjunction with other states, the Commission drafts and presents to the Legislature uniform laws deemed desirable and practicable by the National Conference of Commissioners on Uniform State Laws. The Commission is composed of four members appointed by the Governor, the Legislative Counsel as a member ex officio, and two legislators. The program is maintained at the same level as previously authorized. Provision is made for the attendance of the commissioners at meetings of the national conference, and California's contribution to the conference.

### PROGRAM REQUIREMENTS

## CONTRIBUTIONS TO LEGISLATORS' RETIREMENT FUND

### Program Objectives and Description

Established in 1947, the Legislators' Retirement System provides retirement and death benefits for legislators, constitutional officers and legislative statutory officers. The State's contribution to the Legislators' Retirement System is an annual appropriation from the General Fund. In addition, the system is financed through member contributions and interest earnings. Administration of the system is provided by the Public Employees' Retirement System.

## JUDICIAL

Article VI of the Constitution creates the Supreme Court of California and the Courts of Appeal to exercise the judicial power of the state at the appellate level, creates the Judicial Council of California to administer the state's judicial system and creates the Commission on Judicial Performance to consider complaints against judges.

On November 2, 1976, the voters approved a change in the State Constitution which expanded the authority of the Commission on Judicial Qualifications and renamed it the Commission on Judicial Performance.

Chapter 1139, Statutes of 1976 substantially replaced the indeterminate sentencing of criminal offenders with a system of fixed sentences, for which the Judicial Council is required to adopt rules, collect and distribute sentencing data, conduct annual sentencing institutes, and report on sentencing practices to the Legislature.

Chapters 960 and 1287, Statutes of 1976 set up pilot projects for small claims court reforms and efficiencies in civil procedures respectively.

Chapter 1355, Statutes of 1976 continued the circuit justice court judge program at a reduced level and increased costs to counties which will be reimbursed from the Legislative mandate program.

The phasing-in of the State Public Defender's Office is expected to result in a minimum 20% decrease in fees paid to court appointed attorneys in the Courts of Appeals during 1977-78, the first year of operations.

The Calendar Management Team (OCJP project) has been transferred to General Fund support in 1977-78.

## SUMMARY OF PROGRAM REQUIREMENTS

	1975-76	1976-77	1977-78
I. Supreme Court .....	\$2,707,715	\$2,839,674	\$2,928,023

## Judicial Council Special Projects—O.C.J.P. Grants

## Program Objectives and Description

During the past several years, the Judicial Council has received grants through the Office of Criminal Justice Planning (OCJP), the Office of Traffic Safety, and directly from the Law Enforcement Assistance Administration, and the Foundation for Judicial Education to augment its services to state and local courts. These grants are for the purpose of funding studies and providing essential services designed to improve judicial administration. Accordingly, their focus has been on such key areas as calendar management, reduction of congestion and delay, improving the effectiveness of judicial procedures, training judges and nonjudicial personnel, improving management information systems, expediting trials, and judicial reorganization.

Applications for and acceptance of grant funds are made only after a careful assessment of each proposed project in terms of its relevance to judicial administration priorities, potential impact on the courts and enunciated Judicial Council goals.

SALARIES OF SUPERIOR COURT JUDGES

Program Objectives and Description

The purpose of this budget is to provide for the State's share of the salaries, and health and death benefits for 538 superior court judges in 1976-77 and 542 in 1977-78. The budgeted expenditure for salaries does not exceed the State's share of the monthly salary rate effective on September 1, 1976 and includes 20 additional judges authorized in 1976 legislation.<sup>1</sup> The budgeted expenditure for health benefits includes the State's share of health benefits for those superior court judges enrolled in a state health plan.

In October 1975 the Attorney General issued opinion CV-75-82 which prohibited the enrollment of superior court judges in county sponsored health plans. This resulted in a significant increase in the number of superior court judges enrolled under the Meyers-Geddes Act (state health plan). There will be a need for a \$149,972 allocation from the Emergency Fund in the current year to provide for this enrollment increase.

Legislation was enacted during 1976 (Chapter 1183, Statutes of 1976) which freezes judges salaries at the September 1, 1976 level until July 1, 1978. Beginning then judges will receive annual cost-of-living increases, not to exceed 5 percent. The effect of this legislation will be to reduce judges salary expenditures during 1977-78 and each year for which the cost-of-living increase exceeds 5 percent.

The following table shows the contributions by the State and by the county towards the salary of each superior court judge as provided under Sections 68202, 68203 and 68206 of the Government Code as of September 1, 1976:

Population of County	State Share	County Share	Total
250,000 or more .....	\$39,666	\$9,500	\$49,166
40,000 to 249,999 .....	41,666	7,500	49,166
40,000 or under.....	43,666	5,500	49,166

Program Requirements

	1975-76	1976-77	1977-78

<sup>1</sup> Four of these judges are budgeted only in 1977-78 because a County Board of Supervisors resolution is required before appointment can be made (Chapter 726/76).

## STATE BLOCK GRANT FOR SUPERIOR COURT JUDGESHIPS

### Program Objectives and Description

The state block grant for superior court judgeships budget reflects state policy that, effective January 1, 1973, the state will provide a \$60,000 annual block grant for each new superior court judgeship created.

This block grant is deemed to be the full support cost for each new judgeship created and is in addition to state contributions to counties towards the salaries, retirement, health and death benefits of superior court judges.

Past year total expenditures include \$120,000 in funds carried over from the 1974-75 fiscal year. The allocation of these funds was contingent upon the enactment of a county resolution. The resolution was enacted in 1975-76 and funds were subsequently allocated.

The 1977-78 Budget Act appropriation contains a block grant appropriation for each of 55 judgeships authorized since January 1, 1973. (One judgeship was authorized in 1973-74; 15 in 1974-75; 17 in 1975-76; 18 in 1976-77 and four <sup>1</sup> in 1977-78)

## CONTRIBUTIONS TO JUDGES' RETIREMENT FUND

### Program Objectives and Description

The Judges' Retirement fund receives contributions from the state in the amount of 8 percent of the salaries for the established judgeships of the justices of the Supreme Court, District Courts of Appeal and the Superior and Municipal Courts. A like amount is deducted from the salaries of active justices and judges and deposited in the fund.

In addition, filing fees of \$3 from specific civil cases, investment income, Budget Act appropriations and emergency fund allocations are used to maintain the solvency of the retirement fund.

The budget provides contributions for the following numbers of judges by type of court:

Type of Court	Number of Judges		
	1975-76	1976-77	1977-78
State Operations:			
Supreme .....	7	7	7
Appellate.....	56	56	56
Local Assistance:			
Superior.....	520	536	538
Municipal .....	425	444	445

### Authority

## NATIONAL CENTER FOR STATE COURTS

The National Center for State Courts was established in 1971 to act as a focal point for judicial reform; to serve as a catalyst for setting standards for fair and expeditious judicial administration; and to find and disseminate answers to the problems of state judicial systems. The National Center consists of a headquarters office which is located in Denver, Colorado<sup>1</sup> and six regional offices. (One of which is located in San Francisco, California.) The National Center is funded through grants from the Law Enforcement Assistance Administration with the necessary cash match provided by donations from private foundations and more recently from state membership fees. California's membership fee of \$14,000 was set by the Center's Board of Directors, as in all states, on the basis of population and represents approximately 7% of the total state fees requested.

In return for membership fee payment, each state will receive basic services provided by the National Center including copies of current publications of its research and study teams; short-term consultative services; responses to requests for information hard to get elsewhere; judicial salary reports; and various states' views on federal legislation and other national programs affecting the judicial system.

## SECRETARY FOR AGRICULTURE AND SERVICES

### Program Objectives and Description

The Secretary for Agriculture and Services provides communication, coordination, and policy guidance between the chief executive and departments within the agency and is the "conglomerate" agency of state government. The Secretary has the power of general supervision over, and is directly responsible to the Governor for the operation of Department of Food and Agriculture, the Department of Industrial Relations, the Department of Consumer Affairs, the Department of Veterans Affairs, the Department of General Services, the Office of the State Fire Marshal, the Franchise Tax Board, the State Personnel Board, the Public Employees' Retirement System, the State Teachers' Retirement System, the Museum of Science and Industry, and the California Public Broadcasting Commission.

In addition to these powers and duties, the Secretary is responsible for administering the state plan for the development and enforcement of occupational safety and health standards (Cal/OSHA), and the Intergovernmental Personnel Act Advisory Council. The Secretary has also been designated liaison between the Governor and the Agricultural Labor Relations Board.

In addition to powers of supervision over the departments, the Secretary functions as an adviser to the Governor, a communications link between the Governor and the departments, a coordinator of the activities of these departments and other units of government, and a member of the Governor's Cabinet.

*Public Works Employment Act of 1976 (Title II) funds will be used to develop a Statewide Pesticide Use Plan and an accompanying Environmental Impact Report in compliance with the California Environmental Quality Act. The expenditures and personnel years are reflected in Employment Development Department's budget with other Title II projects.*

### Authority

Government Code, Sections 12800 and 12804.

## Governor's Office SECRETARY FOR BUSINESS AND TRANSPORTATION

### Program Objectives and Description

The Secretary of Business and transportation is a member of the Governor's cabinet and the personal advisor to the Governor on policies and programs relative to transportation and business regulatory activities. The agency consists of the following departments:

- The California Highway Patrol
- The Department of Motor Vehicles
- The Department of Transportation
- The Office of Traffic Safety
- The Department of Alcoholic Beverage Control
- The Department of Banking
- The Department of Corporations
- The Department of Housing and Community Development
- The Department of Insurance
- The Department of Real Estate
- The Department of Savings and Loan
- The California Job Creation Board
- The Housing Finance Agency

Also within the agency is the Teale Data Center and the Alcoholic Beverage Control Appeals Board.

The Agency anticipates continuation in the budget year of a \$200,000 federal economic development planning grant, previously authorized under a Section 28 letter, at the same level as current year. The Agency is allocating the major portion of grant funds to other departments to facilitate economic development research and planning activities on an interdepartmental basis. Two currently authorized positions will be used to coordinate the program.

Technological advances, which have resulted in the development of Electronic Funds Transfers Systems (EFTS), may lead to fundamental changes in the nature of the nation's payments system, with far reaching impacts on consumers and financial institutions. In order to analyze a number of important public policy issues and questions posed by EFTS, a task force has been formed, consisting of the Departments of Banking, Savings and Loan, Corporations and others. Funds (reimbursements) in the amount of \$100,000 will be managed by the Business and Transportation Agency, with reimbursements from the Departments of Banking (\$40,000), Savings and Loan (\$40,000) and Corporations (\$20,000). A currently authorized position will lead the task force.

### Authority

Sections 13975-13988 of the Government Code.

## Governor's Office SECRETARY FOR HEALTH AND WELFARE

### Program Objectives and Description

The Secretary for Health and Welfare provides a focal point for major policy and program formulation in health and welfare matters for millions of California citizens. Approximately 51,000 employees work in the departments of the agency administering programs with a combined budget total in excess of \$11 billion in state, federal, and county funds.

The Health and Welfare Agency provides the basic "people" services for the State's health, employment, and welfare programs. It is also responsible for the State's correctional activities for both juveniles and adults. The Secretary of the Agency insures coordination among seven departments of: Benefit Payments, Corrections, Employment Development, Health, Rehabilitation, Youth Authority, Aging and the Office on Alcoholism.

Included within the Agency Secretary's Office has been an EDP Feasibility Study and Implementation Task Force. This Task Force was originally scheduled to terminate December 31, 1977. It is now proposed that the Task Force be continued until June 30, 1978. Prior to the end of the 1976-77 fiscal year, a feasibility study will be completed suggesting a more appropriate organizational location for the Task Force. It is further proposed that the Task Force be transferred to that location, once identified.

An Administration reorganization plan merging the State Office of Narcotics and Drug Abuse with the Substance Abuse Program of the Department of Health effective July 1, 1977, will be submitted to the Legislature in accordance with provisions of the Government Code. The Health and Welfare Agency has designated a Coordinator of the drug efforts of four departments within the Health and Welfare Agency (Corrections, Health, Rehabilitation, and Youth Authority) and the related functions in the Department of Education and Justice.

The Agency has also been administering a Displaced Homemaker's Pilot Program in Alameda County. Chapter 1063, Statutes of 1975, which established this pilot effort, provides for its termination January 1, 1978.

*The Agency is proposing to establish three positions in the budget year. One position will provide liaison with the Department of Health. Another position is being proposed to function as the Native American Coordinator pursuant to Executive Order B14-76. The third position will provide clerical support.*

#### Rural and Migrant Affairs

California has led the United States in farm and ranch production for twenty-eight consecutive years. From only two percent of the nation's farms, California accounts for nine percent of the nation's marketings of agricultural crops and livestock products. Contributing to this impact on the nation's economy is the small percentage of California's population employed directly in cultivating, planting and harvesting the State's crops. Because the size of the population involved is small, it is often overlooked in the planning of governmental programs. Such oversight has manifested itself in the services that are provided to rural areas by state agencies.

In California there are more than two million persons living or migrating in rural areas. They receive services from programs operated by many agencies and departments throughout State Government. In order to assure equity of service to those residents, the Governor directed the Health and Welfare Agency, through the newly appointed Rural and Migrant Affairs Coordinator, to provide leadership in coordinating those state activities which impact on the rural and migrant populations of the State. Prior to the establishment of the Coordinator's position, these programs had no central focal point for coordination and integration of their services.

During the current year the Rural and Migrant Affairs Coordinator has participated in the development of the Farmworker Housing Assistance Plan, worked on an agreement on Migrant Child programs with the State Department of Education, assisted the Department of Housing and Community Development with the preparation of the Housing Finance Pre-Development Loans bill (AB 3623), provided administrative recommendations to the State Department of Health on the implementation of the Rural Health Services Development legislation (AB 2450), and assisted in the establishment of a bilingual task force to disseminate information on rural and migrant programs to local communities.

*In the coming year, attention will be directed primarily to state efforts in five general areas: agriculture, education, employment, health, and housing. It is within these areas that a collaborative effort to strengthen the interdepartmental impact of the State's programs will be made. To this end, the Coordinator of Rural and Migrant Affairs, working with designated agencies and departments, will:*

- identify the needs of the rural and migrant populations;
- identify and systematically describe the services, resources, and state organizations currently serving the clientele group;
- identify the objectives of current departmental activities, and current methods of program evaluation;
- evaluate current departmental objectives, and recommend and secure approval of consolidated interdepartmental objectives by the various agency secretaries;
- compare the current and the proposed departmental activities, and develop and recommend a plan for transitioning to a proposed interdepartmental program;
- establish means to determine whether the interdepartmental plan is carried out properly and the program is on schedule.

*Also, where disputes arise between departments concerning the implementation of rural and migrant policies, the coordinator will act as an arbiter and as an exchange point of information for rural and migrant programs.*

### Authority

## Governor's Office SECRETARY FOR RESOURCES

### Program Objective and Description

The Secretary for Resources assists the Governor in establishing objectives of the administration and in formulating programs and policies governing the acquisition, development, and utilization of resources to obtain these objectives. Towards this goal the Secretary strives to ensure the protection and balanced management of California's natural resources and environment.

The Resources Agency consists of the Departments of Forestry, Conservation, Fish and Game, Navigation and Ocean Development, Parks and Recreation, and Water Resources, the State Lands Division the Air Resources Board, the Colorado River Board, the San Francisco Bay Conservation and Development Commission, the State Reclamation Board, the State Water Resources Control Board, the nine regional water quality control boards, the Solid Waste Management Board, the Energy Resources Conservation and Development Commission, the California Conservation Corps, the California Coastal Commission, the California Coastal Conservancy and Special Resources Programs.

The Secretary for Resources serves as chairman of the Coastal Conservancy, the State Geothermal Task Force, the Wilderness Preservation System Task Force and the Upper Sacramento River Task Force. The Secretary also sits as a member of the Coastal Commission, the California Tahoe Regional Planning Agency, the Tahoe Regional Planning Agency and is an ex-officio, non-voting member of the Energy Resources Conservation and Development Commission. In addition the Secretary is responsible for administering the Sea Grant Program, the Open Space Subvention Program, the California Environmental Quality Act, and the Waterways Management Program of the California Wild and Scenic Rivers System.

The Secretary communicates the Governor's policies and program objectives to the organizations within the Resources Agency, and advises the Governor on major policy and program considerations relative to the Resources Agency. The Secretary also represents the Governor in the coordination of Resources Agency programs in relations with other state, federal, and local jurisdictions.

Four authorized positions have been administratively abolished in the current year. In lieu thereof, the Secretary for Resources is contracting for the equivalent amount of staff assistance from departments within the Resources Agency. Continuation of these contracts in lieu of authorized positions is proposed for the 1977-78 fiscal year.

## Governor's Office OFFICE OF INFORMATION SERVICES

### Program Objectives and Description

The objectives of this program were: to provide comprehensive information services to the public and the news media concerning the programs, services and other activities of state government; to coordinate information activities of the various agencies and departments to ensure that the information system is fully responsive to public and news media needs and desires for information; to provide common services wherever possible to avoid costly duplication and waste; to continually upgrade the professional skills of state information officers, to advise and assist department administrators and information officers on problems concerning communications with the public, the news media and state employees.

The Office provides: (a) a convenient point of contact in Southern California for news organizations seeking information about all agencies and activities of state government; (b) a consolidated service to all radio stations in the state, providing news releases furnished by departments as tape recorded statements suitable for broadcast, but avoiding political statements, controversial materials or advocacy statements; (c) professional development opportunities through workshops and other methods for state information officers; (d) coordination services on the acquisition and uses of video for information purposes among agencies and departments; (e) information program planning, evaluation and problem-solving services for department administrators and their information officers.

During hearings on the 1976-77 Governor's Budget the Legislature discontinued the funding for this office effective July 1, 1976.

## Governor's Office OFFICE OF EMPLOYEE RELATIONS

### Program Objectives and Description

The objective of this program is to assume those functions previously assigned to the Secretary of Agriculture and Services Agency under Executive Order R-25-71. The office functions include: Meeting and conferring with employee organization representatives concerning salary and benefits, representing the Governor in all matters concerning State employer-employee relations, and developing future State policies and procedures designed to improve employer-employee relations.

The Office of Employee Relations in the Governor's Office was established on October 10, 1975, by an Executive Order of the Governor. Funds for the 1975-76 fiscal year were provided as reimbursements from the Agriculture and Services Agency. Beginning in 1976-77 funds were appropriated to the Office of Employee Relations, with a corresponding decrease in the budget of the Agriculture and Services Agency.

### Authority

Executive Order B-7-75 of the Governor.

## Governor's Office OFFICE OF PLANNING AND RESEARCH

In recent amendments to the Government Code relating to state land use planning and the Office of Planning and Research, the California Legislature found that decisions involving the future growth of the State should be guided by an effective planning process and should proceed within the framework of officially approved statewide goals and policies directed to land use, population growth and distribution, air and water quality, and other related physical, social, and economic development factors. The Legislature also found that it is necessary to have one agency responsible for developing state land use policies, coordinating planning of all state agencies, and assisting and monitoring local and regional planning, and recognized OPR as the most appropriate state agency to carry out this statewide land use planning function.

The Office of Planning and Research serves the Governor and his Cabinet and the Legislature as the staff for long-range planning and research, and constitutes the comprehensive state planning agency. The primary responsibilities of the Office are to: (1) formulate, evaluate, and update long-range goals and policies for land use, population growth and distribution, urban expansion, development, open space, resource preservation and utilization, air and water quality, and other factors which shape statewide development patterns and significantly influence the quality of the state's environment; (2) assist in the orderly preparation of intermediate and short-range functional plans by state departments and agencies; (3) evaluate plans and programs of state departments and agencies; (4) assist the Department of Finance in preparing an integrated program of priority actions to implement state functional plans and to achieve statewide environmental goals and objectives; (5) operate the State Clearinghouse and coordinate the development of policies relating to the review of applications for federal grants-in-aid and the preparation and review of environmental impact reports; (6) coordinate state research activities relating to growth and development and the preservation of environmental quality; (7) coordinate the technical assistance provided by state departments.

In order to fulfill these responsibilities, OPR has divided its activities into six program areas: State Policy Development, Local Planning Assistance, State Clearinghouse, Research, Executive and Administration and Office of Appropriate Technology.

The Office of Planning and Research has applied for Title II Public Works Employment Act funds to support continuing program costs. Title II funds are reflected in the budget totals.

### I. STATE POLICY DEVELOPMENT

#### Program Objectives and Description

The major objectives of the Office of Planning and Research's State Policy Development Program are:

(1) to prepare major policy development reports which will expand and update the Environmental Goals and Policy Report and provide the State with a comprehensive set of goals, policies and implementation strategies relating to land use, population growth and distribution, air and water quality, development, urban expansion, open space, and resource preservation and utilization;

(2) to improve the quality of major state functional plans and programs by assisting in the preparation of departmental plans, regularly evaluating the planning documents prepared by state agencies and departments, and resolving conflicts between major state planning documents;

(3) to guide the allocation of state resources by assisting the Department of Finance in preparing, as part of the annual state budget, an integrated program of priority actions to implement state functional plans and to achieve statewide environmental goals and objectives.

During the current year OPR completed the Urban Development Policies Report and began the preparation of rural development policies. In FY 1977-78 OPR will implement adopted urban development policies, complete the Rural Development Policies Report and begin the preparation of economic development policies.

Two positions are being added in the budget year to develop social planning data for California communities. New legislation requires OPR to develop a uniform classification system for social services information, identify key social indicators to be used in preparing social profiles and study the feasibility of establishing a uniform geographic base for reporting on social services.

Two positions are being added in the budget year, and terminated on June 30, 1978, to manage new OPR responsibilities related to the Coastal Zone Act of 1976 and the Santa Monica Mountains Planning Commission.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

## II. LOCAL PLANNING ASSISTANCE

### Program Objectives and Description

The purpose of OPR's Local Planning Assistance Program is to:

(1) develop State objectives to be achieved through local planning and develop programs and guidelines to assist local governments in carrying out state policies;

(2) provide technical, information, and advisory services to local officials, planning staffs and public administrators;

(3) administer federal Housing and Urban Development "701" grants to local jurisdictions and Indian Reservations.

During FY 1976-77 the Office of Planning and Research completed the Local Planning Survey, submitted a statement of local planning goals and objectives to the Legislature, prepared the *Coastal Plan Implementation Manual* in conjunction with the California Coastal Zone Conservation Commission, developed criteria for reviewing local general plans, prepared the *Economic Practices Manual*, and administered sixty HUD "701" grants totaling approximately 3.1 million dollars.

In FY 1977-78 OPR will revise the local planning law, publish new general plan guidelines, review local general plans, and assist in implementing OPR's urban and rural development policies.

Two positions are being added in the budget year to administer and monitor the California Coastal grants.

**III. STATE CLEARINGHOUSE****Program Objectives and Description**

State and federal mandates require OPR to serve as a clearinghouse for information on federal grants-in-aid and federal development projects and to manage the review of environmental documents. During the current year OPR expanded the activities of the State Clearinghouse to include a study of land use and construction permits granted by state agencies, the development of an evaluation and monitoring program to guide state and local agencies in meeting the requirements of the California Environmental Quality Act (CEQA), and the analysis of environmental and economic impacts that may result from major development proposals and the formulation of coordinated state response to these major proposals.

In fiscal year 1977-78 OPR will continue to (1) manage the review of federal grant applications and environmental documents; (2) streamline state procedures for land use and construction permits; (3) monitor, evaluate and improve state and local CEQA practices; and (4) analyze major development proposals.

d. Analyze major projects .....	-	2	2	-	63,320	66,178

**IV. RESEARCH****Project Objectives and Description**

The Office of Planning and Research is required to coordinate state research activities that are directed to the growth and development of the State and the preservation of environmental quality and to render advice to the Governor, his Cabinet, the Legislature and any agency or department of state government. During the current year the research program was expanded in an effort to improve the Office's overall capability to perform its research responsibilities. In addition to providing the Governor and Cabinet with legislative analyses and the capacity to respond to immediate problems the Research Program has included the following longer term projects: (1) coordination of state programs relating to the Westlands Water District and the preparation of a cooperative agreement between the State and the Bureau of Reclamation for the encouragement of family farm development; (2) assessment of the socioeconomic and environmental impacts of petroleum exploration and development on California's outer continental shelf; (3) analysis of state efforts to obtain federal financing; and (4) the administration of Federal Energy Administration grants. Research activities in FY 1977-78 will be determined by the Governor, Cabinet, Legislature, and the Director of OPR. It is anticipated that several of OPR's current activities will be continued in FY 1977-78.

Two positions have been added in the budget year due to the increased workload related to the Westlands project, the cooperative agreement between the State and the Bureau of Reclamation regarding the enforcement of federal reclamation laws, and for coordination of state research programs.

A grant from the California Coastal Zone Conservation Commission allows OPR to extend the Outer Continental Shelf project through the budget year. Eight positions have been added in the budget year for this project.

**V. EXECUTIVE AND ADMINISTRATION****Program Objectives and Description**

This program provides executive leadership and administrative services to the program divisions within OPR. The Director determines policy directions for the Office and works with the Governor and Legislature, and local, State, and Federal officials on matters of concern to the Office and the Administration. The Administrative function provides general management and staff support services necessary for the daily operation of the Office. Major administrative functions include: personnel, purchasing, budgeting, federal grant management, and financial management.

*One additional clerical position has been added in the budget year due to the workload increase created by the increased number of HUD 701 grants, and local costal grants.*

**VI. OFFICE OF APPROPRIATE TECHNOLOGY****Program Objectives and Description**

In May, 1976, Governor Brown created the Office of Appropriate Technology (OAT) (Executive Order B-18-76) and located the Office within the Office of Planning and Research. The State Architect will serve as special consultant/advisor to OAT, and the executive director of OAT will be directly responsible to the director of the Office of Planning and Research. The purpose of OAT is to assist and advise all State agencies in developing and implementing less costly and less energy intensive technologies of recycling, waste disposal, transportation, agriculture, energy and building design. During the current year OAT developed an advisory program to assist State agencies and to advance new perspectives of social and ecological health, resource conservation, and economic directions within the State policy formulation processes. OAT also undertook several special projects including:

- (1) Development of a working model for a residence equipped with energy conserving technology,
- (2) Development of a program to encourage small businesses to retrofit private buildings with solar assisted water heating devices to improve energy efficiency,
- (3) Investigation of the potential for reusing waste heat from electric power generation,
- (4) Evaluation of the acceptability, reliability and cost effectiveness of alternative wastewater disposal systems, and
- (5) Direct assistance to the Capitol Area Plan Team.

In FY 1977-78, OAT will continue to provide technical and advisory services to State agencies, test alternative wastewater disposal systems, and continue direct assistance to the Capitol Area Plan Team. OAT will also undertake special projects similar to those completed in FY 1976-77.

The Office of Appropriate Technology has applied for Title II Public Works Employment Act funds in the amount of \$256,000 for the support of current year and budget year program costs, and for the purpose of initiating new interagency demonstration projects. Title II funds are reflected in budget totals. Eight positions are proposed to support the activities of the OAT.

## Governor's Office OFFICE OF EMERGENCY SERVICES

The principal objective of the Office of Emergency Services (OES) is the coordination of emergency activities to save lives and reduce property losses during disasters, and to expedite recovery from their effects.

On a day-to-day basis, OES provides leadership, assistance, and support to state and local agencies in planning and preparing for the most effective use of federal, state, local, and private sector resources in emergencies. This emergency planning is based upon a system of mutual aid, in which a jurisdiction relies first on its own resources, then calls for assistance from its neighbors. OES plans and programs are coordinated with those of the federal government, other states, and the state agencies and political subdivisions of California.

OES functions as the immediate staff and coordinates organization of the Governor to carry out the state's responsibilities under the Emergency Services Act and applicable federal statutes and it acts as the conduit for federal assistance through natural disaster grants and federal agency support.

### I. EMERGENCY MUTUAL AID SERVICES

#### Program Objectives and Description

This program's objective is to achieve and maintain operational readiness at all levels of government, including provision and effective use of federal, state, and local resources by and for the benefit of jurisdictions whose resources and services are overextended in a disaster situation.

Two positions are proposed new for 1977-78. One is a Fire Coordinator for participation in the FIREScope program located primarily in southern California. One is a Senior Account Clerk for increased workload in the Federal Financial Assistance program. In addition three limited-term positions, one Senior Planner and two Emergency Services Coordinators, are proposed for extension for one more year to cover planning and coordination workload which has been slow in developing at the local level.

In the current and budget years \$101,058 has been added to cover the increased charges to the office of Emergency Services for its share and anticipated usage of the Centralized Microwave Communications System. For 1976-77 it is proposed to cover this amount by allocation from the Emergency Fund.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78

d. Management and maintenance of state mutual aid resources .....	12.9	12.7	9.2	840,855	685,143	431,871

#### a. Provision of Coordination of Mutual Aid

OES maintains fallout protected emergency operating centers at its headquarters and in each of four mutual aid regions. These operating centers are the focal points through which emergency information is disseminated to affected areas, operations coordinated, mutual aid assistance provided, and intelligence gathered for the Governor and his staff.

In addition to various communications facilities, specialized equipment is prepositioned throughout the state, to be made available to local governments in support of mutual aid agreements.

OES administers federal programs that provide funding for disaster relief and contributions for civil defense equipment and personnel and administrative expenses. OES also coordinates the federal surplus and excess property programs for local emergency organizations. The organizational units which manage these programs are being consolidated for more efficient use of personnel.

Chapter 290, Statutes of 1974, placed the administration of the Natural Disaster Assistance Act with the Director of OES, as well as creating the Natural Disaster Assistance Fund in the State Treasury and abolishing certain other funds.

Two positions are extended into the budget year for the Law Enforcement Mutual Aid Training contract to improve the state's capability to coordinate mutual aid among the law enforcement jurisdictions statewide.

**Governor's Office**  
**OFFICE OF EMERGENCY SERVICES—Continued**

<b>Output</b>	<b>1975-76</b>	<b>1976-77</b>	<b>1977-78</b>

	\$65,038,018	\$16,970,432	\$19,849,196

**b. Development and Utilization of Emergency Communications Systems**

The federal National Warning System (NAWAS) extends to the California terminal at OES headquarters, and to 31 key points throughout the state. Interstate emergency communications are also provided through the federal Defense Civil Preparedness Agency's national radio communications equipment.

At the state level, a local government radio system using state microwave facilities provides a communications tie with local governments and selected state agencies for primary direction and control purposes in disaster situations; a fire services radio network provides an emergency communications system for interdepartmental fire communications during mutual aid operations; the intercity law radio network serves as a backup for the NAWAS and for the Department of Justice California Law Enforcement Telecommunications System; a private line teletype system interconnects six of the OES regional operating centers, the Governor's Emergency Operating Center, and OES headquarters.

<b>Output</b>	<b>1975-76</b>	<b>1976-77</b>	<b>1977-78</b>

	<b>1975-76</b>	<b>1976-77</b>	<b>1977-78</b>
	\$889,129	\$1,216,005	\$1,142,841

**c. Development and Implementation of Emergency Plans**

The element's objectives are to review and revise the Governor's orders and regulations, the state emergency plan and supporting plans, and community emergency plans; to assist state agencies and local governments in the preparation of emergency plans to ensure consistency in planning at all levels of government; to maintain and update emergency operating manuals and assist in the preparation of subject matter for training courses and test exercises; and administration of the Dam Safety Act, Chapter 780, Statutes of 1972.

OES received a \$250,000 federal grant on August 30, 1975, extending over 30 months to revise the emergency plan, develop legislation which will allow California to implement new federal programs, and to improve our capability to assist local jurisdictions.

The Nuclear Civil Protection Contract begun November 15, 1976, projects 1.2 positions for the budget year to plan for shelter required to obtain an adequate preparedness posture for California under various nuclear war conditions. The Radiological Systems Maintenance Program Contract extends 3.3 positions into the budget year to provide maintenance and calibration service for all civil defense instrument in California and to conduct training of personnel for past nuclear attack defense.

**Output**

Changes in state government organization and other factors require continual revising of the State Emergency Plan, and supporting plans and the Governor's executive and administrative orders to state departments. A biennial review of local plans and annexes for compatibility with the state plan is also required. Approximately 460 plans or orders are written, revised, or reviewed each year.

**OFFICE OF EMERGENCY SERVICES—Continued**

**d. Management and Maintenance of State Resources**

The state has procured a stock of emergency equipment which has been prepositioned throughout the state. This includes fire pumpers, communications vehicles, portable radio transceivers, police support equipment, and portable aluminum water pipe, as well as installed communications equipment. The state also maintains and controls a stock of federally provided radiation detection equipment strategically positioned throughout the state.

**Output**

This program includes continuing inspection, inventory, and maintenance of prepositioned fire and law enforcement equipment, as well as servicing and exchange each year of about one-third of the over 15,000 radiation detection instrument kits on loan to federal, state, and local agencies.

Expenditures.....	12.9	12.7	9.2	\$840,855	\$685,143	\$431,871

**II. ADMINISTRATION**

**Program Objectives and Description**

Achievement of the overall objectives of OES requires a systematic process of program development, management, and direction. This includes leadership and policy determination in the conduct of emergency activities throughout the state; internal guidance and control in management of the agency's functions; and office services and administrative support for day-to-day operations.

Two organizational units are grouped under this program: (1) Executive: responsible for adoption of departmental policy, direction of ongoing programs, organizational administration, and public information; and (2) Personnel and Office Management: personnel, fiscal administration, accounting, and office services. A modest program to replace and upgrade office equipment is being continued.

## OFFICE OF THE LIEUTENANT GOVERNOR

The Lieutenant Governor becomes Governor when a vacancy occurs in the office of the Governor. He is President of the Senate. He provides leadership in the administration of programs assigned to him by statute and administrative directive.

### PROGRAM REQUIREMENTS

	1975-76	1976-77	1977-78
Office of the Lieutenant Governor ( <i>General Fund</i> ) .....	\$511,343	\$599,211	\$651,871
Personnel years .....	21.7	22	24

### Program Highlights

The work of the office falls into four categories:

- (1) General government functions
- (2) Staff support to the Lieutenant Governor as a member of statutory boards and commissions
- (3) Public assistance
- (4) General office services

### Program Objectives and Description

The Lieutenant Governor has vowed to help make state government more meaningful and more attentive to the needs of all of California's citizens and to help bring its diverse groups together.

Most of the Attention and focus of the office is being directed toward jobs programs, economic development, efforts to define or examine the need for future economic goals and paths for the State of California, to help avoid the boom-and-recession cycles of the past. *The 1977-78 budget proposes an increase of two clerical positions to meet expanding workload, and an increase to cover additional operating expenses.*

### Boards and Commissions

The Lieutenant Governor serves on the three-member State Lands Commission which oversees leasing and control of millions of acres of state-owned land, including the vital offshore oil resources. He is Chairman of the State Economic Development Commission which is responsible for proposing over-all economic plans and approaches for California's future. He heads the Commission for the Californias, an organization of California and Mexican citizens devoted to improving cultural and economic ties and goodwill between California and Mexico.

He also serves on other boards and commissions handling state problems such as land use planning, interstate cooperation and disaster preparation. He serves on the Board of Regents of the University of California and on the Board of Trustees of the State College and University System. He also handles special assignments and special tasks as assigned by the Governor.

### Authority

Constitution, Article IV, Section 6; V, 9, 10; IX, 9. Government Code Sections 8000, 8575, 8700, 13502; Education Code, Section 22600; Motor Vehicle Code, Section 2600; Public Resources Code; Section 6101, Governor's Executive Orders.

## COMMISSION OF THE CALIFORNIAS

## PROGRAM REQUIREMENTS

	1975-76	1976-77	1977-78
Commission of the Californias ( <i>General Fund</i> ) .....	\$65,073	\$71,536	\$73,664
Personnel years .....	1.6	2	2

## Program Objectives and Description

The objective of the Commission of the Californias is to cooperate with Mexican delegations from the State of Baja California and the State of Baja California Sur in the development of mutually beneficial projects in the areas of: (1) agriculture and livestock—its growth and development; (2) economic plans and projects; (3) U.S.-Mexico-California tourism; (4) bilingual education; (5) social and cultural affairs; (6) environmental protection; (7) drug abuse; and (8) law enforcement.

The major organizational principles that have evolved thus far include the promotion of projects that mutually benefit U.S. and Mexican citizens and that provide for better use of human, technical, economic and cultural resources. Understanding, coordination, respect and good neighborliness underly the efforts of the three delegations to the Commission.

The following activities are proposed for fiscal year 1977-78: Continued efforts in the design and formulation of a California Border Region Economic Plan which takes into account such matters as tourism, low-cost housing, bilingual communications, land and property investments, and the cultivation of agriculture by improved irrigation systems. These and similar projects are being viewed in terms of producing meaningful employment along the border region.

Continued cooperation among the professional staffs of the University of California, the University of Baja California and the University of Baja California Sur. Animal husbandry, marine biology and bilingual education are examples of projects that have high interest to the delegations.

## Authority

Government Code, Chapter 8, Division 1, Title 2.

## Output

Restructured committee membership as well as re-definition of goals and objectives.

Assisted and supported the opening of new border gates along the Mexico-California border.

Researched and reported on the feasibility of a border region economic plan.

Rising waters and pollution of the Salton Sea have been given priority by Commission delegates and actively seek a solution for the citizens from the Mexicali and Imperial Valley areas.

Continued to pursue and monitor various programs established in prior fiscal years. Examples of these programs can be described as follows:

Established a viable search and rescue operation on Baja Peninsula to aid Americans traveling by plane, boat or automobile. Provided ambulances and an emergency radio network (hotline) for the peninsula.

Eased clearance requirements for exportation of remains of U.S. citizens who die in Mexico.

Eased restrictions on charter and private aircraft flying into Baja California and generally improved and standardized airfield and runways.

Aided in the establishment and preservation of the ecology of the Baja Peninsula.

Updated a compilation of U.S., California and Mexican drug laws, earlier published as a result of Commission work. Currently, the Commission's drug abuse committee continues as one of its most active.

Assisted in gaining approval for further extension of a program for exchange of teachers and administrators between California and Mexico, initiated by the Commission in earlier years.

Assist in bringing about completion of the Flood Control Channel from Tijuana to San Diego.

Actively support and assist the establishment of a Four-State Border Regional Commission which includes the States of California, Arizona, New Mexico and Texas.

Propose a Joint Committee on prison problems that assists both American and Mexican nationals who encounter difficulties with arrest and imprisonment procedures in either country.

Improved U.S. Customs and Immigration procedures for Mexicans entering California and U.S. citizens entering Mexico.

Protection of the California Coastlines as well as the protection of geological and fossil deposits in the Peninsula.

DEPARTMENT OF JUSTICE

The Department of Justice, through the constitutional office of the Attorney General, as the chief law officer of the State, has the responsibility to ensure the uniform interpretation and enforcement of the laws and to represent the State in civil and criminal proceedings. The Attorney General represents the people of the State of California in all matters before the Appellate and Supreme Courts of the State and of the United States. The Attorney General is the legal representative of all beneficiaries of property dedicated to charitable purposes.

The objectives of the Department of Justice are as follows: To provide skillful and efficient legal and investigative services in assuring that all state laws are adequately and uniformly enforced and in providing assistance to district attorneys in the administration of justice and in serving as legal counsel for state officers, boards and commissions; To eliminate fraudulent, unfair and illegal activities from all phases of public activities and to enforce compliance with legal requirements; To provide identification, criminalistic, informational, investigative, statistical, and communication services to agencies administering criminal justice and to suppress the traffic in narcotics and dangerous drugs.

I. LEGAL SERVICES

Program Objectives and Description

The Department of Justice, under the direction of the Attorney General, provides legal advice, assistance in representation for and to the various state departments, boards and commissions. The Department represents the State on all criminal matters before the Appellate and Supreme Courts. It investigates and assists local agencies in prosecution of investment frauds and business crimes; registers and reviews all charitable trusts; enforces antitrust laws; assists in protection of the public from fraudulent and unethical practices and investigates complaints of discrimination in order to ensure the constitutional rights of all individuals.

The program's primary objective is to maintain uniform and adequate enforcement of the laws of the State and protection of the citizens' interests by providing skillful and efficient legal services:

Authority

California Constitution, Article V, Section 21; Government Code, Title 2, Division 3, Part 2, Chapter 6; and Government Code, Title 2, Division 3, Part 6.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

**DEPARTMENT OF JUSTICE—Continued****a. Civil Law**

*Fifteen and a half attorneys and 12.3 support positions are proposed for 1977/78 in the following legal services programs of the Division of Civil Law; one attorney for the Department of Consumer Affairs, four attorneys for the employment/personnel workloads of a variety of state agencies, one attorney for the Departments of Real Estate and Corporations, one-half attorney for the Governor, the Legislature and other clients of the Government Law Section, six attorneys for the Departments of Health and Benefit Payments, one attorney for the Tax Law workloads of the Department of Benefit Payments and the Franchise Tax Board, and two attorneys for the Tort caseload for a variety of General Fund agencies.*

*Six new positions are proposed for the Victims of Violent Crimes program in addition to the current year reclassification of five Special Agents to Claims Specialists positions.*

*A reduction of 6 attorneys and 4 support positions is proposed for 1977/78 due to insufficient reimbursements for the Uninsured Employers Fund, the Occupational Safety and Health Act and Special Fund agency Tort programs.*

**Professional and Vocational Licensing**

The Professional and Vocational Licensing Section represents the 38 licensing agencies within the Department of Consumer Affairs in its efforts to protect the consuming public from unprofessional or deceptive conduct by various licensed professionals and various licensed businesses.

This representation includes issuing of formal and informal opinions to clients and the prosecuting of administrative hearings to deny, revoke or suspend a professional or business license. The work includes legal representation of the client in the Federal and State trial and appellate courts. Further, the section seeks injunctions in court to prevent unlicensed activity or repeated illegal acts by a licensee.

**Public Licensing Section**

The public licensing section provides legal advice to and represents various state agencies in their litigation in various areas of law including personnel-employment-labor law, educational law, administrative law, contract law, occupational health and safety law, and housing law.

This section also represents those agencies which are concerned with employee-employer relationships such as State Personnel Board, Department of Industrial Relations, Public Employees' Retirement System and State Teachers' Retirement System. Because most of the work of these agencies centers about administrative law problems, this section also represents the State College System, the Commission for Teacher Preparation and Licensing and the California Community Colleges.

**Business Law Section**

The business law section provides legal advice for and represents in litigation those departments administering laws designed to protect the public in their business transactions and the safekeeping of their funds. These departments are the Departments of Insurance, Banking, Corporations, Real Estate, and Savings and Loan. In many instances, the litigation is complex, time consuming, involves many millions of dollars, and concerns the interests of thousands of investors.

This section also carries out the Attorney General's responsibility for maintaining a continuing investigation of statewide investment frauds and assisting district attorneys in the prosecution of persons engaged in fraudulent investment schemes. This area of concern relates to investments in real estate developments, franchises, securities, syndications, and generally the efforts of promoters to secure funds from unsophisticated investors. Where possible, the Attorney General seeks to recover these funds for the defrauded investors.

**Government Law Section**

The Government Law Section acts as counsel for a variety of clients including the Governor, Lieutenant Governor, Secretary of State, Controller, Treasurer and Director of General Services as to matters which do not fall within the expertise of other department sections. It prepares legal opinions, formal and informal, and provides day-to-day legal advice to these clients and other state officers and agencies, to members of the Legislature and to civil counsel for the 58 California counties pursuant to Government Code Section 12519. In addition to providing advice and handling litigation not involving the specific duties of other sections, the Government Law Section has expertise in and provides advice and handles construction contract litigation, election matters, and purity in government matters for a broad group of clients.

**Public Welfare Law**

The public welfare law section provides legal services to the state agencies concerned with health, education and welfare: the agencies that spend the bulk of the tax dollars. Services include extensive litigation in federal and state trial and appellate courts, administrative proceedings, written opinions, informal advice, drafting or approving proposed legislation and regulations. Litigation includes complex constitutional issues of national importance.

**Tax Law**

The tax law section protects state revenues by representing state taxing agencies in collection actions as well as in refund matters in which the validity or application of a tax statute is challenged. Some of the refund actions involve millions of dollars in state revenues. This section is also involved in the property tax field in advising the State Board of Equalization as well as in advising county legal representatives. Advice on tax matters to the legislature, state agencies and appropriate county officials is often rendered.

**Tort and Condemnation Section**

The tort and condemnation section is responsible for the preparation for trial, and trial or settlement of (1) tort actions filed against the State or its employees except those actions involving highways or vehicle accidents covered by insurance of State-owned vehicles, (2) condemnation matters for the principal departments of the State except for the Department of Transportation, and (3) actions against the State for damage to property, such as inverse condemnation actions. Most of the trial work is jury trial work. Appellate work is also handled. The section supervises investigations, renders advice to the State Board of Control and makes appearances before that Board in connection with claims filed against the State.

This section defends the Subsequent Injuries Fund. It is also charged with the responsibility of representing the State in the "Death Without Dependents" Program, a program which seeks to collect for the State those workers' compensation benefits when a worker dies without dependents as a result of an industrially caused death.

This section also includes the unit that verifies and recommends to the Board of Control on claims filed under Victims of Violent Crimes legislation and handles all litigation involving such claims.

## b. Criminal Law

One attorney and 0.8 support positions are proposed for the Appeals workload of the Criminal Law Division for 1977/78. A reduction of 2 attorneys and 1.6 support positions is proposed due to a decrease in reimbursable advice and consultation services for the Departments of Corrections and Youth Authority.

Sixteen positions are proposed to meet the increased workload of the California Parent Locator Service.

A reduction of 1 position and \$392,132 is proposed due to the lack of reimbursement support for the Legal Information for Law Enforcement (LILE) program.

The Criminal Law Division carries out the Attorney General's duty to represent the prosecution on all appeals filed by defendants in criminal cases in the Courts of Appeal and the Supreme Court in California. The division also represents the State and its officers in actions in both federal and state trial and appellate courts in which writs of habeas corpus, mandate, prohibition and coram nobis are sought by prisoners or defendants in criminal cases. When the United States Supreme Court grants review in any of these cases, lawyers assigned to appeals and writs appear in the high court on behalf of the people of the State of California.

The duties of the Attorney General under Article I, Section 13 of the California Constitution to assist district attorneys to investigate and prosecute crime in cases of disqualification or other inability of the district attorney to act are performed by lawyers of the Criminal Law Division. These lawyers also defend the State and its officers in actions filed by state prisoners in federal court under the Federal Civil Rights Act. They investigate misconduct by judges at the request of the Judicial Qualifications Commission and marshal and present evidence of such misconduct to special masters, the Commission and the California Supreme Court. The enforcement of the criminal provisions of the Political Reform Act of 1974 is the responsibility of the Criminal Law Division.

Criminal Law Division attorneys review all extradition requests before action by the Governor. The division provides the Governor, legislators and both state and local law enforcement agencies with opinions and advice relating to the interpretation and enforcement of the criminal law. The Criminal Law Division also operates the Parent Locator Service which collects and distributes information concerning the location of absent parents to aid in the enforcement of the parents' duty to support their children.

A summary of the caseload and attorney assignments is set forth below:

Totals .....	309.5	327.9	322.6	\$8,002,040	\$9,565,095	\$9,638,343

## c. Special Operations

Seven and a half attorneys and 6 support positions are proposed for 1977/78 in the following legal services programs of the Division of Special Operations; 2.5 attorneys for the Governor, the Air Resources Board and the Department of Parks and Recreation, four attorneys for the State Lands Commission, and one attorney for the Department of General Services' property acquisition program. Additional temporary help funds are proposed for the Consumer Protection program.

The special operations element is primarily responsible for the protection of the public's right and interests through legal representation in the following program components:

## Public Resources Law

The Public Resources Law component provides court representation, formal legal opinions, and informal legal advice and consultation to the various state agencies responsible for administering and enforcing the laws and programs adopted for the purpose of securing the beneficial use and protection of the State's natural resources—its fish and wildlife resources, and its water, air and timberland resources, beach and state parks, and its coastal zone resources. It is also responsible for all water rights litigation on behalf of all agencies of the State. In addition, it provides legal services to the Department of Food and Agriculture.

## Land Law

The Land Law component handles all litigation and advises on all major legal problems arising from the administration of state-owned lands by the State Lands Commission. These lands consist of 4,000,000 acres of tide and submerged lands and lands underlying navigable rivers and lakes and 600,000 acres of lands in the public domain granted to the state. The value of these lands, including minerals and timber therein, is estimated at \$10.5 billion. Annual revenues therefrom aggregate over \$14,000,000 and constitute the State's largest source of non-tax revenue. This component also handles the question of public rights in private lands arising by implied dedication. Especially affected by this doctrine are littoral lands, including 3,400 miles of frontage on tidal waters and 1,400 miles on navigable, nontidal waters. By statutory mandate, the component establishes the criteria for the Department of General Services to determine whether such public rights exist in certain lands to insure that the price which may be paid for any private rights in such lands reflects the existence of such public rights. Over \$80,000,000 in appropriations are affected by these criteria and investigations and review by this component.

This component also represents the Division of Oil and Gas and the Geothermal Resources Board. The imposition of new responsibilities upon the supervisor, especially in the area of environmental regulation of surface oil and gas operations, has increased the workload of this component for this client as well.

## Statutory Compliance

The statutory compliance component is responsible for the protection of all charitable gifts. It is incumbent upon this component to investigate and discover all instances of maladministration and wrongdoing by charitable trustees, individual and corporate. The law requires charitable trustees and charitable corporations, with certain exceptions to register and file periodic financial reports. The registry of Charitable Trust receives these records which are processed, audited, and examined for any indications of irregularity in administration.

This component is also responsible for representing the State in probate proceedings which have the possibility of charitable gifts and escheats. This component also represents the Controller in recovering unclaimed or abandoned property.

The Antitrust Unit is given the authority and obligation to enforce the antitrust laws to foster and protect our free enterprise system. This involves bringing criminal proceedings and civil actions.

The antitrust unit brings actions to recover treble damages suffered by government agencies and sometimes the public. In addition to proving liability, a major task is to establish and prove the dollar amount of the financial injury. This involves the determination and comparison of the prices actually charged with the price that would have been charged under competitive conditions. In addition to recovery of treble damages, identifiable costs involved in the investigation and prosecution are also recovered.

Another component of this section is the constitutional rights unit which represents the Fair Employment Practices Commission and the Commission on the Status of Women. It also investigates activities which may deprive individuals or organizations of their constitutionally protected rights and may file lawsuits in behalf of the people of the State on the basis of facts disclosed by such investigations.

## DEPARTMENT OF JUSTICE—Continued

## Environment and Consumer Protection

The Consumer Protection Unit acts initially as a clearinghouse for complaints which come from other law enforcement agencies, business organizations, businessmen, and from individual consumers. Complaints received are either investigated, or in many cases litigated, or referred to other government agencies for appropriate action. Advice is also provided to state and local agencies on problems relating to consumer protection laws, and meetings are held with district attorneys and other enforcement agencies to inform them of recent statewide fraud operations and methods for dealing with them.

The Environmental Unit is primarily responsible for the legal enforcement of environmental laws in unregulated or inadequately regulated areas. The major areas of legal enforcement are land use, enforcement of the California Environmental Quality Act, protection of natural resources, air pollution, water quality, forestry and the National Environmental Policy Act.

## II. LAW ENFORCEMENT

## Program Objectives and Description:

The Division of Law Enforcement provides efficient and effective statewide services in the following fields: Identification of persons and property, criminalist services, technical and special investigative training, statistical and communication services and selected special operational investigations. The division also works to suppress the traffic in narcotics and dangerous drugs and to identify and prevent infiltration of organized crime.

The division is organized into five branches and an executive office. Enforcement and investigation branch supports other law enforcement agencies through investigative assistance, liaison and training, as well as performing special investigations. Identification and information branch provides identification services on individuals and property along with relevant information, including statistics relative to crime and delinquency. Investigative services branch furnishes specialized criminalistics and other technical services to law enforcement agencies. Organized crime and criminal intelligence branch gathers and disseminates information about organized crime. The Law Enforcement Consolidated Data Center provides data processing and telecommunications services to the division and acts as liaison with all users of division information services.

## a. Executive

The Division of Law Enforcement, Executive Office, is charged with the responsibility for the administration of the Division of Law Enforcement, which includes the planning, organizing, directing, coordinating, and facilitating of law enforcement activities in the Department of Justice. The Program Support Bureau, within the Executive Office, is charged with the responsibility of general administrative support activities, program evaluation, and staff support to the director.

The overall need for the Criminal Record Security Unit is to prevent the misuse of criminal offender record information and to insure that the citizen's rights to privacy will be protected while still providing the necessary access to information by authorized criminal justice agents. The Criminal Record Security Unit is responsible for the following programs: (1) training of local agency personnel in the use and security of criminal records; (2) developing and implementing California's plan for complying with the Federal Security and Privacy regulations; and (3) auditing of local user agencies for compliance with the state and federal privacy and security regulations.

The Compliance Section is responsible for the administration of three programs: (1) facility inspections; (2) facility security; and (3) internal discipline investigations.

Due to the types of services offered by the Division of Law Enforcement, coupled with the confidential types of information and intelligence maintained and stored by the division's various branches, there is a need to insure the protection of the division's personnel and property by providing adequate internal and external security for the department's various physical facilities. In addition, the Compliance Section is also responsible for conducting internal personnel investigations. Due to the confidential nature of the records and information stored and maintained by the Division of Law Enforcement, there is always a danger that such information may be illegally compromised.

As chief law officer of the State, the Attorney General is obligated to provide guidance, training and assistance to local law enforcement agencies. Field representatives provide training for local personnel, coordinate Division programs, support the Attorney General's field activities, implement new projects, identify and resolve problems, and provide feedback in a manner which will allow the Division of Law Enforcement to react to local problems and changing requirements.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	(38.8)	(38.7)	(37.1)	(\$2,984,403)	(\$3,241,920)	(\$2,597,053)
Special Item of Expense—facilities expense .....	—	—	—	—	—	314,186

## b. Enforcement and Investigations

*Five positions are proposed for Tort investigation workload.*

Two major functions comprise the greater part of the enforcement and investigation branch. The investigation and narcotic enforcement functions seek to insure uniform enforcement of the law in California by providing to local agencies access to specialized training and investigative personnel which, for reasons of economy or practicality, would not otherwise be available to most of California's political jurisdictions. They also provide the capability to pursue investigations across local political boundaries and serve as investigative and enforcement arm of the Attorney General in the fulfillment of his constitutional and statutory responsibilities.

The bureau of investigation provides field investigative assistance to local enforcement agencies in the solution and prosecution of major crimes. These investigations are of extreme importance to the community and often involve multicounty offenses. Investigations are performed of organized crime activity throughout the state. Other investigations are conducted as directed by the Attorney General, upon the request of the Governor, Legislature, or state agencies. Special agents of this bureau also conduct investigations of claims made against the state and agencies administering special funds to prevent fraud and undeserved payments. Investigations are conducted and assistance rendered to local agencies in the areas of consumer and investment fraud. Many of these cases are investigated for other state agencies on a reimbursement basis.

Special agents within the narcotic enforcement function, assigned to the six area offices throughout the State, work undercover to infiltrate the narcotic traffic, develop intelligence and gather evidence which results in the apprehension of major narcotic violators and their sources of supply. They assist local agencies in controlled substances investigations that are beyond local capabilities and they pursue investigation of cases that are of statewide or multijurisdictional character. This function administers the triplicate narcotic prescription system, which prevents the diversion of licit supplies of narcotics into illicit channels; has direct responsibility, by law, for the control of drug violations among narcotic registrants and licensees; in cooperation with the Department of Justice advanced training center provides on-the-job training seminars and formal classroom instruction in the techniques of narcotic enforcement for bureau personnel and personnel of local law enforcement agencies and makes public presentations before civic and professional groups.

Additional responsibilities at the branch level include maintenance and operation of the Department of Justice radio communications network throughout the State.

## c. Investigative Services

Twenty-two positions are proposed in the third and final phase of the development of criminalistics laboratory services to state and local law enforcement.

The Investigative Services Branch provides criminalistics and related forensic science services to sheriff, police coroner, district attorney, state and local law enforcement departments and the courts of California. The specialized technical services furnished include the examination and analysis of physical evidence, questioned documents, latent fingerprints, photography services and polygraph examinations. The chief task is to process, examine, analyze and compare a wide variety of physical evidence and to interpret the significance of the scientific findings to law enforcement agencies and the courts.

Scientific laboratory services have been furnished by the State on a limited scale to law enforcement agencies and the courts since 1931. Since 1971, a system of regional satellite laboratories has been established, using federal funds made available through the Office of Criminal Justice Planning and the Governor's Office of Traffic Safety. Full-service regional laboratories are located in Redding, Santa Rosa, Sacramento, Modesto, Fresno, Salinas, Santa Barbara and Riverside. Satellite or limited service laboratories devoted mainly to blood-alcohol and controlled substances analysis are located in Oroville, San Rafael, Stockton, San Luis Obispo, West Covina, Santa Ana and San Diego.

This program has met the need of the California Highway Patrol and other police agencies engaged in the enforcement of traffic laws. Every county in the State is now equipped to carry out the provisions of the implied-consent law concerning chemical tests.

The sum of approximately \$9.1 million, derived from federal sources will have been expended by June, 1977, for salaries, training, equipment, and the building of laboratory facilities.

In fiscal year 1975-76 the Fresno and Redding Labs were converted to state funding at the cost of \$423,723. Federal funding for Santa Barbara, Salinas, Riverside and a portion of the Sacramento Regional Lab terminated on June 30, 1976.

A request for state funds in the amount of \$985,796 from the General Fund for these laboratories and \$691,180 from Motor Vehicle funds for the Uniform Blood-Alcohol Program was approved for the 1976-77 fiscal year.

Specialized technical services, in addition to criminalistics, are provided in the fields of questioned-documents analysis, latent fingerprint examination, polygraph examination and photographic services to the entire Criminal Justice System from the Sacramento Office. Because of the increasing requirements for services in the far reaches of the State, some of these services are being provided to the other regional laboratories through the assignment of personnel qualified to carry out these duties. As workload factors dictate, additional personnel to perform these services may be implemented in other regional facilities. The Department will make such assignments to assure prompt and efficient work on a cost-effectiveness basis in connection with major cases being local agencies which are served by the regional laboratories.

<sup>1</sup> Positions and dollars are expenditures from the General Fund and reimbursements for the investigative services branch and do not include grant expenditures for criminalistic or blood-alcohol regional and satellite laboratories.

## DEPARTMENT OF JUSTICE—Continued

## d. Identification and Information

A total of 44.7 positions are proposed for conversion of the comprehensive data system federal grant. Thirty-six positions are proposed for the Bureau of Identification for workload. Thirty-six and one-half positions previously established to process fee supported non-criminal identification work is being converted from revenue to General Fund on a one time basis to properly reflect a shift in workload. One and one-half positions are added on a workload basis for the Failure to Provide Unit.

The identification and information branch is comprised of three main components; the executive office, the bureau of criminal statistics; and the bureau of identification; all serve to provide identification and criminal information services to all law enforcement agencies. The executive office is the administrative function of the branch, providing policy and direction to all branch activities performed by the two bureaus (BCS, BID).

The Bureau of Criminal Statistics compiles, analyzes, interprets, and reports statistical facts on crime and delinquency, the processes of criminal justice in California, and how the agencies who operate the criminal justice system carry out their duties. To do this, the bureau collects data from city, county, and state agencies that administer criminal justice including all levels of courts, prosecutors, corrections, and enforcement agencies. Annual reports are made to the Governor, the Legislature, criminal justice agency administrators and others concerned with crime and delinquency and the effectiveness of agencies that administer criminal justice.

The Bureau of Identification is organized into four major entities—Fingerprint Program, Record Control Program, Record Analysis and Processing Program, and Special Services Program—and two minor entities—Quality Control Program and Technical Services Program.

The Fingerprint Program classifies, searches, and verifies criminal fingerprints submitted by law enforcement agencies and noncriminal fingerprints received from law enforcement, licensing, and regulatory agencies.

The Record Control Program maintains and operates the record folder file which contains the manual master criminal record and supporting documents for the criminal records system. It also maintains and operates a name index providing access to the folder and fingerprint files. Additionally, the Record Control Program maintains an ongoing purge effort which reviews records at specified times and purges them in accordance with record retention criteria established by the Attorney General.

The Criminal Record Purge Program is a federally funded project under the direction of the Record Control Program Manager. This effort is to accomplish a major one-time purge of the folder, fingerprint, and soundex files and to set ongoing review dates for retained records.

The Record Analysis and Processing Program encodes source documents such as fingerprints, dispositions and probation flash notices received from criminal justice agencies and enters this information into the criminal history record.

The Record Analysis and Processing Program is also responsible for creating, updating, and verifying noncriminal records and entries which make it possible for the bureau to provide subsequent arrest information to authorized agencies.

The Special Services Program performs the following functions:

- a. Coordinates for California the National Law Enforcement Telecommunications System;
- b. Processes teletypes for the Department of Justice;
- c. Processes record name checks;
- d. Provides manual criminal record information to criminal justice agencies on a continuous basis;
- e. Provides management control over the Stolen Vehicle System, Automated Firearms System, Automated Property System, Stolen Bicycle System, and the Wanted Persons System;
- f. Monitors the Dealer Record of Sale process relating to concealable firearms and the issuance of permits to carry concealed weapons;
- g. Deals with Record Sealing, Sex Registration, Narcotic Registration, Parent Locator Service, Photo Service, Record Review, Visa Follow-up, Tear Gas Certification, Missing Persons, Unidentified Dead, Parolee Movement List, Humane Societies and Humane Officers;
- h. Disseminates information to criminal justice agencies that relate to the above-mentioned components.

The Quality Control Program ensures that arrest and disposition information is complete and accurate prior to entry onto the criminal record by scanning for completeness and accuracy of all fingerprint and disposition documents received.

The Technical Services Program provides staff support to the Bureau's Administration and line management and maintains the Bureau Mathematical Model which is an automated system that simulates work processing in order to provide comprehensive data analysis of any changes in workload or response time requirements.

The Automated Fingerprint Project is a federally funded project under the direction of the Technical Services Program which will provide an alternative to the manual processing of fingerprints.

## e. Organized Crime and Criminal Intelligence

The Organized Crime and Criminal Intelligence Branch provides the state-level support, leadership and coordination required to develop an effective criminal intelligence system based on mutual cooperation of state, regional, local and out-of-state law enforcement agencies.

The Organized Crime and Criminal Intelligence Branch operates under the authority of the Government Code, Part 6—Department of Justice, Chapter 1—Administration. Article 2 specifically covers the purposes and duties of the Branch under Sections 15024, 15025, and 15028, as follows:

1. To gather, analyze and store intelligence pertaining to organized crime;
2. To provide this intelligence to local, state, and federal law enforcement units;
3. To provide training and instruction to assist local and state law enforcement personnel in recognizing and combating organized crime;
4. To provide a research resource of specialized equipment and personnel to assist local, state, and federal agencies in combating organized crime;
5. To conduct continuing analysis and research of organized crime in order to determine current and projected organized crime activity in California;
6. To initiate and participate in the prosecution of individuals and groups involved in organized crime activities.

The report of the Governor's Select Committee on Law Enforcement Problems, which was submitted to the California Legislature in August, 1973, in reference to organized crime in California, further outlines the function of the State. Six categories are noted for a successful program to combat organized crime. They are (1) to perform continual analysis to determine the nature and scope of organized crime as it changes, (2) to establish a central repository of reliable information about organized crime, (3) to develop a standard organizational pattern of organized crime units, (4) to maintain a mutual assistance program, (5) to conduct training courses for specialists in organized crime, and (6) to provide liaison with federal, state, and local agencies.

The Organized Crime and Criminal Intelligence Branch of the Department of Justice is engaged in all these activities and works constantly to improve and expand its efforts and effectiveness.

This branch carries on a continuing program to determine and analyze the nature, characteristics, magnitude, and trends of organized crime in California. The basis is thus provided for the development of indicators of the presence of organized crime, tactical plans to combat priority organized crime areas, and strategic plans for the prevention of organized crime. Following is a description of the major activities of the branch.

Liaison agents provide a personal link between the Department of Justice and local law enforcement agencies, which makes possible a two-way flow of information and insures the obtaining of complete and accurate data for information. Specialized training programs covering matters relating to criminal intelligence gathering, analysis and dissemination are continually developed, resulting in the upgrading of knowledge and capabilities of law enforcement for effectively combatting organized crime.

A pool of specialized investigative equipment is maintained for loan to local law enforcement agencies. These equipment items are financially out of reach for most local agencies and would not otherwise be available to them. The equipment is used in investigations of fraud, bribery, narcotics, conspiracy, arson, vice, armed robbery and murder. A group of specialists provides technical assistance and training in the use of the equipment.

The branch is the law enforcement clearing house for all types of criminal intelligence. Information is received for criminal intelligence processing and for crime patterns analysis, and is correlated with existing information, analyzed and disseminated in the form of criminal intelligence to federal, state, and local agencies. This is information not usually obtainable through regular police channels. A staff of criminal intelligence agents is responsible for gathering information and for establishing and maintaining liaison and communication links in a continuing move toward making the Department of Justice the central support and coordinating agency for the entire state. Dissemination of criminal intelligence is accomplished in a variety of forms and methods of distribution, including telephone, teletype, individual reports and letters, regular bulletins, special bulletins, computer terminals, personal contacts, and regional meetings.

The branch furnishes administrative support for the nationwide law enforcement intelligence unit (LEIU) through the central coordinating section, which has responsibility for controlling the data base (LEIU subjects), developing, producing and disseminating LEIU subject cards, publication of regular and special bulletins, and coordination of various meetings. A 24-hour day, seven-day week is maintained in this section so that local agencies may receive and disseminate information at any time. This operation also provides criminal intelligence to the Governor's Emergency Planning Council consisting of representatives of the Governor's office, the Department of Justice, the California Highway Patrol, the Office of Emergency Services, and the California Military Department.

Working in a similar relationship with OCCIB is the California Narcotics Information Network (CNIN). The CNIN is an organization formed to promote the exchange of information and criminal intelligence not available through regular police channels in relation to narcotics trafficking. The primary role OCCIB plays is (1) to establish and maintain the central files of information and (2) to provide for its analysis and dissemination to members of the network. OCCIB also provides administrative services such as membership application, processing publication and distribution of

## DEPARTMENT OF JUSTICE—Continued

bulletins, and general coordination of member-agency efforts as needed. OCCIB is represented on the CNIN Board of Directors in an advisory capacity. The organization and activities are federally funded to December 31, 1976.

## f. Crime Prevention and Control

The Crime Prevention Unit offers a number of crime prevention programs relating to both youth and senior citizens. It is also responsible for coordinating the preparation and distribution of numerous crime prevention publications concerning consumerism, drug abuse, the law, and a quarterly journal entitled "Crime Prevention Review" to law enforcement agencies throughout the State.

A crime prevention institute is also an important program to be undertaken by this unit in co-sponsorship with the Peace Officers Standards and Training Commission. This program is designed to offer a sociological as well as urban planning approach for crime prevention law enforcement officers in California.

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	14.9	13.9	14	\$430,473	\$405,676	\$426,151

## g. Consolidated Data Center

Six positions are proposed for Data Center workload.

Chapter 787, Statutes of 1972, established the Law Enforcement Consolidated Data Center as one of four proposed data centers in state government. Division Order No. 73-19 officially established the Law Enforcement Consolidated Data Center on May 21, 1973, to enhance the ability of operating criminal justice agencies to combat crime and criminality; to reduce the multiplication of effort expended to maintain like criminal justice information in many files at all levels of government; and to develop a systematic method of getting complete, accurate criminal record information to the specific decisionmaker in time to be useful for some of the critical decisions relating to arrests, prosecution, court proceedings, and custody.

The Law Enforcement Consolidated Data Center (LECDC) consists of Administration, Communications Administration Section, and the Automated Information Services Bureau, which work as a closely coordinated team to implement and maintain the Criminal Justice Information System (CJIS) equipment and service vendors and users and potential users of CLETS/CJIS; and administer the California Law Enforcement Telecommunication Systems (CLETS). They are responsible for all data processing and telecommunications activities related to the statewide system. The major objectives are to increase the effectiveness of justice administration in California by providing an up-to-date, accurate, centralized criminal record data base; to provide a telecommunications system adequate to meet the needs of law enforcement agencies; to reduce turnaround time in responding to requests for criminal record information from minutes, hours, and days to seconds, minutes, and hours, depending on need related to various data elements; to provide centralized data processing and information services to all bureaus within the department; to provide ready access to the central information source for all criminal justice agencies (large and small), thereby eliminating the need to proliferate the same data in any files throughout California; and to protect the rights of privacy of individuals by placing strict security and confidentiality controls on criminal justice information.

## Program Activities

Law Enforcement Consolidated Data Center administration plans, organizes, and directs all phases of the Law Enforcement Consolidated Data Center, including communications administration, computer operations, system analysis, and design, programming, and data entry; analyzes and makes recommendations regarding proposed legislation affecting criminal justice processes and coordinates the data processing of other branches of the Department of Justice and user agencies such as local police and sheriff departments at the local level and the FBI; acquires, reviews, and processes information in the commission of administering the California Law Enforcement Telecommunications System (CLETS) and the Criminal Justice Information System (CJIS); provides expert technical and operational knowledge of CLETS/CJIS network; communicates daily on an ad hoc basis with all CLETS/CJIS interfacing elements; and responds to both short-range and long-range activities which influence the CLETS/CJIS network.

The communications administration section coordinates with all federal, state, and local law enforcement entities interfacing with the CLETS and CJIS environment; develops plans and policies for CLETS/CJIS; provides consultation to CLETS Advisory Committee and CLETS/CJIS programmer/analyst staff; develops technical guidelines, standards, and long range and operational plans for CLETS/CJIS programs; and provides technical and operational advice, policies, practices and procedures to users and potential users of CLETS/CJIS.

The Automated Information Service Bureau administers analysis, programming, automatic data transcription, and operations associated with the

DEPARTMENT OF JUSTICE—*Continued*

California Law Enforcement Telecommunications System, Criminal Justice Information System, criminal statistics, charitable trust, management information systems, national telecommunications systems (i.e., NLETS, NCIC), and any other intradepartmental automation programs. The performance of this function involves the following activities:

**Operations support** (two large multi-computer centers, data transcription) provides advice and consultation in preparation and evaluation of data processing equipment acquisitions, evaluates requests for data processing services; and acts as operational liaison between DOJ computer operations and other interfacing computer systems.

**Administrative support** administers to the needs of the Automated Information Services Bureau and, in part, of the Law Enforcement Consolidated Data Center, including systems analysis, staff support services, education, training, clerical support, property and supplies control, and personnel transactions.

**Programming support** (a group of highly skilled technical consultants, a resource pool of programmer/analysts, and a procedures/documentation group) coordinates and schedules the allocation of personnel between programs based on departmental needs and priorities; plans and budgets for future resource needs; and establishes and enforces bureau/division standards and policies.

**Technical support** (a collection of interrelated technical data processing functions) provides services in the area of software, telecommunications, and data base administration.

**Applications support** designs, produces, and evaluates the on-line and batch processing automated criminal justice information systems; prepares program and project budgets; allocates personnel and equipment resources; organizes project teams as necessary to provide data processing services for user programs; and maintains primary responsibility for the success of data processing programs provided to intradepartmental units and other statewide criminal justice agencies.

<sup>1</sup> Includes CJIS traffic generated from CLETS as well as video traffic that is entered directly into CJIS.

## h. Grant Projects

**Visual Investigative Analysis Technique (VIA)**

This project is a police improvement program for the development of the visual investigative analysis technique, a new and innovative charting technique, based on the principles of the program evaluation and review technique (PERT), which shows great potential as a tool for the control of major complex investigations.

**Statewide Criminalistics Laboratory System**

This project is for the Department to establish and support regional facilities to handle general criminalistic services in services in eight geographic areas throughout the State.

**Data Analysis Center**

This project provides the State's criminal justice managers an adequate data base for realistic and rational planning for allocation of resources and insures the operational compatibility of systems with NCIC and the California Criminal History File (CCH).

**Fingerprint Automation Prototype and Conversion**

This project is to determine the feasibility of: (1) microfilming the master file of fingerprints, (2) a computerized file search, (3) an automated retrieval system.

**Uniform Crime Reporting System (UCR)**

This project will develop a more accurate knowledge of serious crimes by standardizing the methods and format of crime reporting; an adequate basis for auditing the inputs of 416 separate field agency systems supply, supplying crime statistics; the foundation for a total statewide system; a quality control and audit system to insure uniformity to provide the State's criminal justice system managers and administrators with data to determine where, when and how crimes occur in the State.

**Integrated Program to Combat Organized Crime**

This project is designed to provide central intelligence capability; overall direction for operations, training, research and intelligence; training specifically oriented to the needs of officers in state and local agencies involved in organized crime control activities.

**California Narcotic Information Network (CNIN)**

This project provides for the establishment of a central clearinghouse for collating, analyzing and disseminating narcotics intelligence to the State's local law enforcement agencies.

## DEPARTMENT OF JUSTICE—Continued

**Drug Diversion Investigative Unit (DIU)**

This project forms a multiagency drug diversion investigation unit to investigate and reduce the incidence of drug diversion from legitimate channels. The agencies involved are: Federal Drug Enforcement Administration, State Department of Justice, Consumer Affairs, and the Board of Pharmacy.

**Management and Administration Statistics System**

This project will provide a means of collecting systematic data on expenditures, employment, facilities and equipment in criminal justice agencies; providing this data for processing by the data analysis center; and disseminating reports to provide criminal justice managers with adequate management information for realistic and rational planning necessary for allocating criminal justice resources to achieve maximum benefit.

**Criminal Record Purge**

The criminal record file maintained by the Department of Justice has never been purged and contains the fingerprints of nine million persons with five million of these persons also having a record folder. In January 1974, the Attorney General established criminal record purge and retention criteria. This program will institute these criteria and reduce the above files by approximately 50 percent.

**Offender Based Transaction Statistical System (OBTS)**

The OBTS system is being developed by utilizing a method of uniquely identifying everyone arrested, then tracing their passage through the systems, recording pertinent information about each transaction during the process. OBTS is needed to assess criminal justice activities in order to meet any criminal justice standard which may be developed as a result of the National Advisory Commission on Criminal Justice Standards and Goals.

**State Technical Assistance Capability**

State technical assistance will serve the State's needs for a vehicle disseminating information on resources available to the criminal justice system.

**Privacy and Security**

This project will provide for the development of California's plan for complying with the LEAA regulations for implementing Section 524(b) of the Omnibus Crime Control Safe Streets Act of 1968, as amended.

**Automated Criminal Intelligence Index**

This project will provide an automated index to the criminal intelligence document file to enable inquiring criminal intelligence analysts rapid access to data and an ability to summarize data on organized crime activities in California.

**Western Regional Training Institute**

This project will develop the Regional Organized Crime Training Center, which will continue and expand California's organized crime training program. It will extend the benefits of training in the investigation and prosecution of organized criminal activity to law enforcement officers within California and throughout the nation.

**Urban Terrorist**

This project will provide courses of instruction on the subject of urban criminal terrorism for law enforcement officers who are specifically called upon to cope with urban criminal terrorism.

**Interstate Organized Crime Index (IOCI)**

This project is to maintain an interim communication, information and reference system for law enforcement agencies assigned to combat organized crime. The system operates as a centralized index and clearinghouse of information of organized crime subjects and intelligence data. Receives and disseminates information on a national basis.

**Automated Latent Print System**

This system uses a computer assisted search in conjunction with the latent fingerprint analyst's expertise to rapidly scan a file of known offenders and assist in solving of crimes which would otherwise go unsolved.

**Ad Hoc Committee on School Violence**

The Ad Hoc Committee on Management of Conflict and Crime in the Schools is formed to address the problem of school-related crime, conflict and violence. It is to advise the Attorney General and the Superintendent of Public Instruction about what can be done at the state level to address the major issues in crime and conflict on the campus. It will focus primarily on the policies, programs and relationships of the elementary and secondary school system and the law enforcement/justice system as they relate to juveniles.

## III. ADMINISTRATION

## Program Objectives and Description

Twenty-one positions are proposed for 1977/78 to continue administrative support services for a variety of Law Enforcement programs which have been or are now being converted from Federal Grant to State funded programs.

Four positions are proposed to provide accounting and personnel services for the new line program positions proposed for the Department of Justice.

The Attorney General, as stated in Article V of the Constitution, is the chief law officer of the State and functions as the director of the Department of Justice. The executive office, comprised of the Attorney General, his chief deputy and their immediate staff, provides the overall executive and managerial functions, policy determinations and direction of the department.

The Division of Administration provides the necessary administrative, management, and support services to enable the line programs to attain the highest level of performance. The division provides fiscal management services; legal office services which provide stenographic and clerical support to the three legal divisions; manpower services which provide for the management of human resources with responsibility for maintenance of employee records, position transaction control and payroll processing; a training center which coordinates and manages the interdepartmental training programs and provides a centralized location for training local criminal justice and law enforcement units; management services and assistance is provided to departmental management relating to organizational improvements, work measurement and analysis, information services, legislative analysis, and EDP resource utilization; and library services to maintain the law libraries, provide legal research and general legal reference assistance.

## IV. LEGISLATIVE MANDATE

## Program Objectives and Descriptions

Section 2231(a) of the Revenue and Taxation Code requires the State to pay local governmental units the costs of any new program or increased level of service of a program mandated by legislation enacted after January 1, 1973. Within the program area of the Department of Justice there is one such legislative mandate relating to the destruction or obliteration of records of courts and public agencies of convictions for possession of marijuana and arrests for possession of marijuana not followed by conviction, occurring prior to January 1, 1976. This mandate affects counties and cities. These entities, having law enforcement agencies and courts, will incur costs in the destruction or obliteration of records as prescribed in Chapter 952, Statutes 1976.

## Authority

Chapter 952, Statutes of 1976.

## STATE CONTROLLER

The State Controller is the elective state fiscal officer. As such the primary objectives of his office are: to provide sound fiscal control over receipt and disbursement of public funds; to report the financial operations and conditions of the state and local government; to assure that money due the state is collected and to provide equitable, effective and economical tax administration; to provide fiscal assistance and guidance to local government; to administer the state's unclaimed property laws; and to serve as a member of fiscally oriented state boards and commissions.

The powers, duties and functions of the State Controller embrace (1) those expressed in the Constitution (Article XVI, Section 7, (2) those inherent in the nature of his office, though not so expressed, (3) those unquestionably essential to the efficient operation of his office, and (4) such additional powers, duties, or functions as the Legislature may confer or impose upon him.

## I. FISCAL CONTROL

### Program Objectives and Description

The primary objectives are to maintain an effective system of internal control over the state's financial transactions through modern auditing and disbursing techniques and to report promptly and accurately the state's financial condition and operations to assure the fiscal integrity of state government and to provide timely financial information to the Legislature and public.

The major activities of the Divisions of Accounting, Audits, Disbursements and Personnel Payroll Services are integrated into a system of internal control over the receipt and use of state, federal and other public moneys in the State Treasury. Agency documents are reviewed to determine the purpose for which the money may be used and to verify the program, fund or account prior to authorizing the deposit or transfer of funds. Agency claims against the Treasury are office audited for legality prior to disbursement, supplemented by field audit where necessary. All deposits, transfers and withdrawals are recorded in EDP control accounts, and a determination is made that there is an available appropriation and sufficient cash in the appropriate fund to pay each claim. The preparation and direct mailing of warrants to payees is the final link in the integrated claim and warrant process. Reports stating the state's financial operations and condition are issued periodically.

## STATE CONTROLLER—Continued

## a. Control Accounting

Control accounts are maintained for all funds in the State Treasury and for the centralized state treasury trust system. Cash management is performed for all funds investing through the Surplus Money Investment Fund Program. This unit also initiates the transfers of money for loans to and from the General Fund on the basis of cash needs and loan authorizations. Both control and detailed accounts covering investments made from various state funds and from treasury-pooled money, as well as interest-bearing bank deposits, are maintained. Education Code requirements as to repayments by school districts of state school building aid loans are administered. *In 1977-78 one position is eliminated due to savings resulting from an on-line EDP system and one-half temporary help positions is added due to workload.*

Output	1975-76	1976-77	1977-78
Receipts issued .....	31,639	33,000	34,000
Transfers, journals and canceled warrant reports .....	62,648	65,150	67,150
Claims processed .....	220,865	230,000	238,000
Treasury trust deposits .....	190,264	192,000	193,000
Treasury trust account transactions.....	6,940,453	9,794,700	9,994,700
<b>Input</b>			
Expenditures .....	\$940,751	\$1,107,951	\$1,146,587
Personnel years.....	44.4	45.3	44.8

## b. Financial Analysis

Comprehensive fiscal reports, the principal one being the Controller's Annual Report of the state's financial affairs, are issued regularly. Others include the preliminary annual report, the August governmental cost fund report, the month-end statements showing revenues derived from all major taxes, and the receipts and expenditures of the General Fund, and other periodic special reports. Data is compiled and computations made for apportionment to local agencies, such as highway users' taxes, cigarette taxes, motor vehicle license fees (in-lieu tax), property tax relief, mandated cost claims, and federal funds. Estimates of future cash receipts and expenditures are compiled for management of the Pooled Money Investment Program. *A one time increase of \$10,000 is added in 1977-78 to perform an actuarial valuation of the judges' retirement system.*

Output	1975-76	1976-77	1977-78
Mandated cost:			
Number of claims.....	8,634	8,780	8,930
Number of letters .....	684	700	715
Financial reports.....	27	27	27
Apportionments .....	79	80	80
<b>Input</b>			
Expenditures .....	\$329,641	\$404,884	\$426,018
Personnel years.....	12.2	13.1	13.1

## c. Claim Audit

All state expenditures, including contract services, personal services, equipment, materials, travel claims and investments, are audited prior to payment to assure charges are legal, for an authorized purpose and that an appropriation exists from which they can be paid.

Output	1975-76	1976-77	1977-78
Claim schedules audited .....	236,314	241,040	245,860
Amount of claims approved (millions) .....	\$65,898	\$67,875	\$69,911
Amounts questioned (thousands) .....	\$274,557	\$280,048	\$285,649
Amounts disallowed.....	\$8,330,304	\$2,548,286	\$2,624,735
Cost benefit ratio (disallowances per dollar of cost) .....	\$13.89	\$3.77	\$3.75
<b>Input</b>			
Expenditures .....	\$600,204	\$676,563	\$699,524
Personnel years.....	39.9	40.9	40.9

## d. Field Audit

The staff field audits expenditures of state and federal funds subvented, loaned or granted to local jurisdictions under various programs. Municipal and justice court accounting systems are reviewed to insure that they are following a uniform system established by the Controller and that adequate audits of the courts are made. *Nine new audit positions were added during 1976-77 for audits reimbursed by the Water Resources Control Board and the Department of Benefit Payments. In 1977-78 one reimbursed position is deleted from the State School Building Aid program and one additional reimbursed position is added for the Water Resources Control Board.*

Output	1975-76	1976-77	1977-78
Audits performed .....	972	1,480	1,592
Amounts audited (thousands) .....	\$2,691,156	\$2,825,714	\$2,292,424
Recoveries .....	\$19,968,890	\$20,767,646	\$18,256,692
Cost benefit ratio (recoveries per dollar of cost) .....	\$12.08	\$10.22	\$8.70

Expenditures .....	\$1,653,490	\$2,032,559	\$2,139,667
Personnel years.....	67.3	76.4	76.4

## e. Disbursement Services

This includes the issuance of all Controller's warrants in payment of the state's obligations including salaries and wages; the preparation and maintenance of warrant registers and an alphabetical warrant index; maintenance of controls over all disbursements, agency trust accounts and fund accounting transactions; and reconciliation of warrants paid by the State Treasurer as well as maintenance of paid warrants.

Entries to the central control accounts reflecting disbursement transactions are automatically generated by electronic process. Information returns summarizing reportable tax payments and Forms W-2 are submitted annually in magnetic tape form to the Internal Revenue Service and the State Franchise Tax Board.

## STATE CONTROLLER—Continued

During 1976-77, 40.8 positions were transferred to disbursements services as a result of a Department reorganization to reflect the operational phase of new payroll and personnel systems (PIMS) and to consolidate similar functions. Sixteen computer operation positions are transferred from Teale CDC in 1976-77 to improve management effectiveness. Three and one-half clerical positions are being added in 1977-78 for increased warrant workload and four positions to redesign non-payroll programs.

Output	1975-76	1976-77	1977-78
Warrants issued .....	12,858,331	13,519,934	13,900,030
Claim schedules processed .....	220,679	224,921	224,921
Information returns prepared .....	318,843	337,974	358,252
Withholding tax statements, Forms W-2 .....	246,448	253,841	261,456
U.S. Savings Bonds issued .....	257,207	259,779	262,377
Payroll deductions .....	17,488,463	17,563,847	17,938,486
<b>Input</b>			
Expenditures .....	\$2,223,144	\$3,726,209	\$3,952,793
Personnel years .....	48.2	105	111

## f. Data Processing Services

In addition to servicing the disbursements division, systems analysis, programming, key entry and computer services as well as reproduction and mail services are provided to other divisions of the Controller's office. During the 1976-77 reorganization, 9.7 positions were transferred to this element. 3.2 key data positions are added in 1976-77 and will be increased to 3.7 positions in 1977-78 due to increased unclaimed property workload. Two programmer analyst positions are being added in 1977-78 to redesign obsolete computer programs.

Output	1975-76	1976-77	1977-78
Fund and appropriation ledger entries .....	1,052,877	1,081,727	1,112,019
Treasury trust statements .....	2,423	2,423	2,423
Treasury trust transactions .....	6,749,065	9,549,190	9,549,321
Investment accounting transactions .....	22,774	23,913	25,109
Apportionments transactions .....	20,404	21,424	22,495
Unclaimed property transactions .....	112,054	300,304	360,365
Inheritance tax transactions .....	201,845	211,937	222,534
Gift tax transactions .....	40,272	42,286	44,400
Local government fiscal affairs transactions .....	98,115	89,766	94,254
Gas Tax refund transactions .....	95,145	93,000	93,000
Reproduction copies produced .....	10,445,228	11,490,000	11,720,000
<b>Input</b>			
Expenditures:			
Distributed to other programs .....	(\$479,344)	(\$677,560)	(\$754,052)
Undistributed .....	—	\$30,193	\$31,508
Personnel years .....	17.7	30.6	32.6

## g. Personnel Services

The Personnel Services element was established during the 1976-77 reorganization to implement one of the major changes resulting from PIMS. The new automated Employment History Data Base contains the personnel records of all state employees and serves as a basis for Uniform State Payroll System payments. It provides personnel policy and processing training to State Agencies, furnishes information necessary for State Personnel Board, Public Employees' Retirement System, California State Universities and Colleges, and the State Controller's Office Division of Disbursements to carry out their program responsibilities, and provides employee roster information to authorized persons within the legal requirements governing security and confidentiality.

The Employment History Data Base is updated, via an on-line system utilizing Cathode Ray Tubes, from personnel documents submitted by the operating departments.

New computer programs as well as modifications to existing computer programs will continue to be required in order to meet the needs of management and provide for the timeliness and accuracy required of personnel and payroll information. Funds were added in 1977-78 for Teale costs associated with the Employment History subsystem.

Input	1975-76	1976-77	1977-78
Expenditures .....	—	\$4,250,742	\$4,661,712
Personnel years .....	—	132.2	132.6

## h. Payroll Services

The Uniform State Payroll System was adopted by the legislature in 1951 to provide an effective, efficient, uniform and controllable payroll system which meets the needs of management and the employees.

The Uniform State Payroll System provides for all of the standard functions of payroll such as withholding and wage reporting for state and federal taxes, unemployment insurance for covered classes, the deduction and reporting of contributions and other data required by the state retirement systems, miscellaneous deductions authorized by employees, and the voluntary reduction of wages for investment in tax sheltered annuities and deferred compensation plans. Employee accounts for the purchase of U.S. Savings Bonds are maintained and bonds are issued monthly.

The system is being redesigned as a part of an ongoing project to develop a modern computerized personnel/payroll information system. The redesigned system will utilize a centralized Employee History/Payroll data base which will serve both the state's personnel and the payroll functions. Initially the redesign will provide an operational system which calculates the gross pay, deductions, net pay and related reports. The implementation of the basic system is scheduled for November, 1977. During the interim, the payroll operations will continue to change as reflected in the 1976-77 reorganization. In the 1976-77 reorganization, 40.8 positions were transferred from Payroll Services. In 1976-77 12 positions are added, to be funded from the Emergency Fund, and 26 additional positions in 1977-78 to cover increased payroll workload, prepare for the implementation of the new payroll system and provide training to both internal and departmental staffs on the new payroll system. Funds were added to cover Teale costs for the new payroll system.

Input	1975-76	1976-77	1977-78
Expenditures .....	\$2,194,745	\$1,440,569	\$3,008,993
Personnel years .....	129.2	97.8	118.7

## STATE CONTROLLER—Continued

## II. TAX ADMINISTRATION

## Program Objectives and Description

The objectives are to provide equitable, effective and economical administration of inheritance and gift taxes, gasoline tax refunds, and certain minor taxes.

The Division of Inheritance and Gift Tax administers the inheritance tax, representing the state in the court determinations of the tax and supervising the activities of inheritance tax referees and county treasurers in the determination and collection of inheritance taxes, and also audits and collects gift taxes. The Division of Tax Collection and Refund collects certain delinquent taxes and audits and refunds taxes paid on gasoline used off-road.

## Authority

Revenue and Taxation Code, Division 2, Parts 1.5, 2, 4, 7, 8, and 9.  
Public Resources Code, Division 3, Chapter 1, Articles 5.5 to 7.

Aeronautics Account .....				31,835	35,889	40,505
Reimbursements .....				3,000	3,000	3,000

## Program Elements

a. Inheritance Tax .....	128.3	136.8	135.9	\$2,710,493	\$2,919,844	\$3,041,911
b. Gift Tax .....	18.8	19.3	21.3	422,498	438,547	495,308
c. Tax collection .....	2.4	2.3	2.3	42,762	48,572	58,773
d. Gas Tax refund .....	37.6	38.8	40.3	741,185	820,163	877,350

## a. Inheritance Tax

An inheritance tax is levied upon the right to succeed to property upon the owner's death, or transferred in lieu thereof or in contemplation of death. To carry out this program, the Controller appoints from a list of prequalified applicants at least one person to a panel of inheritance tax referees in each county. The court appoints a referee to act in each proceeding. The referee appraises the property for both probate and inheritance tax purposes, after which he prepares the report of inheritance tax due. Completed reports are submitted to the Controller for an office review to determine the correctness of the tax, including distribution and computation. The report is then filed with the court, which may hear and determine any objections. Based upon the referee's report, and any hearing, the court makes its order fixing tax. The tax is paid to the county treasurer who periodically remits to the state. In 1977-78, 1 position is added for accounting workload and additional funds are proposed also for filing cabinets, mail equipment and temporary help.

## Measures of Effectiveness

		1975-76	1976-77	1977-78
1. Percent of payments made timely .....	Estimated	48%	63%	65%
	Actual	49%	—	—
2. Percent of decedent's estates raising legal questions in tax treatment ....	Estimated	34%	36%	36%
	Actual	36%	—	—
3. a. Percent of examined reports with errors detected in tax computation .....	Estimated	9%	9%	9%
	Actual	10%	—	—
b. Percent of detected tax computation errors incorporated in the order fixing tax .....	Estimated	100%	100%	100%
	Actual	100%	—	—

## Program Size Indicators

1. Net inheritance tax revenue .....	\$304,243,248	\$270,000,000	\$284,000,000
2. Number of new reports received .....	44,503	46,728	49,064
3. Number of decedents' estates raising legal questions in tax treatment .....	17,984	18,883	19,809
4. Accounts Receivable at Year-End:			
Amount .....	\$30,306,988	\$28,000,000	\$30,000,000
5. Uncollectible Accounts Written Off:			
a. Number .....	64	70	70
b. Amount .....	\$3,707	\$100,000	\$100,000

## Input

Expenditures .....	\$2,710,493	\$2,919,844	\$3,041,911
Personnel years .....	128.3	136.8	135.9

## b. Gift Tax

The Gift Tax prevents the circumvention of the inheritance tax by gift making during life. Legislation in 1971 changed this tax to a quarterly self-assessed tax requiring payment with the return. Two positions are added in 1977-78 to maximize state revenues. \$15,000 is added for appraisals of real property to be done by State Inheritance Tax Referees.

## Measures of Effectiveness

		1975-76	1976-77	1977-78
1. Percent of examined returns found to have tax errors .....	Estimated	25%	25%	25%
	Actual	25%	—	—
2. Dollar corrections in Self-Assessments:				
a. Additional assessments .....	Estimated	20%	20%	20%
	Actual	17%	—	—
b. Refunds .....	Estimated	2%	1%	1%
	Actual	1%	—	—

## STATE CONTROLLER—Continued

## Program Size Indicators

	1975-76	1976-77	1977-78
1. Net gift tax revenue .....	\$16,465,119	\$20,500,000	\$21,500,000
2. Increase in revenue resulting from compliance program action .....	\$228,509	\$255,000	\$300,000
3. Number of returns received .....	19,276	20,240	21,252
4. Number of returns examined .....	16,389	18,028	20,732
5. Returns submitted after compliance program action .....	637	670	750
6. Delinquent Accounts Receivable at Fiscal Year-End:			
a. Number .....	752	750	725
b. Amount .....	\$2,332,593	\$2,500,000	\$2,400,000
7. Uncollectible Accounts Written off:			
a. Number .....	—	5	3
b. Amount .....	—	\$15,000	\$10,000

## Input

Expenditures .....	\$422,498	\$438,547	\$495,308
Personnel years .....	18.8	19.3	21.3

## c. Tax Collection

Accounts are maintained and delinquencies are collected for four taxes assessed by other agencies—motor vehicle fuel license tax, the insurance premium tax, including the retaliatory tax, petroleum and gas charges and subsidence abatement charges.

## Measurement of Effectiveness

	1975-76	1976-77	1977-78
Delinquent account collections as a percent of accounts available for collection during the year:			
(1) Amount .....	Estimated 72%	71%	71%
Actual .....	71%	—	—
(2) Number of accounts .....	Estimated 70%	65%	67%
Actual .....	61.3%	—	—

## Program Size Indicators

Delinquent taxes collected during the year:			
(1) Amount .....	\$2,478,664	\$2,545,983	\$2,694,052
(2) Number of accounts .....	956	982	1,039

## Input

Expenditures .....	\$42,762	\$48,572	\$58,773
Personnel years .....	2.4	2.3	2.3

## d. Gas Tax Refund

The Motor Vehicle Fuel License Tax is levied on the distribution of gasoline to support the construction and maintenance of highways and rapid transit systems. The tax is paid at the time of distribution, regardless of the purpose for which the fuel is being acquired. The tax is then passed on to the ultimate user. Users may file a claim with the Controller and obtain a refund of the tax paid on fuel used for certain non-highway purposes.

## Measures of Effectiveness

	1975-76	1976-77	1977-78
Percent of proper claims paid within 30 days .....	Estimated 80%	60%	65%
Actual .....	54%	—	—
Number of improper or invalid claims rejected before payment as a percent of claims received:			
(1) Office review:			
(a) Number .....	Estimated 18%	20%	20%
Actual .....	20%	—	—
(b) Amount .....	Estimated 2.5%	2.8%	2.8%
Actual .....	7.5%	—	—
(2) Field audit:			
(a) Number .....	Estimated 4.5%	4.8%	4.9%
Actual .....	4%	—	—
(b) Amount .....	Estimated 3%	2.3%	2.2%
Actual .....	2%	—	—
Dollars recovered from field audits as a percent of the refunds field audited after payment .....	Estimated 14%	18%	—
Actual .....	14.8%	—	—

## Program Size Indicators

Amounts refunded to claimants .....	\$14,617,273	\$15,300,000	\$15,760,000
Number of claims for refunds .....	35,150	34,000	33,000
Number of claims rejected .....	8,460	8,183	7,943

Expenditures .....	\$741,185	\$820,163	\$877,350
Personnel years .....	37.6	38.8	40.3

## STATE CONTROLLER—Continued

## III. LOCAL GOVERNMENT FISCAL AFFAIRS

## Program Objectives and Description

The objectives are to secure uniform and effective local budgeting, accounting and property tax collection procedures and to report on a timely basis meaningful financial local governmental information.

This program includes the prescribing of uniform county budgeting procedures, and uniform accounting systems for counties and special districts; collection, compilation and dissemination of comprehensive fiscal data for all local agencies; reviewing and reporting on the use of state gas tax funds apportioned to local government; reviewing and approving county cost allocation plans; and preservation of the local property tax base by prescribing uniform collection procedures, assuring marketable tax titles and prompt restoration of tax delinquent properties to the local tax rolls.

To the fullest extent possible, the Controller involves local governmental officials in these activities through membership on various advisory and coordinative committees.

## Authority

Government Code Sections 12410, 12416, 12422-12423, 12463-12463.1, 26909, 29020, 29065, 29108-29109, 30100 et seq., 30200-30201, 30300-30302, 40804-40805, 53890 et seq.

Streets and Highways Code Sections 186.3, 2104-2155.

Revenue and Taxation Code Parts 5, 6, 7, and 9 of Division 1.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78
Continuing program costs.....	58.6	58.7	57.9	\$1,387,480	\$1,574,292	\$1,613,361
Workload adjustments.....	—	—	5	—	—	139,488
Totals, Local Government Fiscal Affairs .....	58.6	58.7	62.9	\$1,387,480	\$1,574,292	\$1,752,849
General Fund .....				690,133	887,547	1,043,040

Reimbursements .....				225,798	216,910	220,175

## Program Elements

a. Financial reporting, budgeting and accounting.....	23.1	24	25.7	\$590,454	\$729,152	\$804,946
b. Streets and roads .....	19.5	20.5	20.3	492,524	508,894	534,334
c. County cost plans .....	5.7	5.5	8.4	119,530	138,995	223,486
d. Tax-deeded land.....	10.3	8.7	8.5	184,972	197,251	190,083

## a. Financial Reporting, Budgeting and Accounting

Local Government financial data are collected, compiled and made available in a number of annual publications. County budgets are reviewed; forms, rules and regulations on the preparation of county budgets are prescribed. The bonds of eligible local agencies are certified in accordance with law. Two statutory committees of local government officials who serve without remuneration assist the Controller in these matters. Under Section 30200 of the Government Code the Controller must devise and supervise the installation of uniform accounting procedures for all counties. Assisting is a 10-man 'Controller's Committee on County Accounting Procedures', all representatives of local government who serve without pay. Under Section 53891 of the Government Code, the Controller must prescribe uniform accounting and reporting procedures for all special districts. *Two positions are proposed for 1977-78 to audit local agency tax rates which will allow one-third of the agencies to be audited annually. This shorter audit cycle will assist local agencies in adjusting tax rates.*

Output	1975-76	1976-77	1977-78
Annual Report of Financial Transactions Concerning:			
Tax rate reviews .....	277	2,500	1,657
Revenue sharing reports .....	2,468	2,474	2,575
School and special districts, counties and cities .....	6,842	7,015	6,944

## Input

Expenditures .....	\$590,454	\$729,152	\$804,946
Personnel years.....	23.1	24	25.7

## b. Streets and Roads

Data is collected, reviewed, compiled and published in an annual consolidated report concerning street and road financial transactions.

By law, the Controller must review and report on the use of state gas tax funds apportioned to local government to insure proper use and accounting.

*Audits performed under contract with the Department of Transportation are expected to increase from 106 in 1975-76, to 400 in 1976-77 and 460 in 1977-78.*

Output	1975-76	1976-77	1977-78
Gas Tax Reviews:			
Gas tax claimed (thousands) .....	\$278,703	\$296,000	\$305,000
Projects reviewed .....	9,650	8,000	8,000
Disallowances .....	\$3,490,493	\$3,700,000	\$3,700,000
Other projects .....	106	400	460

## Input

Expenditures .....	\$492,524	\$508,894	\$534,334
Personnel years.....	19.5	20.5	20.3

## STATE CONTROLLER—Continued

## c. County Cost Plans

Under Federal Management Circular 74-4, each county prepares a county cost allocation plan each fiscal year to receive federal reimbursements for indirect costs of federally supported programs. The federal Department of Health, Education and Welfare administers this activity while the Controller develops and issues procedures and supplemental instructions to counties and reviews and approves such plans. *Three positions are added in 1977-78 to provide a more detailed and thorough review of cost plans and to develop a formal procedures manual for counties.*

Output	1975-76	1976-77	1977-78
County cost plan reviews .....	71	90	80
<b>Input</b>			
Expenditures .....	\$119,530	\$138,995	\$223,486
Personnel years .....	5.7	5.5	8.4

## d. Tax-Deeded Land

Technical advice and assistance is provided to counties to assure uniform and effective interpretation and application of property tax laws and the collection of property taxes. This assistance aids counties in assuring sound marketable tax titles. Tax sales are authorized and approved. Tax collection procedures and forms are prescribed after consultation with the Committee on County Tax Collection Procedures. Counties collect a \$2 fee on each redemption, half of which goes to the General Fund, which also receives \$1.50 on each tax-deeded parcel sold. This pays the state's costs of this element.

Output	1975-76	1976-77	1977-78
Sales to state .....	201,137	185,000	190,000
Deeds to state .....	6,967	6,500	7,000
Parcels approved for sale .....	7,856	10,000	10,000
Redemption and sales fees .....	\$204,394	\$177,399	\$175,000
<b>Input</b>			
Expenditures .....	\$184,972	\$197,251	\$190,083
Personnel years .....	10.3	8.7	8.5

## IV. PERSONNEL INFORMATION MANAGEMENT SYSTEM (PIMS) DEVELOPMENT

## Program Objectives and Description

In 1973 the Legislature approved a joint proposal of the Controller, Personnel Board, Public Employees' Retirement System and the California State University and College System to design and implement a modern computer personnel and payroll information system. The PIMS Steering Committee, composed of the executive officer from each of the participating departments, provides general direction and policy guidance to PIMS.

During 1977-78, the major emphasis will be changing from the initial development of 'basic' subsystems to the addition of capabilities to these subsystems that will permit both participating departmental management and the Controller's Office to realize the major benefits available from the new subsystems.

The Employment History Data Base, a major subsystem, has become operational and the Payroll Subsystem is scheduled to become operational shortly. As the program emphasis shifts from development to operation, reorganization of staff and functions will result. Accordingly, on July 1, 1976, Personnel Services from PIMS was combined with the existing payroll unit in the Division of Disbursements to form a new organizational unit, the Personnel and Payroll Services Division, and assigned to the Fiscal Control Program. Similarly, when development work on the remaining subsystems is completed, the PIMS Development Program will be terminated.

## Authority

All activities are within authority of the participating departments.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78
Continuing program costs .....	143	51.2	51.2	\$3,954,781	\$1,674,134	\$1,696,910
Workload adjustments .....	—	—	10	—	—	304,462
Totals, PIMS Project .....	143	51.2	61.2	\$3,954,781	\$1,674,134	\$2,001,372
General Fund .....				3,954,781	1,674,134	1,311,495
Reimbursement .....				—	—	689,877

## Program Elements

Personnel services .....	90	—	—	\$2,256,624	—	—
System development .....	53	—	—	1,698,157	—	—
a. Payroll subsystem .....	—	31.1	29.1	—	\$1,090,186	\$1,020,753
b. PERS support .....	—	9.1	11.1	—	298,289	311,149
c. Employment history subsystem .....	—	11	21	—	285,659	669,470

## a. Payroll Subsystem

This Subsystem is being developed to replace the current payroll system at the State Controller's Office. Scheduled completion dates for the major components of the Payroll Subsystems are:

1. Phase I - November 1, 1977; includes those capabilities necessary to process deduction and attendance data, and issue warrants.
2. Phase II - October 1, 1979; includes the remaining capabilities of the existing payroll system, such as business month and annual processing, position control, and bi-weekly pay. *In 1977-78 two positions were deleted to adjust for the transition from Phase I development to Phase II.*

Input	1975-76	1976-77	1977-78
Expenditures .....	—	\$1,090,186	\$1,020,753
Personnel years .....	—	31.1	29.1

## STATE CONTROLLER—Continued

## b. PERS Support

This element is responsible for assisting the Public Employees' Retirement System Redesign Project with those activities that affect the processing of health benefit and retirement benefits for state employees. A second goal is to assure the compatibility of the new PERS data processing systems with existing PIMS developed data processing subsystems. Scheduled completion dates are:

1. Health Benefits - September 1, 1977; PIMS has primary responsibility for the development of an automated system for processing Health Benefits enrollment status information.

2. PERS Member Roster - September 1, 1978; the new member roster system will maintain a current accurate record of all PERS members. (PIMS participates in an advisory role to the PERS Redesign Project.)

To assist the PERS Internal Redesign Project, two positions have been added in 1977-78. These positions will assist PERS to ensure that the new Membership Roster design is compatible with and integrates into existing PIMS systems.

Input	1975-76	1976-77	1977-78
Expenditures .....	—	\$298,289	\$311,149
Personnel years .....	—	9.1	11.1

## c. Employment History Subsystem

After two years of production experience, the participating departments and the Personnel and Payroll Services Division of the State Controller's Office are sufficiently familiar with the Employment History subsystem to define the additional capabilities required to maximize the benefits available from it. The development work proposed for this element will improve the information available to the managements of the State Personnel Board, the Department of Finance and the California State Universities and College System. Also the accuracy of the data on personnel and payroll documents will be verified in greater detail by automating many manual review processes in the State Controller's Office. Ten positions are added in 1977-78 to provide for new development support for the State Personnel Board, the Department of Finance, the State University and Colleges, and the Controller's Office. The major effort will be in the area of management reports using information from the Employment History Data Base. A primary objective will be to replace and expand upon the systems currently on the Personnel Board's 1401 computer.

Input	1975-76	1976-77	1977-78
Expenditures .....	—	\$285,659	\$669,470
Personnel years .....	—	11	21

## V. UNCLAIMED PROPERTY

## Program Objectives and Description

The Unclaimed Property Program serves both revenue and custodial functions. Custody with individual accounting is maintained (1) of property due unknown or unlocated heirs until escheated permanently to the General Fund after periods prescribed by law and (2) of unclaimed property without limit as to years, meanwhile deposited in the General Fund. The law requires the Controller to attempt to locate owners and restore their property to them.

## Authority

Code of Civil Procedures, Sections 1300-1615.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78

## Program Elements

a. Abandoned property .....	24.6	44.8	52.6	\$713,299	\$1,462,993	\$1,951,296
b. Estates of deceased persons .....	4.7	4	3.9	88,186	77,491	80,564

## a. Abandoned Property

Under the Unclaimed Property Law, holders of unclaimed property (bank deposits, checks, money orders, traveler's checks, life insurance proceeds, dividends or other distributions of business, tangible and intangible personal property, contents of safe-deposit boxes) must report and, after notice to the owners' last known address and publication, deliver to the state the items remaining unclaimed. Any owner who appears is entitled to a refund. It also generates revenue to the General Fund since many items are never claimed.

Chapter 648, Statutes of 1976 (AB 3726), effective January 1, 1977, will reduce the periods which banks and financial organizations may hold savings accounts from 15 to 7 years. As a result, new accounts held by the state are expected to increase from 24,790 in 1975-76 to 93,721 in 1977-78. Five positions are added in 1976-77 to handle increased workload generated by legislation.

Four positions are added in 1976-77 and 12 positions in 1977-78 to obtain needed compliance by holders of unclaimed property and produce estimated additional revenue at a ratio of \$7 to \$1 of cost.

Output	1975-76	1976-77	1977-78
Receipts .....	\$6,850,218	\$10,456,000	\$15,244,000

Expenditures .....	\$713,299	\$1,462,993	\$1,951,296
Personnel years .....	24.6	44.8	52.6

## STATE CONTROLLER—Continued

## b. Estates of Deceased Persons

Under the laws governing estates of deceased persons, assets for which there are no known heirs escheat to the state. Shares of known but unlocated heirs are delivered to the Controller, and if unclaimed after the legal waiting period and notice, are permanently escheated to the General Fund. The proceeds of such estates come from county treasurers, executors and administrators, public or private, and other custodians.

Output	1975-76	1976-77	1977-78
Receipts .....	\$2,433,648	\$2,700,000	\$2,700,000

## VI. LEGISLATIVE MANDATES

## General Description

This program reimburses local government for (1) sales and property tax revenue loss, (2) new programs and (3) increased level of service of existing programs mandated by the Legislature. The amounts shown here are for information purposes only as they are appropriated in the related program budget.

Section 2229 of the Revenue and Taxation Code provides for reimbursement of lost personal property tax revenues while Section 2230 provides for reimbursement of lost sales and use tax revenues. Section 2231 provides for reimbursement of costs of legislative-mandated programs. These apply only to mandates effective after January 1, 1973.

Full descriptions will be found under the appropriate program budget as shown in the following tables.

## VII. ADMINISTRATION

## Program Objectives and Description

To provide executive direction, general policy determination and management for all office programs and to coordinate and provide major administrative and business management services to the operating units of the office. In addition, the Controller serves on various fiscal boards and commissions including the Board of Equalization, Franchise Tax Board, State Lands Commission, Pooled Money Investment Board, Board of Control, and various bond finance committees.

## Authority

Membership by State Controller on boards and commissions, principally:

State Board of Equalization, Const. Art. 13, 7, and 9.

State Board of Control, Gov. 13901.

Franchise Tax Board, Gov. 15700.

Pooled Money Investment Board, Gov. 16480.1.

State Teachers Retirement Board, Ed. 13851.

Various bond and finance committees, Ed. 19510; M.&amp;V. 991; Ch. 765/27, Ch. 23/63, 1st Ex; Water 12933; H.&amp;N. 3902-3; Gov. 17220.

California Exposition and Fair Executive Committee, Agr. 72.1.

State Lands Commission, Pub. Res. 6101.

Reapportionment Commission, Const. Art. 4.6.

Reciprocity Commission, Veh. 2600.

Interagency Council for Ocean Resources, Gov. 8810-11.

California Commission on Interstate Cooperation, Gov. 8003-4.

Intergovernmental Council on Urban Growth, Gov. 34200.

## Program Elements

a. Executive office .....	15.2	18	18	\$551,990	\$587,211	\$604,028
b. Administrative services .....	26.5	18	26	477,693	954,258	849,899

## a. Executive Office

The Controller, with the assistance of his executive staff, establishes policy and provides general supervision and direction over the operating divisions, serves as a member of the various fiscal boards and commissions, and participates in the establishment of statewide fiscal programs and policies.

<b>Input</b>				1975-76	1976-77	1977-78
Expenditures .....				\$551,990	\$587,211	\$604,028
Personnel years .....				15.2	18	18

## b. Administrative Services

Provides administrative services for the entire office including departmental accounting, budget, management analysis, personnel and training, and business services. During 1976-77, 7.5 positions were transferred from Administrative Services to consolidate similar functions in disbursements. The Controller has proposed Legislation for \$428,953 to provide for unbudgeted rent, moving costs and commencing remodeling of the Veteran's Affairs building in the current year. In 1977-78, 8 positions are added for internal audit, system analysis, budgeting and personnel to meet increased responsibilities and workload caused by expansion of departmental programs.

## STATE BOARD OF EQUALIZATION

The State Board of Equalization administers the largest number of tax programs for support of state activities. It administers state and local business and property taxes, excise taxes, assesses taxes on insurance companies and private railroad cars, and guides local property taxation. Four of the board's five members are elected from and represent separate districts of approximately equal population. The State Controller serves as an ex officio fifth member.

The board operates over 60 offices throughout this state and in New York, Chicago, and Houston. The board administers taxes exceeding \$5.8 billion for the State Treasury, plus some \$560 million in local funds derived from utility rolls prepared by the board and more than \$1.2 billion in local sales and use taxes.

In policymaking, the board adopts rules and regulations for the administration of taxes and for the 58 county assessors in valuing property. An executive secretary is appointed by the board to implement its policies and directives. The executive secretary is aided by assistant executive secretaries for business taxes, property taxes, and administration.

As a quasi-judicial body, the board hears appeals from taxpayers on business tax audits; equalizes local property tax assessments; values public utility properties; assesses taxes on insurance companies and privately owned railroad cars; and considers appeals from actions of the Franchise Tax Board.

### SUMMARY OF PROGRAM REQUIREMENTS

XIV.	Reduction in reimbursable workload .....	-3	-44,062

### I. LOCAL PROPERTY TAX EQUALIZATION PROGRAM

#### Program Objectives and Description

California taxpayers will pay approximately \$10.5 billion in property taxes to local governments in 1977-78. Over 90 percent of these taxes will be based on ad valorem property tax assessments made by 58 county assessors. To ensure equitable treatment of all property taxpayers, it is necessary that a central agency provide direction, supervision, and review of local assessment practices. The objective of this program is to bring about and maintain an acceptable degree of both intracounty and intercounty equalization at a reasonable cost.

The board assists local assessors in several ways to improve the quality of the original assessments placed on the assessment rolls as detailed below.

#### Authority

Constitution—Article 13; Education Code—Section 17261; Welfare and Institutions Code—Section 12400; Government Code—Sections 15606-15645, 54900-54903.1; Revenue and Taxation Code—Division 1, Parts 2, 3, 3.5, 10, 11, and 12; California Administrative Code—Title 18, Chapter 1.

## STATE BOARD OF EQUALIZATION—Continued

Program Elements	75-76	76-77	77-78	1975-76	1976-77	1977-78
a. Supervision of local assessment administration .....	62.4	63.4	63.4	\$1,598,199	\$1,809,501	\$1,859,465
b. Intercounty equalization .....	88.8	91.2	93.2	2,382,338	2,778,712	2,893,748
c. Intercounty equalization appraisal appeals .....	9	9.1	9.1	256,452	277,221	285,193

## a. Supervision of Local Assessment Administration

Surveys of assessment practices, training, technical consultation, appraiser certification, uniform tax-reporting forms, rules, and manuals are provided assessors and their staffs by the board.

Element Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78
Continuing element costs .....	62.4	63.4	63.4	\$1,598,199	\$1,809,501	1,859,465
Element Components:						
1. Assessment practices surveys .....	12	12.6	12.6	355,555	409,701	421,483
2. Property tax forms and rules .....	2.7	2.8	2.8	67,367	77,986	80,228
3. Technical services .....	26.9	28	28	648,324	757,932	779,727
4. Certification and training .....	9.5	10.1	10.1	242,498	282,248	290,364
5. Exemptions .....	7.2	7.6	7.6	182,017	209,634	215,663
6. Contract auditing services .....	4.1	2.3	2.3	102,438	72,000	72,000

## 1. Assessment Practices Surveys

At least once each six years a survey is made of all aspects of each county assessor's appraising, mapping, recordkeeping, clerical, and personnel practices. A written report is then prepared containing recommendations for improvement, to which the assessor must respond within a year.

## Output

	1975-76	1976-77	1977-78
Number of surveys completed .....	11	10	9

## Input

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	12	12.6	12.6	\$355,555	\$409,701	\$421,483

## 2. Property Tax Forms and Rules

Property reporting and exemption claim forms must be filed annually with county assessors by thousands of taxpayers. The board designs and prepares these forms for county use with a concern for their adequacy and compliance with the law.

The board is also responsible for the preparation of rules governing assessors and county boards of equalization.

## Output

Forms	1975-76	1976-77	1977-78
Number of property statement and exemption claim forms prescribed .....	46	46	48
Number of property statement forms approved .....	1,023	1,040	1,055
Number of exemption claim forms approved .....	782	814	835

## Rules

	1975-76	1976-77	1977-78
Property tax rules processed .....	23	10	10

## Input

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	2.7	2.8	2.8	\$67,367	\$77,986	\$80,228

## 3. Technical Services

The board's staff replies to inquiries regarding property tax problems from assessors, their staffs, taxpayers, the Legislature, and other state and private agencies. Also, the staff researches and writes a continuing series of 'letters to assessors' on statutory changes, court decisions, board rules and instructions, and salary studies. Field training and assistance are given to assessors on the appraisal of specialized properties such as possessory interests and timberlands excluded from timber preserve zoning, in the use of data processing systems for the processing of appraisal data and the preparation of assessment rolls, and in the installation and maintenance of a standard map system. In addition, the board issues and updates handbooks on assessment and general and special appraisal practices for assessors' use.

## Output

	1975-76	1976-77	1977-78
Number of directive and advisory 'letters to assessors' transmitted .....	193	200	210
Number of pages in new handbook sections written .....	121	588	413
Number of pages in handbook sections revised .....	740	1,032	913

## Input

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	26.9	28	28	\$648,324	\$757,932	\$779,727

## 4. Certification and Training

Property tax appraisers must be certified by the board before serving as appraisers and must pass examinations, either compiled or approved by the board, prior to being permanently certified. Certified appraisers must then fulfill statutory annual training requirements. The board also administers an advanced certification program. A file is maintained on approximately 3,000 appraisers regarding civil service status, appraisal experience, and annual training. A series of appraisal courses is designed and presented by the board's staff in various counties and at regional and central schools. Training courses developed by county assessors and those conducted by colleges and appraisal organizations are reviewed and approved for meeting statutory requirements.

## STATE BOARD OF EQUALIZATION—Continued

Output	1975-76	1976-77	1977-78
Number of appraisers permanently certified.....	2,797	2,890	2,950
Number of appraisers on assessor's staffs who are not permanently certified .....	110	110	110
Number of appraisers attending board courses .....	1,266	1,500	1,400
Number of appraisers successfully completing courses .....	1,118	1,250	1,200
Number of course sessions offered .....	67	64	65

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	9.5	10.1	10.1	\$242,498	\$282,248	\$290,364

## 5. Exemption

The board has statutory administrative duties with respect to two categories of exemptions. First, each claim for a welfare or veterans organization exemption is reviewed, and a finding which cannot be overruled if it is negative is transmitted to the county assessor. Second, an intercounty match of homeowner's exemption claims is made, and lists of duplicates are sent to the county assessors involved for a determination of which claims are valid and which county is entitled to reimbursement by the Controller for the tax loss.

Output	1975-76	1976-77	1977-78
Number of veterans organization claims reviewed.....	58	65	70
Number of welfare exemption claims reviewed .....	7,945	9,375	11,063
Number of welfare properties in claims .....	11,749	12,806	13,959
Number of timber maturity board hearings .....	2	*	*
Number of acres of timber involved in hearings .....	43,145	*	*
Number of acres of timber returned to assessment rolls.....	34,954	*	*

\* Timber will be exempted from the property tax and made subject to a yield tax beginning April 1977.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	7.2	7.6	7.6	\$182,017	\$209,634	\$215,663

## 6. Contract Auditing Services

The counties contract with the board to audit the accounting records of the taxpayers of their choice and reimburse the board for the costs of these audits. This service is designed to assist the assessors in meeting the legislative mandate that large accounts be audited quadrennially. Under legislation enacted in 1972, the controller contracts with the board to do some pilot auditing of taxpayers' records to test the accuracy of the report on which inventory exemptions and state reimbursements of local governments' tax losses on such exemptions are based.

Output	1975-76	1976-77	1977-78
Number of county audits performed .....	347	450	450
Number of audits performed for Controller .....	—	—	—

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	4.1	2.3	2.3	\$102,438	\$72,000	\$72,000

## b. Intercounty Equalization

Samples of locally assessable properties are selected and appraised in one-third of the counties each year. The sample results are then expanded to obtain an estimate of the full value of all locally assessable property in each county. The full value in a survey year is projected to the current lien date, and a ratio of assessed value to full value of property subject to local assessment is computed annually for each county. These ratios are used for inter- and intra-county equalization and to compute factors that are used in the control of intergovernmental payments and categorical aid totaling over 1½ billion dollars a year, including school equalization aid, repayment of state loans for school construction, county contributions to the Medi-Cal program, and other state, county, and district payments.

Output	1975-76	1976-77	1977-78
Number of average ratios computed .....	3,178	3,022	3,022
Number of coefficients of dispersion computed .....	960	912	912

Element Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78
Continuing element costs .....	88.8	91.2	93.2	\$2,382,338	\$2,778,712	\$2,893,748
Element Components:						
1. Sample selection and full cash value estimates .....	5.2	5.7	6.7	115,251	117,778	156,328
2. Property appraisal .....	83.6	86.5	86.5	2,267,087	2,660,934	2,737,420

## 1. Sample Selection and Full Cash Value Estimates

Statisticians classify the assessments on each of the 19 or 20 local county rolls that are to be sampled during the year into strata according to assessed value, property type, location or other criteria, and make a random selection from each stratum. After the properties covered by the selected assessments have been appraised, the mean appraised and assessed values are computed for each stratum and applied to the total number of assessments in the stratum to derive an estimate of the total full cash value of all locally assessable property as of the survey year. The totals of all the currently surveyed counties and those for all of the counties surveyed in the two preceding years are then projected to the current lien date by the use of trending techniques.

The adequacy of the sampling and trending can be measured by comparing each three-year projection of the full value total with the full value total for the same lien date as determined from the new appraisal survey.

Two positions are proposed to process increased numbers of inquiries from County Boards of Supervisors, County Assessors, State assesses, concerned taxpayers, and to improve the reliability of sample selection and the trending model.

## STATE BOARD OF EQUALIZATION—Continued

## Output

Gaps:	1975-76	1976-77	1977-78
Under 1 percentage point .....	4		
1-1.9 percentage points .....	4	9	10

Expenditures .....	5.2	4.7	6.7	\$115,251	\$117,778	\$156,328

## 2. Property Appraisal

Appraisers estimate the market values of between five and six thousand individual properties in one-third of California's counties each year. Using professional appraisal procedures, these employees inspect, analyze, and value the properties in the sample. The types of property appraised include residences, vacant lots, farms and ranches, commercial and industrial enterprises, oilfields, and timberlands as well as unsecured personal property. All appraisals are reviewed with the county assessor. Property of significant value that appears to have escaped assessment is brought to the assessor's personal attention.

## Output

	1975-76	1976-77	1977-78
Number of appraisals completed .....	5,385	5,235	5,250
Market value of properties appraised (000) .....	\$3,420,919	\$4,000,000	\$4,500,000
Number of apparent escapes of over \$50,000 full value brought to assessor's attention .....	105	107	110

## Input

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	83.6	86.5	86.5	\$2,267,087	\$2,660,934	\$2,737,420

## c. Intercounty Equalization Appraisal Appeals

Assessors who do not agree with the appraisals may request reviews by the Office of Appraisal Appeals (OAA) shortly after the board's property tax department completes its appraisals of the sample properties. Members of the OAA staff review these appraisals, inspect the properties, interview county and state property tax appraisers, and identify the position each part takes in support of its estimate of value. The OAA staff prepares a written proposed finding on each appealed appraisal. If the county assessor or property tax department is dissatisfied with the findings, either party may request a conference. The OAA staff makes a final finding which includes any new substantiating information the parties contributed at the conference. If the two contending parties are still dissatisfied with the final findings, either may request a hearing before the Board of Equalization.

The objective of this office is to make findings and recommendations sufficiently supported that time-consuming hearings before the board are minimized. The degree to which this objective is achieved is measured by the number of findings that do not go to board hearings.

## Output

	1975-76	1976-77	1977-78
Number of appraisals initially appealed by assessors .....	398	400	350
Number of O.A.A. final findings requested by either party .....	143	145	130
Number of O.A.A. final findings appealed to the board .....	57	40	30

## Element Requirements

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Continuing element costs .....	9	9.1	9.1	\$256,452	\$277,221	\$285,193

## II. STATE-ASSESSED PROPERTY TAX PROGRAM

## Program Objectives and Description

The nature of some taxable property is such that it cannot be valued in accordance with the standard appraisal practices applicable to all property unless it is valued as a unit by an agency whose jurisdiction is statewide. The program's objectives are to estimate the market value and assess annually intercounty pipelines and all of the taxable tangible properties owned or used by railroads, other public utilities, and private car lines.

The properties subject to state assessment are valued by the board, using standard appraisal techniques. In the case of public utilities, railroads, and the intercounty pipelines, the values thus determined are allocated among the taxing districts in which the property is located for inclusion on county and city assessment rolls so that taxes may be levied and collected. For private car lines (except fixed property) the values are placed on an assessment roll, and taxes are levied and collected by the state.

## Authority

Constitution—Article 13, Section 19; Revenue and Taxation Code—Division 1, Part 2; Division 2, Part 6.

## Program Requirements

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Continuing program costs .....	91	89.1	89.1	\$2,043,913	\$2,242,028	\$2,307,130

b. Private car tax .....	7	4.1	4.1	172,180	100,666	103,561

## STATE BOARD OF EQUALIZATION—Continued

## a. Assessment of Public Utilities

State assesses annually file property statements with the board which list all of their properties by situs with the associated costs and provide complete accounting and financial information on their properties and operations. From this and other information the board determines the value of each assessee's 'unitary' property as a whole and the value of each nonunitary property. The values are allocated among taxing districts, using the situs information provided in the property statements. These allocated values are further processed to produce a 'board roll' for each county and for each city that requires one, showing each assessee's assessments in each tax-rate area.

Output	1975-76			1975-76	1976-77	1977-78
Number of assessees.....				177	177	178
Market value of property assessed (000) .....				\$20,174,000	\$22,350,000	\$23,000,000
Number of state board rolls .....				62	61	61
<b>Element Requirements</b>	<b>75-76</b>	<b>76-77</b>	<b>77-78</b>	<b>1975-76</b>	<b>1976-77</b>	<b>1977-78</b>
Continuing element costs .....	84	85	95	\$1,871,733	\$2,141,362	\$2,426,054
Element Components:						
1. Derivation of unit value indicators .....	5.3	5.4	16.4	118,551	135,190	387,605
2. Field appraisals .....	24.4	24.2	23.2	563,370	639,335	631,833
3. Allocation of assessed values to taxing districts .....	33.3	34.5	34.5	747,611	857,307	881,960
4. Preparation and maintenance of tax-rate area maps .....	21	20.9	20.9	442,201	509,530	524,656

## 1. Derivation of Unit Value Indicators

Various indicators are used to determine the value of the unitary property. Four of the most important indicators are historical cost less depreciation, reproduction cost new less depreciation, capitalized earnings, and market value of stock and debt.

*Eleven positions are proposed to audit, for purposes of property tax assessment, the property statements of utility companies not currently being audited.*

Output	1975-76			1975-76	1976-77	1977-78
Number of unit value indicators computed .....				486	484	490
<b>Input</b>	<b>75-76</b>	<b>76-77</b>	<b>77-78</b>	<b>1975-76</b>	<b>1976-77</b>	<b>1977-78</b>
Expenditures.....	5.3	5.4	16.4	\$118,551	\$135,190	\$387,605

## 2. Field Appraisals

Field appraisals are made of all land and all nonoperative and other nonunitary improvements and personal property. Nonoperative properties consist of properties owned but not used in the primary function of the company such as lands owned by a railroad but leased out for agricultural purposes. Properties held in a lessee capacity by state assesses and possessory interests are also considered nonunitary and are separately appraised.

*One position reduction has resulted from a workload decrease caused by Chapter 176, Statutes of 1976 (AB 1258, Forest Taxation Reform Act).*

Output	1975-76			1975-76	1976-77	1977-78
Number of parcels appraised .....				12,000	12,500	14,250
<b>Input</b>	<b>75-76</b>	<b>76-77</b>	<b>77-78</b>	<b>1975-76</b>	<b>1976-77</b>	<b>1977-78</b>
Expenditures.....	24.4	24.2	23.2	\$563,370	\$639,335	\$631,833

## 3. Allocation of Assessed Values to Taxing Districts

The total assessed value of the unitary property of each assessee is divided among the tax-rate areas in which the property is located, substantially in proportion to the reproduction cost new less depreciation of the properties in the several areas. The assessed value of each nonunitary property is assigned to the tax-rate area in which the property is located. Board rolls are prepared for each county and each city that collects its own taxes, showing assessments by tax-rate area, by assessee, and by class of property. These rolls are used by the counties and cities in computing the taxes due the counties, cities, and other revenue districts.

Output	1975-76			1975-76	1976-77	1977-78
Number of items assessed .....				315,000	322,000	327,000
Number of tax-rate areas .....				25,891	26,462	27,000
<b>Input</b>	<b>75-76</b>	<b>76-77</b>	<b>77-78</b>	<b>1975-76</b>	<b>1976-77</b>	<b>1977-78</b>
Expenditures.....	33.3	34.5	34.5	\$747,611	\$857,307	\$881,960

## 4. Preparation and Maintenance of Tax-Rate Area Maps

Maps identifying the boundaries of all tax-rate areas in the state are prepared and updated to reflect boundary changes, formations of new districts, and dissolutions of districts. A tax-rate area, commonly known as a 'code area', is a geographical area in which a unique combination of tax rates applies.

Output	1975-76			1975-76	1976-77	1977-78
Number of filings for changes in maps processed .....				2,200	2,055	2,100
Change in number of tax-rate areas .....				550	553	565
<b>Input</b>	<b>75-76</b>	<b>76-77</b>	<b>77-78</b>	<b>1975-76</b>	<b>1976-77</b>	<b>1977-78</b>
Expenditures.....	21.0	20.9	20.9	\$442,201	\$509,530	\$524,656

## STATE BOARD OF EQUALIZATION—Continued

## b. Private Car Tax

The value of cars is determined from information in property statements and other sources. The equivalent number of cars in California is determined by counting the days each car spends in the state and dividing by 365 or 366. After the value and the number of cars for each assessee are established, assessment rolls are prepared and tax bills issued.

Output	1975-76	1976-77	1977-78
Number of assessees.....	178	181	185
Market value of property assessed (000) .....	\$314,642	\$321,000	\$327,000
<b>Element Requirements</b>	<b>75-76</b>	<b>76-77</b>	<b>77-78</b>
Continuing element costs .....	7	4.1	4.1
Element Components:			
1. Car-day count .....	4.9	1.9	1.9
2. Valuing, assessing, and collecting the tax.....	2.1	2.2	2.2
	1975-76	1976-77	1977-78
	\$172,180	\$100,666	\$103,561
	125,559	47,384	48,746
	46,621	53,282	54,815

## 1. Car-Day Count

Information is obtained from the records of the railroad companies on the movements of each car in and out of the state. This information is accumulated by assessee and class of car. From this record, the total car-days accumulated for the year by each assessee by class of car are ascertained, and this total is divided by the number of days in the year to determine the number of cars to be assessed.

Output	1975-76	1976-77	1977-78
Number of movements of cars in and out of the state .....	1,091,522	1,120,000	1,125,000
<b>Input</b>	<b>75-76</b>	<b>76-77</b>	<b>77-78</b>
Expenditures.....	4.9	1.9	1.9
	1975-76	1976-77	1977-78
	\$125,559	\$47,384	\$48,746

## 2. Valuing, Assessing, and Collecting the Tax

The market value of each assessee's cars is determined, and assessments are enrolled at 25 percent of market value. Taxes are extended on the roll at the statewide average general property tax rate in the preceding fiscal year. Billings are then prepared and mailed to the assessees. Tax payments are made directly to the board.

Output	1975-76	1976-77	1977-78
Number of cars.....	18,962	19,000	19,100
Number of tax bills issued .....	178	181	185
Number of tax bills collected .....	178	181	185
<b>Input</b>	<b>75-76</b>	<b>76-77</b>	<b>77-78</b>
Expenditures.....	2.1	2.2	2.2
	1975-76	1976-77	1977-78
	\$46,621	\$53,282	\$54,815

## III. TIMBER TAX PROGRAM

## Program Objectives and Description

The Timber Tax Division collects revenue for the Timber Tax Fund and the Timber Tax Reserve Fund, provides local government with data for the valuation of timberland, establishes timber value areas and the immediate harvest values for species of timber within those areas, develops a standard method of timber measurement and conversion factors where the standard cannot be used, and controls and audits the reporting and self-assessment of the yield tax liability.

Thirty-five and one-half positions are proposed to process the workload generated by Chapter 176, Statutes of 1976 (AB 1258, Forest Taxation Reform Act).

## Authority

Government Code Chapter 6.7 of Part 1 of Division 1 of Title 5; Revenue and Taxation Code Article 1.7 of Chapter 3 of Part 2 of Division 1 and Part 18.5 of Division 2.

Measures of Effectiveness	Estimated and Actual Effectiveness Levels

Timber Tax Fund.....	—*	—	35.5	—	—	904,166

## Program Elements

a. Timber and land valuation.....	0.5	15.8	17.8	\$14,507	\$413,306	\$472,660
b. Registration of taxpayers.....	—*	3.6	1.7	—	25,257	29,147
c. Processing tax returns and harvest data....	—*	3.8	8.7	—	64,746	112,606
d. Auditing accounts.....	—*	3.6	6.5	—	27,547	273,114
e. Collecting taxes receivable.....	—*	0.2	0.8	—	6,122	16,639

## a. Timber and Land Valuation

Forest property appraisers continually obtain land and timber sales data for the purpose of developing regulations, value schedules, and value areas that are consistent with the market. The conclusions are subject to adoption under the Administrative Procedure Act and are used by assessors in valuing timberland and by timber owners in determining tax liability.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	0.5	15.8	17.8	\$14,507	\$413,306	\$472,660

## b. Registration of Taxpayers

Registration of timber owners harvesting timber enables the board to furnish the taxpayers with the proper instructions and tax forms for the purpose of reporting tax and harvest data each quarter. The board establishes an account for each new taxpayer, maintains the account on a current basis, and closes it out when the owner ceases harvesting.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	—	3.6	1.7	—	\$25,257	\$29,147

## c. Processing Tax Returns and Harvest Data

Upon receipt of a field return, it is processed by the cashier for deposit of revenue receipts, fund allocation, and fiscal accounting purposes. The harvest data reported are compiled and adjusted quarterly through data processing. A delinquency record is established for taxpayers failing to file timely returns and notices are sent to the respective taxpayers.

The returns and harvest data reports are reviewed for mathematical accuracy, proper preparation, and conformance with the laws. Billings or refunds are prepared to notify the taxpayer of errors in self-declared tax and applicable penalty and interest.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	—	3.8	8.7	—	\$64,746	\$112,606

## d. Auditing Accounts

Accounts eligible for audit are selected through a process which assures field audit time is used as productively as possible to promote accurate tax reporting and deter evasion. The primary benefit of these audits is to protect the tax base and assist taxpayers in understanding the law and reporting requirements.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	—	3.6	6.5	—	\$27,547	\$273,114

## e. Collecting Taxes Receivable

The headquarters office is primarily responsible for collecting taxes receivable. Field personnel make collections and investigations as directed and when it is necessary, locate assets which may be levied upon or which are subject to lien. Headquarters staff supports the field collection efforts by preparing liens, issuing sheriffs' warrants, and maintaining a taxes receivable ledger.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	—	0.2	0.8	—	\$6,122	\$16,639

## STATE BOARD OF EQUALIZATION—Continued

## IV. SALES AND USE TAX PROGRAM

## Program Objectives and Description

This program is needed to provide General Fund revenue for the state and for cities, counties, and rapid transit districts. The program's objectives are to insure that all sales and use tax revenues are collected in an equitable and effective manner by, effecting timely reporting of tax liability, detecting and correcting errors in self-assessments, and promptly collecting amounts determined to be due and economically recoverable.

The State Board of Equalization administers the state's 4½ percent Sales and Use Tax Law, the 1-14 percent Bradley-Burns Uniform Local Sales and Use Tax Ordinances of cities and counties, and 0.5 percent transactions (sales) and use tax ordinances for the San Francisco Bay Area Rapid Transit District and the Santa Clara County Transit District.

## Authority

Revenue and Taxation Code, Division 2, Parts 1, 1.5 and 1.6.

## Measures of Effectiveness

	Estimated and Actual Effectiveness Levels

b. Processing tax returns .....	368.8	403.6	408	8,411,679	9,824,435	10,166,288
c. Auditing accounts .....	909.4	909.8	956.8	19,453,048	21,685,071	23,165,546
d. Collecting taxes receivable .....	269.1	274.4	274.5	4,982,270	5,535,897	5,723,531

## a. Registration of Taxpayers

Registration of sellers and users enables the board to furnish them with proper tax forms and instructions for purposes of reporting and allocation of these taxes. Necessary security within the limits allowed by law is obtained to assure payment of the tax. The board establishes an account for each new taxpayer, maintains the account on a current basis and closes it out when the business terminates.

Five positions are proposed to register employers for the Department of Benefit Payments and four positions are proposed to process the increased registration of taxpayers workload.

Eighteen and six-tenths position reductions are proposed to provide funding for the implementation of the Business Taxes Information System.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	443.3	460.1	450.2	\$7,625,280	\$8,537,436	\$8,811,821

## b. Processing Tax Returns

After the taxpayer files a return, it is processed through the mail processing, cashier, and data processing units for deposit of revenue receipts and fiscal accounting purposes. This accounting includes the proper distribution of local and transit district taxes. A delinquency record is established for taxpayers failing to file returns, and notices are sent to them. Taxpayers whose accounts remain uncleared after a reasonable period are cited to appear at the local board office to show cause why their permits should not be revoked for failure to file returns.

Returns are reviewed for mathematical accuracy, proper preparation, and application of the law. Billings or refunds are prepared to notify the taxpayer of errors in self-declared tax and applicable penalty and interest. When questionable deductions are observed, the taxpayer is contacted and asked to explain the deduction.

Seven and one-tenth position reductions are proposed to provide funding for the implementation of the Business Taxes Information System.

Ten positions are proposed to process the increased workload resulting from an additional 172,000 tax returns and eight positions are proposed to process workload resulting from administration of the Santa Clara County Transit District Transactions (Sales) and Use Tax.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	368.8	403.6	408	\$8,411,679	\$9,824,435	\$10,166,288

## STATE BOARD OF EQUALIZATION—Continued

## c. Auditing Accounts

This activity is statistically designed to cover the tax base in a manner which will result in audits of accounts most likely to make substantial errors in reporting and on a selective basis to police other accounts as a means of promoting accurate self-reporting.

A major objective of the audit selection system, which is based on the principle of marginal analysis, is to audit accounts which will produce 'tax change' in excess of the cost of auditing. Tax change is the difference between self-assessed taxes and the final determination of taxes due after auditing, whether the difference is a deficiency or a refund to the taxpayer.

To assist the field staff in the selection of accounts to be audited, a tabulated list of eligible accounts is furnished to each district annually. Taxpayer accounts with similar audit characteristics are classified into one of 16 separate groups (cells) according to the probability of productive audits and average time expended.

Districts use the cell lists together with information in their files to select specific accounts to be audited within recommended quotas. The final step in the selection process occurs when a supervisor or field auditor determines, after field investigation, that an audit should be completed or that an audit is not warranted.

Six positions are proposed to process workload resulting from administration of the Santa Clara County Transit District Transactions (Sales) and Use Tax, four positions are proposed for auditing refund claims workload resulting from a recent United States Supreme Court decision (Diamond National Corporation and Crocker Citizens National v. State Board of Equalization), and fifteen positions are proposed to maintain the current approved level of audit coverage by processing sales tax audit workload resulting from an increased number of eligible accounts.

Twenty-three positions are proposed to increase the level of audit coverage to 6 percent. It is estimated that over \$30 million in additional tax revenue will be collected during the next ten years.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	909.4	909.8	956.8	\$19,453,048	\$21,685,071	\$23,165,546

## d. Collecting Taxes Receivable

Field offices are primarily responsible for the collection of delinquent amounts. The effort expended on each account is consistent with the amount due. Although efforts are made to accomplish collection through use of the telephone or by correspondence, field calls and the utilization of statutory remedies may be necessary to collect larger amounts when other efforts have not been productive.

Headquarters staff supports field collection efforts with actions such as the preparation of liens, issuance of warrants, demands on sureties and personal guarantors, and processes all claims and documents pertaining to bankruptcies, assignments, and probates and refunds to the Attorney General.

Eight positions are proposed to reduce the amount of occasional sales use tax accounts receivable being inventoried and written-off as uncollectible. It is estimated that over \$1 million in additional revenue will be collected as a result.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	269.1	274.4	274.5	\$4,982,270	\$5,535,897	\$5,723,531

## V. ALCOHOLIC BEVERAGE TAX PROGRAM

## Program Objectives and Description

This program is needed to provide revenue for the State General Fund. It is estimated that alcoholic beverage taxes will produce \$132,900,000 in General Fund revenue in fiscal year 1977-78. The objective of this program is to insure that all alcoholic beverage tax revenues are collected in an equitable and effective manner by effecting timely reporting of tax liability, detecting and correcting errors in reporting, and promptly collecting amounts determined to be due and economically recoverable.

State excise taxes imposed on the manufacture, importation, or sale of alcoholic beverages in this state are administered by the board. These are self-assessed taxes.

13. Amount of taxes receivable collected .....	\$151,676	\$617,332	\$265,000	\$200,000

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78
Continuing program costs (General Fund) .....	32.3	32	32	\$594,487	\$660,925	\$684,015

## Program Elements

a. Registration of taxpayers.....	1.6	1.3	1.3	21,771	25,624	26,519
b. Processing tax returns and reports .....	20.1	20.4	20.4	341,879	396,359	410,206
c. Auditing accounts.....	9.9	9.6	9.6	219,795	226,070	233,968
d. Collecting taxes receivable.....	0.7	0.7	0.7	11,042	12,872	13,322

## a. Registration of Taxpayers

Persons subject to the alcoholic beverage taxes are identified through licenses issued by the Department of Alcoholic Beverage Control. The board furnishes them tax returns for the reporting of tax. Accounts are regularly reviewed to determine security requirements. Nontaxpaying common carriers, customs brokers, out-of-state vendors, and out-of-state purchasers are also registered and supply necessary information reports.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	1.6	1.3	1.3	\$21,771	\$25,624	\$26,519

## b. Processing Tax Returns and Reports

Alcoholic beverage tax returns are filed directly with the board's headquarters office. The returns are processed through the cashier and the data processing division for deposit of funds and fiscal accounting purposes. The excise tax unit then verifies reported tax computations, notifies taxpayers of apparent discrepancies on returns, and reviews them for proper preparation and application of the law.

A delinquency is established for taxpayers failing to file returns and notices are sent to them. A list of delinquent accounts is furnished to field offices for followup. Billings or refunds are prepared for errors in self-declared tax and applicable penalty and interest.

After reports received from common carriers, customs brokers, and out-of-state vendors are coded and processed by the data center, they are used to verify amounts reported by taxpayers. These informational reports produce an accountability system, which enables the board to effectively monitor taxable and nontaxable transactions in the state.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	20.1	20.4	20.4	\$341,879	\$396,359	\$410,206

## c. Auditing Accounts

Due to informational reports received from out-of-state vendors, common carriers, customs brokers, and reciprocating states, the excise tax unit is able to effectively select for field auditing those accounts which appear to have understatements of tax. In addition, audits are made of accounts selected at random to deter tax evasion and to promote accurate reportings.

During the audit process, taxpayers are assisted in understanding the law, rules, and regulations and in the proper manner of filing tax returns and reports.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	9.9	9.6	9.6	\$219,795	\$226,070	\$233,968

## d. Collecting Taxes Receivable

The headquarters office is primarily responsible for collecting taxes receivable. Investigations are made by field personnel when it is necessary to locate assets which may be levied upon or which are subject to lien.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	0.7	0.7	0.7	\$11,042	\$12,872	\$13,322

## VI. CIGARETTE TAX PROGRAM

## Program Objectives and Description

This program is needed to provide revenue for the State General Fund and for cities and counties. It is estimated that the 10-cent cigarette tax will produce \$277,200,000 in 1977-78. The State General Fund share will be \$194,000,000 and \$83,200,000 will be for local governments. The objective of this program is to insure that all cigarette tax revenues are collected in an equitable and effective manner by effecting timely reporting of tax liability, detecting and correcting errors in taxpayer reporting, and promptly collecting amounts determined to be due and economically recoverable.

The cigarette tax is imposed upon distributors of cigarettes at the rate of one-half cent per cigarette (10 cents per standard package of 20) and upon consumers who acquire untaxed cigarettes which are not otherwise exempt from tax. The tax is paid by distributors through the purchase of stamps or meter register units from commercial banks which contract with the state for the issuance of stamps and indicia.

## Authority

Revenue and Taxation Code—Part 13, Division 2.

e. Collecting taxes receivable .....	0.9	0.7	0.7	11,078	13,087	13,544

**a. Registration of Taxpayers**

Every person desiring to engage in the sale of cigarettes as a distributor or a wholesaler must obtain a license for each location at which he engages in such business. This enables the board to furnish him with proper forms for the orderly reporting, processing, allocation, and administration of the tax. Necessary security to assure payment of tax is obtained from licensed distributors. Taxpayers are advised about reporting requirements, the records that are required, and the application of tax to specific transactions.

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Input .....						
Expenditures .....	0.2	0.2	0.2	\$2,977	\$3,263	\$3,377

## STATE BOARD OF EQUALIZATION—Continued

## b. Processing Tax Returns

Forms and instructions are mailed to licensed distributors and wholesalers to enable them to file monthly reports to account for their purchases and distributions of cigarettes, stamps, and meter units and to enable licensed distributors to report tax. Other reports are received from banks relating to the acquisition and sale of stamps and meter units and information reports are received from manufacturers and common carriers. After tax reports, stamp and meter unit sales reports, payments from banks, and various information reports are received in headquarters, they are processed to account for tax payments and verify mathematical accuracy and conformity with the requirements of the law. This information is also used for audit selection. If a timely report is not filed, the taxpayer is notified; and if the delinquency is not cleared, revocation proceedings are instituted.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	6.6	6.7	6.7	\$879,922	\$916,702	\$937,966

## c. Auditing Accounts

Field auditing is essential to assure uniform application of the law, deter evasion and carelessness in self-reporting, and identify and correct errors in self-reporting. The cigarette audit activity is an important facet of the enforcement program to deter illegal distributions. Reconciliations are made in headquarters using data reported by manufacturers, distributors, wholesalers, banks, and others on information reports. Immediate corrective action is taken when underreported tax is indicated. This headquarters function protects the revenue from underreported tax on cigarettes received from legitimate sources. It does not, however, provide an adequate control of cigarettes obtained from illegal sources.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	4.8	4.8	4.8	\$108,961	\$113,454	\$117,418

## d. Enforcement Activities

Enforcement activities are designed to prevent loss of revenue through tax indicia counterfeiting, bootlegging, smuggling and illegal sales of cigarettes. Field inspections are made of distributors' stamping machines to see that indicia is properly affixed, clear and legible. In addition, inspections are made of cigarette stocks in retail stores and in transit and vending machines to assure that all packages are properly stamped.

Liaison is maintained with all federal, state, and local law enforcement agencies.

Expenditures.....	3.2	3.2	3.2	\$69,500	\$74,192	\$76,784

## e. Collecting Taxes Receivable

The headquarters office is primarily responsible for collecting taxes receivable. Investigations are made by field personnel when it is necessary to locate assets which may be levied upon or which are subject to lien. Headquarters staff supports the field collection efforts with various actions, such as preparation of liens, issuance of sheriffs' warrants and maintenance of the taxes receivable ledger.

Expenditures.....	0.9	0.7	0.7	\$11,078	\$13,087	\$13,544

## VII. MOTOR VEHICLE FUEL LICENSE TAX PROGRAM

## Program Objectives and Description

This program is needed to provide revenue for the Highway Users Tax Fund, Aeronautics Fund, Harbor and Watercraft Revolving Fund, Off-Highway Vehicle Fund, and Agriculture Fund. The objective of this program is to insure that the Motor Vehicle Fuel License Tax is administered in an equitable and effective manner by effecting timely reporting of tax liability and detecting and correcting errors in taxpayers' self-assessments.

The 7-cent per gallon gasoline tax is imposed upon refiners, importers, and wholesale distributors on their distributions to retailers. A 2-cent per gallon tax is imposed on sales of aircraft jet fuel by dealers to certain users. The State Controller shares responsibility with the State Board of Equalization for the administration of this tax by collecting delinquent taxes and making refunds to consumers making exempt use of the gasoline.

a. Registration of taxpayers .....	1.5	1.4	1.4	\$33,599	\$35,651	\$36,632
b. Processing tax returns .....	5.6	5.5	5.5	120,584	125,781	129,240
c. Auditing accounts .....	7.9	7.8	7.8	180,401	193,851	199,183

## a. Registration of Taxpayers

Persons subject to the Motor Vehicle Fuel License Tax are registered to enable the board to furnish proper forms for the reporting, processing, and administration of the tax. Necessary security within the limits allowed by law is obtained to assure payment of the tax. Taxpayers are advised concerning the application of tax to specific transactions, the records required, and the preparation of reports.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	1.5	1.4	1.4	\$33,599	\$35,651	\$36,632

## b. Processing Tax Returns

After a return is filed by the taxpayer in the headquarters office, it is processed through the cashier and the excise tax unit for proper deposit of funds and fiscal accounting purposes. Taxpayers failing to file returns are identified and notices are sent to them. A list of delinquent accounts is furnished to field offices for followup.

Returns are verified for mathematical accuracy and reviewed for proper preparation and application of the law. When questionable deductions are found, the taxpayer is contacted and asked for an explanation.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	5.6	5.5	5.5	\$120,584	\$125,781	\$129,240

## c. Auditing Accounts

Accounts eligible for audit are selected through a process which assures that field audit time is used as productively as possible to promote accurate tax reporting and deter evasion. The primary benefit of these audits is to protect the tax base and assist taxpayers in understanding the law and reporting properly. These activities result in a sustained high level of self-declared tax.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	7.9	7.8	7.8	\$180,401	\$193,851	\$199,183

## VIII. USE FUEL TAX PROGRAM

## Program Objectives and Description

This program is needed to provide revenue for the Highway Users Tax Fund. It is estimated that the tax will produce \$68,000,000 of revenue for the 1977-78 fiscal year. The objectives of this program are to insure that all use fuel tax revenues are collected in an equitable and effective manner by effecting timely reporting of tax liability, detecting and correcting errors in taxpayer self-assessments, and promptly collecting amounts determined to be due and economically recoverable.

The use fuel tax is imposed on users of diesel fuel at 7 cents per gallon, liquefied petroleum gas and liquid natural gas at 6 cents per gallon, and compressed natural gas at 7 cents per 100 cubic feet, measured at standard pressure and temperature. The tax applies on use of these fuels in motor vehicles on the highways. An annual flat rate amount may be paid for vehicles using liquefied petroleum gas, liquid natural gas or compressed natural gas. All users must be licensed, file returns, and pay applicable tax. A portion of the tax is collected by vendors who place such fuel in the fuel tanks of motor vehicles. These vendors are likewise licensed and file returns and report the tax.

<sup>1</sup> Includes Flat Rate Returns.<sup>2</sup> Clean Air Exemption repealed by Chapter 1509, Statutes of 1970, effective 12/31/75.<sup>3</sup> Includes Flat Rate fees.<sup>4</sup> Includes investigations which resulted in field billing orders.

## Program Requirements

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Continuing program costs ( <i>Transportation Tax Fund, Motor Vehicle Fuel Account</i> ) .....	94.3	95.2	95.2	\$1,872,991	\$2,023,239	\$2,078,886

## Program Elements

a. Registration of taxpayers .....	36	37.9	37.9	\$667,810	\$739,116	\$759,445
b. Processing tax returns .....	25	24.5	24.5	517,354	550,917	566,069
c. Auditing accounts .....	23.9	23.4	23.4	497,436	533,267	547,934
d. Collecting taxes receivable .....	9.4	9.4	9.4	190,391	199,939	205,438

## a. Registration of Taxpayers

Registration of sellers and users enables the board to furnish them with proper tax forms and instructions for purposes of reporting and processing of these taxes. Necessary security within the limits allowed by law is obtained to assure payment of the tax. The board establishes an account for each new taxpayer, maintains the account on a current basis and closes it out when the business terminates.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	36	37.9	37.9	\$667,810	\$739,116	\$759,445

## b. Processing Tax Returns

This enables the board to verify the computations, account for the tax paid, identify taxpayers who are delinquent, assess self-declared but unpaid tax liability, and notify taxpayers of apparent discrepancies detected on the returns.

After returns are filed by taxpayers in the headquarters office, they are processed through the cashier section and data processing for deposit of funds and fiscal accounting purposes. Delinquencies are established for taxpayers failing to file returns and notices are sent to them.

Returns are verified for mathematical accuracy and reviewed for proper preparation and application of the law. When questionable deductions are found, the taxpayer is contacted and asked for an explanation. A control system is maintained to assure the accuracy of credits claimed by users for tax paid to vendors.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	25	24.5	24.5	\$517,354	\$550,917	\$566,069

## STATE BOARD OF EQUALIZATION—Continued

## c. Auditing Accounts

This activity is planned to assure uniform application of the tax by detecting and correcting errors in reporting and is statistically designed to cover the tax base in a manner which will audit accounts most likely to make substantial errors in reporting and on a selective basis to police other accounts as a means of promoting accurate reporting. A major objective of the selection system is to audit accounts which will produce tax change in excess of the cost of auditing. To assist the field staff in selection of accounts to be audited, a list of eligible accounts is furnished to each district yearly. Eligible accounts are grouped into eight tax intervals in descending order according to annual tax reported.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	23.9	23.4	23.4	\$497,436	\$533,267	\$547,934

## d. Collecting Taxes Receivable

After the finality date of billings, field offices are primarily responsible for collection action including the use of mail, telephone, and personal contacts. Necessary investigations are made by the field staff to locate assets subject to lien or execution proceedings. Vehicles may be seized and thereafter sold when necessary to effect collection of the tax. The object is to bring about payment with the least delay.

In addition to field collection activities, liens are automatically recorded by headquarters seven weeks after the finality date where the amount owed is \$100 or more. If the delinquent amount is owed on an active account, a 'notice of hearing' preparatory to revocation action is issued simultaneously with the recording of the lien.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	9.4	9.4	9.4	\$190,391	\$199,939	\$205,438

## IX. ENERGY RESOURCES SURCHARGE PROGRAM

## Program Objectives and Description

This program is needed to provide revenues for the State Energy Resources Conservation and Development Commission. The objective is to administer a surcharge on the consumption of electricity.

Administration of this surcharge on consumers of electrical energy includes registration of electric utilities required to collect from consumers, return review, auditing, billing and collecting efforts, resolution of protests, submission of management reports, necessary advisory services, and setting a rate sufficient to fund the expenditures authorized in the Budget Act to be made from the State Energy Resources Conservation and Development account in the General Fund.

## Authority

Part 19 of Division 2 of the Revenue and Taxation Code.

## X. EMERGENCY TELEPHONE USERS SURCHARGE PROGRAM

## Program Objectives and Description

This program is needed to provide revenue to fund the '911' emergency telephone number system. The objective is to administer a surcharge on intrastate communication services.

Administration of this surcharge on telephone users includes registration of telephone service suppliers required to collect from users, return review, auditing, promptly billing and collecting amounts determined to be due and economically recoverable, resolution of protests, submission of management reports, necessary advisory services, and setting a rate sufficient to fund the expenditures authorized in the Budget Act to be made from the State Emergency Telephone Number Account in the General Fund.

Two and one-half positions are proposed to process the workload generated by Chapter 443, Statutes of 1976 (AB 416, Emergency Telephone Users Surcharge).

## STATE BOARD OF EQUALIZATION—Continued

## XI. INSURANCE TAX PROGRAM

## Program Objectives and Description

This program is needed to provide revenue for the State General Fund. It is estimated that this tax will produce \$293 million in General Fund revenue in 1977-78. The objective is to assess taxes on premiums and on ocean marine profits of underwriters and levy retaliatory assessments against 'foreign' insurers.

The program is administered jointly by the board, the Controller and the Insurance Commissioner. The board's responsibility in administering this program is the assessing of the tax on the California business of insurance companies.

The board's staff prepares an annual assessment against each insurance company based on the net premiums on California business other than ocean marine insurance, and the average annual underwriting profit on ocean marine business. It also imposes a retaliatory tax on any out-of-state company doing business in California whenever that company's home state subjects a California company doing business in that state to a greater burden than California imposes on insurers domiciled in that state. The staff processes deficiency assessments, refunds, and requests for corrections of assessment. It recommends action to the board and advises taxpayers and the Controller of amended assessments. The board also hears taxpayer appeals made in person or in writing and makes decisions based on the material presented at such hearings by the board's legal staff.

## Authority

## XII. APPEALS FROM OTHER GOVERNMENTAL PROGRAMS

## Program Objectives and Description

A method of independent review is necessary when a taxpayer disagrees with actions taken by the Franchise Tax Board. The Board of Equalization provides this necessary appellate procedure.

There is also a need for an impartial tribunal that decides disputes between entities of local government relative to assessments and equalization on local rolls of taxable property of a county, city, city and county, or municipal corporation. The objective is to render sound and equitable administrative appellate decisions in an expeditious manner.

In the case of franchise and income tax and senior citizens property tax appeals, a taxpayer files a written notice with the board to initiate the appeal action.

In the case of intracounty equalization appeals, the review action is initiated when the local public entity which owns taxable property outside its jurisdiction files an application for review, equalization, and adjustment of the assessment with the board.

## Authority

1) Franchise and Income Tax Appeals: The Revenue and Taxation Code Sections 18593 to 18596, 18621, 18646, 18648, 19057 to 19061.1, 19062.2 to 19062.5, 25666, 25667, 25701, 25701a, 25731a, 25761a, 26075 to 26078 and 26060.1. Procedural regulations respecting appeals from the Franchise Tax Board are contained in Title 18, California Administrative Code, Chapter 2, Subchapter 10, Sections 5021 to 5027 and 5071 to 5080; 2) Senior Citizens Property Tax Assistance: Section 19540 of the Revenue and Taxation Code; and 3) Intracounty Equalization: Section 1 of Article XIII, California Constitution, and Sections 1822.5 and 1826 of the Revenue and Taxation Code. The procedural regulations are contained in Sections 451-458, Chapter 1, Title 18, California Administrative Code.

c. Intracounty equalization .....	—	—	—	—	500	500

## a. Franchise and Income Tax Appeals

Action is initiated after a taxpayer files a written notice with the Board of Equalization. The legal staff secures the framing of the issues of law and fact by means of memoranda and stipulations of the parties. After an oral hearing before the board, the case is referred to the board's legal staff for review, analysis, and preparation of a written opinion and decision reflecting the views of the Board of Equalization.

Expenditures.....	0.3	0.3	0.3	\$10,729	\$14,064	\$14,555

## c. Intracounty Equalization

Action is initiated when the local public entity which owns the property files with the State Board of Equalization an application for review, equalization, and adjustment of the assessment imposed by the county or city in which the property is located. The assessor may file an answer. A prehearing conference is conducted by a member of the board's legal staff to define the issues and arrange for stipulations and exchange of exhibits. A formal hearing is conducted before the board which renders a written decision with findings of fact, conclusions, and an order.

## XIII. CAMPAIGN STATEMENT AUDITING PROGRAM

## Program Objectives and Description

Under provisions of the State Election Code (in compliance with the Waxman-Dymally Campaign Disclosure Act), the board audited and investigated certain statements of campaign fund receipts and expenditures for elections held during 1974; and filed a report with the Secretary of State and the Attorney General. The objective was to insure that campaign statements filed with the Secretary of State represented fairly the financial transactions of candidates and committees.

The board is required to provide supportive service to the Attorney General through 1976-77 in conjunction with those audit reports subject to review under the enforcement provisions of the Code.

The Waxman-Dymally Campaign Disclosure Act was superseded as of January 7, 1975, by the Political Reform Act of 1974—the audit duties of the board being assumed by the Franchise Tax Board.

Output	1975-76	1976-77	1977-78

## XIV. ADMINISTRATION PROGRAM

The objectives of this program are to implement the policies and directives of the elected Board Members, and to provide direction, leadership, planning, and supportive services for all board programs.

These activities are provided by the executive secretary, assistant executive secretaries, and the chief counsel. It also includes administrative staff services reporting to these positions.

Three positions have been reduced due to reimbursable contract workload decreases.

## SECRETARY OF STATE

The principal objectives of the Secretary of State's Office are to examine numerous types of documents for statutory compliance; to file such documents as a matter of public record; to administer and enforce election laws and procedures; to appoint notaries public and to enforce the laws relating to the conduct of notaries public; to accession and preserve records having historical significance and to make such records available for public use.

The office administers six major programs: Corporate Filing, Elections, Political Reform, Uniform Commercial Code, Notary Public, and Archives.

### SUMMARY OF PROGRAM REQUIREMENTS

## I. CORPORATE FILING

### Program Objectives and Description

The Secretary of State's staff examines all proposed articles of incorporation and related documents to assure the propriety and protection of the public interest in corporation filing through the review of powers and purposes stated in articles of incorporation and related documents submitted for filing. In addition, a variety of legal work is necessary in performing the primary function. Other integral elements of the office share in the total operation of filing and processing corporate documents and other kinds of documents, such as applications to register trademarks and service marks. The program provides a control to assure that corporations are properly formed pursuant to the laws of the State of California. The office gives ready reference to names, legal standing, county of principal office, stock structure, and names of officers of California corporations. Filed documents are available for public inspection and copies are available upon request.

*Four new clerical positions are proposed for this program due to the anticipated workload increase in the number of documents filed and services related thereto.*

## SECRETARY OF STATE—Continued

## II. ELECTIONS

## Program Objectives and Description

To ensure that the state's election laws are complied with in a uniform manner. The Secretary of State, as California's chief election officer, provides technical information and legal opinions for the public, Legislature, and local election officers regarding election laws and procedures. The continuing greater complexity of the state's election system requires increased vigilance by the Secretary of State, as well as the promulgation of appropriate rules and regulations, to insure that the state's election laws are uniformly and adequately observed. In addition, the Secretary of State certifies to the nomination and election of state candidates, and the office is the central repository for voter registration data and official election results.

Chapter 704, Statutes of 1975, concerning registration of voters by mail, became operative on July 1, 1976. As a result of this legislation, expenditures for the current fiscal year will increase an estimated \$1,331,585. Budget year expenditures for this program element will be an estimated \$1,362,821.

Chapter 1163, Statutes of 1976, appropriated \$50,000 in the 1976-77 fiscal year to the Secretary of State to provide assistance to counties in the registration of voters in the minority language precincts and for making a report to the Legislature.

*Two new clerical positions are proposed to cover increased workload generated by new state and federal election laws.*

## Authority

Constitution, Elections Code, Government Code, Federal Voting Rights Act and the Federal Overseas Voting Act.

## III. POLITICAL REFORM

## Program Objectives and Description

The Secretary of State shares the responsibility for enforcing the nation's toughest campaign disclosure laws by virtue of passage of the Political Reform Act of 1974. Under this law the Secretary of State is charged with reviewing all campaign receipts and expenditure statements from candidates, committees, and ballot measure proponents and opponents and their committees; registering lobbyists and reviewing and publishing their monthly expenditure reports.

Chapter 415, 1976 Statutes requires the Secretary of State to print and make available to the public all registrations and amendments thereto of persons qualifying as lobbyists under the Political Reform Act of 1974.

## Authority

SECRETARY OF STATE—Continued

IV. UNIFORM COMMERCIAL CODE

Program Objectives and Description

To render a service through the filing of financing statements and related documents so that a secured creditor may perfect a security interest in personal property covered by a security agreement as against other creditors. Not only does this program afford a secured creditor some protection against debtor bankruptcy, insolvency or default, but it also provides a prospective lender or seller the means to determine if there are any previously perfected security interests involving certain personal property. The division further files notices of federal tax liens against partnerships and corporations, state tax liens and attachment liens against personal property. The Secretary of State's staff examines all documents presented for filing for statutory compliance. The documents are then filed and open to public inspection. Certificates of filing and copies of filed records are available upon request.

*The anticipated workload increase for this program is 14.5% over that experienced in 1975-76 fiscal year. Two typist clerks are being added to this program to accommodate the workload increase.*

Authority

Uniform Commercial Code, Chapter 4, Divisions 9 and 10 and 11; Uniform Federal Tax Lien Registration Act; Chapter 14, Division 7 of Title 1 of the Government Code; and Chapter 14.5, Division 7 of Title 1 of the Government Code relating to the registration of state tax liens; Section 488.340 of the Code of Civil Procedure relating to attachment liens.

V. NOTARY PUBLIC

Program Objectives and Description

To serve the business community and general public through the appointment of notaries public for the purpose of performing certain official acts and to give official recognition and authenticity to acts and documents executed in the presence of a notary public. Many documents to be legally or officially acceptable must be notarized. Notary public services are generally related to oaths, affirmations, affidavits, depositions, and acknowledgements. Applications for a notary public commission are reviewed to determine that applicants meet the requirements for appointment. Appointments are for four-year terms and under such an appointment, a notary may render notarial services throughout the State. The Secretary of State further investigates improper conduct on the part of the notaries public and takes appropriate disciplinary measures if warranted.

*Two clerical positions and one investigator are proposed in the current and budget year to process the complaints received regarding notaries public. The investigator will also assist in the administrative hearing process.*

Authority

Government Code, Chapter 3, Division 1, Title 2.

## SECRETARY OF STATE—Continued

## VI. ARCHIVES

## Program Objectives and Description

To collect, catalog, index and preserve historic and otherwise valuable artifacts from a wide range of origins including county and city records as well as state papers. To serve the public directly and to assist state agencies and private and semiprivate institutions by providing an organized record of California history. Without this program for collecting historic documents, many valuable and needed records would be lost or otherwise destroyed, leaving the state with a reference vacuum that could not be filled. The State Archives at 1020 O St., Sacramento, maintains an exhibit hall which is open to the public on a daily basis.

Chapter 483, Statutes of 1975 appropriated \$66,000 to the California Heritage Preservation Commission for the first year of a 3 year Knight, Brown Oral History Project. This budget proposes to provide \$66,000 for the second year of this project. The project is accomplished by contract with the University of California.

To assist in the reduction of an approximate backlog of 6,814 cubic feet of historical records, the Division will be adding ten limited-term positions for 12 calendar months commencing in February 1976. Funding of \$155,000 is to be provided from Title II grant funds made available by the Federal Public Works Employment Act of 1976. A summary presentation related to Title II grants is shown in the Employment Development Department budget.

## VII. ADMINISTRATION AND STAFF SERVICES

## Program Objectives and Description

To maintain management control and to provide staff support to line functions with emphasis on personnel, fiscal and general administrative services. To provide the office with a means for continuing evaluation of its programs for greater responsiveness to program requirements. Through analytical studies, development of personnel, fiscal and other administrative options developed by administrative staff, the executive staff to the Secretary of State is able to establish policy, plan and direct the various programs administered by the department. Fiscal, personnel, electronic data processing, system analysis, computer programming and management analysis functions contribute significantly to the executive and administrative direction provided by top management.

A Legislative liaison unit requiring two new positions is proposed to work with the Legislature and also analyze the numerous legislative bills affecting the Secretary of State. Also one account clerk is proposed for accounting office workload increases.

## HERITAGE PRESERVATION COMMISSION

### Program Objectives and Descriptions

The commission, with the Secretary of State as its secretary, is composed of representatives of four state agencies and a private college or university, six persons appointed by the Governor and two members of each house of the Legislature who constitute a joint interim legislative committee on California heritage preservation.

The commission will furnish a report to the 1977 session of the Legislature to account for its activities.

The California Heritage Preservation Commission is charged with planning for the restoration, preservation and display in the State Capitol and elsewhere throughout the state of the historic documents of the State of California on deposit with the Secretary of State.

In the 1974-75 fiscal year, \$45,000 was appropriated pursuant to Chapter 984, Statutes of 1974, for the completion of the Earl Warren Oral History Program. This is being completed in the current year through a contract between the California Heritage Preservation Commission and the University of California (Regional Oral History Office of the Bancroft Library).

Chapter 59, Statutes of 1974 appropriated \$5,000 to the commission to advise and coordinate activities of county heritage and historical commission.

Chapter 483, Statutes of 1975 appropriated \$66,000 for the Goodwin Knight-Edmund G. Brown Era Oral History Project. This will be accomplished through a contract between the California Heritage Preservation Commission and the University of California.

*The function of the Heritage Preservation Commission has been absorbed by the Secretary of State and 1977-78 funding for the Oral History Project will be contained in that budget.*

### Authority

The commission was created by Chapter 1938, Statutes of 1963, and continued by Chapter 1383, Statutes of 1965.

## COMMISSION ON VOTING MACHINES AND VOTE TABULATING DEVICES

Effective January 1, 1977, pursuant to Chapter 246 Statutes of 1976 the State Commission on Voting Machines and Vote Tabulating Devices is mandated to study and adopt regulations governing the use of voting machines, voting devices, and vote tabulating devices.

The Secretary of State, as Secretary of the Commission, will make all arrangements for the time and place to examine voting equipment proposed to be sold in California. In addition the Secretary shall furnish complete reports of the findings of the examining engineers, and has the ongoing responsibility for verifying that the equipment used in elections is operable in every election.

*In the past, the Commission's support has been contained in the Secretary of State's budget. However, in accordance with an opinion issued by the Office of the Attorney General and the intent of the Legislature as expressed in Section 6556 of the Elections Code, the Commission, as an independent state agency, is being presented as a separate budget and Budget Act item for the 1977-78 fiscal year.*

f.	Administration (distributed to other elements) .....	16.1	19.1	19.3	(429,952)	(491,064)	(488,701)

#### a. Bond Sales and Services

This program element includes the selling, issuing, servicing and redeeming of all State of California general obligation and revenue bonds. Interest costs are minimized through a planned bond marketing program. This includes the offering of complete bond services to present bond holders including flexible bond registration and maintenance of paying agents in New York and Chicago.

Output	1975-76	1976-77	1977-78
Value of bonds sold (in millions) .....	\$414	\$680	\$785
<b>Input</b>			
Expenditures .....	\$285,012	\$333,089	\$352,357
Personnel years .....	12	13.1	13.1

#### b. Investment Services

The State Treasurer has the responsibility for investment of state moneys from the day of receipt until the day warrants issued to expend these receipts are presented to the State Treasurer's Office for redemption. During the 1975-1976 fiscal year, this office handled 10,614 security investment transactions totaling over \$76.3 billion. The Pooled Money Investment Board programs accounted for 9,986 of these transactions totaling \$73.6 billion. The remaining \$2.7 billion was distributed among other investment programs such as the Central Valley Water Projects Construction Fund and Marketing Trust Account. Cash management for these programs includes a comprehensive cash forecasting system which permits the purchase of longer term securities, thus maximizing the return from these funds.

Output	1975-76	1976-77	1977-78
Total revenue (in millions) .....	\$218.3	\$220	\$225
<b>Input</b>			
Expenditures .....	\$225,071	\$286,205	\$299,904
Personnel years .....	5.8	7.1	7.1

## STATE TREASURER—Continued

## c. Paying and Receiving

The State Treasurer provides banking services for all state agencies. Included in this element is the deposit of state moneys in the State Treasury and centralized banking system and the redemption of all state warrants.

*One new Associate Programmer Analyst was added January 1, 1977 and proposed for 1977-78 to assist the Data Processing Manager by handling software requirements. One Clerk II and two Clerk I's are proposed as limited term positions to June 30, 1978 to be funded by a transfer of temporary help funds from Department of Health reimbursements.*

Output	1975-76	1976-77	1977-78
Dollars received (in billions) .....	\$69	\$71.5	\$73
Number of warrants paid (in millions) .....	19.6	21.4	22.5
<b>Input</b>			
Expenditures .....	\$761,987	\$902,136	\$925,647
Personnel Years .....	26.4	32.4	32.9

## d. Trust Services

The State Treasurer is responsible for the safekeeping of all securities and other personal property owned by or pledged to the state. These securities are held in the Treasurer's vault or in approved depositories such as the Federal Reserve Banks in San Francisco and Los Angeles. As of June 30, 1976 the Treasurer was responsible for over \$14 billion dollars in securities. During the past year 16,881 vault and depository releases were prepared and processed involving 568,626 securities. In addition 1,860,405 coupons, representing the interest increment on bonds held, were clipped and processed for collection during fiscal 1975-1976.

Output	1975-76	1976-77	1977-78
Number of securities received and released .....	568,626	600,000	625,000
<b>Input</b>			
Expenditures .....	\$425,076	\$487,562	\$509,667
Personnel years .....	15.7	16.2	16.3

## e. Districts Securities Division

The California Districts Securities Division is charged with the supervision of certain fiscal and physical affairs of irrigation districts, California Water districts, water storage districts, and certain other types of districts and local entities of the State of California.

The Districts Securities Commission was established in 1931 as a result of a special investigation by the California Irrigation and Reclamation Financing and Refinancing Commission following the default of many irrigation and other districts in payment of principal and interest due on outstanding bonds. The Districts Securities Commission succeeded the Bond Certification Commission which had been created in 1911. Since the creation of this Commission in 1931 there has been no default in payment of principal or interest due on bonds approved by the Commission.

The Districts Securities Commission became a division in the State Treasurer's Office effective November 10, 1969, in accordance with the Governor's Reorganization Plan No. 1.

*One new Associate Hydraulic Engineer position is added to meet the new workload requirements of Chapter 1362, Statutes of 1976, AB 3706, which increases the number of special districts under this division from 324 to 675.*

Output	1975-76	1976-77	1977-78
Examination and report on debt proposals of various special districts .....	72	81	90
Examination and approval of financing programs (water storage districts) .....	8	8	8
Exemption approvals from D.S.I. Law .....	58	58	58
<b>Input</b>			
Expenditures .....	\$216,826	\$249,013	\$258,821
Personnel years .....	7.1	7.9	8.1

## f. Administration

The administrative operation gives executive direction to program chiefs. Administration includes budgeting, personnel and accounting functions.

*One staff services analyst position, funded by a transfer of temporary help funds, is proposed for 1977-78 as the Manager of the Los Angeles Office. One account clerk II, also funded by a transfer of temporary help funds, is proposed in 1977-78 to meet ongoing workload responsibilities.*

Input	1975-76	1976-77	1977-78
Expenditures .....	\$429,952	\$491,064	\$488,701

# **AGRICULTURE AND SERVICES**

DEPARTMENT OF FOOD AND AGRICULTURE

The objectives of the Department of Food and Agriculture are:  
To serve the citizens of California by promoting and protecting California agriculture in the interests of public health, safety and welfare.  
To maintain a viable food system which assures delivery of an abundant supply of wholesome food to domestic and export markets.  
To provide leadership in the development of policy on issues important to California food and agriculture.  
To preserve and protect use of the state's natural resources to meet the present and future requirements for food and fiber.  
To provide effective and uniform administration of the Food and Agricultural Code and other laws over which the department has jurisdiction.  
To serve the citizens of California by assuring that equity prevails in the commercial exchange of goods where value is determined by weight or measure.

I. AGRICULTURAL PEST AND DISEASE PREVENTION

Program Objectives and Description

Infestations of harmful pests and diseases seriously affect the ability of the agricultural industry to produce and provide to the citizens of California adequate supplies of food and fiber of high quality at a reasonable cost. Animal diseases which are transmissible to man endanger the health of the state's populace. Plant pests and diseases threaten the safety and welfare of California citizens through detrimental effects on the environment.

The objective of this program is to protect the citizens of the state against unfavorable economic, social, or environmental impact by preventing the introduction or spread of harmful plant and animal diseases, weeds, insects, and other pests. This is accomplished by:

1. The establishment and enforcement of quarantines to exclude such diseases and pests whenever possible;
2. The detection of diseases and pests now established or about to become established in California and, by identification, analysis, and evaluation after detection, arriving at recommendations for action;
3. The formulation and enactment of plans of action to eradicate or control such diseases and pests.

Activities to quarantine, detect, identify, evaluate, and eradicate or control diseases and pests are carried out by action of the Department of Food and Agriculture, either directly or with the county agricultural commissioners.

Authority

Food and Agricultural Code; Division 1, Part 1, Chapter 3; Division 4; Division 5, Parts 1, 2, 3, 4; Division 8; Division 13, Chapter 1; Division 19, Chapter 5.

For the list of standard (lettered) footnotes, see the end of the Governor's budget.

## a. Exclusion and Detection of Plant Pests and Diseases

Plant pest and disease exclusion and detection encompasses those activities designed to keep California's environment free from the introduction and establishment of new plant pests; to delay the spread of established plant pests; to detect the spread of plant pests; to certify plant products are free from pests; and to direct, assist, train, and evaluate county plant pest exclusion and detection programs.

In addition, the following departmental roles and missions are partially met at border stations: To check out-of-state fruit and vegetable shipments for compliance with quality control standards; to monitor out-of-state apiary shipments and associated equipment for compliance with apiary regulations; to report movement of out-of-state shipments of certain fresh fruits and vegetables; to report movement of out-of-state shipments of poultry, eggs, and livestock; and to monitor out-of-state shipments of wild animals and birds for compliance with Fish and Game and Public Health regulations.

Other government agencies are assisted in meeting their missions and roles at border stations by observing and recording weather, reporting out-of-state Christmas tree shipments, reporting forest fires, reporting highway conditions, cooperating with other law enforcement agencies, and conducting traveler surveys.

California has in effect 25 state exterior quarantine and 12 federal domestic quarantines designed to prevent the introduction of plant pests, and is currently operating 16 inspection stations along its northern and eastern borders. Since 1972, we have contracted with the State of Arizona for joint protection through Arizona's stations.

Planning and training, coordination, supervision, and evaluation is provided by the state to county agricultural commissioners for uniform statewide enforcement of 50 state exterior, state interior, and federal domestic quarantines regulating shipments of plants and other specified articles arriving in California.

State pest detection is conducted with an emphasis on county agricultural commissioners' participation and implementation. State staff is responsible for planning, training, coordinating, supervising, and evaluating the county programs. Pest detection is conducted by trapping (a highly successful technique) and visual survey. This work is done systematically with trapping in specific areas of the state, and visual survey of 1/4 of most portions of the state each year. Pest detection includes the measurement of air pollution damage to agricultural crops and remote sensing, utilizing new techniques ranging from satellite and aircraft pictures to computer photo interpretation.

Staffing reflects on additional 2.9 personnel-years for Japanese beetle detection.

## Output

DEPARTMENT OF FOOD AND AGRICULTURE—*Continued*

b. Control and Eradication of Plant Pests and Diseases

The purpose of this element is to minimize the undesirable economic, social, and environmental impacts on the agricultural industry and the public, from identified infestations of vertebrate or invertebrate plant pests, plant diseases and noxious weeds, predatory animal damage, and to maintain apiary quality.

This element achieves its stated objectives by employing effective control or eradication measures whenever feasible, and by providing training and advisory services to county agricultural commissioners and their staff. Certain projects in the element are financed wholly or in part by industry assessments.

*Funding for predatory animal damage control has been increased \$80,000 subject to legislative approval of industry participation in program funding.*

*Staffing reflects a decrease of 12.9 personnel years for redirection of the comstock mealybug program, decrease in Dutch elm disease, continuation of gypsy moth eradication and termination of the Mediterranean fruit fly eradication project.*

Output	1975-76	1976-77	1977-78

## c. Laboratory Services

The five laboratories of Laboratory Services are Botany, Entomology, Nematology, Plant Pathology, and Seed Purity/Germination. These laboratories provide accurate and prompt identification service to plant protection units within the department and additional agencies listed below. Up to 50 percent of the Seed Laboratory expenses which represent 10.4% of lab services are currently paid from seed industry assessments. Recently enacted legislation, Chapter 1051/76, effective July 1, 1977, provides that a maximum of one third of the expenses are to be paid from these assessments. This legislation is reflected by an increase in the 1977-78 budget.

Laboratory Services maintains an operations center which manufactures and ships supplies and assures a constant source of indicator plants necessary for identification of plant diseases.

	1975-76	1976-77	1977-78
<b>Output</b>			
1. Number of identifications and/or tests made:.....	109,892	113,247	115,227

	\$1,280,586	\$1,431,000	\$1,573,944

# DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## d. Nursery Service

Nursery Service initiates and maintains programs to coordinate and supervise the enforcement by county agricultural commissioners of state laws which regulate the growing, handling, and distribution of nursery stock. Persons selling nursery stock are licensed to enable effective enforcement work.

The unit provides uniformity in regulatory work and leadership in pest detection programs in nurseries to provide for adequate freedom of movement of nursery stock, to keep the nursery trade from becoming involved in restrictive quarantines, and to assure orderly marketing of nursery stock. Cooperative research is undertaken to solve nursery-related pest problems.

Voluntary registration and certification programs are provided to nurserymen as a means of producing and marketing plants relatively free of virus diseases, disorders, and economic plant pests.

The nursery services are supported by fees collected for licenses and services performed in nursery stock registration and certification.

Output	1975-76	1976-77	1977-78
1. Value of nursery stock produced in California .....	\$460,000,000	\$460,000,000	\$460,000,000
2. Value of nursery stock certified.....	\$25,110,540	\$15,000,000	\$15,000,000
3. Number of nursery inspections and reinspections.....	16,000	16,000	16,000
4. Number of licenses issued to operate nurseries.....	8,524	8,600	8,600

6. Number of applications entered in voluntary registration and certification programs .....	306	251	296
7. Number of participants in registration and certification programs.....	147	115	138
8. Certification activities:			
a. Growing grounds (acres) .....	1,861	908	697
b. Trees (number) .....	1,420	2,721	2,856

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	16	16.4	15.8	\$462,196	\$494,570	\$506,972

## e. Seed Potato Certification Service

California's seed potato certification program commenced in 1915 when it became evident that potatoes could no longer be produced commercially unless seed, meeting strict standards of pest cleanliness and varietal purity, was available for planting.

The fitness of potatoes to qualify for certification is determined by inspection and testing of plants and tubers for serious pests, grade standards and varietal purity.

Approximately 3,000 acres of seed potatoes are entered for certification annually. This acreage is grown and harvested over a 12-month period throughout the state. This service is supported by acreage test plot fees.

Output	1975-76	1976-77	1977-78
Value of certified seed produced .....	\$4,400,000	\$4,000,000	\$4,000,000
Value of seed exported .....	685,000	500,000	500,000
Estimated savings to potato industry.....	1,500,000	1,000,000	1,000,000

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	2.4	2.9	2.9	\$98,113	\$118,853	\$129,484

## f. Animal Health

This element is responsible for the detection, control, and eradication of animal diseases in the State of California. Detection activities include surveillance, examination, testing, and autopsies performed both in the field and in the laboratories.

Disease control is accomplished through vaccination, testing, and elimination of infected animals; cleaning and disinfection of premises; and restriction of animal movement by hold orders, quarantines, or movement permits with controlled destination of animals with disease, exposed to disease, or contaminated with deleterious substances.

Eradication efforts are made through nationwide programs to break the cycle of infection by test and removal of infected animals, sterilization of garbage fed to swine, sanitation of hatching eggs, and herd treatment for external parasites. Owners whose animals are removed are in some cases indemnified for a portion of the animal's value.

Preventive activities are directed toward protecting against the entry of foreign diseases and diseases already successfully eradicated in California. This is done by destruction of ship and aircraft garbage, inspection of shipments of animals from other states, and by quarantines when applicable.

Expenditures include \$336,130 of emergency funds allocated to the prevention of cattle scabies; \$100,408 in the 1975-76 fiscal year and \$235,722 in the 1976-77 fiscal year.

Brucellosis indemnity funds have been reduced and those funds redirected to provide 5 additional positions for eradication of the disease. This redirection is subject to passage of legislation placing financial responsibility for eradication of the disease, in herds where owners fails to comply with prescribed eradication methods, upon those owners.

Output	1975-76	1976-77	1977-78
1. Number of animals tested:

## g. Veterinary Laboratory Services

Laboratory assistance is provided by five laboratories strategically located at Petaluma, San Gabriel, Turlock, Fresno, and Sacramento. These laboratories conduct tests, perform autopsies, and provide diagnostic support for State and Federal animal health regulatory veterinarians, veterinary practitioners, poultrymen, State Meat Inspection, Milk and Dairy Food Control, and University and extension veterinarians. A fee is charged for all diagnostic work performed by the laboratories.

## DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## Output

	1975-76	1976-77	1977-78
Serological tests on all diseases.....	1,517,335	1,500,000	1,500,000

## II. FOOD AND AGRICULTURAL STANDARDS AND INSPECTION SERVICE

## Program Objectives and Description

This program is responsible for:

Assurance to consumers that meat and meat food products (except for those inspected by the Federal Government), milk, milk products, and products resembling milk products are wholesome, properly labeled, and in compliance with adequate standards.

Enforcement of laws relating to pesticide regulatory activities, including pesticide residues and pest control activities, to protect environment, agriculture, agricultural workers, and general public from harmful effects of pesticides and other chemicals used in agricultural production. Regulation of commercial fertilizers, livestock remedies, and pesticides to assure accurate product labeling, to assure consumers that products they purchase are as represented by the label and can be used safely for production of crops, livestock, and poultry when label directions are followed. Provide consumer protection by removing from channels of trade food and agricultural products failing to meet minimum quality standards.

Protection of consumers by providing regulatory services assuring accuracy of measure and count of consumer goods, labeling and advertising of petroleum products, training and licensing of weighmasters, and standardization of weighing and measuring devices in a cooperative program with County Sealers of Weights and Measures.

Various units within the department which impact on the use and regulation of pesticides will be consolidated into one expanded Pest Control Management Division. This reorganization is being done to provide better protection for agricultural workers to increase agricultural productivity through the improvement of pest control management techniques, and to facilitate compliance with the California Environmental Quality Act.

## Authority

Food and Agricultural Code, Divisions 6, 7, 9, 10, 11, 12, Parts 1, 4, Chapter 2; Divisions 15, 17, 18, Chapters 1, 2, 3; Business and Professions Code, Division 5, Chapters 1, 2, 3, 4, 5, 6, 7, 7.3, 7.7, 9, 10, 11; Division 8, Chapters 7, 10, 11, 11.5.

## a. Meat Inspection

The State of California must provide meat inspection in slaughterhouses and to those processing plants that are exempt from federal inspection.

The consumer in California desires to be assured that all meat and poultry and meat and poultry food products consumed are disease free, wholesome, unadulterated and truthfully labeled. Many animal diseases are transmissible to man through the meat he eats. Pesticides, antibiotics, pathogenic microorganisms, carcinogenic compounds, additives and deceptive extenders used in meat products and meat from animals which died other than by slaughter are undetectable by the consumer. Without state meat inspection a significant part of meat and poultry slaughtered and meat and poultry food products manufactured will go without any inspection.

On April 1, 1976 the department initiated action whereby the responsibility for meat inspection was turned over to the Federal Government. This resulted in a General Fund saving of \$2.7 million.

## Output

	1975-76	1976-77	1977-78
1. Meat inspected and passed from slaughter (poultry and rabbits) in lbs. ....	255,000,000	2,766,000	2,904,300
2. Processed meat food products inspected and passed in lbs. ....	825,000,000	1,838,040	1,929,942
3. Meat inspected for pet food in lbs. ....	110,000,000	126,675,000	133,008,750
4. Meat unfit for pet food condemned in lbs. ....	18,300,000	12,000,000	12,600,000
5. Number of plants under inspection (slaughter and processing) .....	820	127	137
6. Number of meat samples analyzed.....	5,900	480	504
7. Number of labels approved.....	2,000	200	210

DEPARTMENT OF FOOD AND AGRICULTURE—Continued

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	306	28	28	\$6,473,788	\$925,456	\$861,981

b. Milk and Dairy Foods Control

The Bureau of Milk and Dairy Foods Control has responsibility for the hygienic quality of milk, milk products, and products resembling milk products. This is accomplished by enforcing the provisions of the Food and Agricultural Code dealing with the standards of composition, purity, and truthful labeling as they apply to the production, processing, and distribution of milk, milk products, and products resembling milk products.

The program also includes the enforcement of laws and regulations that control weighing, sampling and testing of milk where such measurements determine the value of the product, and the inspection and certification of dairies, milk plants, dairy laboratories, and milk-container fabricators for interstate sale and sale to federal installations in California.

The Bureau provides milk product plant inspections, and supervision of the grading and packaging of butter, cheese, margarine, and dry milk for the U.S. Department of Agriculture on a reimbursable basis.

The inter and intra-agency relationships include supervision of 27 local Approved Milk Inspection Agencies (AMIS), a program of pesticide control in milk products, and collaboration with state and federal agencies on radiological surveillance, and with the Water Quality Control Board on environmental conditions existing on dairies.

The principal objectives of this program are to insure that the California consumer can purchase and consume milk, milk products, and products resembling milk products from any retail outlet in the state with the assurance that the products they receive will be pure, wholesome, and truthfully labeled, and that tests for basis of payment between milk producers and the buyer are accurate.

An additional 3 positions have been added in 1976-77 and 1977-78 to extend inspection activities to Merced, Madera, and San Diego counties.

Output	1975-76	1976-77	1977-78
1. Pounds of milk produced in California per year.....	10,693,000,000	10,756,000,000	11,014,144,000
2. Number of final packaging units of milk and milk products .....	1,852,650,000	1,871,177,000	1,875,855,000
3. Final packaging units inspected for purity, quality, and quantity .....	129,000	129,500	129,000
4. Percentage found in compliance with all standards .....	85.56	85.60	85.65
5. Number of inspections performed:			
a. Raw milk level.....	32,200	31,700	31,600
b. Finished product level .....	102,000	102,500	103,000
6. Number of milk producers.....	3,426	3,402	3,375
7. Number of processing distributors .....	723	684	650

Surveys and reinspection of dairies and milk plants under local inspection have been more extensive and time-consuming because of inadequate performance of local agencies. Label approval to meet the mandates of ingredient and nutritional labeling have also increased staff workloads considerably.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	45.3	48.9	48.9	\$1,064,332	\$1,348,846	\$1,375,037

c. Fruit and Vegetable Quality Control

The purpose of this element is to inspect fruits, nuts, vegetables, and honey to assure minimum legal standards of quality, packaging, and labeling. Inspections are performed at production, wholesale, and retail levels by county agricultural personnel who are trained and supervised by state personnel.

In addition, state personnel operate highway inspection stations to monitor commodities and verify validity of certificates.

The element is also responsible for inspecting avocados to ensure that avocados offered for sale are certified as meeting minimum standards of quality and maturity, etc. This mandatory inspection and certification is due to the enactment of Chapter 1261, Statutes of 1972. It is supported by a fee charged on each container of avocados.

Output	1975-76	1976-77	1977-78
1. Containers of fruits, vegetables, nuts, and honey inspected at:			
a. Production, wholesale and retail levels.....	220,200,000	228,000,000	228,000,000
b. Inspection stations.....	68,000,000	70,000,000	70,000,000
c. Processing controls issued .....	6,500	6,500	6,500
2. Containers of fruits, vegetables, nuts, and honey rejected at:			
a. Production, wholesale and retail levels.....	904,200	933,200	933,200
b. Inspection stations.....	272,000	280,000	280,000
c. Processing controls received.....	9,000	9,000	9,000
3. Classroom training of county personnel (man-hours).....	3,375	4,250	4,250
4. Total annual value (1974) of California fruits and vegetables .....	\$3,200,000,000	\$3,200,000,000	\$3,200,000,000
5. Regulation changes			
a. Number of requests for change .....	18	20	20
b. Number of hearings .....	18	20	20
c. Number adopted .....	15	20	20
6. Experimental container permits:			
a. Experimental container and pack permit:			
Number issued .....	54	70	30
Number adopted.....	2	3	2
b. Experimental container permits:			
Number issued .....	23	25	25
Number adopted.....	7	2	2

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	41	46.4	46.4	\$938,944	\$1,138,875	\$1,200,399

## DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## d. Quantity and Quality Assurance

The Division of Measurement Standards, in a cooperative program with County Sealers of Weights and Measures, provides regulatory services in the four major areas of responsibility:

1. Quantity declarations of commodities in containers.
2. Quality, labeling and advertising of petroleum products.
3. Weighing of bulk commodities.
4. Accuracy of devices used to determine weight, measure and count.

This element is organized into line responsibility. The Division's four (4) programs are separated into two (2) units. Each unit composed of two (2) programs is administered by a manager and two supervisors.

Personnel assigned to each program have statewide responsibility enforcing weights and measures laws and coordinating county activities. All primary standards of weights and measures are maintained in the Sacramento headquarters. Working standards used by state and county weights and measures officials are tested and must conform to these primary standards. The state's standards are traceable to the National Bureau of Standards and through this chain we assure the public of the accuracy of commercially used weighing and measuring devices.

*Two positions and \$55,000 have been added to provide greater consumer protection in the weighing and measuring device inspection program.*

## Output

	1975-76	1976-77	1977-78
1. Number of inspections:			
a. Packaged products.....	83,479	90,000	100,000
b. Petroleum products.....	15,825	15,700	15,900
c. Bulk commodities.....	3,008	3,500	3,700
2. Number of violations in packaged products:			
a. Labeling.....	641,112	670,000	700,000
b. Shortages.....	2,586,601	2,844,000	3,100,000
3. Number of violations in petroleum products:			
Quality, labeling and advertising.....	17,942	15,400	14,800
4. Number of violations in bulk commodities.....	3,390	3,400	3,400
5. Number of disciplinary actions:			
a. Packaged products.....	2,774	3,050	3,400
b. Petroleum products.....	508	492	465
c. Bulk commodities.....	25	40	50

Totals.....	71.4	74.6	76.6	\$1,837,300	\$2,085,165	\$2,218,918

## e. Pesticide Control

Over 25 million acres of agricultural crop land plus a great number of gardens, industrial areas, and stored products are treated annually with pesticides. In fiscal year 1975-76, \$345 million worth of pesticides were reported sold in California.

California annually registers pesticides prior to sale. The registration process requires thorough and continuing evaluation of each product label claim for clarity, technical accuracy, and compliance with federal and state laws and regulations. Regulations are developed and enforced to provide safety for workers and for proper use of pesticides. Inspection, sampling and testing of pesticide products are done to assure that they are registered properly, labeled, and that ingredients conform to label statements. Unlabeled, misbranded or deficient products are quarantined from sale and subject to further enforcement actions.

Applicants for Agricultural Pest Control licenses, Agricultural Pilot certificates, Pesticide Dealer licenses and Agricultural Pest Control Adviser licenses are examined and, if qualified, are licensed to operate. Regulations are developed and adopted to establish operating standards for licensees.

Farm commodities used as food or feed are sampled and laboratory tested for pesticide residue. Products found with illegal residues are quarantined for removal from sale and follow-ups are made for correction of improper practices.

Coordination is maintained with County Agricultural Commissioners, the U.S. Food and Drug Administration and the U.S. Environmental Protection Agency in pesticide regulatory activities. Assistance is given to County Agricultural Commissioners in developing local programs for regulation of pesticides.

*Staffing reflects an additional 12 positions for a three year grant from the U.S. Environmental Protection Agency to develop and implement plan and procedures to certify pesticide applicators in accordance with federal law, and 8.7 positions for farm worker safety, which includes two integrated pest control specialists to aid in the review of the whole area of pesticide use.*

## Output

**f. Commercial Fertilizer Control**

This element provides protection to producers of food and fiber crops, as well as to the home gardener who purchases these products. Commercial fertilizers and agricultural minerals require complete labeling stating all constituents claimed to be of value. Users depend upon complete label information for purchase and proper use of materials for optimum production. The user also relies on label integrity to achieve the lowest unit cost. Mislabeling or adulteration could result in serious economic loss to the user.

An intensive inspection and sampling program is utilized to determine product compliance with state labeling requirements for consumer protection. These activities are supported by registration fees and tonnage taxes.

	1975-76	1976-77	1977-78
<b>Output</b>			
1. Annual tonnage of fertilizer materials .....	3,320,870	4,000,000	4,000,000
2. Number of registrants:			
a. Commercial fertilizers .....	600	600	600
b. Agricultural minerals .....	55	55	60

Expenditures .....	15.9	15.8	16.8
	1975-76	1976-77	1977-78
	\$416,478	\$467,797	\$509,178

**g. Feed and Livestock Remedies Control**

This element provides protection to producers of livestock and poultry who annually buy and use over 9,000,000 tons of feed in production of meat, milk and eggs. Complete labeling is required so that producers can select and use these products with confidence and efficiency to minimize losses in production. Inspection, sampling and laboratory testing assures that commercial feeds and feed additives will not cause illegal drug or pesticide residues or other contaminants in food products purchased by consumers and that such products will be safe and wholesome.

Livestock remedies are required to be registered and properly labeled so that livestock and poultry producers can depend on these products to safely and effectively control disease problems. Also there is random monitoring of the user to insure that label directions are being followed to prevent possibility of illegal residues in meat, milk and eggs.

An intensive inspection program supports labeling requirements and conformance with required regulations. It is supported by license fees and tonnage tax assessments.

	1975-76	1976-77	1977-78
<b>Output</b>			
1. Annual tonnage of commercial feeds .....	8,750,000	9,000,000	9,000,000
2. Annual dollar value of:

	1975-76	1976-77	1977-78
	\$562,658	\$597,360	\$666,903

## DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## h. Seed Service

Seed Service initiates and maintains programs to coordinate and supervise enforcement and inspection work done by the County Agricultural Commissioners and performs field seed certification work. The element also administers the One-Variety Cotton Districts Act which authorizes only the Acala Variety of cotton to be planted in the San Joaquin Valley, thus assuring the growing of the most profitable and uniform cotton variety. Official sampling and inspection work determines compliance with the California Seed Law as to specific quality statements on seed labels, freedom of the seed from primary noxious weed seeds, and proper labeling of treated seed. State responsibility in the seed certification activity is for directing, training, and coordinating work.

Seed Service and the associated seed laboratory currently receive up to 50 percent financial support from industry funds. Chapter 1051/76, effective July 1, 1977, provides that the industry shall support the total enforcement cost of the California Seed Law and up to one third of the associated laboratory costs. This legislation results in an annual savings of approximately \$22,000 to the General Fund and a corresponding increase to the Agriculture Fund. The decrease reflected in the 1977-78 budget represents a more accurate definition of the activities performed in the enforcement of the California Seed Law. In 1977-78, seed laboratory expenses for service and quarantine samples are being displayed in the Laboratory Services element.

*Funding for the One Variety Cotton district enforcement has been reduced \$25,000. The cotton industry will be encouraged to provide support for program continuation.*

## Output

	1975-76	1976-77	1977-78
1. Pounds of seed planted in California .....	291,000,000	291,000,000	291,000,000
2. Number of official seed samples drawn .....	1,525	1,550	1,600

## i. Chemistry Laboratory Services

This element provides Laboratory Services for consumer and industry protection by:

Analyses of meat products, dairy products, feeds, fertilizers, livestock remedies and pesticides for label guarantees. Analysis of milk, meat, produce, plant material, and Agricultural Commissioners' samples for pesticide residues. Analysis of meat and milk for biological residues. Analysis of feeds for toxins resulting from mold.

Assisting the inspection of all levels of milk production, processing, distribution, and testing by 60 other dairy laboratories with chemical and microbiological tests. Checking the calibration of milk testing equipment and microbiological testing practice by direct observation and posting several thousand standardized samples each year.

Utilizing two mobile laboratories to perform on location analyses of preharvest food samples and crop foliage to insure worker's safety, safety of food crops, and environmental pesticide monitoring. Mobile labs are on call for emergency pesticide situations anywhere in the state.

*A total of 12.2 positions which were related to meat inspection laboratory analyses have been abolished.*

## Program Effectiveness Measurements for Dairy Laboratory

Goal: All routine Dairy Laboratory samples are to be completed one week after receipt (8 days).

	1975-76	1976-77	1977-78
Routine dairy .....	96.9%	98%	98%
Number of analyses performed in the Dairy Laboratory are:			
Dairy analyses .....	31,873	31,000	31,000
Dairy glassware calibrated .....	13,988	12,000	13,000
Dairy referee samples .....	1,600	1,500	1,500

## Program Effectiveness Measurements for Feed-Fertilizer Laboratory

Goal: All routine feed and fertilizer samples are to be completed within three weeks of receipt (15 working days)

	1975-76	1976-77	1977-78
Routine feed .....	84%	85%	85%
Number of analyses .....	19,000	19,000	19,000
Routine fertilizer .....	78.8%	80%	80%
Number of analyses .....	9,600	10,000	10,000

## Program Effectiveness Measurements for Pesticide-Residue Laboratory

Goal: All samples are to be completed as follows:

	1975-76	1976-77	1977-78
Routine pesticide-residue (within one day) .....	94%	95%	95%
Nonroutine pesticide-residue (within three weeks) .....	85%	92%	95%
Number of analyses .....	35,000	35,000	35,000

## Program Effectiveness Measurements for Pesticide Formulations Laboratory

Goal: All routine formulations samples are to be completed within two weeks (10 working days)

	1975-76	1976-77	1977-78
Routine formulations .....	87%	92%	92%
Number of analyses .....	4,300	5,000	5,000

DEPARTMENT OF FOOD AND AGRICULTURE—Continued

Program Effectiveness Measurements for Mobile Laboratory, Worker Safety, and Registration Review

MOBILE LABORATORY

Goal: All routine Mobile Laboratory Residue samples are to be completed within one (1) day of receipt

	1975-76	1976-77	1977-78
Routine samples .....	90%	90%	100%
Number of Analyses Performed:			
Residue samples .....	2,000	2,500	2,500

WORKER SAFETY AND REGISTRATION REVIEW

Goal: All samples submitted involving field reentry studies are to be completed within two (2) days. Blood cholinesterase samples are to be completed within one (1) day. Other samples as soon as possible.

	1975-76	1976-77	1977-78
Reentry samples .....	90%	90%	90%
Blood samples .....	99%	100%	100%

Personnel years are included in the using elements.

III. AGRICULTURAL MARKETING SERVICES

Program Objectives and Description

California Agriculture produces 200 different crops which enter state, national and international commerce for human consumption and use. These commodities are faced with a myriad of problems including orderly marketing, reduction of economic waste, assurance of supply, consumer protection, and price determination in moving through the various trade channels. Agricultural Marketing Services assists in resolving these problems by collecting and disseminating marketing and economic information, identifying and helping to resolve marketing problems, assisting the milk industry to maintain stability, and reviewing and helping to mediate problems between producers and handlers.

Authority

Food and Agricultural Code, Division 18, Chapter 1; Division 20, Chapters 1, 6, 7; Division 21, Part 1, Chapters 1, 2, Part 2, Chapters 1, 2, Part 3, Chapters 1, 2, 3; Division 22, Chapters 1, 2, 3. U.S. Agricultural Marketing Act of 1946.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78
Continuing program costs .....	319	345.4	343.5	\$7,072,894	\$8,222,714	\$8,459,424

f. Grain and commodities inspection .....	58.2	85.4	104.6	1,128,938	1,724,524	2,269,930

a. Market News

The Market News element is operated jointly with the United States Department of Agriculture as the Federal-State Market News Service.

Agricultural marketing data is collected by telephone and personal contact from farmers, buyers, dealers, shippers, auction sales companies, and others involved in the marketing process. All data is given to Market News representatives on a voluntary basis, including confidential information such as an individual's or firm's selling prices, volume sold, volume processed, shipments, and market conditions. This information from many sources is consolidated into Market News reports and disseminated to the public by telephone, teletype, radio, TV, printed reports, newspapers, and trade journals.

California markets the largest food and agricultural production of any state, with a large portion shipped to eastern consuming centers. The exchange of current marketing guidelines nationwide gives California the timely information needed to economically market several billion dollars worth of perishable food commodities each year. Through use of these market news data, shortages and/or surpluses will be held to a minimum, creating a better economic balance benefiting both the producing and consuming public.

A position has been added in 1977-78 for monitoring market news data.

## DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## Output

	1975-76	1976-77	1977-78
Number of information collecting interviews .....	510,000	520,000	520,000
Number of commodity prices reported .....	354,000	350,000	350,000

Expenditures .....	64.5	64.3	65.3	\$1,326,491	\$1,444,961	\$1,538,261

## b. Agricultural Statistics

California Crop and Livestock Reporting Service is a federal-state entity supported under a cooperative agreement between the Department of Food and Agriculture and USDA Statistical Reporting Service. Funding is approximately two-thirds federal and one-third state. The responsibility of this office is to prepare and distribute statistics on California agriculture. These statistics are used as a basis for production and marketing decisions by those in agriculture and allied industries. The growing complexity of California agriculture has expanded the need for 'farm facts' and increased the demand for their precision. These demands often require larger samples and more frequent reporting. The statistical series include estimates on pre-harvest forecasts and later estimates of acreage, yield, production, prices, and utilization of crops, inventory numbers, production, and prices of livestock and poultry and their products, and periodic reports of weather, crop and range conditions.

Newer sampling techniques and improved estimating procedures have provided forecasts of production with greater precision than in past years. The improved estimating procedures include objective cotton and fruit counts, probability list sampling, area frame sampling, multiple frame sampling, and the use of aerial photography.

In the current year, 4.2 positions relating to workload generated by marketing trust activities are being included in the budget. In the past these positions were not included in the budget display. The cost of these positions will be reimbursed by the special trust funds.

## Output

	1975-76	1976-77	1977-78
Number of usable questionnaires tabulated .....	124,944	139,060	140,000
Field personal interviews made .....	25,745	39,770	40,000
Objective measurement samples taken .....	3,879	3,754	3,800
Number of telephone interviews .....	6,781	10,702	10,500
Number of reports issued .....	392	386	385
Number of copies of reports issued (includes bulletins) .....	480,169	432,332	430,000
Number of individual requests through office .....	7,235	7,239	7,200
Number of estimates made .....	5,702	5,700	5,700

## Input

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	30.9	37.1	37.1	\$532,296	\$643,490	\$665,880

## c. Milk Marketing Program

The Milk Marketing Program is authorized to establish the minimum prices at each level of the marketing process under standards established by the Legislature. This includes the establishment of minimum prices paid to producers by distributors, minimum wholesale prices paid by retail stores to distributors, and minimum prices paid by consumers to retailers.

The program also has responsibility for controlling unfair practices in the milk industry. These responsibilities include the enforcement of established minimum prices of fluid milk, the filing of prices on dairy products, and the prohibition against sales below cost.

Another major function is responsibility for the determination of statewide dollar values of commercial uses of market milk. Under the standards of the Milk Pooling Act, this value is assigned monthly to producers based on their individual entitlements. Under the equalization standards of the Act, adjustments are made to producer entitlements from growth in the Class One market.

A continuing audit program is maintained to verify uniform and impartial treatment to all parties subject to the program.

## Output

California market milk production 1975-76 .....	10.5 billion pounds
1975-76 Annual Gross Dollar Value of the Milk Industry:	
Value at the farm .....	\$1 billion
Value at wholesale .....	\$1.35 billion
Retail value .....	\$1.62 billion
Producer and handler statements computed each month .....	1,300
Number of market milk producers .....	2,322
Number of market milk processors .....	213
Number of licensed distributors .....	1,931

## Input

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	125.7	129.1	129.1	\$3,140,832	\$3,617,863	\$3,757,222

## d. General Marketing Services

General Marketing Services include (1) identification and analysis of agricultural marketing problems, attending and participating in industry meetings, counseling and recommending alternative procedures or solutions, stimulating and organizing industry efforts, making special reports assisting in the formulation of nonprofit cooperative or bargaining associations, and responding to correspondence, inquiries, and requests from the general public, business, the Director's office, and other governmental agencies; (2) assisting agricultural industries in analyzing their marketing problems and helping them prepare programs to meet these needs; (3) assisting California agriculture with foreign trade development and the development and dissemination of information about foreign markets and marketing; (4) explaining to consumers and the public in general what the situation is in agriculture and the reasons certain activities, including those under marketing orders, are carried on; and (5) to encourage the direct marketing of California agricultural products from farmers to consumers.

Staffing reflects an additional 3 positions for the continuation of the direct marketing program.

DEPARTMENT OF FOOD AND AGRICULTURE—Continued

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	5	7.7	8.6	\$124,208	\$239,414	\$219,758

e. Market Enforcement

Through licensing provisions of the Food and Agricultural Code, this element exercises control upon the activities of middlemen and processors of farm products.

Mandatory provisions require investigation and settlement procedures when complaints against handlers are received from producers. In the event that settlement negotiations are not successful, the authority provides for formal hearing. Disposition of the complaint may be either by dismissal or disciplinary action against the licensee in the form of probation or suspension or by revocation of license. This activity is handled by a field staff under the supervision of regional administrators.

Preventive and deterrent effects are achieved through examination of licensee's records to assure that the licensee is conducting his business in an acceptable manner. This part of the activity is handled by auditing licensees on a random sampling basis. This activity results in specific information as to the level of compliance.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	34.7	36.1	36.3	\$820,129	\$900,245	\$935,667

f. Grain and Commodities Inspection

This element provides a service of inspecting and certifying to grades of grains, rice, beans, peas, hops, hay, safflower, and certain processed commodities.

Authority for this activity is granted by United States Grain Standards Act, Agricultural Marketing Act and California law. The Department has a cooperative agreement with the United States Department of Agriculture to provide a Federal-State inspection service for rice, beans, peas, hops, hay, and processed commodities.

Certificates issued by Grain and Commodities Inspection are generally accepted as proof of quality and are used as a basis for the trading of grain and other commodities. California inspection offices are located wherever demand for services is sufficient. The service is not mandatory and is funded by fees charged.

*Staffing reflects an additional 33.5 personnel years to meet new federal grain inspection requirements.*

Output	1975-76	1976-77	1977-78
Certificates Issued:			
Grain .....	102,791	114,000	115,000

Expenditures.....	58.2	85.4	104.6	\$1,128,938	\$1,724,524	\$2,269,930

IV. FINANCIAL SUPERVISION OF LOCAL FAIRS

Program Objectives and Description

The apportionment of funds made available by the Legislature for construction and support for fairs is a principal function of the Division of Fairs and Expositions. Also management assistance in upgrading fair services and exhibitor opportunity is mandated to the Division by the broadening of legislation and changing social and economic conditions. This entails review and approval of operating and capital outlay programs of 76 of the state's 79 fairs and the annual upgrading of manuals and a master premium list as well as the processing of over 1,500 contracts for services and rentals annually. The Division furnishes staff and clerical services to the Fair Budget Review Board.

Cal OSHA mandates that local fairs meet current safety standards. The Division of Industrial Safety is making periodic Cal OSHA inspections of these facilities and is issuing a large number of citations for electrical deficiencies.

*Funding has been provided for one management analyst position and 0.7 personnel years of clerical support.*

V. ASSISTANCE TO COUNTIES FOR AGRICULTURAL PURPOSES

This program is designed to:

- Secure more adequate and uniform enforcement of the provisions of the Food and Agricultural Code through sharing in the payment of salaries of County Agricultural Commissioners.
- Participate in the preservation of prime agricultural lands under the authority of the Land Conservation Act of 1965.
- Partially reimburse counties for carrying out agricultural programs authorized by the Food and Agricultural Code under the supervision of the Department of Food and Agriculture.

## DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## Program Requirements

	1975-76	1976-77	1977-78
Continuing program costs .....	\$3,605,416	\$3,442,261	\$2,845,302

Department of Agriculture Fund .....	3,430,516	3,267,361	2,670,402

## Program Elements

a. Salaries of county agricultural commissioners .....	\$174,900	\$174,900	\$174,900
b. Payments to counties for agricultural programs .....	3,430,516	3,267,361	2,670,402

## a. Salaries of County Agricultural Commissioners

To secure more adequate and uniform enforcement of the provisions of the Food and Agricultural Code, the state participates in the payment of salaries of the County Agricultural Commissioners as provided by Sections 2221 through 2224 of the Food and Agricultural Code. Participation is limited to the lesser of \$3,300 per year or two-thirds of the salary of each commissioner. Fifty-two counties are participating in this program.

## Input

	1975-76	1976-77	1977-78
Direct program costs .....	\$174,900	\$174,900	\$174,900

## b. Payment to Counties for Agricultural Programs

Section 8352 of the Revenue and Taxation Code provides for the annual transfer of refundable unrefunded gasoline taxes applicable to agricultural use from the Motor Vehicle Fuel Account Transportation Tax Fund to the Department of Agriculture Fund. Section 224(3) of the Food and Agricultural Code provides that of the funds transferred each year, the amount in excess of \$1,500,000 is to be paid to counties as partial reimbursement for county expenses incurred in carrying out agricultural programs authorized by the Food and Agricultural Code that are supervised by the Department of Food and Agriculture. These payments are apportioned to the counties by the Director of Food and Agriculture in the percentage relationship that each county's expenditures for the preceding fiscal year for such agricultural programs bear to the total amount expended by all counties.

Section 12844 of the Food and Agricultural Code provides for payments to the counties as reimbursement for costs incurred by the counties in the administration and enforcement of the provisions of Division 6 (commencing with Section 11401), Chapter 2 (commencing with Section 12751), Chapter 3 (commencing with Section 14001), and Chapter 3.5 (commencing with Section 14101) of the Food and Agricultural Code. These payments are apportioned to the counties in the percentage relationship that each county's expenditures bear to the total amount expended by all counties for such programs.

Section 12112 of the Food and Agricultural Code provides that 50 percent of the moneys collected from licensing pesticide dealers shall be paid to counties for enforcement and administration of Chapter 7 of the Food and Agricultural Code. These payments are made to the county that the applicant indicates as his principal address at the time of payment of such fees.

Section 12539 of the Business and Professions Code provides that five-eighths of the moneys collected from licensing device repairmen shall be paid to the counties for enforcement of Division 5 (commencing with Section 12001) and Division 8 (commencing with Section 18400) of the Business and Professions Code.

## Input

	1975-76	1976-77	1977-78
Direct program costs:

Section 12539 .....	18,594	21,251	21,402
Total Costs .....	\$3,430,516	\$3,267,361	\$2,670,402

## VI. EXECUTIVE MANAGEMENT AND ADMINISTRATIVE SERVICES

## Program Objectives and Description

Executive Management includes the executive leadership of the director's office and the staff services associated with it. The director's office sets policies and priorities which recognize and meet the changing needs of the agribusiness community of this state and which help protect the health and welfare of its people. The director's office interprets and explains to the public and the Legislature the decisions and actions which are developed to anticipate and meet the ever-changing needs of the agricultural industry and its impact on consumers and the environment.

Administrative Services includes the staff, management, and housekeeping services necessary for the effective operation of this department.

The objective is to provide active leadership to meet current and future agricultural problems; to coordinate and provide major administrative, housekeeping, and business management services for all the programs of the department. *With the loss of meat inspection responsibilities, 15.3 positions related to those activities have been abolished.*

*A long range planning coordinator and clerical support are proposed in the 1977-78 fiscal year to coordinate statewide planning efforts as they relate to the long range needs of California agriculture. The management analyst position funded in the Division of Fairs and Expositions budget is included in the management analysis unit of this element.*

VII. UNCLAIMED GAS TAX AUGMENTATION

Section 8352 of the Revenue and Taxation Code provides for the annual transfer of unrefunded gasoline taxes applicable to agricultural use from the Motor Vehicle Fuel Account Transportation Tax Fund, Motor Vehicle Fuel Account to the Department of Agriculture Fund.

Section 224(1) of the Food and Agricultural Code provides that of the funds transferred each year, \$500,000 is appropriated for reimbursement for charges for state administrative costs and for departmental and divisional overhead expense apportioned to the Department of Agriculture Fund. The Department of Agriculture Fund supports elements under both annual appropriation and continuing appropriations.

The portion of the \$500,000 applicable to the elements supported by annual appropriation is shown as a reimbursement to those elements within this budget.

Section 224(2) of the Food and Agricultural Code provides that of the funds transferred, \$1,000,000 is appropriated for emergency detection, eradication, or research. If not used for this purpose in the year of transfer, the balance of any transfer is appropriated for payment in the following year to counties as reimbursement for their expenses in carrying out agricultural programs authorized by the Food and Agricultural Code.

In 1975-76, \$716,533 of the \$1,000,000 was used for the following projects:

1. Dutch Elm Disease .....	\$391,000
2. Mediterranean Fruitfly .....	225,225
3. Cattle Scabies Eradication.....	100,308
	\$716,533

In 1976-77 the department has encumbered funds for the following:

(As of October 1, 1976)	
1. Cattle Scabies Eradication.....	\$235,722
2. Mexican Fruitfly.....	47,050
3. Gypsy Moth .....	167,746
	\$450,518

Within the program budget, the actual and estimated expenditures for fiscal years 1975-76 and 1976-77 are included in the input costs of the program element administering the emergency project.

	1975-76	1976-77	1977-78
Program Requirements			
Continuing program costs .....	\$1,216,533	\$1,500,000	\$1,500,000
Less Allocations to Programs:			
Administrative cost reimbursements .....	- 271,818	- 270,871	- 273,980
Agricultural pest and disease prevention emergency projects.....	- 716,533	- 450,518	-
Totals, Amounts Allocated .....	- \$988,351	- \$721,389	- \$273,980
Net Expenditures .....	\$228,182	\$778,611	\$1,226,020
Administrative cost reimbursement to continuing programs .....	228,182	229,129	226,020
Emergency reserve .....	-	549,482	1,000,000
Net Totals, Unclaimed Gas Tax Augmentation (Department of Agriculture Fund)	\$228,182	\$778,611	\$1,226,020

VIII. SUPPLEMENTAL INFORMATION

The program elements outlined below are exempt from budgetary review under the provisions of Section 221 of the Food and Agricultural Code. The figures detailed in this program are being displayed for information only, and are not included in overall budget totals. The Livestock Identification, Egg and Poultry Quality Control, Shipping Point Inspection, Canning Cling Peach Inspection, Canning Tomato Inspection and Wine Grape Inspection programs are supported by industry assessments and are subject to continuing appropriation as defined in the Food and Agricultural Code. Marketing Trust program is supported by marketing trust monies collected by the Department under authority of the Marketing Act of 1937 and, as such, is subject to the controls of specific agricultural commodity groups and the various marketing advisory boards.

Program Elements	75-76	76-77	77-78	1975-76	1976-77	1977-78
a. Livestock identification .....	95.8	91.3	91.3	\$1,863,682	\$2,072,252	\$2,096,092
b. Egg and poultry quality control .....	52.7	56.2	56.2	1,372,770	2,023,039	2,096,504
c. Shipping point inspection.....	190.3	201.9	201.9	3,755,419	4,149,694	4,273,967
d. Canning cling peach inspection .....	4.1	5.2	5.2	108,290	122,463	123,829
e. Canning tomato inspection .....	189.4	165.4	165.4	2,857,841	2,816,713	2,798,803
f. Wine grape inspection.....	19.1	22.8	22.8	296,590	338,470	354,343
g. Marketing trust .....	26.2	28.3	28.3	541,331	590,296	519,810
Total .....	577.6	571.1	571.1	\$10,795,923	\$12,112,927	\$12,363,348

a. Livestock Identification

This activity protects livestock owners in California against loss of animals by theft or straying by: (1) registration of livestock brands, (2) inspection of cattle for ownership prior to transportation, sale or slaughter, and the recording of the information obtained by such inspection, and (3) giving assistance to local law enforcement officials with investigations and prosecutions involving cattle theft.

Livestock owners pay the total cost of the program including overhead charges. The primary sources of revenue are inspection and brand registration fees.

## DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## Output

	1975-76	1976-77	1977-78
1. Value of theft deterrent factor.....	\$10,000,000	\$10,000,000	\$10,000,000
2. Value of strayed or stolen cattle returned to owners .....	900,000	900,000	900,000

## Input

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	95.8	91.3	91.3	\$1,863,682	\$2,072,252	\$2,096,092

## b. Egg and Poultry Quality Control

Part of this program is mandated by the Federal Egg Products Inspection Act. All processing plants producing liquid, frozen, or dried eggs must meet the facility, equipment and sanitary standards of the United States Department of Agriculture and operate under continuous inspection. This activity is fully reimbursed by U.S.D.A. Certification of shell eggs and poultry is reimbursed fully from industry paid fees. The enforcement of California's shell egg standards is achieved through County Agricultural Commissioners. This activity is paid for through a mill tax on each dozen eggs that are sold. The primary benefit is that the consumer is assured a healthful and wholesome product and that eggs being offered for sale are of the size and quality marked.

## Output

	1975-76	1976-77	1977-78
1. Dozens of eggs inspected under California standards.....	32,996,814	33,000,000	33,000,000
2. Dozens of eggs rejected .....	3,481,188	3,500,000	3,500,000
3. Eggs graded under U.S.D.A. standards (dozens).....	128,995,950	130,000,000	130,000,000
4. Pounds of egg products inspected for wholesomeness .....	103,301,000	105,000,000	105,000,000
5. Pounds of poultry graded under U.S.D.A. standards.....	283,429,790	285,000,000	285,000,000

## Input

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	52.7	56.2	56.2	\$1,372,770	\$2,023,039	\$2,096,504

## c. Shipping Point Inspection

The objective of this program is to furnish third party inspection service when requested by industry and approved by the Director. This service provides applicants with a certification that will accurately describe the quality, condition, grade and size of fresh fruits, nuts and vegetables grown in California and destined for commercial resale or processing usage, based on Federal, State or industry standards.

The major benefit is the establishment of an orderly marketing condition, and assurance of maximum protection to rights of various segments of the agricultural industry at all levels, and minimizes losses to producer, processor, buyer, receiver and carrier resulting in better quality with less waste and a monetary savings to the consumer. Shipping Point Inspection is funded by fees charged for inspection and certification of California produce.

## Output

	1975-76	1976-77	1977-78
1. Products accepted by the receiver as meeting the quality certified at shipping point .....	99.98%	99.98%	99.98%
2. Products reinspected at receiving markets by U.S.D.A. inspectors .....	30%	30%	30%
3. Appeal inspections reversed.....	0.02%	0.02%	0.02%

## Input

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	190.3	201.9	201.9	\$3,755,419	\$4,149,694	\$4,273,967

## d. Canning Cling Peach Inspection

The purpose is to inspect for quality each load of cling peaches destined for processing; assure the Processors' Cling Peach Advisory Board that operates under a State marketing order program that quality information is accurate and uniformly applied statewide; and to provide this service economically, efficiently, and safely. The major benefit of this program is the protection and assistance given to the producer and processor by an impartial third party providing accurate and uniform analysis of all loads and issuance of an inspection certificate which provides a communicative link between producer and processor used as a basis for pricing. The cost of the program is borne solely from processor assessments levied on a tonnage fee basis.

## Output

	1975-76	1976-77	1977-78
1. Number of tons inspected .....	732,446	750,000	700,000
2. Number of loads inspected.....	112,441	120,000	100,000
3. Percent of loads rejected .....	2.8%	0.5%	0.5%

## Input

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	4.1	5.2	5.2	\$108,290	\$122,463	\$123,829

## e. Canning Tomato Inspection

The purpose is to inspect for quality and color each load of tomatoes destined for processing; assure industry that grade and color information is accurate and uniformly applied statewide; and to provide this service economically, efficiently, and safely.

The major benefit of this program is the protection and assistance given to the producer and processor by an impartial third party providing accurate and uniform analysis of every load of canning tomatoes; and issuance of an inspection certificate which provides a communicative link between producer and processor used as a basis for payment.

The program is entirely self-supporting. The inspection fee is shared equally by the producer and processor.

## Output

	1975-76	1976-77	1977-78
1. Tons of tomatoes inspected .....	7,561,239	6,500,000	7,000,000
2. Loads of tomatoes inspected .....	289,474	260,000	280,000
3. Soluble solids and peelability tests .....	144,204	182,000	196,000

## Input

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	189.4	165.4	165.4	\$2,857,841	\$2,816,713	\$2,798,803

# DEPARTMENT OF FOOD AND AGRICULTURE—Continued

## f. Wine Grape Inspection

The purpose is to inspect for quality and foreign material loads of wine grapes destined for processing; such load is required to be tested for soluble solids (sugar content) when grapes are sold on the basis of soluble solids; assure industry that grade and soluble solid information is accurate and uniformly applied statewide; and to provide this service economically, efficiently, and safely.

The major benefit of this program is the protection and assistance given to vintners and grape growers by providing accurate and uniform analysis by an impartial third party for each vintner requesting this service; and issuance of an inspection certification which provides a communicative link between producer and vintner which may be used to determine price.

The total cost of the program is paid through inspection fees charged vintners requesting the service.

Output	1975-76	1976-77	1977-78
1. Tons of wine grapes inspected for soluble solids.....	1,613,795	1,700,000	1,900,000
2. Number of loads inspected.....	88,522	89,000	94,000
3. Number of wineries.....	30	35	37

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	19.1	22.8	22.8	\$296,590	\$338,470	\$354,343

## g. Marketing Trust

The Department provides administrative, marketing, accounting and investment services to a varying number of marketing order programs (36 this year). Activities currently being carried on under the marketing orders include the establishment of quality regulations with inspection, market development through advertising and sales promotion, and research for various farm products at a cost of \$33 million in 1975-76.

The major benefit of this program is the protection provided to the consumer by assuring an adequate supply of pure and wholesome food products at a fair and reasonable price. The total cost of promoting an orderly marketing program is paid by the producers and processors through fees and assessments. There are approximately 463 exempt Advisory Board employees involved in the various phases of the program of which 258 are hired on a seasonal basis for a two-month period. The man-years and dollars shown below reflect the civil service employees within the department that are involved in the centralized administration of the various advisory boards. These services are paid for by the boards.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	26.2	28.3	28.3	\$541,331	\$590,296	\$619,810

## IX. RURAL AND MIGRANT AFFAIRS

In conformance with Executive Order B-17-76, the Health and Welfare Agency, through the Rural and Migrant Affairs Coordinator, is undertaking a comprehensive review of all services to the rural and migrant populations. This Department provides services to a segment of the clientele group and is identifying resources expended for them as an informational (non-add) item in this budget. The estimated expenditures are included in the Pesticide Control Element of the Food and Agricultural Standards and Inspection Service Program.

The Department, through its pesticide control program, regulates chemicals sold for pest control to assure that the use of these products will not lead to serious consequences for the human population or the general environment. One of the specific objectives of this program is the protection of agricultural workers who regularly apply pesticides, cultivate or harvest treated crops. This objective is accomplished through the establishment of reentry times, performance of field worker reentry safety studies, investigation of pesticide related illness, measurement and restriction of toxicity levels and environmental monitoring.

The expenditures shown below represent a current estimate of the Department's involvement in pesticide activities which are related to rural and migrant affairs. These amounts may vary as other Departmental programs are reviewed for impact on these populations.

Input	1975-76	1976-77	1977-78
Vocational education.....	-	(\$275,510)	(\$282,778)

### FINANCIAL ASSISTANCE TO LOCAL FAIRS

To provide financial assistance to district agricultural association fairs, county fairs, and citrus fruit fairs both in the area of operations and capital outlay.

The apportionment of funds made available by the Legislature for construction and support for fairs is a principal function of the Division of Fairs and Expositions. Also management assistance in upgrading fair services and exhibitor opportunity is mandated to the Division by the broadening of legislation and changing social and economic conditions. This entails review and approval of operating and capital outlay programs of 76 of the state's 79 fairs and the annual upgrading of manuals and a master premium list as well as the processing of over 1,500 contracts for services and rentals annually. The division provides staff and clerical services to the Fair Budget Review Board.

Chapter 354/76 has provided for an additional take out of one percent at fair pari-mutuel horse racing events to support various activities at all fairs. The act also provided \$3,000,000 per year for fiscal years 1976-77, 1977-78 and 1978-79 for loans to fairs.

## MUSEUM OF SCIENCE AND INDUSTRY

The Museum of Science and Industry is an educational, scientific and technological center administered by a nine-member board of directors appointed by the Governor. It is located in Exposition Park, a 104-acre tract just south of the central part of Los Angeles, which is owned by the state in the name of the museum.

In a number of state-owned buildings, it presents a series of exhibits and conducts associated programs centering on the scientific and industrial development of the state and it has responsibility for the operation of parking facilities for visitors to the park, the museum, and the Los Angeles Coliseum and Sports Arena.

Personnel years .....	133.2	129.7	129.7

### I. EDUCATION

#### Program Objectives and Description

The program performed by the Museum of Science and Industry exhibits man's scientific and industrial progress, and informs Californians and visitors of the state's scientific and industrial capabilities and accomplishments. The director and his staff, in cooperation with the nine-member board of directors, administer the museum and have responsibility for the security and operation of the museum buildings and Exposition Park.

The primary purpose of this educational program is to create and stimulate the interest of Californians in the fields of science and industry. It is particularly geared to reach the largest possible number of the state's young people, with the anticipation that some will pursue scientific and industrial careers and thereby provide California with needed talent in these fields. The program in addition to permanent, temporary and traveling exhibits, consists of lectures, seminars, films, summer science workshops and teaching institutes led by eminent scientists from all over the country. A major portion of these latter activities is financed by the Museum Foundation Fund which is supported by private contributions.

Admission to the museum's exhibits is free, and attendance records underscore continued public interest.

#### Authority

Agricultural Code, Division 3, Part 3, Chapter 6 (Sections 4101 through 4106).

### II. ADMINISTRATION

The administrative staff of the Museum of Science and Industry operates under the general direction of the Museum Director and provides personnel, budgeting, planning and clerical services in support of the museum program. This function assures the proper operation and maintenance of all plants and facilities and is responsible for the operation of 26 acres of public parking. A Chief Assistant Museum Director is being added in 1976/77 in order to free the director so that he may concentrate more on external management duties. A Clerk Typist II position is being added to Plant Operations in 1976-77. Partial funding for this position comes from abolishing a part time Electrician I position.

## DEPARTMENT OF CONSUMER AFFAIRS

The Department of Consumer Affairs protects the health, safety and welfare of California citizens by licensing and ensuring the competence of over one million licensees in numerous occupations, vocations and professions. The Department through its Division of Consumer Services fulfills its legislative mandate to advocate consumers' interests by appearing before governmental bodies, by sponsoring consumer legislation and educational programs that assist consumers to help themselves, by doing research and handling consumer complaints.

## DEPARTMENT OF CONSUMER AFFAIRS—Continued

## I. HEALING ARTS

The 16 elements of this program deal with professional services in the healing arts.

Chapter 546, Statutes of 1974 provides that the healing arts boards shall be transferred to the Department of Health on July 1, 1977. Urgency legislation will be sought to provide for maintaining the healing arts boards in the Department of Consumer Affairs.

## BOARD OF BEHAVIORAL SCIENCE EXAMINERS

The confidential and sensitive nature of services performed by Licensed Clinical Social Workers, Marriage, Family and Child Counselors, and Educational Psychologists necessitates the development and enforcement of professional standards of performance and competence. By means of educational and experience requirements and examinations, the Board of Behavioral Science Examiners assures that minimum standards are met. The Board investigates cases of possible violations or unlicensed practice.

*Includes a proposed increase of 1.4 oral commissioners in the current year and the budget year due to the reinstatement of oral exams.*

## Output

Comprehensive examinations assure that only those demonstrating competence obtain licensure. Investigative and disciplinary actions reduce the opportunity for unethical or improper practice.

## BOARD OF DENTAL EXAMINERS

Dental treatment and care must be performed in a competent and professional manner. To ensure this, the Board of Dental Examiners establishes qualifications for licensure as a dentist, hygienist, assistant, expanded function auxiliary, or professional corporation; administers examination; approves dental schools and training programs; sets requirements for continuing education; receives complaints and investigates possible violations of the Dental Practices Act; and, polices against unlicensed practice.

## Output

Effective application screening and testing of candidates identifies those persons capable of performing competently. Investigative and disciplinary actions ensure that these standards are maintained.

## STATE BOARD OF GUIDE DOGS FOR THE BLIND

Blind persons need assistance to help them maintain their independence in areas outside of their immediate surroundings. Without this assistance they are subject to serious injury, death, or unhealthy confinement.

It is the primary objective of the State Board of Guide Dogs for the Blind to:

1. Protect the safety of the blind by ensuring that only those trainers and schools of guide dogs possess the necessary qualifications to be licensed.
2. Enforce standards of ethical conduct established for such licenses, and to police unlicensed practices.

## Output

The Board licenses those persons who meet the educational and experience requirements to be guide dog trainers and operators of guide dog schools.

## BOARD OF MEDICAL QUALITY ASSURANCE

The people of California are deserving of the best possible medical treatment and healing art services. They must be protected from the unethical and/or unlicensed individual who can do harm because of the personal and intimate nature of the services provided.

The objectives of the Board are:

1. To protect consumers from unlicensed and/or unethical practitioners.

2. To enforce and strengthen provisions of the Medical Practices Act.

3. To stimulate healing art licensees to become familiar with required rules and regulations for their professions.

*Includes various proposed changes in positions to implement AB 1XX within existing resources; including the transfer of 40 investigators and related supervisory and clerical support from the Division of Investigation and a reduction of 2 clerical positions transferred to the Physical Therapy Examining Committee for a proposed net increase of 58.7 positions in the current year and a net increase of 63.2 positions in the budget year.*

## Output

To license those who qualify and provide the consumer with the utmost protection in the marketplace by a careful consideration of complaints and action to ensure that health care standards are met as required by law.

a. Numbers of licenses issued to qualified applicants and denied to those not qualified.

b. Numbers of complaints and inquiries processed, investigations conducted and disciplinary actions rendered.

## ACUPUNCTURE ADVISORY COMMITTEE

The practice of acupuncture is a theory and method for treatment of illness and disability and for strengthening and invigorating the body. As such it affects the public health, safety and welfare there is a necessity that individuals practicing acupuncture be subject to regulation and control. A committee exists to advise the Board of Medical Quality Assurance on implementing the provisions of the related laws.

## Output

Numbers of qualified applicants approved by the Board for certification, and those disapproved for certification who do not possess minimum qualification. Output

Numbers of complaints and inquiries processed, investigations conducted, and disciplinary actions rendered.

HEARING AID DISPENSERS EXAMINING COMMITTEE

It is estimated that one out of every five California citizens has some degree of hearing loss. For those who must wear hearing aid devices, there are dangers from unlicensed or un reputable hearing aid dispensers.

The Board's objectives are:

1. To protect consumers by investigating and examining applicants for hearing aid dispensers licenses and ensuring compliance with all occupational licensing requirements.
2. Discipline those licensed who fail in their public trust.

Output

1. Number of applicants for licenses who are screened out by the examination process and are denied their license until they can successfully demonstrate they possess the required skills and knowledge.
2. Number of complaints investigated that result in disciplinary actions.

PHYSICAL THERAPY EXAMINING COMMITTEE

Physical therapists in independent practice treat patients who have disabilities resulting from accidents, congenital defects or illnesses. In order to ensure proper patient evaluation and treatment, those persons skilled in the profession of physical therapy must meet the minimum standards established according to law. This is accomplished by licensing those who possess the necessary qualifications and enforcing standards of ethical conduct established for such licensees and policing against unlicensed practice.

The current and budget years include a proposed transfer of 2 clerical positions from the Board of Medical Quality Assurance and a concurrent reduction of 0.4 temporary help positions.

Output

1. The number of applicants who do not successfully complete the examination, and are therefore denied a license.

2. The number of investigated complaints which result in license suspensions and revocations which put the unethical and incompetent therapists out of reach of the consumer.

## PHYSICIAN'S ASSISTANT EXAMINING COMMITTEE

Due to growing shortages and geographic maldistributions of health care services, the State has encouraged more effective utilization of the skills of physicians by enabling them to delegate health care tasks to qualified physician's assistants. An examination committee was empowered to establish and enforce regulations controlling this category of health care providers.

The current year includes a reduction of \$75,481 to bring program expenditures in line with revenues.

## Output

Numbers of qualified applicants approved by the committee for certification, and those disqualified who do not meet minimum standards.  
Numbers of complaints and inquiries processed, investigations conducted and disciplinary actions rendered.

## SPEECH PATHOLOGY AND AUDIOLOGY EXAMINING COMMITTEE

Many thousands of California citizens are afflicted with serious hearing and disabilities occasioned by congenital disorders, occupational injuries and diction-related disfunctions. Recognizing the dimensions of their need for professional services, the State instituted licensure requirements and established this Committee to ensure that only those possessing the necessary qualifications are licensed.

## Output

To guarantee protection of consumers of the State through rigorous, disciplined interpretation of the provisions contained in enabling legislation.

BOARD OF EXAMINERS OF NURSING HOME ADMINISTRATORS

Patients in nursing homes pay for and must be provided with quality patient care which includes a sanitary environment, safeguards against misuse of their funds, a nutritional diet, and quality medical treatment. Thus, individuals functioning as administrators must be required to meet minimum standards of competency as established by the law. The Board's objectives are to:

1. Develop, impose and enforce standards that shall be met by individuals in order to receive a license as a nursing home administrator.
2. Receive, investigate and take appropriate action with respect to any charge or complaint filed with the Board alleging that an individual licensed as a nursing home administrator has failed to comply with the requirements of such standards.

Output

The number of applications which are denied due to the lack of basic qualification requirements.

## BOARD OF OPTOMETRY

The public needs competent, professional optometric care. To meet this need, the Board of Optometry licenses individual and professional corporation in accordance with recognized standards of knowledge and practice; accredits optometric schools and colleges; sets standards for continuing education receives complaints and investigates possible violations of the Optometry Practice Act.

The current year and the budget year include a proposed increase of 0.3 special consultants in the current year to update examinations; an increase of 0.3 proctors in the budget year as a result of increased workload; a concurrent reduction of 0.4 temporary help positions in the current year and the budget year and various reductions in operating expenses.

## Output

Thorough examinations, and inspection investigation activities identify incompetent or unprofessional persons. The Board denies, suspends or revoke licensure of such persons.

## BOARD OF PHARMACY

The distribution and handling of pharmaceuticals, including restricted substances, must be carefully regulated to prevent improper or hazardous usage. To accomplish this, the Board of Pharmacy sets minimum requirements for licensure according to recognized standards; approves professional schools and continuing education programs; receives complaints and investigates possible violations; polices unlicensed practices and inspects regularly for compliance with Board rules and regulations.

## Output

Evidence that the Board meets its objectives includes the denial of licenses to those unable to satisfy requirements and the number of suspensions or revocations which result from the investigative process.

BOARD OF REGISTERED NURSING

Registered nurses are responsible for the safe nursing care of the patient as well as the direction of the ancillary nursing teams. It is essential for public health and safety that the registered nurse meet high standards of education and training. The Board ensures those licensed possess the education and training to provide the consumer with the highest standards of care possible and protects the consumer from the unlicensed or unethical practitioner. The budget year includes a proposed increase of 0.7 examination proctors and 1 nursing education consultant.

Output

The Board licenses only those who successfully complete an examination. It reviews courses of instruction and clinical facilities in schools of nursing and accredits qualified schools. The Board also investigates all complaints received, which when appropriate results in revocation or suspension of a license.

## BOARD OF EXAMINERS IN VETERINARY MEDICINE

Veterinarians protect the health and welfare of animals as well as the public through prevention, control and eradication of animal diseases, and inspection of food products of animal origin. In 1974, the growing need for animal health care necessitated the certification of animal health technicians to assist veterinarians in certain areas. Examinations assure minimum competence. Through licensure and inspections, professional standards of competence are enforced and premises maintained in a sanitary manner. The Board of Examiners in Veterinary Medicine also responds to complaints, investigates alleged violations, and polices unlicensed practice.

## Output

Exacting standards in examinations eliminate unskilled or poorly trained persons. Inspections and investigations generate disciplinary actions in which the Board may suspend or revoke the practice rights of persons who do not comply with Board rules and regulations.

DEPARTMENT OF CONSUMER AFFAIRS—Continued

BOARD OF VOCATIONAL NURSE AND PSYCHIATRIC TECHNICIAN EXAMINERS

Inadequately trained personnel may render patients poor quality health care services. Through licensure of vocational nurses and psychiatric technicians, the Board identifies persons who demonstrate the necessary competence. The development and enforcement of standards of conduct helps to meet the need to protect those receiving care. Educational and training program approval by the Board is required. Nursing education consultants assist schools in meeting and maintaining standards.

Both the current year and the budget year include the proposed reestablishment of 1 nursing education consultant and 1 stenographer that were erroneously omitted from the 1976-77 Governor's Budget; an increase of 2 clerical positions with a concurrent reduction of 0.8 temporary help positions are budgeted in 1977-78 to handle increased workload.

Output

Effective screening and investigative activities reduce opportunities for harmful or unlawful conduct by licentiates. Disciplinary proceedings revoke or suspend privileges of persons performing unprofessionally.

## BOARD OF ACCOUNTANCY

A greatly increased percentage of the public and the business structures serving that public are now requiring the services of certified public accountants and public accountants because of the dramatically increased complexity in laws affecting business operations and taxation. This greater degree of sophistication in the practice of accounting makes it mandatory that certified public accountants and public accountants holding themselves out to the public are qualified to render services fully meeting the public's needs and that they maintain such qualification by updating their technical knowledge through required continuing education. *Two clerical positions are proposed in the budget year to meet workload increases. Additional temporary help is also proposed in order to process examination applications.*

## Output

Meeting the objectives of the Board requires that certain benchmarks be observed to make certain (1) that the written examination effectively screens out those applicants who are not qualified, (2) that the experience exposure of applicants who have passed the examination is of sufficient breadth and depth, (3) that the continuing education program is being undertaken as required by all licensees in actual public practice, and (4) that the disciplinary process, both in the punitive and educational improvement areas, is either successfully removing the incompetents or updating the skills of those licensees whose infractions are based upon lack of preparation.

CEMETERY BOARD

The public needs protection from possible fraud, misrepresentation, or negligence by cemeteries and their representatives. The Cemetery Board's objectives are: to ensure that only qualified applicants receive licenses to operate cemeteries or act as cemetery brokers or salesmen; to ensure that those so licensed comply with applicable rules and regulations; to ensure that all trust funds (revocable or irrevocable) are properly placed in trust, invested, and income used for the purpose intended; and to ensure permanence of mausoleums and columbariums. To implement recent legislation strengthening the Board's jurisdiction concerning the cemetery industry 0.6 of temporary help is proposed.

Output

Audit investigations and disciplinary proceedings ensure compliance with legislative intent and protection of consumer investments through formal hearings and license actions.

BUREAU OF COLLECTION AND INVESTIGATIVE SERVICES

Debtors and users of collection agency services require that collection agencies and their employees be scrupulously honest in the handling of collected moneys, accountable for actions, and fair in their dealings as required by law.

The Board's objectives are to:

1. Guarantee that only those possessing the necessary qualifications be licensed, certified and registered.
2. Enforce standards of conduct required of licensees, certificate holders and registrants by law and by regulation.
3. Police against unlicensed collection activity.

Output

1. Evidence of performance is shown by the number of applicants for examination who were unsuccessful in securing qualification certificates.
2. The extensive auditing program conducted and the number of investigations result in the suspension or revocation of licenses.

## PRIVATE INVESTIGATORS AND ADJUSTERS

The public must have the assurance that those persons who offer services as private investigators, insurance adjusters, repossessioners, uniformed security guards and private patrol operators are competent, scrupulous and fair in their dealings with their clients and with members of the public; the public also has a right to know that uniformed security guards employed by security companies do not present a hazard to public safety when carrying firearms. The Bureau ensures that only those persons who can meet the prescribed qualifications be licensed to perform private investigations, insurance adjusting, repossessioning and private patrol operations; enforces standards of ethical conduct established for such licensees; polices against unlicensed activity in these occupations; and provides mandatory firearms training and testing for guards and patrolmen who carry firearms. Chapter 1170/75 (SB 255) requires the bureau to license "in house" guards and 3 positions are proposed for processing the increased workload. Chapter 1425/76 (AB 3445) requires the bureau to license burglar alarm employees and 6 positions are proposed to implement and process the new program. One clerical position is proposed in 1977-78 for the increase in workload in the bureau's ongoing programs.

## Output

The Bureau licenses only those who successfully complete an examination, and takes action against violators of its rules and regulations and unlicensed activities.

## TAX PREPARERS PROGRAM

In order to protect the public from potential abuses found in the commercial tax preparation industry, the Tax Preparers Program develops registration standards for the regulation of the business practices and advertising of commercial tax preparers. The program expects some changes in the enforcement area as a result of a recent field study.

## Output

The registration of a tax preparer may be denied, suspended, or revoked temporarily or permanently.

## BOARD OF ARCHITECTURAL EXAMINERS

The consuming public is subject to serious injury or death should a structure such as a school, store, office building, or dwelling collapse. To reduce the possibility of such an occurrence resulting from faulty design, it must be required and enforced that those who hold themselves out to the public as skilled in the design of such structures meet the minimum standards established by law. It is also necessary that those who have not proved by education, experience and examination that they meet these minimum standards be prevented from deceiving the public as to their qualifications in the field of architecture.

## Output

Evidence that the Board is meeting its objectives includes: (1) the number of applicants who do not successfully complete the examinations, and who are therefore denied licensure until they can demonstrate the necessary knowledge and skills; (2) the number of complaints which are handled and resolved; (3) the number of investigated complaints which result in compliance; and (4) the number of investigated complaints which result in license suspension and conviction, thus restricting the practice of incompetent and unethical licensees and attempts to practice architecture by those individuals who are not licensed.

## BOARD OF REGISTERED CONSTRUCTION INSPECTORS

Faulty workmanship, materials and manner of construction of structures seriously affect the health and safety of the consuming public. In order to assure the public of structures meeting the highest of standards of construction, the Board registered only those persons who possessed the necessary qualifications as established by the Board according to law.

The Registered Construction Inspectors' Program was intended, by law, to be funded wholly from application and registration fees. The Registered Construction Inspectors' Fund has been depleted to the extent that there is a deficit of more than \$7,000 and an outstanding loan from the State General Fund of \$100,000 plus accrued interest. Therefore, it was necessary to close the Board's office and release the staff as of February 29, 1976.

In January of 1976 the Legislature was notified through the Governor's Budget that revenues for the Board were insufficient to support its activities. In March, 1976, legislation (AB 3514 and AB 3780) which would have abolished the program was introduced. An amendment to AB 848 in May delayed the date on which registration would be required of school building inspectors from Jan. 1, 1977 to Jan. 1, 1978. The Legislature in passing AB 3534 (Ch. 258/76) provided a General Fund appropriation of \$160,000 to liquidate the Board's outstanding obligations in order to facilitate closure of the Board's activities. While sufficient funds are now available the Board has not yet acted to refund fees to applicants who have not been examined. Both AB 3514 and AB 3780 failed passage in the Senate in August and the Board, therefore, remains legally constituted but without resources for future activity and has no estimated revenue.

## Authority:

Business and Professions Code Section 9115 (Ch 1145/73).

## Output

The Board, which was organized in 1973-74, had formulated rules, regulations and administrative procedures.

Surplus available for appropriation .....	560	560	560

<sup>1</sup> Negative surplus is offset by a loan of \$100,000 from the 1973-74 Emergency Fund and other loans from the Consumer Affairs Fund. The loan from the Emergency Fund remains unpaid. An accrual of \$31,400 will ensure sufficient cash to refund fees to applicants who have not yet been examined or have applied for a refund.

## CONTRACTORS STATE LICENSE BOARD

The consuming public is subject to personal and financial injury resulting from: (1) unsafe construction and poor workmanship; (2) financially irresponsible contractors; and (3) fraudulent representation relating to home improvement contracts.

The Board's objectives are:

1. To establish construction standards which ensure safe building methods and quality workmanship.
2. To qualify contractors by examination; to establish their construction knowledge and experience; and to ensure fiscal integrity through an independent statement of financial condition and through the bonding process.
3. To establish ethical sales standards to preclude misrepresentation by persons licensed to "sell" home improvement, and to seek injunctive action against fraud when deemed necessary.

Legislation will be considered during 1977 in order to provide additional resources to the fund.

DEPARTMENT OF CONSUMER AFFAIRS—*Continued*

## Output

The Board qualifies contractors by examination for 39 license classifications and suspends licensees when bonding firms cancel or rescind bonds. Resolution of complaints, through conciliation, is indicated by the savings to the public while enforcement activity statistics indicate the results of the Board's compliance efforts.

BOARD OF REGISTRATION FOR GEOLOGISTS AND GEOPHYSICISTS

Geological and geophysical investigations relating to: (1) landslides, active faults, earthquakes and land subsidence; (2) ground water and mineral exploration; and (3) planning, design, construction and maintenance of civil engineering projects require degrees of skill and proficiency to avoid death, injury and destruction of property.

The Board:

1. Licenses qualified geologists and geophysicists.
2. Develops policies, rules, regulations and standards for practice, education and administration of the act.
3. Acts on complaints and violations of the law by licensees and nonlicensees.

Output

Application screening procedures eliminate candidates who lack the necessary qualifications for licensure. Investigations limit the hazard posed by unlicensed persons who attempt to render geologic or geophysical services.

## BOARD OF LANDSCAPE ARCHITECTS

Improper location, arrangement and design of developments, including the preservation of natural land features, endangers the social, environmental and economic quality of life. In order to assure the consuming public that landscape architects carry on business in a proper manner, the Board's objectives are to establish and enforce levels of professional competence, eliminate unlicensed activity and provide consumer/industry education.

*Expenditures have been reduced in order to maintain the Board's solvency.*

## Output

- Only those applicants completing all of the eight-part examination have been admitted to practice.
- Investigations are conducted as a result of illegal and unethical practices among licensees, and unlicensed activity.
- Key local and government officials have been apprised of the laws and their application.

## BOARD OF REGISTRATION FOR PROFESSIONAL ENGINEERS

A majority of the consuming public is exposed daily to various kinds of engineered works. It is necessary that those who hold themselves out as skilled in engineering be identified to the public, be qualified for such holding out, and be held responsible for the possible consequences of their actions. It is necessary that those persons who hold themselves out as skilled in land surveying be identified, be qualified, and be held responsible for the land surveys they perform.

## Output

The Board pursues its objectives through (1) a qualification program which includes application review and examinations, and (2) an investigation program which pursues a policy of seeking compliance with the law and which pursues evidence of fraudulent practices, negligence or incompetence.

## STRUCTURAL PEST CONTROL BOARD

The consuming public is subject to serious injury or death through the improper use of pesticides. The objectives of the Structural Pest Control Board are: establish and enforce standards of competence and integrity; license only those possessing the necessary qualifications; and police against unlicensed practice.

## Output

The Board has established examination criteria which effectively measure the knowledge and skills of the applicants. Complaints against both licensed and unlicensed practitioners are thoroughly investigated and acted upon.

## ATHLETIC COMMISSION

Contestants in boxing and wrestling matches are subject to serious injury and death through mismatches and lack of proper medical examinations. The public and State Government suffer monetary losses due to fraudulent promotional practices and improper collection and verification of attendance and revenue. The Commission sets standards and enforces them through examinations, inspections and attendance by Commission representatives at all matches, exhibitions and closed circuit events.

Chapter 973, Statutes of 1976 will require implementation of an additional licensing activity, full contact Martial Arts, which will require 2 additional positions commencing in 1977-78.

## Output

A continuing inspection program discourages fraudulent practices, while medical screening eliminates the participation of unfit contestants. Stated revenues are properly received and audited. Violations result in warnings, suspensions or revocations of licenses.

## BUREAU OF AUTOMOTIVE REPAIR

The California citizen is dependent upon the automobile. When the automobile breaks down he is literally immobilized. He is also, for the most part, dependent upon the service industry for maintenance of his vehicle. The fundamental need is for these service transactions to occur in a marketplace characterized by full disclosure and fair dealing between buyer and seller. The Bureau's objective is to reduce the incidence and impact of fraudulent, negligent, and deceptive trade practices by California's auto repair industry against the public.

The current pilot program for mandatory vehicle emission inspections includes 85 positions in the current year and 124 positions in the budget year. Implementation of the second phase to include 19 stations was delayed until January 1, 1979 (in accordance with Chapter 1282, Statutes of 1976) thereby precipitating a program reduction of 434 positions in the current year and 395 positions in the budget year from the currently authorized 658 positions. The program will be staffed and fully operational in the 1980-81 fiscal year.

Legislation will be introduced during the current year to transfer the motor vehicle pollution control station inspection program and mandatory vehicle emission inspection program staffs to the Air Resources Board.

## Output

Achievement of the Bureau's objectives will result in a shift in the pattern of alleged violations, eventual reduction in the number of complaints, and increased client satisfaction with the Bureau.

## BOARD OF BARBER EXAMINERS

Persons receiving barber services are subject to physical injury, disease, mental distress and marring of physical appearance from unskilled and improperly trained barbers. The objectives of the Board are to: (1) ensure that shops, tools and equipment are safe and sanitary; (2) establish and enforce standards of skill and knowledge for licensees; (3) establish continuing education criteria for instructors; and (4) resolve consumer/industry complaints and eliminate their causes.

## Output

Workload statistics indicate the examination pass/fail ratio, violations issued against shops and practitioners, and complaint dispositions.

## BOARD OF COSMETOLOGY

Improper use of chemicals, instruments and techniques causes permanent physical damage and the spread of contagious and infectious diseases to persons using cosmetology services. The objectives of the Board of Cosmetology are: (1) establish and enforce standards of skill and sanitation; (2) identify to the public, through licensure, those who have demonstrated the necessary knowledge and skills; and (3) prevent unsafe and dishonest practices.

Two new positions are included in 1977-78 in order to maintain an adequate inspection program and ensure responsiveness to public inquiry.

## Output

Fourteen percent of all examinees are not admitted as licensees due to lack of demonstrated skills. Inspections and investigations have been effective in eliminating unsanitary conditions and reducing the incidence of unsafe and dishonest practices.

BUREAU OF EMPLOYMENT AGENCIES

The unemployed, or those seeking reemployment are subject to considerable financial loss when fees are paid and services are not rendered. The objectives of the Bureau are to (1) establish and enforce standards of ethical conduct and qualifications for licensure, and (2) eliminate unlicensed practices.

Implementation of Chapter 1236/75 (Musician Booking Agencies) has been deferred pending the outcome of a court injunction.

Output

The Bureau licenses only those who successfully complete an examination, and polices against both unlicensed activity and against licensed violators of its rules and regulations.

## BOARD OF FABRIC CARE

The public is subject to monetary loss from faulty workmanship or incompetence in cleaning or renovating items of personal use, and to physical injury through the misuse of flammable and toxic solvents.

The objectives of the Board are to develop and enforce standards for licensure, eliminate unlicensed practices, educate consumers and industry and resolve complaints.

DEPARTMENT OF CONSUMER AFFAIRS—*Continued*

Output

1. Denial of license to examinees who do not demonstrate necessary knowledge and skills.
2. Numbers of violations issued which result in compliance.

## BOARD OF FUNERAL DIRECTORS AND EMBALMERS

Proper handling of human remains is necessary in the interest of public health. The public is also subject to financial loss through fraud or mismanagement of preneed trust accounts. In order to correct potentially hazardous conditions or unlawful practices, the Board licenses only those who demonstrate the necessary skills and knowledge, polices, unlicensed activity, inspects premises and accounts, audits trust funds, approves schools, investigates complaints, and imposes sanctions on those violating code provisions and board regulations.

Both the current and budget years include an additional auditor to ensure the integrity of preneed trust funds.

## Output

Results of the preneed audit program which commenced September 1974 include 117 audits and recovery of \$150,000 in 1974-75, and 113 audits and recovery of \$250,000 in 1975-76.

BUREAU OF HOME FURNISHINGS

The sale of upholstered furniture, bedding or waterbeds made with defective, substandard or highly flammable materials poses an unacceptable hazard. Consumers are also subject to fraud from misrepresentation, misleading product claims or false advertising in the purchase of goods. The Bureau's objectives are to ensure that fair and reasonable standards are developed, and that those standards are enforced through laboratory testing, on-site inspections and investigations.

The Bureau has been unable to fully implement its flammability program due to a court injunction relating to the testing and inspection of upholstered furniture for flammability levels.

Output

Evidence that the Bureau is meeting its objectives includes the number of articles withheld from sale (3,905), returned to the manufacturer (529), seized and destroyed (183), and relabeled (1,328). Voluntary compliance by industry in response to warning letters and the satisfactory resolution of complaints demonstrate program effectiveness. Disciplinary or civil proceedings further reduce hazardous or unethical practices.

## NURSES REGISTRY

Those seeking private nursing care need the assurance of service from properly licensed registries and competent assignees of the registries, and the protection of proper contractual and assignment records. The Nurses Registry sets and enforces standards for the operation of private nursing services, polices unlicensed operations and investigates the fitness of those applying for licenses to operate such services.

Commencing 1976-77, the Registry will be redirecting some of its resources to investigations of staff placements which violate the Nurses Registry Act. Administrative work for the Nurses Registry will be performed by the Bureau of Employment Agencies through a contractual arrangement thereby permitting a reduction in the staff for Nurses Registry.

## Output

Evidence that the Registry is meeting its objectives includes the number of applicants rejected as unqualified or unfit for licensure, and the results of investigations and inspections of both licensed and unlicensed operations.

## BUREAU OF REPAIR SERVICES

The increasing complexity of electronic technology, and significant changes in the appliance and electric repair industry subject the consuming public to fraudulent and deceitful practices.

The objectives of the Bureau of Repair Services are to register all persons engaged in appliance and electronic equipment repair, police false and misleading advertising, enforce rules of full and fair disclosure, resolve consumer/industry disputes and reduce their recurrence and rid the repair industry of unscrupulous dealers.

## Output

1. Reduce incidences of false and misleading advertising, and fraud.
2. Better use of informal complaint adjustment method.
3. Development and distribution of consumer/dealer educational material.

CERTIFIED SHORTHAND REPORTERS BOARD

The consuming public for the Board is the California legal profession, consisting of thousands of judges, attorneys and clients who need accurate and speedy recordation and preservation of legal testimony. The administration of justice would virtually grind to a halt without this essential service. Any substantial error could result in the thwarting of justice and loss of personal property and liberty.

The Board's objective is to identify and license competent and qualified applicants and maintain a repository of licensees and approved schools.

Output

The establishment of rigid examination criteria is only for the purpose of ensuring that clients' rights are not endangered due to inaccurate and incomplete recordation of testimony.

DIVISION OF ADMINISTRATION

The Department could not function as a cohesive and effective unit without executive leadership and staff support. Decentralization of administrative specialties to the constituent agencies is not economically feasible. Therefore, a management and administrative program has been developed which is an integral feature of the total program activity and is designed to meet the overall goals of the Department.

Administration:

Two positions are included as proposed new in the Data Processing Unit to be funded from and assigned to the OCJP Grant project. In addition one new position is included for the IPA project for test validation which is being conducted in conjunction with the State Personnel Board.

Output

The Executive Branch is actively pursuing the following courses:

1. Evaluating the examination processes of the licensing agencies as they relate to prohibitive qualification requirements and restrictive entry.
2. Interviewing prospective board and committee members to ensure greater public and industry representation.
3. Examining the constituent agencies to ensure that they are serving a useful purpose and are responsive to public need.
4. Reviewing and monitoring disciplinary processes deployed, to ensure that they meet the due process requirements of the 14th Amendment.
5. Coordinating and overseeing the Division of Consumer Services operation to effectively implement the mandates of the Consumer Affairs Act.

General Description

Approval by the State Personnel Board of the Department's affirmative action plan and its implementation to date have had a substantial impact on the ethnic composition of the Department. Continued management studies and audits of various agencies are improving operational effectiveness.

The costs of administration are distributed to all of the Department's constituent agencies by a pro rata formula based on a ratio of each agency's total expenditures to the total expended by all agencies.

Input	1975-76	1976-77	1977-78
Expenditures .....	\$1,780,665	\$2,119,031	\$2,224,499
Personnel years .....	97.9	109.5	105.1

DEPARTMENT OF CONSUMER AFFAIRS—*Continued*

## DIVISION OF INVESTIGATION

Objective and independent investigations and inspections by skilled personnel are required to afford the public maximum protection from incompetent and unethical business practices. The Division provides impartial investigative and preventive inspection services and reduces the cost of these services by (1) proper staff training, (2) better use of manpower, and (3) utilization of sound management principles.

*Division of Investigation:*

*Reduction of 58 positions in the current year and budget year are related to the transfer of investigators to the Board of Medical Quality Assurance.*

**Output**

Competency and completeness of investigations are borne out by administrative action taken.

Investigations:	1975-76	1976-77 <sup>1</sup>	1977-78 <sup>1</sup>
Cases opened.....	7,358	6,309	5,269
Cases closed .....	8,212	7,134	6,056
Cases pending .....	3,518	2,693	1,906
District Attorney citation hearings .....	75	67	50
Attorney General administrative hearings .....	666	607	548
Statements of issues .....	59	54	59
Criminal complaints.....	275	234	194
Found guilty .....	195	166	138
Compliance effected.....	1,350	1,161	1,125
Inspections .....	62,512	62,512	62,512
Notices of violation .....	10,127	10,127	10,127

<sup>1</sup>Estimated decrease due to transfer of investigators to the Board of Medical Quality Assurance.

**General Description**

The Division conducts investigations and inspections in accordance with the laws, regulations and policies of the constituent agencies. Based on the Division's findings, agencies may request preparation of documents for administrative or criminal action. The Division is compensated by each using agency for its share of the total hours expended by means of an established rate which encompasses all of the Division's operational costs.

**Input**

	1975-76	1976-77	1977-78
Expenditures .....	\$3,674,870	\$4,207,866	\$3,490,934
Personnel years.....	156.1	127.7	127.7

## DIVISION OF CONSUMER SERVICES

California consumers are paying close to a billion dollars per year due to (1) shady and illegal business practices, (2) inadequate representation of consumer interests in administrative, legislative and judicial proceedings, and (3) lack of information necessary for protection in today's inflation plagued marketplace. The Division's objectives are:

1. Represent consumer interests at local, state and federal levels in administrative, legislative and judicial proceedings.
2. Institute consumer protection services at local and state levels.
3. Service consumer complaints and reduce complaints at the state level.
4. Educate consumers to protect themselves.
5. Research, analyze and develop systematic solutions to consumer problems.
6. Prevent fraudulent and misleading advertising.
7. Disseminate information to the public regarding departmental activities.
8. Cooperate with consumer groups.

*Consumer Services:*

*Addition of 3 positions in the current year and 3 positions proposed in the budget year funded by OCJP grant for Cooperative Consumer Protection Program.*

*Addition of .5 man years in the current year and 2.5 man years proposed in the budget year for workload.*

*Two proposed new positions have been added to the legislative unit and 2 new positions in the representation unit in the budget year to promote consumer interests. A comprehensive review of the regulatory activities of each board, bureau, commission, and committee will be accelerated in the current year through use of Federal Title II funds under a contract with the Employment Development Department. The contract will provide for 12 positions to be established and cost a total of \$358,922. These studies will aid new appointees—especially public members—in understanding the roles of their respective boards and bureaus.*

**Output**

1. The Division has initiated extensive representation of consumer interests before legislative and judicial bodies, as well as the PUC, Federal Trade Commission and State Bar. During 1975-76, over 600 bills were analyzed and positions were secured for the majority of them.
2. Closer, more effective relations with other consumer protection entities have been forged, as well as a program of encouraging and facilitating the establishment of local, state and private consumer service and protection units.
3. During 1975-76, 4,614 complaints were received, 3,432 were referred elsewhere, and 1,182 resolved to the satisfaction of the complainant. The system of referral to the most appropriate jurisdiction has resulted in a substantial reduction of burden in this area.
4. The Division is working in cooperation with the Departments of Education and Justice, as well as local districts, to promote the integration of consumer education, both vertically and horizontally, into the public school system.
5. During its first year of operation, the Research Unit has identified problems with water quality and new efforts at reducing food costs through mass marketing.
6. During 1975-76 the Ad Substantiation Unit analyzed over 150 potentially fraudulent ads and terminated 50 of them with the cooperation of local district attorneys and the Attorney General's office.
7. Personal contact with editorial personnel and consumer reporters is effecting wider and more comprehensive coverage of departmental activities, resulting in greater awareness of consumer issues, rights, redress and self-help remedies.
8. Workshops have been provided for local agencies on warranties and complaint processing. Cooperation will be continued in the most efficient ways to strengthen the network of consumer groups to the State.

DEPARTMENT OF CONSUMER AFFAIRS—Continued

General Description

An OCJP grant award, effective August 9, 1976, will enable the Division to develop a program which will establish and make available a single statewide comprehensive automated system for district attorneys, the Department of Justice and Consumer Affairs and other law enforcement and related agencies on all available complaint information to assist in reducing consumer fraud and related illegal activities through early detection and apprehension.

In order to comply with a recent Attorney General opinion, General Fund support in an amount equal to 80 percent of the Division's appropriation will be provided for the current and budget years. The balance of the appropriation will be funded through a pro rata distribution to the Department's constituent agencies based on a ratio of each agency's total expenditures to the total expended by all agencies.

Input	1975-76	1976-77	1977-78
Expenditures .....	\$812,877	\$1,095,788	\$1,283,826
Personnel years .....	40.2	54.3	58.3

BUILDING MAINTENANCE AND OPERATION

The occupants of the department-owned Consumer Affairs Building are subject to serious injury should the 46-year-old structure be allowed to deteriorate. The purpose of the maintenance and operational program element is to ensure the safety and welfare of the building's occupants and the visiting public.

Output

1. Offices and hallways are painted and renovated on an established schedule.
2. Repairs are made in a timely manner and preventive maintenance is a regular practice.
3. Capital outlay consists of renovation and modification of the building's two elevator systems which will be completed during 1977-78.

General Description

The building is currently occupied by 26 of the Department's constituent agencies and by the State Board of Equalization. During 1976-77, space will continue to be reallocated as needed to provide for expansion within the tenant agencies. The costs of the program element are offset by rents collected from the occupants.

## OFFICE OF THE STATE FIRE MARSHAL

The fundamental objectives of the State Fire Marshal are to prevent the loss of life and property by fire, and to foster, promote and develop ways and means of protecting life and property against fire and panic.

To accomplish these objectives, the State Fire Marshal aids local authorities in the enforcement of all laws and ordinances; prepares, adopts, and enforces minimum statewide fire and panic safety standards applicable to statutorily designated occupancies; prepares, adopts and enforces standards for the use and control of hazardous materials; and disseminates information and material relative to new technological developments in the field of public fire safety.

I.a.	Public education program .....	1	38,520
I.a.	Arson investigation training program .....	3	122,513

### I. PUBLIC FIRE SAFETY

#### Program Objectives and Description

The primary responsibility of the State Fire Marshal is the protection of life and property from fire. This responsibility is met through the development, maintenance and enforcement of fire safety standards for all educational and institutional occupancies, public assembly facilities, organized camps, buildings over 75 feet in height and in all State-owned/occupied structures. Provisions relative to the control of portable fire extinguishers, explosives, fireworks, cargo tanks used in the transportation of flammable liquids, decorative materials and fabrics, and wearing apparel are also developed, maintained and enforced on a statewide basis.

The State Fire Marshal also conducts investigations to approve and list products found to be in compliance with the adopted standards; conducts arson investigations; and assembles, tabulates and analyzes reports of all fires occurring in the State.

For education and State-owned/occupied facilities for which the State Fire Marshal is responsible, the estimated value is in excess of \$50 billion. Of greater importance than property loss, however, is the life loss potential. Annually, the deaths of approximately 12,000 persons in this country are attributed to fire.

Although most life and property losses attributable to fire involve singular and minor incidences respectively, the potential of a catastrophic occurrence is always present.

It is the lack of these major occurrences which principally mark the effectiveness of the efforts expended.

#### Authority

Parts 1 and 2, Division 11; Part 2, Division 12; and Part 2.3, Division 13, of the Health and Safety Code.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78

b. Analysis and development .....	26.5	27	23	654,613	699,498	705,695

#### a. Enforcement

Enforcement of adopted standards is conducted through plan reviews of new construction and field or on-site inspections. Basically, the prime responsibility for enforcement rests with local fire authorities. Where there are no such authorities, in all State-owned/occupied buildings, and with regard to cargo tanks used in the transportation of flammable liquids, the State Fire Marshal is charged with direct enforcement responsibilities. In addition, the Department of Health has contracted with the State Fire Marshal for special fire safety inspections and surveys of health care facilities which have entered into provider agreements in conjunction with Medicare/Medicaid programs.

The State Board of Fire Services, a segment within the Office of the State Fire Marshal, is required to conduct studies and make recommendations on fire apparatus, equipment, etc., and recommend basic minimum courses, training and education for fire protection personnel.

Three deputy positions are being added in 1977-78 to undertake annual inspections of state-owned/occupied buildings.

A public education program is being initiated with the addition of one position.

In anticipation of receipt of grant funds, three positions have been added to develop and administer an arson investigation training program.

Due to a decrease in the number of inspections required under a Department of Health contract, three positions are being reduced in the budget year.

#### Output

During the 1975-76 fiscal year, a total of 6,791 plan reviews and 13,761 field inspections were conducted by the State Fire Marshal's Office.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

## OFFICE OF THE STATE FIRE MARSHAL—Continued

## b. Analysis and Development

This element is divided into four components. These components are: approval and listing services, consumer protection, public information, and training and fire statistics. A major portion of the activities conducted within these components are direct support functions to the enforcement element of this program.

## Output

Output consists mainly of evaluations, licensing, registrations and tests. In total, these activities numbered 177,000 during the 1975-76 Fiscal Year. During the fiscal year of 1976-77, this figure is expected to drop to 150,000, then increase in 1977-78 to 180,000. These changes are the result of biennial registrations of cargo tanks.

## II. ADMINISTRATION

## Program Objectives and Description

This program consists of executive and support services. These elements are structured and designed to provide executive leadership and to assure that the planning, coordination and application of appropriate statistical, fiscal, legislative, and technical information and data necessary to reach departmental objectives are defined and in effective operation.

*One clerical position has been added to meet workload requirements.*

## FRANCHISE TAX BOARD

The objectives of the Franchise Tax Board are to administer the Personal Income Tax Law and the Bank and Corporation Tax Law in a manner which will assure equity for the taxpayer and maximize the State's revenue potential within the framework of these laws; administer the Senior Citizens' Property Tax Assistance Law as authorized by the statutes providing partial repayment for real property taxes paid by qualified senior citizens; administer the audits and field investigations with respect to campaign statements and lobbyist reports as authorized by the Political Reform Act of 1974.

## I. PERSONAL INCOME TAX

### Program Objectives and Description

To administer the income tax withholding law with particular attention toward encouraging voluntary and timely remittance of the taxes which are held in trust by employers; to accelerate the collection of individual income tax; to improve taxpayer compliance; to administer the Personal Income Tax Law in an equitable manner to encourage accurate self-assessments, and maximize the state's revenue potential within the framework of the laws and available resources.

The Personal Income Tax Law provides the second largest source of General Fund revenue to the State. The use of a withholding-at-source method of collections is equitable to taxpayers and provides revenue receipts to the State evenly distributed throughout the tax year as well as maximum interest to the State. Tax return requirements are imposed on approximately 8.9 million individuals, partnerships, trusts, and estates. Self-assessed taxes will be about \$3.4 billion. Audit, filing enforcement, and collection activities are designed to protect the tax base and to provide additional revenues of approximately \$88 million.

### Authority

Government Code Sections 15700-15702.1; Revenue and Taxation Code Sections 17001-19500.

#### a. Self-Assessment and Prepayment Activities

The board designs, prepares and distributes personal income tax forms and provides advisory services to taxpayers regarding the tax laws in order to promote a high level of timely filed returns. As a result of this activity, approximately 8.9 million returns are received, categorized, processed and filed for subsequent reference. The Department of Benefit Payments administers the employer-related aspects of the personal income tax withholding program. An increase of \$594,000 in the employer withholding contract with the Department of Benefit Payments is proposed for 1977-78.

One work year and \$27,500 for coordination and improvement of the personal income tax employer withholding system; 21.7 work years for document processing workload with no increase in cost; 0.2 work year and \$1,800 in salary savings as a result of a conversion of temporary help to permanent; and one work year and \$28,600 to maintain and operate a tax model program are also proposed.

## b. Audit Activities

The audit programs are carried out to assure equity for the taxpayer and to maximize the state's revenue potential within the provisions of the Personal Income Tax Law. The mathematical verification of the returns, various desk audit programs, and field audit of selected returns will generate approximately \$65 million in revenue each year. To increase revenues, the budget proposes adding 11.7 work years and \$157,381 for the personal income tax audit program; 4.9 work years and \$79,323 for the field audit program; and 0.4 work year for the protest appeals activity.

## FRANCHISE TAX BOARD—Continued

## c. Filing Enforcement Activities

The filing enforcement programs are designed to identify and secure returns from all persons subject to the Personal Income Tax Law filing requirements. Information from various sources is used to identify the nonfiler. Field audits are performed to determine proper residency and special investigations are made when it appears that there has been fraud or other criminal violations of the Personal Income Tax Law. These programs will produce additional revenue of approximately \$23 million. 2 work years and \$34,800 are proposed for the investigation of multi-refund schemes.

## Output

## d. Collections

The collection policy of the Franchise Tax Board is to pursue a reasonable course of action which will protect the revenue base of the State of California, encourage maximum self-compliance of our income tax laws and accomplish this in a manner which will extend to each taxpayer due process of law, equitable treatment and consideration for the individual's dignity.

In 1977-78, a 0.2 work year decrease and a \$26,323 cost increase are proposed as the net result of a reduction in clerical and an increase in professional personnel.

## Output

Output				1975-76	1976-77	1977-78

## II. BANK AND CORPORATION TAX

## Program Objectives and Descriptions

To administer the Bank and Corporation Tax Law in a manner to assure equity, to encourage accurate self-assessments, to maximize the state's revenue potential and to protect the tax base, all within the framework of the laws and available resources.

The Bank and Corporation Tax Law provides the third largest source of General Fund revenue to the state. It imposes a franchise tax on businesses in California. An estimated 250,000 banks and corporations are subject to taxes in 1976/77, increasing to an estimated 255,000 in the 1977/78 fiscal year. Self-assessed taxes of about \$1.4 billion are anticipated in each fiscal year. Audit, filing enforcement, and collection activities are conducted to enforce the provisions of the law and will generate additional revenue of approximately \$109 million annually.

## Authority

Revenue and Taxation Code Sections 23001-26481; Government Code Sections 15700-15702.

## a. Self-Assessment and Prepayment

The board designs, prepares, and distributes corporation estimate and return forms and performs publicity and advisory services which are aimed toward a high level of timely filing and accurate assessment by corporate taxpayers. The board receives, processes and accounts for about 320,000 tax estimates and 255,000 tax returns and associated remittances. In cases of returns not accompanied by full payment, accounts receivable are established and billings are made to collect the total tax due. Returns are classified into various categories and filed for reference, checking, compliance, and audit activities. *For the budget year, a 0.8 work year and \$11,840 are proposed to increase revenues from corporation audits and a 0.8 work year with no increase in cost is proposed for document processing workload.*

## b. Audit Activities

The audit programs are designed to assure equity for the taxpayer and to maximize the state's revenue potential within the provisions of the Bank and Corporation Tax Law. Mathematical verification of the returns, various desk audit programs and field audit programs generate additional revenue in excess of \$87 million annually.

The field audit programs are administered by two Eastern Offices (New York City and Chicago) and seventeen California district offices.

*To maximize state revenues, an increase of 1.2 work years and \$17,760 is proposed for corporation audits; 0.6 work year and \$12,060 for protest and appeals activity; and 4.9 work years and \$79,073 for in-state field audits. 5.9 work years and \$127,400 are added to complete a 3 year plan to add 15 audit positions to the out-of-state field audit program.*

## c. Exempt Corporations

Approximately 5,400 applications for exemption are received and processed annually to determine whether the exemption should be granted or denied. The majority of applications require correspondence to make a proper determination. About 13,000 exempt corporations are audited annually to make sure that they are not engaging in activities that may jeopardize their exempt status. In most of these audits, correspondence is required.

Output	1975-76	1976-77	1977-78			
Applications .....	5,189	5,300	5,400

Totals .....	32.5	32.6	32.6	\$576,335	\$636,295	\$657,352

<sup>1</sup> Program is not intended to be revenue producing, but is a check to see that exempt corporations are entitled to that status.

## d. Filing Enforcement

This element represents a new dimension in the corporation collection program—an expansion of the collections effort to capture taxes due from corporations operating under suspension by the Franchise Tax Board. Additional revenue of about \$3 million annually will be generated by this program.

Output				1975-76	1976-77	1977-78
Revivors.....				7,206	8,850	4,400 <sup>1</sup>
Tax changes .....				5,163	6,300	3,200

Filing enforcement.....	7.5	7.6	7.6	\$138,003	\$152,110	\$157,232
Administration—distributed.....	(0.5)	(0.5)	(0.5)	(8,969)	(9,910)	(10,222)
Totals .....	7.5	7.6	7.6	\$138,003	\$152,110	\$157,232

<sup>1</sup> Implementation of the new collection program requires the collection effort prior to suspension which will significantly reduce the number of corporations which are suspended and subsequently revived.

## e. Collections

The goal of this element is to pursue a reasonable course of action which will protect the revenue base of the State of California and encourage maximum self-compliance of the corporation tax laws. About \$30 million will be collected annually.

During 1977-78, 0.3 positions are added for document processing workload and 2.5 positions and \$32,484 are added to implement the penalty assessment provisions of AB 376.

## III. SENIOR CITIZENS PROPERTY TAX ASSISTANCE LAW

## Program Objectives and Description

To administer the Senior Citizens Property Tax Assistance Law in such a manner as to assure proper payment of assistance claims as authorized in Sections 19501 through 19540 of the Revenue and Taxation Code. The principal program activity is the receiving, processing, perfecting and validating of claims for property tax assistance. The law requires the submission of tax assistance claims after May 15 each year and before August 31. The major portion of program activity is performed between May and October of each year. In addition, the law requires that assistance be granted to claimants filing incomplete claims. This results in substantial correspondence or contacts with the claimants to obtain the missing data.

As a result of AB 2972 36.3 positions and \$495,200 are added in 1976-77. (Proposed source of funding for this amount is by allocation by the Emergency Fund.) An additional 21.6 positions and \$212,500 are proposed for 1977-78 for this purpose. 0.5 work year with no increase in cost is also added for other document processing workload.

## IV. CONTRACT WORK

## Program Objectives and Description

To service all contracts entered into with other entities. The availability of sophisticated EDP equipment and skilled personnel is enabling the board to meet the growing demand for services. All contractual costs relating to these services are entirely reimbursable to the department. In addition, the increased work reduces the hourly charges for the computer time in all of the department's programs.

## FRANCHISE TAX BOARD—Continued

## V. POLITICAL REFORM AUDIT

## Program Objectives and Description

To conduct the audits and field investigations required by Sections 90000 through 90006 of the Government Code in an unbiased objective manner and to report, in detail, the results to the Fair Political Practices Commission.

The Political Reform Act of 1974 requires the staff to make audits and field investigations of campaign statements and lobbyist reports filed with the Secretary of State. The board is *not* required to audit campaign statements for federal or local offices or statements by candidates for Controller and members of the Board of Equalization.

The board must also audit statements filed by: committees supporting or opposing the above candidates; committees supporting or opposing statewide measures; and any state or county central committee or independent committee which spends \$10,000 or more.

## Authority

Government Code Sections 90000-90006.

## VI. LEGISLATIVE MANDATES

## Program Objectives and Description

Section 2231 of the Revenue and Taxation Code requires the state to pay local governmental units the cost of any new program or increased level of service of a program mandated by legislation enacted after January 1, 1973. The board has one legislative mandated program which required local agencies to report owners of substandard rental dwellings to the Franchise Tax Board if violations have not been corrected within the allowed time. The board will disallow certain expenses derived from rental of defined substandard housing, for purposes of determining the liability pursuant to the Personal Income Tax Law and the Bank and Corporation Tax Law.

Program Requirements	1975-76	1976-77	1977-78
Continuing program costs (General Fund) .....	\$12,758	\$45,200	\$48,000

## VII. ADMINISTRATION

## Program Objectives and Description

To provide that the Personal Income Tax Law, the Bank and Corporation Tax Law, the Senior Citizens Property Tax Assistance Law and the Political Reform Act of 1974 (Chapter 10), including recent statutory changes to these laws, are administered in an equitable and effective manner.

Management and staff services provide overall planning and administrative support to the programs in the form of executive management, fiscal and personnel administration, statistical research and reporting, program planning (management and technical analysis, training assistance, budget and cost information), supply and maintenance services, and investigations.

## DEPARTMENT OF GENERAL SERVICES

The objectives of the Department of General Services are to: a. Meet the varied responsibilities for management review, control and support assigned to it by the Governor and by statute; b. Provide supportive services to operating departments with greater efficiency and economy than they can individually provide for themselves; c. Increase effectiveness and economy in the administration of State Government by establishing and improving statewide standards and guidelines and by innovating and implementing constructive changes in governmental policies and procedures.

### I. PROPERTY MANAGEMENT SERVICES

#### Program Objectives and Description

With a multimillion dollar investment in facilities for State offices and employees, centralized responsibilities for planning, acquisition, design, construction, maintenance and operation are needed to avoid duplication of effort and uncontrolled investment in office space. This is achieved in the following ways: (a) Providing adequate space for State operations at a cost below that which each agency could provide for itself; (b) Assuring protection of lives and property in public buildings and hospitals through design and construction supervision; (c) Insuring that facilities constructed with State funds are accessible to the physically handicapped; (d) Establishing uniform public health and safety regulations for building construction; (e) Providing impartial hearings for the general public and construction industry in their interactions with State agencies; (f) Acquiring, managing and disposing of real property (except leases) for State agencies, and providing public service facilities with economy of operations and uniform practices for protecting the public's interests and insuring equitable treatment of private property owners; (g) Preserving the State's capital investments in buildings, grounds, and equipment through an efficient and effective centralized maintenance and operation program.

#### Authority

- Architectural consulting and construction: Government Code Sections 4454, 14250-14404, 14600, 14650, 14651, 14679-14682, 14950-14961, 15800; Education Code Sections 15002.1, 15451-15465, Health and Safety Code Sections 15000-15023.

## a. Architectural Consulting and Construction Services

Architectural and Engineering Services are in support of the State Building Construction Program. Related services include advertising and administration of contracts, and supervision and inspection of construction projects. It also involves review of plans and specifications on all projects which utilize State funds to determine compliance with the Physically Handicapped Law and review of plans developed by local school districts for public school construction to assure compliance with the Field Act for safety of school children. Similar services are provided for hospital construction through contract with the Department of Health. Also included is field inspection to ensure compliance with the plans and specifications.

The Office of the State Architect will continue to use new concepts in the design of State office buildings. These concepts must be responsive to at least five concerns: human, environmental, cost, social and community.

To be humanly responsive, facilities will be smaller scale, less institutional, using softer and warmer materials and integrated with usable and inviting open spaces.

To be environmentally responsive, architects must recognize that the era of cheap energy is over and use common sense designs for local conditions and climate which would minimize the need for energy intensive, polluting systems. For example, designs should use recessed shaped and operable windows, sheltered arcades and breezeways, shaped courtyards and extensive landscaping.

To be cost responsive, careful architectural design can realize up to 80 percent reduction in energy operating costs by using less monolithic materials and avoiding glass and steel towers.

To be socially responsive, smaller increments of construction means more adaptability to future uses, greater participation by smaller contractors through unit bidding, and more State encouragement of affirmative action in the building process.

To be community responsive, State offices in downtown locations would intermix State and private uses in single buildings and promote diversity of use through time.

Design can be kept direct, personal, and small scale so it is responsive to change and correction, because now, both humanity and nature have become victims of institutionalized bigness. Many systems are best designed around the most coherent, smallest, and most independent components possible.

Applying these concerns, the design of State office buildings and facilities will reflect an emergence of an adaptive, small-scale technology, methods and equipment that are: (1) cheap enough to be accessible to nearly everyone, (2) simple enough to be easily maintained and repaired, (3) suitable for small-scale application, (4) compatible with individual needs for creativity, and (5) self educative in environmental awareness.

Three positions are added in the current year to handle increased workload in the Contract Architect Program.

Twelve positions are transferred from the Structural Safety Program to the Architecture and Engineering Services Program in the current and budget years to meet increases in the basic architectural and consulting services workload.

Six positions are added in the current and budget years to provide program planning throughout the state.

Pursuant to enactment of Chapter 513, Statutes of 1976, the Office of the State Architect with assistance from the Arts Council will be responsible for procuring art for state buildings. Seven hundred thousand dollars is budgeted in 1977-78 to administer this program and purchase or lease works of art. An initial plan will be submitted to the Legislature outlining the first year program with an annual report being submitted thereafter.

## Output

1. Architectural and Engineering Services:			
Basic architectural and consulting services:	1975-76	1976-77	1977-78
Construction value of projects .....	\$29,156,077	\$37,036,160	\$40,369,414
Nonbasic architectural and consulting services:			
Construction value of projects .....	\$64,936,965	\$70,131,922	\$76,443,795
Consulting services hours .....	26,288	26,000	26,000
Contract architect program:			
Construction value of projects .....	\$38,822,400	\$85,639,361	\$46,362,060
Basic construction services:			
Construction value of projects .....	\$73,288,656	\$82,000,000	\$95,000,000
Nonbasic construction services:			
Construction value of projects .....	\$56,114,486	\$45,000,000	\$31,500,000
Special services:			
Special service hours .....	10,449	10,812	10,647
2. Structural Safety Section:			
Review of public school building design and construction:			
Construction value of projects .....	\$457,500,000	\$550,000,000	\$605,000,000
Review of hospital building design and construction:			
Construction value of projects .....	\$201,500,000	\$302,500,000	\$332,750,000

c. Long Range Facilities Planning

The Long Range Facilities Planning Office formulates and maintains the development of office facilities in both major (over 100,000 population) and minor metropolitan areas within the state. In so doing it is necessary for this office to develop data and information which enables it to forecast future agency space requirements in these same areas. In response to these plans this office then initiates through the Department of General Services the first steps which lead to the construction, financing and/or purchasing of a facility. This is accomplished through the capital outlay and legislative processes.

An increasingly important function of this office is to perform environmental studies on behalf of the Department. The office also performs site feasibility and location studies, economic analyses and energy related studies.

Long Range Facilities Planning also is responsible for the review of space requests to ensure their compliance with long range plans in effect in a given area. Other responsibilities include the review and maintenance of the Capitol Area Plan, performance of parking studies, and development of the five-year Capital Outlay Program. In addition, many special projects and studies on related subjects are undertaken for the legislative and executive branches of government. This office provides staff to the Departmental Environmental Review Committee, provides environmental review services to all departments and performs environmental studies and reports as required by the California Environmental Quality Act.

Output

	1975-76	1976-77	1977-78
Major metropolitan plans and revisions .....	6	8	8

## DEPARTMENT OF GENERAL SERVICES—Continued

## d. Real Estate Services

The Real Estate Services Division performs three major real estate services for State Government: acquisition, property management and sales. The acquisition function consists of the following specific activities: site selection, appraisal, appraisal review, negotiation and relocation services. Site selection involves providing real estate expertise to agencies in helping select the best site available. Appraisal involves collecting and analyzing data required to estimate market value. Appraisal reviews are made to ensure that the State pays, and the property owner receives, fair market value. Negotiations are conducted with property owners on the basis of the approved appraised value. Relocation services are provided to owners and tenants to ensure they receive the advice and/or funds to relocate as provided under law. Property management involves the management of State-owned properties acquired but not yet occupied by the purchasing agency, and evaluating the leasing of State-owned property not under the jurisdiction of the Department of General Services. Real estate sales is responsible for the disposal or transfer of State property no longer needed for State use.

Three positions are added in the current year to handle increased workload in the Relocation Assistance Unit.

## Output

	1975-76	1976-77	1977-78
Acquisition:			
Value parcels acquired.....	\$35,115,519	\$37,800,000	\$40,000,000
Number parcels acquired .....	248	280	280
Property Management:			
Gross income .....	\$1,604,670	\$1,600,000	\$1,650,000
Number of units .....	1,082	1,100	1,150
Real Estate Sales:			
Value parcels sold .....	\$2,649,700	\$6,600,000	\$6,000,000

## Input

Expenditures .....	\$2,235,552	\$2,375,116	\$2,219,722
Personnel years .....	69	71.5	68.5

## e. Space Management

The Space Management Division provides centralized and economic statewide managerial services for assignment, coordination and management for all State-owned and leased non-institutional office and warehouse space.

Seven additional positions are proposed for the budget year to meet an increased workload.

## Output

	1975-76	1976-77	1977-78
Space managed (square feet) .....	33,535,191	34,000,000	34,500,000
Space planned (square feet) .....	1,978,176	2,400,000	2,700,000
Leased space (in dollar value) .....	\$34,449,675	\$36,500,000	\$38,000,000
Alterations (in dollar value) .....	\$1,541,936	\$2,200,000	\$1,850,000

## Input

Expenditures .....	\$1,909,469	\$1,966,398	\$2,208,893
Personnel years .....	69.4	67	74

## f. Building Standards Commission

The State Building Standards Commission reviews building regulations promulgated by various State agencies for conflict, overlap, duplication, nomenclature and arrangement. It also assures conformance to nationally accepted performance standards, publishes and maintains such regulations in Title 24 of the California Administrative Code and interprets such regulations upon request.

## Input

	1975-76	1976-77	1977-78
Expenditures .....	\$46,410	\$60,014	\$63,615

## g. Building Rental Account

This element provides funds for the operating of buildings under the jurisdiction of the Department of General Services and for subleasing to State agencies. The standard rental rate for 1976-77 is 49 cents per square foot for office space and 13 cents per square foot for storage space. Included in this element are funds for amortizing loans of Public Building Construction Fund buildings, building insurance premiums, and building maintenance services.

## Input

	1975-76	1976-77	1977-78
Expenditures .....	\$17,386,294	\$17,399,022	\$18,427,248

h. Minor Capital Outlay<sup>1</sup>

	1975-76	1976-77	1977-78
Minor capital outlay expenditures .....	\$248,640	\$152,145	—

<sup>1</sup> Minor Capital Outlay is to be included in the Capital Outlay section beginning in 1977-78.

DEPARTMENT OF GENERAL SERVICES—Continued

i. Property Acquisition Act

Government Code Sections 15850–15865 provide that the Department of General Services has jurisdiction over acquired property under the Property Acquisition Law and land declared surplus to the State's needs. It also provides that the proceeds from the sale and rentals of such properties shall be deposited in the General Fund for appropriation to the Department of General Services to provide maintenance and improvements to acquired property.

Input	1975–76	1976–77	1977–78
Expenditures .....	\$1,406,376	\$1,456,000	\$1,498,000

j. Physically Handicapped Plan Checking

All plans and specifications for any building or facility purchased by State funds are reviewed for the purpose of ensuring compliance with the American Standards Association Specifications A117.1–1961 minimum standards relating to the accessibility and functional use of such facilities by the physically handicapped. Funding is provided by a filing fee which is established by the Department of General Services, deposited in the General Fund and continuously appropriated (Government Code Section 4454) without regard to fiscal year.

Input	1975–76	1976–77	1977–78
Expenditures .....	\$169,830	\$145,000	\$155,000

k. State Historical Advisory Board

The State Historical Advisory Board which is located organizationally within the Office of the State Architect is responsible for the development of alternative building regulations for the rehabilitation, preservation, restoration or relocation of buildings, or structures designated as historic buildings. Such alternative building regulations are intended to facilitate restoration so as to preserve their original or restored architectural elements and features, to encourage energy conservation and a cost-effective approach to preservation, and to provide for the safety of the buildings' occupants.

Input	1975–76	1976–77	1977–78
Expenditures .....	\$22,643	\$84,857	\$60,950

II. STATEWIDE SUPPORT SERVICES

Program Objectives and Description

To fulfill their program responsibilities, State agencies require support services for business transactions and activities which are basic to their organizational functions. These operational requirements include procurement of materials, data processing services, communication, transportation, printing, security, and related business and office services.

Other state agency support requirements, on a periodic basis, include consulting services for legal contracts and insurance management. Additionally, licensing agencies require services of hearing officers for alleged violations by license holders, and school districts and local government need assurance of adequate funding for public works projects.

These diverse services are more effectively and economically provided under a consolidated program which centralizes resources, capabilities, talents, and facilities for efficient response to support requirements of client state agencies.

Authority

- a. Administrative hearings: Administrative Procedure Act, and Government Code Sections 11380, 11409, 11502, 13370–13370.5, 13371–13374, 11500–11528, and 27727.
- b. Communications: Government Code Section 14931.
- c. Fleet administration: Government Code Sections 13950–13956, 14615, 14621, 14669, and 14675–14678; Board of Control Rules and Regulations, Articles 8 and 15; and State Administrative Manual Sections 4100–4300.
- d. Insurance services: Government Code Sections 11007.5, 11007.7, 14848, and 18310; State Administrative Manual Sections 2500–2520, 2530, 2541, 2560, 2581–2582.1, 8576, and 8776–77.
- e. Legal services: Government Code Sections 14610 and 14780.
- f. Local assistance: Government Code Section 15500; Education Code Sections 19551–19689.
- g. Management services office: Government Code Sections 11152, 14600, 14607, and 14615.
- h. Office services: State Administrative Manual Sections 1252, 1253, 2121–2122.26 and 2880–2883.
- i. Procurement: Government Code Sections 14780–14814, 14860 and 14880–14922.
- j. Records management: Government Code Sections 14740–14755, 14760, 14765–14768, 14770–14774; State Administrative Manual Sections 1600–1653.
- k. Security and protection: Government Code Section 14613 and Penal Code Sections 830.2 and 830.4.
- l. State printing: Government Code Sections 9700–9768 and 14850–14877 and State Administrative Manual Sections 2802–2840 and 3122.2.
- m. Small business procurements and contracts: Government Code Sections 14835–14842.
- n. Motor vehicle parking facility: Government Code Section 14678.

## a. Administrative Hearings

The Office of Administrative Hearings conducts quasi-judicial hearings for various State or public agencies in connection with the issuance, renewal, suspension or revocation of licenses under the Administrative Procedure Act. The office also compiles and publishes the California Administrative Code which consists of state agencies' rules and regulations, and conducts studies in administrative law and procedure.

Output	1975-76	1976-77	1977-78
Hearings completed (excluding categorical aid hearings) .....	3,158	3,276	3,360
Folios of transcript .....	148,755	150,000	150,000
Pages of regulations published .....	11,029	11,775	12,305

## Input

Expenditures .....	\$2,527,594	\$2,020,759	\$2,096,122
Personnel years .....	90.2	64.4	64.9

## b. Communications

The Communications Division is responsible for providing telecommunications services to all state agencies to meet their operational requirements. Services are provided for radio, telephone, teletype, closed circuit TV, emergency (911) telephone, data transmission facilities, and any special telecommunications facilities. Service includes consulting, engineering, installation, maintenance, specifications, Federal Communications Commission license applications, equipment reviews, special studies and management of state telecommunications facilities and equipment.

Six positions are proposed in the budget year as a result of an increase in the number of radio units to be serviced. In addition, the division will add 2.5 positions in the current year and three positions in the budget year due to the passage of AB 416 (Chapter 443, Statutes of 1976). This bill placed increased emphasis on completing the Emergency Telephone Number Project within the State.

## Output

Radio Management:	1975-76	1976-77	1977-78
Total units serviced .....	26,337	28,890	29,967
Units per engineer .....	595	615	638

Expenditures .....	\$15,714,912	\$19,880,810	\$21,823,210
Personnel years .....	298.6	316.8	323.3

## c. Fleet Administration

The Fleet Administration Division establishes policies and procedures on all aspects of state-owned vehicles. Inspectors of automotive equipment are available for consultation to all agencies for determination of required repairs, periodic safety checks, replacement reviews, considerations of agency vehicle needs, proper utilization and other automotive management problems.

Garage operations at 10 locations provide some or all of the following services in support of state agencies: tripper pools for short-term assignment of passenger cars to state employees, long-term rental of vehicles to agencies, preventive maintenance, gas, oil and car wash, auction of used vehicles and air flight services. Parking services for State employees and the public in major urban areas are also administered by the division.

d. Insurance Services

The Insurance Office provides centralized economical management of state insurance requirements. Services include analyzing insurance needs of State and local agencies as well as negotiating for insurance procurement necessitated by such analysis. Services also include consulting and advising agencies on risk management problems, administering a comprehensive program for recovery of damages to state-owned vehicles, administering the Governor's Driver Accident Prevention Program and the Deferred Compensation Plan for state employees. *An additional position is proposed in the budget year to meet increased workload in the Deferred Compensation Program.*

Output

e. Legal Services

The Legal Office provides legal services to the Department of General Services, the Department of Finance, and various boards and commissions. The function of the office is that of house counsel which includes giving legal advice on new and ongoing programs, the advocacy of the department's position in a wide variety of situations, the publishing of opinions, and the drafting and review of legal documents. The Legal Office also provides centralized review of a variety of transactions arising out of the operations of state agencies which by law are subject to the approval of the Department of General Services. The review is for the purpose of assuring legality, statewide uniformity, and compliance with the policies of the Department of General Services in regard to its business management of state affairs. A major objective in recommending appropriate courses of action is to avoid involving the State in unnecessary litigation.

Output

f. Local Assistance

The Office of Local Assistance administers the State School Building Aid Law, under which financial assistance is made available to school districts for acquisition and development of school sites, construction or reconstruction of school buildings, and purchase of school furniture and equipment. This assistance is provided to districts experiencing significant growth as well as those having buildings which do not meet earthquake safety requirements.

Other activities include: (1) partial reimbursement to counties for expenditures made in providing legal counsel for indigents, (2) investigation of unused school sites to determine whether a district will make payments to the State for nonuse, and (3) administration of other programs of financial assistance to local agencies as assigned.

*An additional 3.5 positions are added in the current year to handle increased workload in the State School Building Aid Program and the Unused Site Investigation Program and a reduction of 9.4 positions is proposed in the budget year to reflect a decrease in workload in the State School Building Aid Program.*

Legal Aid for Indigents:			
Counties participating .....	58	58	58
State funds disbursed .....	\$775,000	\$775,000	\$775,000

<sup>1</sup> Function transferred to Office of Emergency Services on January 1, 1975. The Office of Local Assistance will continue, however, to process those applications that were initiated prior to the transfer.

## Input

Expenditures .....	\$1,100,099	\$1,145,243	\$832,193
Personnel years .....	49.1	45.5	32.6

## g. Management Services

The Management Services Office provides a variety of support services as follows:

1. Accounting and financial services to the department, smaller state organizations, and various boards and commissions.
2. Data processing services including a full range of personnel and data entry services related to electronic data processing support.
3. EDP education including courses for both EDP technical and 'user' operations and management personnel.
4. Consulting services which provides analytical skills to supplement other organizations.

## Output

Personnel years .....	287.5	285.6	280.6

## h. Office Services

The Office Services Division provides state agencies with supportive services, office machine repair, reproduction, and business equipment management services. Supportive services include: (a) Mail centers in Office Building Nos. 1 and 9 which distribute U.S. and interagency mail to the building tenants, provide for external building messenger service, prepare freight and mail for shipment, and also receive and deliver supplies, materials, and equipment; (b) The Interagency Mail and Messenger Unit distributes mail between state agencies; and (c) Automatic typing and dialing dictation services are provided by the Word Processing Center.

The Office Machine Repair Unit provides for the rental, maintenance, and repair of office machines and also advises and aids in evaluations provided by the Office of Procurement. The Reproduction Unit provides 'job-shop printing', addressograph and reproduction services to client agencies. It also advises agencies on reproduction equipment and methods.

The Business Equipment Management Unit is giving full time attention to the reduction of the State's total copying and business communication costs.

*Eleven additional positions are proposed in the budget year to meet increased workload.*

## Output

# DEPARTMENT OF GENERAL SERVICES—Continued

## i. Procurement

The procurement element includes three components: direct purchasing, central stores, and traffic management.

Purchasing processes requisitions of State and local agencies including developing and circulating bid invitations, awarding bids, and issuing purchase orders. It also provides overall direction and review of purchasing methods and techniques, establishes product standards, tests for compliance with standards, coordinates consolidated purchase projects and programs, and conducts training programs for agency receiving personnel.

Central Stores buys operating supplies in large quantities at maximum discounts for resale to State agencies, provides for sale and distribution of State publications, and reviews equipment disposed of by State agencies and selectively obtains, refurbishes, and resells such used equipment to other State agencies. In addition, this component provides for the centralized purchase, storage, and distribution of canned fruits and vegetables to support the institutional feeding programs of the Departments of Health, Corrections, and Youth Authority.

Traffic management provides traffic services and reviews State shipping and freight receipt practices.

An additional 1.2 positions are proposed in the current and budget years to provide staffing for the recycled furniture program.

### Output

#### 1. Direct Purchasing:

Purchasing:	1975-76	1976-77	1977-78
Cost of purchasing as percent to total purchasing.....	1.3%	1.3%	1.3%

## DEPARTMENT OF GENERAL SERVICES—Continued

## k. Security and Protection

The State Police Division provides police and security service to State facilities and occupants. Police service is normally provided when the use or occupancy of property is at its maximum. Police service is oriented towards the control and protection of individuals using state property. Security service is normally provided when the use or occupancy of property is at a minimum. The division provides a full range of police services including basic criminal and noncriminal investigation, protection of constitutional officers, crowd control, motor and foot patrol, air surveillance, explosive ordinance disposal and administration of the employee protection program.

Output	1975-76	1976-77	1977-78
Employees protected (pro rata) .....	63,412	62,000	62,000
Parking square footage protected (pro rata) .....	11,460,927	11,400,000	11,400,000
Contract service hours .....	252,715	252,715	252,715
<b>Input</b>			
Expenditures .....	\$5,896,855	\$6,649,445	\$6,743,365
Personnel years .....	299.7	313.4	308.2

## l. State Printing

The Office of State Printing provides printing services for the Legislature and for all state agencies except the University of California that includes: 1) Legislative printing—printing of bills, records, documents and reports necessary to conduct the business of the Legislature; 2) Operation of the Legislative Bill Room which distributes legislative printed material to the Legislature and the general public; 3) State agency printing—printing of forms, records, reports and publications necessary to agency operations, including distribution of state materials printed under the Library Distribution Act; 4) Elementary school textbook printing—textbooks ordered by the Department of Education for distribution to local school districts; 5) Hand bound library and legislative publications.

*Nine positions are being reduced in the current and budget years to reflect the transfer of legislative printing workload to the Legislative Counsel's office and three positions are being reduced to reflect increased efficiencies in printing production.*

Output	1975-76	1976-77	1977-78
Legislative printing (number of measures and resolutions printed) .....	5,000	5,000	5,000
Publication printing (number of orders) .....	1,650	1,700	1,700
Job work printing (number of orders) .....	20,400	20,500	20,500
Textbook printing (number of books) .....	3,577,500	4,000,000	4,000,000
Hand binding (number of books) .....	76,790	78,000	80,000
<b>Input</b>			
Expenditures .....	\$23,141,180	\$29,589,593	\$31,465,929
Personnel years .....	656.2	684.3	684.3

## m. Small Business Procurements and Contracts

The Office of Small Business helps facilitate small business participation in state procurements and state construction contracts. This goal is accomplished through seminars in prequalification, bidding, and financing; coordination with Federal, State, and private organizations; and the compilation of prequalification listings. *The Small Business Office is being augmented by one position in the current year and three positions in the budget year in order to increase efforts in the categorization of small businesses, conduct studies of other agencies procurement systems, and conduct audits of preference claim awards.*

Output	1975-76	1976-77	1977-78
Number of additional small business prequalifications .....	969	1,000	1,000
Dollar value of small business participations .....	\$40,620,590	\$45,000,000	\$50,000,000
<b>Input</b>			
Expenditures .....	\$183,555	\$324,235	\$381,551
Personnel years .....	10.3	12	14

DEPARTMENT OF GENERAL SERVICES—Continued

n. Motor Vehicle Parking Facilities

Government Code Section 14678 provides for the acquisition by lease or other means of real property and the construction, operation and maintenance of motor vehicle parking facilities thereon for state officers and employees. This section provides that revenue received may be used to finance construction and maintenance of parking lots. This program covers 6,800 spaces in lots throughout the state.

Input	1975-76	1976-77	1977-78
Expenditures .....	\$632,518	\$725,371	\$770,319

III. ADMINISTRATION

The department's administrative program consists of executive and staff support elements that include the Executive Office and the Administrative Services Division. Together these elements provide fiscal, personnel, training and management advice and services to the department's line programs. In addition, administration is responsible for implementation of the department's Equal Employment Opportunity and Affirmative Action Programs.

Five positions are added in the current and budget years to continue the Capitol Restoration Project, and six positions are added in both years to continue the California Office of Minority Business Enterprise.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78

IV. EMERGENCY TELEPHONE NUMBER—LOCAL ASSISTANCE

Chapter 443, Statutes of 1976, established an Emergency Telephone Number "911" response system throughout the state. To encourage local agencies to develop and improve emergency communications procedures and facilities so that any person calling the telephone number "911" can seek emergency services, financial assistance is offered. Each local agency participating in the program will be reimbursed from the Emergency Telephone Number Account.

<sup>2</sup> Government Code Section 14678 provides for the acquisition by lease or other means of real property and the construction, operation and maintenance of motor vehicle parking facilities thereon for state officers and employees. This section provides that revenue received may be used to finance the construction and maintenance of those parking lots. This section covers 6,200 spaces in lots throughout the state.

## BOARD OF CONTROL

### Program Objectives and Description

The overloaded condition of the courts and the increasing number of claims filed against the state make it essential that as many claims as possible be settled by administrative action.

The size and increasing complexity of state government requires that uniform rules and regulations concerning fiscal matters be established to provide equitable treatment of claims against the state.

Effective utilization of the innovative resources of state employees for achieving greater economy and efficiency in conducting state business requires an organized system for soliciting and evaluating employee suggestions.

The primary objectives of the Board of Control are:

1. To consider and settle claims against the state in an orderly and impartial manner and reduce the number of matters requiring legislative review or judicial adjudication.
2. To provide equitable allowances to state employees for travel and movement of household goods.
3. To protect the public against arbitrary or capricious acts of state agencies in the procurement of supplies and equipment.
4. To reduce state expenditures and increase operating efficiency through utilization of state employee suggestions, by recognizing those employees for acts exceeding normal job responsibilities.

In order to meet these objectives, the Board of Control receives, processes, and investigates all claims for money or damages against the state. Tort liability claims, claims of citizens benefiting the public, and aid to victims of crimes of violence claims approved by the board are paid from funds appropriated for that purpose. All other claims approved by the board are referred to the Legislature for payment under a quarterly omnibus claims bill.

The Board of Control also reviews numerous fiscal and related transactions including discharge of accounts receivable of the state; refunds, credits, and cancellations of taxes; sale and disposal of unclaimed property; transfer of funds between state agencies; and cash merit awards. The board is also charged with determining the pro rata share of statewide administrative costs payable by each state agency, determining location of headquarters for purposes of travel claims, holding hearings on purchase protests, and other matters.

The statewide suggestion system is administered by a five-member Merit Award Board appointed by the Board of Control. Activities include coordinating and promoting the program; giving guidance and assistance to all departments; reviewing suggestion evaluations to assure complete, accurate and objective reports; notifying employees when their suggestions are not adopted; and developing improved standards and policies for the conduct of the program.

Direct support for the Victims of Crimes of Violence program is now included in the budget for Indemnification of Private Citizens. Legislation will be proposed during 1977 to transfer the total responsibility and funding for the administration of this program from the Department of Justice to the Board of Control.

### Output

	1975-76	1976-77	1977-78
Victim Claims:			
Filed.....	6,518	8,147	10,183
Accepted.....	4,934	6,167	7,708
Non victim claims.....	4,821	5,500	6,200
Suggestions received.....	3,649	4,000	4,400

# INTERGOVERNMENTAL PERSONNEL ACT ADVISORY COUNCIL

## Program Objectives and Description

The Intergovernmental Personnel Act Advisory Council was created June 16, 1975, by executive order B4-75, which assigned administration for the 1970 federal act under the Secretary of Agriculture and Services Agency, effective July 1, 1975. It is the successor to the Advisory Coordinating Council on Public Personnel Management formerly administered by the Office of Planning and Research.

The five-member council is appointed by the Governor. Current council members include the Director of Industrial Relations, the principal consultant to the Assembly Committee on Local Government and representatives of a county, a city, and the educational community. The council members volunteer their time and serve without compensation. The council reviews and makes recommendations to the secretary on proposed programs and projects to be included in the California statewide plan, which is composed of all approved grant applications. An administrative unit of the council performs the necessary activities to administer the federal grant funds as required under the act, and carries out appropriate nongrant provisions.

The programs of the council are intended to improve personnel administration, provide training and education, and improve the quality of manpower in the public service. Grantees include state departments and county and city governments.

## DEPARTMENT OF INDUSTRIAL RELATIONS

The objective of the Department is to foster, promote, and develop the welfare of the wage earners of California, improve their working conditions, and advance their opportunities for profitable employment. The Department is continually working toward the realization of this objective by enforcing the compulsory Workers' Compensation Insurance Law and adjudicating workers' compensation insurance claims, by preventing industrial injuries and deaths; by promulgating and enforcing laws relating to wages, hours and conditions of employment; by promoting apprenticeship and other on-the-job training; by preventing discrimination in employment and housing; by assisting in negotiations with parties in dispute when a work stoppage is threatened; and by analyzing and disseminating statistics which measure the condition of labor in the state.

### SUMMARY OF PROGRAM REQUIREMENTS

	1975-76	1976-77	1977-78
I. Regulation of workers compensation self-insurance plans .....	\$338,632	\$409,140	\$432,327
II. Conciliation of employer-employee disputes .....	604,447	722,648	838,910
III. Preventing, settling, adjudicating and administering disputes under workers compensation laws.....	15,648,507	17,823,600	18,975,921
IV. The prevention of industrial injuries and deaths to California workers .....	16,745,515	19,610,157	20,926,705
V. Enforcement and promulgation of laws relating to wages, hours and conditions of employment, and licensing and adjudication .....	6,917,326	7,708,476	8,499,126

### SIGNIFICANT PROGRAM CHANGES

Program	Description	Personnel years	Dollars
III a.	Adjudication of workers' compensation disputes—increased caseload .....	26	\$352,879
III d.	Supervising the rehabilitation of disabled workers—increased caseload .....	20	318,672
V a.	Enforcement of minimum wages and standards for hours and working conditions—concentrated enforcement program .....	14	279,268
VIII a.	Prevention and elimination of discrimination in employment—increased caseload .....	21	459,478

### I. REGULATION OF WORKERS' COMPENSATION SELF-INSURANCE PLANS

#### Program Objectives and Description

An employer may meet the statutory requirement of providing workers' compensation benefits for his employees by obtaining a certificate of consent to self-insure. A certificate is issued after the employer has proved to the satisfaction of the Director of Industrial Relations his ability to self-insure and pay all benefits. A security deposit is required and the amount of the deposit is revised periodically. The benefit delivery systems of self-insurers are audited on a three-year cycle to make certain all benefits are paid promptly and in full. A part of this three-year audit is a reevaluation of the self-insurer's financial strength. Program advice and education are provided to self-insurance plan administrators.

#### Authority

Labor Code, Sections 129, 3700 through 3705 inclusive.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78
Continuing program costs.....	14	16.5	16.5	\$338,632	\$409,140	\$420,026
Workload adjustments.....	-	-	1	-	-	12,301
Totals, Regulation of Worker's Compensation Plans (Reimbursements) .....	14	16.5	17.5	\$338,632	\$409,140	\$432,327
Program Elements						
a. The review and analysis of self-insurance plans .....	7.9	9.3	9.3	\$208,058	\$230,878	\$237,021
b. The determination of ability to self-insure and the maintenance of security deposits.....	6.1	7.2	8.2	130,574	178,262	195,306

#### a. The Review and Analysis of Self-Insurance Plans

To make certain that benefits are paid promptly and in full, the Labor Code mandates that all self-insured employers shall be audited within a three-year cycle.

Each year there is an increasing number of agencies competing for the business of adjusting claims as well as a large turnover in the approximately 500 persons administering self-insurance. Each change requires a determination by written test as to competency of the administrator. Instruction in workers' compensation laws and procedures is given to these individuals to raise the standard of quality of self-insurance plans.

For the list of standard (lettered) footnotes, see the end of the Governor's budget.

## DEPARTMENT OF INDUSTRIAL RELATIONS—Continued

## Output

	1975-76	1976-77	1977-78

Personnel years .....	7.9	9.3	9.3

## b. The Determination of Ability to Self-Insure and the Maintenance of Security Deposits

When an employer applies for permission to self-insure, special emphasis is placed on the solvency of the employer and his ability to fulfill his obligations under the workers' compensation law. If the application is approved, the applicant is required to post a deposit which can be called in the event of insolvency. Revisions of deposits are, for the most part, based on the annual reports which the self-insurers are required to submit. *One additional clerk typist is proposed in the budget year for increased workload.*

## Output

## II. CONCILIATION OF EMPLOYER-EMPLOYEE DISPUTES

## Program Objectives and Description

The objectives of the program are to protect the entire economy of the State and the well-being of employees in all categories by preventing or minimizing work stoppages, business interruptions, or the interruption of public services. It is the objective of the Conciliation Service to accomplish this on a voluntary basis by making skilled professionals available to disputing parties with the objective of achieving settlements that are within the means of those concerned and that prevent an adverse effect on the economy.

## Authority

The program is authorized by Section 65 of the California Labor Code, the labor provisions of the various Transit District Acts of the Public Utilities Code, the Meyers-Milias-Brown Act, the Educational Employer Relations Act, and local legislation deriving from these acts and the Agricultural Labor Relations Act.

## Program Requirements

Personnel years.....	1.1	1.3	1.3

III. PREVENTING, SETTLING, ADJUDICATING AND ADMINISTERING DISPUTES UNDER WORKERS' COMPENSATION LAWS

Program Objectives and Description

The Division of Industrial Accidents is a court of limited jurisdiction with exclusive constitutional and statutory powers to settle disputes between workers and employers or insurance carriers arising from work injuries. Referees hear and decide disputed claims on the basis of oral and written evidence. Notices issued by employers to injured workers concerning claimed benefits are monitored to forestall disputes, if possible. Establishment of minimum fees for physicians avoids other disputes. Rehabilitation plans for industrially injured employees are approved and enforced.

Objectives of the program are to: (1) prevent, settle, or adjudicate expeditiously, inexpensively and without encumbrance of any kind, work-connected injury claims; (2) approve, coordinate and enforce plans designed to rehabilitate injured workers to their most effective level of employment.

Authority

Article XX, Section 21 of the Constitution of the State of California and Divisions 4 and 5 of the Labor Code.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78
Continuing program costs.....	618.9	670.2	679.1	\$15,648,507	\$17,823,600	\$18,123,112

d. Supervising the rehabilitation of disabled workers.....	10.3	30.5	30.5	232,688	612,527	709,313

DEPARTMENT OF INDUSTRIAL RELATIONS—*Continued*

## a. Preventing, Settling and Adjudicating Disputes under Workers' Compensation Laws

Special calendars such as pre-trial, settlement and conference are used to expedite the resolution of issues; disputes involving more complicated and complex legal matters are adjudicated by a formal hearing. Referee teams assisted by medical examiners and permanent disability rating specialists are assigned throughout 23 district offices to accomplish these procedures. *Thirty-two new positions are proposed and six positions abolished in the budget year: Fifteen permanent disability specialists II and fifteen clerk-typists to be added and four consultant and medical examiners, one permanent disability specialist I and one stenographer are to be abolished to establish more administrative units to reduce the number of cases referred for formal disposition; two graduate legal assistants, one senior legal typist and one legal typist are proposed for increased workload in the WCAB Re-hearing unit.*

Output	1975-76	1976-77	1977-78
New filings .....	95,444	102,793	110,708
Declarations of readiness to proceed .....	108,298	115,231	124,104
Dispositions .....	151,768	162,719	167,447
<b>Input</b>			
Expenditures .....	\$15,240,272	\$17,002,998	\$18,054,112
Personnel years .....	603.8	644.5	679.4

## b. Monitoring Promptness and Adequacy of Benefit Notices and Payments

The program promotes prompt payment or notice to injured workers regarding the status of their cases and, when they are in doubt, directs them to sources of information. Copies of notices involving benefit payments and of letters concerning nonpayment or reasonable delay are monitored. Promptness and accuracy of payment are promoted by publishing the comparative ranking of performance of first payment of claims by employers and insurance companies; this stimulated competition among employers and insurance carriers in improving performance.

Output	1975-76	1976-77	1977-78
Benefit notice forms and letters processed .....	438,926	447,700	456,600
Clarification requests .....	17,409	22,300	22,800
<b>Input</b>			
Expenditures .....	\$154,520	\$170,901	\$174,437
Personnel years .....	3.5	3.8	3.8

## c. Collection of Nondependency Death Benefits

Under this program the division collects the industrial death benefit from the employer or insurance carrier where the deceased employee leaves no surviving dependents. Emphasis is placed upon encouraging voluntary payment by the employer or carrier when the death is clearly industrial and reasonable search discloses no surviving dependents. Where questions of industrial causation or dependency exists, proceedings may be initiated by the division before the Workers' Compensation Appeals Board to obtain a decision on the division's possible entitlement to the benefit. Labor Code Section 4706.5(c) provides that revenue received is for support of the Subsequent Injuries Program.

Output	1975-76	1976-77	1977-78
Notices of employee death received .....	397	525	700
Actual payments received .....	71	90	110
Amount of death benefits received .....	\$1,577,398	\$2,020,000	\$2,445,000
<b>Input</b>			
Expenditures .....	\$21,027	\$37,174	\$38,059
Personnel years .....	1.3	1.4	1.4

## d. Supervising the Rehabilitation of Disabled Workers

The Division of Industrial Accidents is required to maintain a rehabilitation bureau to ensure the provision of rehabilitation benefits for injured workers. The Rehabilitation Bureau administers a reporting system for identification and referral of injured workers for rehabilitation services, approves rehabilitation plans and resolves disputes involving issues of rehabilitation and related benefits. *Eight Rehab Consultants and 12 clerk-typists are proposed in the budget year for increased workload; these positions have been established administratively in the current year through transfer of resources.*

Output	1975-76	1976-77	1977-78
Work status reports processed .....	15,000	20,000	25,000
New cases processed .....	3,000	8,000	10,000

## DEPARTMENT OF INDUSTRIAL RELATIONS—Continued

## IV. THE PREVENTION OF INDUSTRIAL INJURIES AND DEATHS TO CALIFORNIA WORKERS

## Program Objectives and Description

To ensure safe and healthful working conditions for all California working men and women, this program enforces safety and health standards, investigates the causes of occupational deaths and injuries and assists in encouraging employers to maintain safe and healthful working conditions by providing research, information, education and training in the field of occupational safety and health.

## Authority

Labor Code: Division 1, Chapter 6 and 6.5, and Division 5, Part 1 through Part 8, inclusive.

g. Occupational Safety and Health Standards Board.....	7.7	6.8	7.1	301,816	276,788	292,913

## a. Implementation of California Occupational Safety and Health Compliance

This element involves conducting safety compliance inspections under the California Occupational Safety and Health Act by engineers for the purpose of bringing about corrections of unsafe practices in all places of employment through the enforcement of state health and safety laws, rules, regulations and standards.

This element also includes the investigation of complaints and accidents; extensive cross-training of professional personnel in the disciplines of construction, industrial, and electrical safety, and the development of proposed safety standards.

A consultation unit, composed of specialists in the above-cited disciplines, is established under this element and reports to each assistant chief for the purpose of aiding management and labor to comply with the standards required by the California Occupational Safety and Health Act.

Three clerical positions are proposed in the budget year to code data for a Safety Data Base to improve inspection scheduling.

To implement Chapter 1067, Statutes of 1976, 0.5 staff counsel I, 0.5 safety engineer-industrial, and 0.5 legal steno I are included for 1976-77, and 1 staff counsel I, 1 safety engineer-industrial, and 1 legal steno I are proposed for 1977-78. Five associate industrial hygiene engineers are proposed for the budget year to conduct self-initiated occupational health studies.

Output	1975-76	1976-77	1977-78
Catastrophes/fatalities investigated .....	1,417	1,500	1,500
Scheduled inspections .....	9,122	10,000	11,000
Follow-up inspections .....	1,361	1,500	1,700
Complaints investigated and inspection.....	5,401	6,000	7,000
Violations cited (citable hazards) .....	104,971	109,000	115,000
Consultations/talks .....	3,092	3,200	3,300

## Input

Expenditures .....	\$11,789,437	\$14,158,911	\$15,106,796
Personnel years.....	336.4	357	366.4

## b. Safety for Employees in Mining and Tunneling

This element primarily involves the conducting of compliance inspections and reinspections for the purpose of correcting unsafe conditions and work methods in the mining and tunnel construction industries. The tunnel safety and health requirements are covered by CAL/OSHA.

Pre-job conferences, answering complaints and requests, investigation of accidents, licensing of blasters, certification of safety representatives and gas testers, classification of underground operations, environmental surveys and the development of proposed safety orders must also be accomplished by the unit. This element also includes on-going training in engineering and accident prevention for the mine and tunnel safety engineers.

## DEPARTMENT OF INDUSTRIAL RELATIONS—Continued

Output	1975-76	1976-77	1977-78
Original inspections .....	1,700	1,750	1,800
Reinspections .....	750	750	800
Requirements written .....	4,000	4,200	5,000
Unsafe instances .....	8,100	8,500	9,000
Licensing of blasters .....	200	700	400
Certification of safety representatives .....	55	60	70
Certification of gas testers .....	60	70	75
Pre-job conferences .....	130	150	180

Input	1975-76	1976-77	1977-78
Expenditures .....	\$320,960	\$337,431	\$349,564
Personnel years .....	11.4	11	11

## c. Safety for Employees While Using or Repairing Elevators, Escalators, Aerial Passenger Tramways

This element involves conducting inspections of elevators, aerial tramway (ski lifts) equipment, movable amusement rides and construction personnel hoists by safety engineers specializing in this work. This program also calls for related consultation, equipment approval, plan review, accident and complaint investigation, education and safety code revision. Fees are charged for inspection work and go into the General Fund. *Three and a half additional safety engineer positions and one clerk-typist are proposed in the budget year for increased workload.*

Output	1975-76	1976-77	1977-78
Elevators inspected .....	25,306	27,900	31,300
Aerial passenger tramways (ski lifts) inspected .....	442	450	470
Amusement rides inspected .....	619	630	630
Construction personnel hoists inspected .....	103	110	130
Consultation, complaints, accident investigations and other special calls .....	5,642	5,000	4,500
Input	1975-76	1976-77	1977-78
Expenditures .....	\$1,315,519	\$1,430,399	\$1,607,829
Personnel years .....	54.8	52.9	57.3

## d. Safety of Employees From Radiation

This element involves conducting safety compliance inspections under the California Occupational Safety and Health Act and the Atomic Energy Act of 1964 (as amended).

These inspections are performed to cover preclicensing inspections of radiation users, follow-up inspections, complaints, accident investigations, the development of proposed standards and the monitoring of contract county programs.

The industrial hygiene activities are now being performed by the Department of Health under an interagency agreement, whereby the Department of Health will provide assistance upon request in this field.

Output	1975-76	1976-77	1977-78
X-Ray Machines and Accelerators:			
Inspections .....	142	155	160
Compliance follow-up .....	18	25	25
Incident investigations .....	20	15	20

Inspections .....	300	275	280
Follow-up visits .....	34	35	35
Incident investigations .....	78	20	25
Miscellaneous:			
Special calls .....	148	150	140
Supervision of county programs .....	24	20	25
Requirements written (unsafe conditions) .....	352	400	400
Input	1975-76	1976-77	1977-78
Expenditures .....	\$187,261	\$256,790	\$265,524
Personnel years .....	7.6	7.3	7.3

## e. Safety for Employees from Pressure Vessel Failure or Malfunction

This element involves conducting field inspections of pressure vessels by safety engineers specializing in this work. The program also entails the shop inspection of new pressure vessels.

Related to this field inspection program are the section's permit-issuing activities along with consultation, plan review, accident investigation education and code revision (boiler and fired pressure vessel safety orders, unfired pressure vessel safety orders). Fees are charged for inspection work and placed in the General Fund.

Output	1975-76	1976-77	1977-78
Boilers inspected .....	1,452	1,500	1,500
Tanks inspected .....	20,124	23,000	25,000

Special inspections, consultation, accident investigations, etc. ....	20,006	13,500	13,500
Input	1975-76	1976-77	1977-78
Expenditures .....	\$2,137,212	\$2,301,041	\$2,397,624
Personnel years .....	89.7	86.5	86.5

DEPARTMENT OF INDUSTRIAL RELATIONS—Continued

f. Occupational Safety and Health Appeals Board

The Occupational Safety and Health Appeals Board is a quasi-judicial body (appointed by the Governor) empowered to settle disputes arising out of citations and civil penalties issued to California employers found to be in violation of health and safety codes by the Division of Industrial Safety. Appeals from employers are heard by administrative law judges employed by the three-member board and written decisions are filed within 30 days after hearings. If any party to a hearing is dissatisfied with the decision of the administrative law judge he may petition the Board for reconsideration. If a party is still dissatisfied after reconsideration he may appeal to superior court. *Due to increased workload resulting from the implementation of Chapter 1067, Statutes of 1976, 0.5 hearing officer I and 0.5 clerk typist II are included for 1976-77 and 1 hearing officer I and 1 clerk typist II are proposed for 1977-78.*

Output	1975-76	1976-77	1977-78
New filings .....	1,452	1,500	1,550
Dispositions:			
Withdrawals .....	121	135	140
Decisions .....	1,005	1,350	1,400
Input			
Expenditures .....	\$693,310	\$848,797	\$906,445
Personnel years .....	22.7	27.2	28.2

g. Occupational Safety and Health Standards Board

The Occupational Safety and Health Standards Board has responsibility to adopt, amend, and repeal occupational safety and health standards, assuring as much as possible safe and healthful working conditions for California workers. The board's objectives are to adopt reasonable and enforceable standards at least as effective as those promulgated by the Federal OSHA program.

The board also has the responsibility to grant or deny variances from adopted standards. Permanent variances requested by employers are granted by the board if it determines that the methods used by the employer will provide equivalent health and safety to his employees as if he complied with the standard. Any employer or other person adversely affected by the granting or denial of a temporary variance may appeal to the board within 15 working days from the receipt of the notice from the Division of Industrial Safety. Also, any interested person may propose new or revised standards or any other item concerning occupational safety and health to the board.

Output	1975-76	1976-77	1977-78

Personnel years .....	7.7	6.8	7.1

V. ENFORCEMENT AND PROMULGATION OF LAWS RELATING TO WAGES, HOURS AND CONDITIONS OF EMPLOYMENT, AND LICENSING AND ADJUDICATION

Program Objectives and Description

This program is designed to protect, foster and develop the economic well-being of approximately 9,000,000 California workers. The absence of fair and reasonable labor standards in the law would result in inequitable and adverse working conditions for employees. The objectives of this program are (1) the promulgation of Industrial Welfare Commission Orders which establish minimum wages and standards for hours and working conditions; and (2) the enforcement of the Industrial Welfare Commission Orders, and Labor Code sections relating to the prompt payment of wages including overtime pay, the elimination of unfair labor practices, the Equal Pay Law, and the Industrial Homework Act; and the application of basic regulations to employers through the enforcement of more than 200 laws which are not specifically delegated to other agencies.

Authority

State Constitution, Section 17½, Article XX; Labor Code: Division 1, Chapter 2; Chapter 4, Section 95; Division 2, Part 4, Chapter 1; and Chapter 3, Article 1; and Division 2, Part 10.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78
Continuing program costs.....	297.3	318.5	318.1	\$6,917,326	\$7,708,476	\$7,983,133

Federal funds .....				105,686	100,427	109,242
Reimbursements .....				1,007	900	900

Program Elements

a. Promulgation of minimum wages and standards for hours and working conditions	3	1.5	2	\$102,616	\$45,000	\$75,000
b. Enforcement of minimum wages and standards for hours and working conditions	85.6	92.8	123.9	2,011,767	2,248,488	2,721,472
c. Determination of wage claims .....	129.3	137.5	137.5	2,971,766	3,331,314	3,519,024
d. Labor law enforcement .....	66.1	71.9	72.9	1,511,192	1,742,522	1,820,582
e. Licensing and adjudication .....	5.4	5.8	5.8	108,612	140,297	144,565
f. Cal/OSHA anti-discrimination enforcement	7.9	9	9	211,373	200,855	218,483

## DEPARTMENT OF INDUSTRIAL RELATIONS—Continued

## a. Promulgation of Minimum Wages and Standards for Hours and Working Conditions

The Industrial Welfare Commission has the authority and the responsibility for establishing minimum wages and standards for hours and working conditions. During 1975-76, the Commission reviewed and revised the 15 Industrial Welfare Commission Orders. The new Orders, which will become effective in October 1976, will include, for the first time, coverage for approximately 3,500,000 men and 90,000 household technicians in the areas of standards for hours (including overtime pay requirements) and working conditions.

Input	1975-76	1976-77	1977-78
Expenditures .....	\$102,616	\$45,000	\$75,000
Personnel years .....	3	1.5	2

## b. Enforcement of Minimum Wages and Standards for Hours and Working Conditions

This element of the program enforces the provisions of the Industrial Welfare Commission Orders, which establish minimum wages and standards for hours and working conditions, and also enforces sections of the Labor Code, including the Equal Pay Law and the Industrial Homework Act. Compliance with the law is accomplished by investigations, citations and hearings, with criminal prosecutions as a last resort. The new Industrial Welfare Commission Orders (which will be effective in October 1976) will have a decided impact on workload, due primarily to a higher minimum wage and extensions of overtime pay requirements to men, household technicians, and workers in agriculture. During 1976-77, the Division of Labor Standards Enforcement will receive a grant of \$551,372 under Title II of the Public Works Employment Act of 1976. This grant will fund 41 personnel years which will be used to conduct a concentrated enforcement program focusing on low-wage industries. It is proposed that the General Fund provide \$275,259 to continue the program in the second half of 1977-78. The General Fund amount will be used to fund 28 positions for 6 months. Two additional deputy labor commissioners and two clerks are proposed in the budget year to implement the provisions of Chapter 1184, Statutes of 1976.

Output	1975-76	1976-77	1977-78
Beginning backlog .....	7,032	7,496	12,421
New cases opened .....	17,481	22,725	22,725
Total caseload .....	24,513	30,221	35,146
Cases completed .....	16,581	17,800	17,800
Ending backlog .....	7,496	12,421	17,346
Permits and licenses issued (exemption permits; homework licenses and permits; special minimum wage permits for handicapped workers; sheltered workshop permits)	799	800	800

Input	1975-76	1976-77	1977-78
Expenditures .....	\$2,011,767	\$2,248,488	\$2,721,472
Personnel years .....	85.6	92.8	123.9

## c. Determination of Wage Claims

As wage claims are filed and assigned to this element of the program their validity is tested by means of correspondence, examination of documents, premise inspections, and by conducting fact finding hearings where testimony is received under oath. If the claim is determined to be valid, a demand for payment is made. If the demand for payment is not met, the Labor Commissioner may take civil action if the worker is financially unable to employ counsel. During 1975-76, 26,795 hearings were conducted.

It is proposed that 40 deputy labor commissioners be reclassified to senior deputy labor commissioner and that 25 senior labor commissioners be reclassified to supervising deputy labor commissioners upon implementing the provisions of Chapter 1190, Statutes of 1976.

Output	1975-76	1976-77	1977-78
Wage complaints received .....	51,984	54,000	56,000
Wage complaints disposed of .....	46,100	47,000	47,000
Input	1975-76	1976-77	1977-78
Expenditures .....	\$2,971,766	\$3,331,314	\$3,519,024
Personnel years .....	129.3	137.5	137.5

## d. Labor Law Enforcement

All labor law violation allegations and complaints are investigated through the use of correspondence, interview discussion, field investigations and investigatory hearings. Criminal prosecutions are initiated when facts and evidence indicate a violation of the law and a warning would not satisfy the purpose of the statute.

Labor Code Section 3700 requires compulsory Workers' Compensation Insurance. Every employer must secure the payment of workers' compensation by insuring himself as provided in Labor Code Section 3700. Increased enforcement in this field will materially reduce claims against the Uninsured Employers Fund.

One additional special investigator is proposed in the budget year to implement the provisions of Chapter 779, Statutes of 1976.

Output	1975-76	1976-77	1977-78
Nonwage complaints received .....	15,364	17,000	19,000
Nonwage complaints disposed of .....	10,203	12,000	12,000
Theatrical permits issued .....	8,052	8,500	8,500
Inspections made .....	9,573	10,000	10,000
Workers' Compensation Insurance complaints .....	23,532	27,000	30,000
New employers investigations .....	73,202	74,000	74,000
Input	1975-76	1976-77	1977-78
Expenditures .....	\$1,511,192	\$1,742,522	\$1,820,582
Personnel years .....	66.1	71.9	72.9

DEPARTMENT OF INDUSTRIAL RELATIONS—*Continued*

## e. Licensing and Adjudication

Through the review of applications, contracts and fee schedules, the Labor Commissioner as the regulatory authority may issue licenses to artist managers and farm labor contractors. Formal hearings are held if a license is denied. The Labor Commissioner may issue rules and regulations to safeguard the public interest and can deny, suspend or revoke a license for causes set forth in the Labor Code. Routine inspections of premises, farm labor buses and agriculture fields are made continuously to insure adequate health and sanitation facilities and to protect minors from hazardous employment.

Output	1975-76	1976-77	1977-78
Controversies settled .....	18	25	25
Licenses issued:			
Farm Labor Contractor.....	899	1,000	1,000

Input			
Expenditures .....	\$108,612	\$140,297	\$144,565
Personnel years .....	5.4	5.8	5.8

## f. CAL/OSHA Anti-Discrimination Enforcement

Labor Code Sections 6310, 6311 and 6312 mandate that no person shall in any way be discriminated against for attempting to maintain or improve safe working conditions in any place of employment, and further, that the Labor Commissioner shall enforce the anti-discrimination provision set forth therein.

Output	1975-76	1976-77	1977-78
Discrimination complaints received .....	270	350	350
Discrimination complaints disposed of .....	205	300	300

## VI. PROMOTION, DEVELOPMENT AND ADMINISTRATION OF APPRENTICESHIP AND OTHER ON-THE-JOB TRAINING

## Program Objectives and Description

To develop a maximum of on-the-job training opportunities in the state's industrial economy through apprenticeship and other on-the-job training programs. The state's youth, minorities, women and veterans require an increasing number of job training opportunities in order to enter the skilled labor market.

The Division of Apprenticeship Standards develops apprenticeship and other on-the-job training programs in the private and public sectors (including correctional institutions) to assist industry to develop a trained labor force and also ensures equality of opportunity in apprenticeship and other on-the-job training.

The division monitors and enforces state and federal regulations that cover the employment of apprentices (California Plan for Equal Opportunity in Apprenticeship) and also enforces state codes dealing with apprentices on public works. The division also inspects, develops, and approves training establishments under contract with the U.S. Veterans Administration as authorized by Labor Code Section 3090.

## Authority

Labor Code Chapter 4, Division 5, and Chapter 1, Division 2, Sections 1777.5 and 1777.6.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78

b. Veterans' benefits training .....	24.4	28.5	28.5	572,424	705,888	684,576

## a. Promotion, Development and Administration of Apprenticeship and Other On-the-Job Training

The division, as the staff for the Administrator of Apprenticeship and the California Apprenticeship Council (CAC), carries out the requirements of the Labor Code and the rules and regulations established by the CAC. These activities include the development and expansion of on-the-job training programs with both the public and private employers; particular efforts are being made to develop apprenticeship in non-traditional occupations in order to provide more training opportunities to relieve the present unemployment conditions; the enforcement of Section 1777.5 of the Labor Code requiring contractors to employ one apprentice for every five journeymen on public works contracts; the administration of the California Plan for Equal Opportunity in Apprenticeship to ensure that employers and other apprenticeship program sponsors adopt affirmative action programs; and cooperation with other state agencies such as, Corrections, Youth Authority and Vocational Rehabilitation. *One additional consultant and one clerk-typist are proposed in the budget year to promote greater opportunities for women in apprenticeship.*

## DEPARTMENT OF INDUSTRIAL RELATIONS—Continued

Output	1975-76	1976-77	1977-78
Promotion, Development and Administration of Apprenticeship:			
Number of active apprentices .....	27,681	28,139	30,000
Percent minorities .....	28	28.5	28.5

## b. Veteran's Benefits Training

The Division of Apprenticeship Standards under a continuing contract with the U.S. Veterans Administration promotes, inspects, approves, and monitors for compliance in accordance with V.A. regulations those training sponsors offering job training to Vietnam veterans. Through the Division's inspection and approval of training establishments, eligible Vietnam veterans receive training allowances.

Currently, there are over 2,400 training establishments approved with more than 4,200 veterans enrolled and receiving supplemental training benefits.

Output	1975-76	1976-77	1977-78

Personnel years .....	24.4	28.5	28.5

## VII. LABOR FORCE RESEARCH AND DATA DISSEMINATION

## Program Objectives and Description

With the continuing yearly expansion in the California work force, there is an urgent ongoing necessity for statistical and research information which might affect on-the-job safety and the economic health and development of both the private and public sectors.

The objectives of the program are to provide data for use in planning and executing safety programs; to measure the effectiveness of accident prevention efforts; to provide accurate information pertaining to industrial relations from an impartial source on short notice; and to guide legislative and administrative decisions by state and local government. These objectives are met through the work injuries statistics and industrial relations research programs which provide facts and analyses concerning wage rates, working conditions, fringe benefits, work injuries, industrial disputes, industrial relations practices, cost of living, and other studies related to labor.

## Authority

This program is required by the Labor Code: Division 1, Chapter 7, Sections 150-156; Division 2, Part 4, Chapter 1, Section 1202; Division 2, Part 7, Chapter 1, Article 2, Sections 1773.1-1773.8; Division 5, Part 1, Chapter 2, Sections 6409-6413.5.

b. Industrial relations research .....	7.6	11.3	13.6	188,896	270,639	377,327

## a. Work Injury Statistics

To provide data on the incidence, severity, and trend of occupational injuries and illnesses, the Division of Labor Statistics and Research conducts an annual *Occupational Injuries and Illnesses Survey* among California employers. Conduct of the survey is mandatory for any State with an approved State Plan under the Federal Occupational Safety and Health Act.

Supplementing the annual survey, the Division compiles statistics on the causes of occupational injuries and illnesses based upon individual injury reports filed by employers and physicians. Accident factors coded and analyzed include accident type, agency of injury, nature of injury, part of body affected, age, sex, and occupation of injured worker, county of occurrence, and industry. Data are used to pinpoint when, where, how, and why work accidents occur and are presented in a series of quarterly, annual, and special reports.

Under the California Occupational Safety and Health Act the Division assumed jurisdiction over employer recordkeeping required by the Act including responsibility for promulgation of regulations, printing and distribution of forms and employer education regarding recordkeeping.

The Division of Labor Statistics is party to a grant agreement providing for 50 percent federal funding by the U.S. Bureau of Labor Statistics for all three phases of the work injury statistics program.

## Output

Quantifiable output of the work injury statistics activity are shown below. The statistics the division compiles, which serve to pinpoint accident factors and to measure accident prevention progress within various industries, are used by individuals responsible for giving direction to and implementation of occupational accident prevention programs, both in government and private industry. Statistics alone cannot prevent accidents, but prevention efforts are successful only if based upon knowledge of past experience, and the work injury statistics represent a source of such knowledge.

## b. Industrial Relations Research

The industrial relations research element carries out the following activities: maintains on a current basis a reference file of about 5,200 collective bargaining agreements in the private sector; and, in the public sector (for about 500 political jurisdictions) memoranda of understanding, salary ordinances, and rules of personnel boards and civil service commissions; analyses and codes on a continuing basis selected provisions of collective bargaining agreements and public sector documents, and publishes reports on subjects covered; compiles and publishes building trades wage rates for use in prevailing wage determinations and data on negotiated wage settlements in major union agreements; conducts a biennial census of union membership, and publishes an annual report on strikes and lockouts. *One research analyst 1, 1 statistical clerk and 0.3 temporary help staff years are proposed in the budget year to implement the provisions of Chapter 281, Statutes of 1976.*

## Output

Output consists of information on provisions of collective bargaining agreements, wage rates, and other industrial relations subjects. This information is summarized in the form of published reports and in unpublished compilations of data used to answer information requests.

## VIII. THE PREVENTION AND ELIMINATION OF DISCRIMINATION IN EMPLOYMENT AND HOUSING

## Program Objectives and Description

The Division of Fair Employment Practices seeks to provide equal opportunity in employment and housing and ameliorate social tensions by preventing and eliminating discrimination based on race, religion, creed, color, national origin, physical handicap, sex and age 40 to 64.

## Authority

Labor Code, Section 1410 et seq. and Health and Safety Code, Part 5.

## a. The Prevention and Elimination of Discrimination in Employment

## The Division of Fair Employment Practices:

1. Investigates cases and individual complaints of discrimination in employment, verifies their validity, and seeks through cooperative methods and/or final public accusation to eliminate discrimination and unfair practices in employment.
2. Assists employers who voluntarily cooperate to assess their employment practices, to correct unfair practices that may be discovered and to expand equal employment opportunity.

During 1976-77, the Division of Fair Employment Practices will receive a grant of \$1,400,000 under Title II of the Federal Public Works Act of 1976. These funds will provide 89 personnel-years which will be used to investigate incoming discrimination complaints and to reduce the Division's large backlog. Beginning in January, 1978, it is proposed that the General Fund provide \$229,740 for continued funding of 21 positions established with the Title II grant. The Title II grant amount of \$1,400,000 is not reflected in the budget of the Department of Industrial Relations. Title II funds are shown in the budget of the Employment Development Department.

## b. The Prevention and Elimination of Discrimination in Housing

## The Division of Fair Employment Practices:

1. Investigates cases and individual complaints of discrimination in housing, verifies their validity and seeks through cooperative methods and/or final public accusation to eliminate discrimination and unfair practices in housing.
2. Assists owners of large residential units to voluntarily assess their present renting practices and to correct any discriminatory practices and to expand equal opportunity in housing.
3. Participates in workshops and conferences, prepares and distributes informational booklets and brochures, to gain public understanding, acceptance and compliance with the Fair Housing Act.

Output	1975-76	1976-77	1977-78
Backlog (work yet to be completed at the beginning of fiscal year) .....	178	169	79

## IX. LEGISLATIVE MANDATES

## Program Objectives and Description

Section 2231(a) of the Revenue and Taxation Code requires the state to pay local governmental units the costs of any new program or increased level of service of a program mandated by legislation enacted after January 1, 1973. Within the program area of the Department of Industrial Relations, there are four legislative mandates, all relating to worker's compensation. These mandates affect counties, cities, school districts and special districts. These entities, as employers, are required to pay a higher amount for worker's compensation because of the four legislative mandates.

## Authority

Chapters 1021, 1022, 1023 and 1147, Statutes of 1973, Chapter 1494, Statutes of 1974, and Chapters 1084 and 1086, Statutes of 1975.

DEPARTMENT OF INDUSTRIAL RELATIONS—Continued

X. ADMINISTRATIVE SUPPORTING SERVICES

Program Objectives and Description

Administration, under the guidance of the director, formulates departmental policies and provides administrative services for the eight departmental programs through management analysis, fiscal management, personnel and training, reproduction services and data processing. Legal and public information services are provided to the programs by staff in the director's office.

Responsibility for administration of the CAL/OSHA plan rests with the Department of Industrial Relations as provided by statutes. The CAL/OSHA program office functions as liaison between the federal government and participants in the state plan. Its activities include overseeing progress on the developmental aspects of the plan, providing reports for federal evaluation of the plan's implementation, and coordinating state standards and activities with federal requirements.

One accounting technician, one staff services analyst, two personnel assistants and one account clerk II are proposed in the budget year to handle the general increase in administrative workload. Due to workload specifically attributable to Chapter 1067, Statutes of 1976, 0.5 clerk typist II and 0.5 account clerk II are included for 1976-77 and 1 clerk typist II and 1 account clerk II are proposed for 1977-78.

Authority

Labor Code: Division 1, Chapter 1.

These positions will also be funded for 6 months by a Title II grant.

## UNINSURED EMPLOYER'S FUND

This program provides for payment of worker's compensation benefits to employees whose employers have failed to make benefit payments required under the Labor Code. This program is authorized under the provisions of Sections 3715-3727 of the Labor Code which established the Uninsured Employers' Fund for the purpose of making such worker's compensation benefit payments. Chapter 1036, Statutes of 1976 provides for a one-time General Fund appropriation of \$2,000,000 to the Uninsured Employer's Fund.

During 1976-77, the Department of Industrial Relations will receive a grant of \$629,873 under Title II of the Federal Public Works Employment Act of 1976. These funds will provide 32 personnel years which will be used to administer the Uninsured Employers' Fund. The grant amount is not reflected in the budget of the Department of Industrial Relations. Title II grants are shown in the budget of the Employment Development Department.

INDUSTRIAL RELATIONS UNPAID WAGE FUND

This program permits the Labor Commissioner to collect any unpaid wages or monetary benefits due and unpaid to any worker in this State without an assignment from such worker. After seven years, if the Labor Commissioner has been unable to locate any worker for whom he has collected unpaid wages or benefits, the wages escheats to the State for deposit pursuant to the Unclaimed Property Law. This program is authorized under the provisions of Section 96.6 and 96.7 of the Labor Code, which were added by Chapter 714, Statutes of 1975.

## WORKERS' COMPENSATION BENEFITS

### Compensation Insurance Fund

The California State Compensation Insurance Fund is a self-supporting enterprise created to offer insurance protection to employers at the lowest possible cost. This fund operates in competition with other insurance carriers, acting as a yardstick for the securing of fair premium rates for employers and fair treatment for injured employees. The fund is required by law to use the same rates and classifications established by the State Insurance Commissioner for insurers generally, and provides that the rates shall be only those sufficient to carry out the specific purposes stated in law.

Expenditure estimates for the budget year are based on the level of activity anticipated by the fund's management. Changes in economic conditions may result in corresponding changes in the various items of expense.

The budget data presented is information available as an annual operations report. As a public enterprise fund authorized by statutes, no budget detail is presented.

### SUMMARY BY OBJECT STATE OPERATIONS

	1975-76	1976-77	1977-78
<b>PERSONAL SERVICES</b>			
Salaries and Wages .....	\$21,233,010	\$24,452,289	\$25,700,000

<b>TOTALS, EXPENDITURES (State Compensation Insurance Fund) <sup>c</sup></b> .....	<b>\$46,016,547</b>	<b>\$52,419,895</b>	<b>\$54,600,000</b>

### Subsequent Injuries

This program, authorized by Sections 4750-4755 of the Labor Code, provides benefits for permanent disabilities which arise from industrial injury to an employee who has suffered from a previous permanent disability.

Section 4706.5(e), Labor Code, added by Chapter 1334, Statutes of 1972, provides that where there are no heirs of a deceased employee, or persons entitled to death benefit payment, such payment will be made to the state. These funds are continuously available for payment of benefits and partially offset the need for direct General Fund support.

*Increases in benefit levels (Chapter 1017, Statutes of 1976) and the Minimum Medical Fee Schedule are expected to result in increased expenditures in this program.*

## STATE PERSONNEL BOARD

The State Personnel Board is responsible for serving the personnel needs of State agencies in improvement of personnel practices and procedures. The Board's authority to conduct central personnel management functions for State Government derives from Article VII of the State Constitution and from provisions of the Government Code.

The State Personnel Board, within the framework of a merit system, maintains the civil service classification system, conducts the majority of the State's recruitment efforts, develops examining techniques to select and rank qualified applicants, sets compensation rates and standards within funds authorized and guidelines set by the Legislature, provides departmental consultation on employee development and conducts training for State employees, and provides leadership in personnel management practices and procedures. The Board also provides, under contract and on a fully reimbursable basis, technical personnel services to political subdivisions on request and administers a federally required merit system for local governmental employees.

Through the Welfare Reform Act of 1971, the State Personnel Board was assigned the responsibility of the Career Opportunities Development Program including the development, implementation, and operation of the Jobs Program for welfare recipients; grants to cities and counties for local career opportunities development projects; and technical assistance to the State and local jurisdictions.

The State Personnel Board also has the responsibility for coordination and guidance of affirmative action/equal employment opportunity efforts within State departments and local agencies as required by State policy, Federal law and in conjunction with the Jobs Program.

## I. EMPLOYMENT SERVICES

### Program Objectives and Description

The Employment Services Program includes responsibility for recruiting and selecting job candidates through a competitive process in order to meet the personnel requirements of State agencies on a timely basis.

This program includes all State civil service employment functions conducted by the State Personnel Board. These functions include: program planning and development, list establishment, certification and placement, medical evaluation, employment information and recruitment, and program evaluation.

Ten temporary help positions are added in the current year and permanent establishment of these as full-time positions is proposed beginning in 1977-78 to meet workload demands in affirmative action recruitment and the Examining Program. Funding will be provided by an internal reallocation. Permanent establishment of an additional 1.3 positions is proposed for 1977-78 for the California Internship Program which was transferred, with funding, from the Governor's Office of Planning and Research.

f. Program evaluation.....	13	12.2	12.3	241,140	268,673	283,158

#### a. Program Planning and Development

This element concentrates on planning improvements for the Employment Services Program. The work is accomplished through project assignments in the major areas of list establishment, employment information and recruitment, certification and placement, and medical evaluations. Planning and development activities must insure that the program remains practical and feasible, that selection devices are job related and nondiscriminatory, and that the program meets legal requirements.

Project activity centers around the development of complete recruitment and selection plans for major classes or class series with emphasis on planning, recruitment, processing efficiency, timeliness, job relevancy, and affirmative action.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

## STATE PERSONNEL BOARD—Continued

Output				1975-76	1976-77	1977-78

Expenditures .....	25.2	23.9	24	\$470,516	\$509,606	\$539,822

## b. List Establishment

List establishment includes all activities directly connected with placing persons on eligible lists for both regular civil service and career executive assignment positions. This begins with the analysis of the need for an examination and continues until the eligible list is actually established. This element provides for the planning of individual selection efforts to meet departmental needs and involves the application of selection techniques and research developments to specific examining situations. The major activities of this element are: test planning and management, recruitment and publicity, test construction, test administration, conducting qualifications appraisal panels and employee development appraisals, and test appeal and review.

Output				1975-76	1976-77	1977-78
Exams calendared .....				1,596	1,950	1,950

Expenditures .....	197	186.2	187.5	\$3,664,547	\$3,958,325	\$4,197,318

## c. Certification and Placement

The objectives of this element are: (1) to provide and maintain ranked lists of eligibles; (2) to provide names of eligibles to appointing powers; (3) to screen and refer "reachable" eligibles in clerical and auditor classes for placement in metropolitan areas; and (4) to assist in placing employees displaced by layoff.

Output				1975-76	1976-77	1977-78
Field office hires .....				7,284	9,000	9,000
Certifications requested .....				18,984	24,000	24,000
Establish reemployment eligibility requests .....				2,343	750	750
<b>Input</b>	<b>75-76</b>	<b>76-77</b>	<b>77-78</b>	<b>1975-76</b>	<b>1976-77</b>	<b>1977-78</b>
Expenditures .....	34.8	32.9	33	\$646,560	\$700,708	\$742,253

## d. Medical Evaluations

The objective of this element is to screen applicants with questionable medical records for applicability for specific jobs.

Output				1975-76	1976-77	1977-78
Medical evaluations reviewed .....				3,065	3,500	3,500
Medical appeals heard by SPB .....				3	10	10

## e. Employment Information and Recruitment

Large numbers of citizens, employees, students, counselors, and various organizations request information about State employment and State civil service. Program information is also supplied in response to inquiries from State officials, other public jurisdictions and employee organizations.

Focused affirmative action recruitment projects are carried out in order to increase minority and female representation in State Government.

## f. Program Evaluation

The program evaluation element consists of various studies and projects directed to determining the effectiveness of the major areas of the Employment Services Program. Frequently, an evaluation project will subsequently result in a program planning and development project.

Much of the effort within this element is directed to the evaluation of the list establishment element, the goals of which are: (1) to increase the job relatedness of an employee selection activity with emphasis on cultural fairness, elimination of unnecessary requirements and obstacles; (2) to plan and encourage affirmative action within selection plans; (3) to reduce repetitive testing; and (4) to be responsive to State management's employee selection needs. Projects are established to evaluate the effectiveness of individual exam plans and meeting stated goals, and evaluation results are channeled to upcoming planning efforts. In addition, the stated objective of this element is to evaluate the programs through receiving, investigating,

## STATE PERSONNEL BOARD—Continued

and resolving Fair Employment Practices Commission complaints. A further objective is to visit and audit delegated testing and delegated certification locations to insure legal compliance and agreed upon program improvements.

Output	1975-76	1976-77	1977-78

## II. PERSONNEL MANAGEMENT SERVICES

## Program Objectives and Description

The Personnel Management Services Program is responsible for maintenance of the State position classification and pay plan. Included in this responsibility are the establishment, revision and abolishment of classes, allocation of positions to appropriate classifications, development of the annual salary and benefit recommendations for State civil service, the conducting of special salary studies, and adjusting the salary structure of the State classification plan.

The Personnel Management Services Program provides direct consultation and service in personnel matters to departments. The emphasis within the division is on increased involvement with departments to provide maximum service and meet personnel management needs of State service. The division staff will continue its efforts to improve the effectiveness of the State's classification plan. These activities include movement toward a simpler classification structure, more comprehensible to both management and employees, and implementation of an improved classification control system based upon criteria other than individual position measurement and review.

The Personnel Management Services Program has responsibility for the administration of the State's employer-employee relations process, coordination and review of employee grievance matters, review of personnel transactions, development of the employee status system and the computation of seniority.

Five and one-half temporary help positions are added in the current year and permanent establishment of these is proposed for 1977-78 to meet workload demands in the program elements, total compensation administration and classification and pay. Funding will be provided by an internal reallocation.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78

d. Total compensation administration.....	29.4	27.7	27.7	582,025	641,330	678,620

## a. Personnel Management

This element encompasses activities identified as general consultation and nonclassification and pay issues.

General consultation includes advice given to departments, employees and employee associations on problems such as employee morale, discipline, grievances, and organization and employee utilization. Particular attention is devoted to consultation with small departments. It also includes responses to information requests about civil service from outside sources.

Nonclassification and pay issues include coordination of miscellaneous matters between departments and the State Personnel Board. For instance, the assignment of new work week group categories to a particular classification or the authorization to pay night-shift differentials or overtime.

Output	1975-76	1976-77	1977-78
Number of employee grievances reviewed.....	219	227	227
Number of overtime authorizations.....	45	60	60
Number of one-year probationary periods established.....	125	125	125
Number of work week group actions.....	40	41	41
Number of night-shift differentials established.....	10	20	20

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	14.1	13.3	13.4	\$279,286	\$309,381	\$327,328

## b. Classification and Pay

Activities included in this element are review of the classification plan, position allocation, classification and pay issues, and general consultation for classification and pay matters.

Review of the classification plan includes time devoted to surveys of the use of the State classification plan by departments.

Position allocation is the determination of the appropriate classification among the various occupational groups for a position with a described set of duties.

Classification and pay issues include establishment, revision and abolishment of classes and specifications, including development of allocation standards and establishment of salary ranges, title changes, preparation and presentation of Board memoranda, and preparation and distribution of the Pay Letter.

General consultation in this area includes advice given to departments on the classification and pay aspects of organizational changes, negotiations with departments and employee groups, and analysis of requests for transfer, demotion and reinstatement determinations.

STATE PERSONNEL BOARD—Continued

Output	1975-76	1976-77	1977-78
Classification and Pay Issues:			
Position allocations reviewed .....	4,000	4,000	4,000
Number of abolished classes .....	250	250	250
Number of new classes .....	245	247	247
Number of revised specifications .....	100	100	100
Number of title changes .....	80	100	100
New C.E.A. allocations .....	114	44	44
Input	75-76	76-77	77-78
Expenditures .....	40.9	38.4	38.5
	1975-76	1976-77	1977-78
	\$808,013	\$895,079	\$943,920

c. Personnel Transactions

The major activities of this element include the employee status system development, personnel transactions review, seniority computation, and personnel transactions consultation. The activities of the employee status system development are to evaluate the personnel transactions system, implement changes in policies, laws and rules, and make recommendations for policy, law and rule changes. This includes working with the State Controller's Office, Public Employees' Retirement System, and departments to identify major problems affecting employee status, payroll, etc., and to develop improved methods for documenting and reporting personnel transactions.

Seniority computations are used by State departments to determine the order in which employees are either laid off, transferred or demoted due to reductions in the work force, program or workload changes, or reorganizations.

Personnel transactions consultation provides assistance to departmental personnel offices, employees, employee organizations, and State Personnel Board staff. Personnel transactions such as appointments, separations, salary, fringe benefits and payroll have become more complex, requiring more assistance in interpreting laws, rules and standards.

With the conversion of employee history records and document processing to the automated PIMS system, the transactions staff has intensified consultative activities for State departments and State Personnel Board staff.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	28.7	21.9	22	\$591,734	\$512,485	\$542,214

d. Total Compensation Administration

Total compensation administration consists of salary and employee benefit surveys, special salary and employee benefit studies, and the annual salary and employee benefit adjustment program.

Salary and benefit surveys are conducted on a semiannual basis throughout California including major surveys in the Los Angeles, Sacramento and San Francisco metropolitan areas. Data is collected by personal visit, by telephone and by mail.

Special salary and benefit studies include studies on particular classes, analysis of salary inequities, development of salary relationships, and development of employee benefit plans. Projects are conducted for the Legislature, Governor's Office, departments, and the Personnel Board, and as a result of concerns expressed by employees and employee organizations.

The annual salary and employee benefit adjustment program includes the analysis of survey data in terms of prevailing levels of compensation, internal salary relationships and recruitment problems, the identification of occupational groups having support for special salary increases, meeting and conferring with employee organizations on the salary and benefit program, the development of salary adjustment and benefit improvement recommendations, and the preparation of the salary and benefit recommendation report to the Governor and the Legislature.

Expenditures .....	29.4	27.7	27.7	\$582,025	\$641,330	\$678,620

III. PERSONNEL DEVELOPMENT

Program Objectives and Description

The Personnel Development Program provides leadership in assisting departments in developing the State Government's human resources. Centralized employee development programs, offered in response to needs expressed by departments, are provided by the State Executive Program, Management Development Institute, Supervisory Institute, Secretarial Development Institute, and the Professional Development Institute. Additionally, the Program provides consultation to State departments on employee development and the professional development of trainers. The Program relies primarily on reimbursements from State departments.

Three temporary help positions and three full-time positions are added in the current year. Permanent establishment of four full-time and three temporary help positions is proposed for 1977-78 to meet statewide training needs in affirmative action and employer-employee relations and a general increase in training requests. Funding for these positions is provided through reimbursements from State departments.

## IV. PUBLIC EMPLOYMENT AND AFFIRMATIVE ACTION

## Program Objectives and Description

The Public Employment and Affirmative Action Program provides centralized leadership, direction and technical assistance in creating increased job opportunities for disadvantaged and minority persons within the State civil service system. Consistent with the goals of the Welfare Reform Act, the State Personnel Board has accelerated its activities to develop Affirmative Action/Equal Employment Opportunity Programs. To better describe and more fully recognize both the Career Opportunities Development (COD) and Affirmative Action Programs, the State Personnel Board established the Public Employment and Affirmative Action Division which includes the COD Program and the Affirmative Action Program. The objectives of the Public Employment and Affirmative Action Division are to: (1) assume a leadership role in providing policy guidelines to assist State departments in achieving a fully integrated State work force, (2) assist in identifying and removing artificial barriers to employment of disadvantaged and/or minority persons, and (3) assist in developing, reviewing and analyzing Affirmative Action Plans.

The Welfare Reform Act of 1971 assigned to the COD Program the additional responsibilities of developing, implementing, and operating: (1) a Jobs Program for welfare recipients, (2) a program of grants to cities and counties for local COD projects, (3) a technical assistance service to aid interested jurisdictions, and (4) an increased level and scope of program in the State civil service.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78
Continuing program costs.....	65	54.2	54.4	\$7,890,094	\$8,135,152	\$8,615,942

## Program Elements

a. Coordination and program development ....	17.9	9.5	9.5	\$981,182	\$902,227	\$955,063
b. Welfare recipients jobs .....	10.1	9.6	9.6	6,103,949	6,358,298	6,737,187
c. Affirmative action .....	37	35.1	35.3	804,963	874,627	923,692

## a. Coordination and Program Development

The COD Program operates on the basis that primary responsibility for and capacity to achieve program objectives rests with the departments that make the organizational, staffing and hiring decisions. To facilitate participation of departments, the COD Program provides: (1) consultative and technical assistance to departments, (2) direct financial resources and intensive staff support to larger departments to provide for full-time departmental COD coordinators.

Output	1975-76	1976-77	1977-78
Number of city projects (cumulative).....	15	20	23
Number of county projects funded (cumulative) .....	16	20	24
Number of State agencies with full-time COD coordinators .....	14	8	6
Number of State COD classes .....	77	80	83
Number of State COD incumbents .....	2,800	3,000	3,000
Prior COD incumbents advanced into non-COD classes (cumulative) .....	2,700	3,000	3,300

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	17.9	9.5	9.5	\$981,182	\$902,227	\$955,063

## b. Welfare Recipients Jobs

The Jobs for Welfare Recipients Program enables the full reimbursement of employer payroll costs during the training period. The Jobs for Welfare Recipients Program provides: (1) inducements to employing agencies and jurisdictions to hire recipients who complete training and (2) facilitates the amount and quality of training by hiring groups of trainees at one time. In an effort to achieve this goal and measure program results, COD has designed a comprehensive evaluation model to provide specific and reliable indicators of program costs, results and benefits which enable the Legislature, State administration and program administrators to measure the Jobs Program's results in relation to its cost.

Output	1975-76	1976-77	1977-78
Number of job slots contracted for each year <sup>1</sup> .....	933	1,450	1,550
Number of prior recipients advanced into unsubsidized jobs .....	4,355	5,125	6,050
Number of recipients placed into training each year.....	1,579	1,950	1,550
Number of Local Agency Jobs Programs .....	15	20	20
Number of State departments in Jobs Program .....	23	25	25

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	10.1	9.6	9.6	\$6,103,949	\$6,358,298	\$6,737,187

<sup>1</sup> Based upon an average participant salary and benefit cost per job slot of \$6,308 in 1975-76, \$7,064 in 1976-77 and \$7,500 in 1977-78. During Fiscal Year 1975-76, work incentive (WIN) matching funds were not available. It is projected that \$4,100,000 of WIN funds will be available in 1976-77 and \$5,188,000 in 1977-78.

## c. Affirmative Action

The State Personnel Board established a comprehensive Affirmative Action Program in order to achieve a fully balanced work force. The information developed by this Program enables the COD Program and the Jobs for Welfare Recipients Program to concentrate on removing the underlying causes of low representation of minorities in State and local agency work force. The Affirmative Action Program consults with departments preparing Affirmative Action Plans and policies and reviews and approves those plans and policies. The Program also monitors the departments' progress toward the Affirmative Action Plan goals, oversees departmental discrimination complaint systems, conducts and coordinates investigations of discrimination complaints, and conducts employee census analysis. Included is a Women's Program which develops methods to assure that women obtain a balanced representation throughout the work force.

STATE PERSONNEL BOARD—Continued

Expenditures .....	37	35.1	35.3	\$804,963	\$874,627	\$923,692

V. LOCAL GOVERNMENT SERVICES

Program Objectives and Description

The State Personnel Board helps provide a high quality of personnel management in local governmental agencies because many of these agencies are not able to independently meet certain of their personnel management needs at a desired level of economy and efficiency. Such jurisdictions need to be able to get expert, readily available, outside assistance at a reasonable cost. This is accomplished through contracting personnel services.

Federal statutes require that local agency employees engaged in the administration of federally funded welfare, health and emergency services programs have merit system coverage. Government Code Section 19800 et. seq. assigns responsibility to see that this is done to the State Personnel Board. The Board's Merit System Services accommodates this requirement by providing for comprehensive merit system programming in city, county and district welfare, health and emergency services departments through fully reimbursed contract agreements with the State Department of Benefit Payments, State Department of Health and State Office of Emergency Services.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78

d. Merit system services—interagency merit system .....	25.6	25.7	25.4	523,297	556,969	567,616

a. Contract Personnel Services—Selection Services

Complete recruitment and selection services are provided upon request to local agencies. Written and performance-type examinations are provided, interviews are conducted, and advice and assistance are given on any phase of recruitment and selection. Developmental projects are conducted to improve selection systems and techniques. Selection training is available to improve local agency technical expertise.

Services provided to merit system services include: (a) clerical support in the recruitment, examination, and establishment of lists of persons qualified for employment in city and county agencies receiving certain grant-in-aid funds, and (b) technical services in the development and validation of employment tests.

Continuing emphasis is being given to the improvement of written test materials, especially with regard to establishing validity and developing test methods to provide fairness to candidates from all cultural groups and backgrounds.

Output	1975-76	1976-77	1977-78

b. Contract Personnel Services—Survey Services

At the request of local governmental agencies, a variety of technical personnel services are provided. These include the development, revision or review of position classification plans, pay plans, and employee benefit programs. Consultation and assistance is provided for the development of personnel ordinances, rules, and procedures. Similarly, consultation and training on a variety of personnel management subjects are available.

Increased emphasis is being given to improving affirmative action efforts in local agencies by providing assistance in personnel systems review, establishment of positive affirmative action policies and procedures, and job restructuring to increase upward mobility of ethnic minorities and women.

Output				1975-76	1976-77	1977-78

Expenditures .....	22.8	24.7	24.7	\$440,023	\$508,641	\$530,395

## STATE PERSONNEL BOARD—Continued

## c. Merit System Services—Approved Local Merit Systems

Upon request, Merit System Services reviews and approves merit systems and personnel standards established by local agencies for their welfare, health and emergency services departments when such systems and standards meet established Federal-State merit system standards. Advice and consultation on a variety of personnel management subjects are available to assist local agencies to meet the established standards.

This program requires the development and maintenance of standards; review and approval of relevant civil service charters, ordinances, rules, classification plans, pay plans, employee-management agreements, and affirmative action policies designed to achieve equal employment opportunity; regular audit of the administration of approved local merit systems to assure compliance in operation; and advice and consultation service associated with the development of merit system programs in local agencies.

Output	1975-76	1976-77	1977-78
Local agency staff in approved merit systems .....	35,424	38,150	38,810

	\$150,952	\$173,376	\$193,820

## d. Merit System Services—Interagency Merit System

The Board directly administers a complete Interagency Merit System operation for 40 county welfare departments, plus a somewhat smaller number of city, county and district health and emergency services departments. In administering this single statewide system, the Board develops and maintains personnel regulations and classification plans; recruits, examines, establishes eligible lists and certifies names of persons qualified for employment in city, county and district welfare, health and emergency services departments; delegates responsibility to some local agency personnel departments for administration of locally established classification, examination, other parts of personnel plans and audits such local agency performance; evaluates and approves local agency affirmative action programs and plans; hears and decides appeals from disqualification on examination, alleged discrimination due to nonmerit factors, and disciplinary action by local agencies; reviews, analyzes and processes personnel transactions from the Interagency Merit System jurisdictions; and maintains applicable personnel records.

	\$523,297	\$556,969	\$567,616

## VI. MANAGEMENT SERVICES

## Program Objectives and Description

A five-Member Board is appointed by the Governor for ten-year terms. The Board provides policy direction of the State civil service system through its authority to review and modify recommended actions of the staff. Public hearings are held by the Board for the purpose of maintaining an efficient and up-to-date merit system, responsive to the needs of State managers. The Board provides an appeal process for all employees and applicants who believe they are arbitrarily or unjustly treated by the Personnel Board staff.

The Hearing Office presides over and conducts hearings in connection with charges filed under Section 19575 of the Government Code or appeals from disciplinary suspension, layoff, report of performance, denial of sick leave, etc.

Program management is provided through the Executive Office.

A variety of support activities are centralized in the Management Services Division to give the economies which result from such centralization. Included are staff in business services, data processing, accounting and budgeting, management audit, personnel, training, word processing, mail and duplicating, affirmative action, and files.

Four reimbursable positions are deleted in the current and budget year and seven temporary help staff-year equivalents are added in the current year. Permanent establishment of six full-time positions and one temporary help staff-year equivalent is proposed for 1977-78. These positions are needed to decrease delays in examination processing and provide clerical support for increased affirmative action activities as well as organizationwide workload increases. Funding will be provided by an internal reallocation. Permanent establishment of one additional position is proposed for 1977-78 to recoup a position which transferred to the State Controller's Office in 1975-76. The purpose for this is to cover workload demands resulting from the examination certification system which was scheduled, but not converted to the Personnel Information Management System (PIMS). Funding for this position will be transferred from the State Controller's Office.

\$316,450 is being transferred into the Personnel Board's 1977-78 Budget in order to contract with the State Controller's Office for the continuing development of the Personnel Information Management System.

During the 1977 Legislative Session the Personnel Board will sponsor legislation to fund in the 1976-77 fiscal year the estimated \$2 million cost of implementing their recent decision requiring that all state employees will accrue holiday credit on the same basis as overtime.

## PUBLIC EMPLOYEES' RETIREMENT SYSTEM

The system administers a group of separate, but related, benefits for more than 700,000 past and present public employees within the State of California. This grouping consists of retirement and death benefits; the extension of social security coverage to public employees; and the development, negotiation and operation of a number of group hospital and medical insurance plans.

Participants in the system's programs include constitutional officers of the State, members of the Legislature, State employees, most school employees who are not teachers, and any other public employees whose employer elects to contract for benefits offered by the system.

## I. RETIREMENT

### Program Objectives and Description

This program provides a retirement and death benefit program for public California employers and their employees which will provide for the orderly and systematic retirement of employees and encourage career employment in the public service.

Beginning in 1932, the State provided a series of retirement and death benefits for its employees, other than teachers. In 1939, coverage was extended to employees of those political subdivisions of the State who wished to contract with the State retirement system. Today the system offers benefits based on service or disability to all covered employees; death benefits for employees and annuitants; survivors' benefits to members not covered by social security; and, to members in certain occupations, special benefits based on death or disability incurred in the line of duty.

The Legislators' Retirement system is also administered by the Public Employees' Retirement System.

*Staffing for the retirement program has been increased by 22.5 positions in the budget year to meet increased workload resulting from growth in the membership of the system.*

## II. SOCIAL SECURITY

### Program Objectives and Description

To provide a means whereby employees of public agencies may obtain coverage under the Old-Age, Survivors, Disability and Health Insurance provisions of the Federal Social Security Act. The function administers the coverage and reporting phases of the Social Security Program for California Public Agencies.

The continuing increase in the costs of social security coverage to public agencies and their employees has resulted in requests for termination of coverage by these agencies. In Fiscal Year 1975-76, 26 public agencies terminated coverage and 86 agencies are in the process of termination.

## III. HEALTH BENEFITS

## Program Objectives and Description

This program provides medical and hospital insurance plans with private carriers for state and other public agency employees, annuitants and their families. Primary activities are to negotiate contracts and to provide standards for basic, major medical, and supplemental to Medicare health plans; to conduct open enrollment periods, providing information to employees and annuitants; and to mediate service and claim disputes.

Total premium costs for the 1975-76 fiscal year were \$100,303,477.

Staffing for the health benefits program has been increased by two positions in the current year to extend the Pilot Alcohol Treatment Program to August 30, 1976. For the budget year, three positions have been proposed to meet increased workload resulting from growth in the number of health benefits' enrollees and one position has been added to perform onsite audits of health insurance carriers' fiscal operations.

## IV. PERS SYSTEM REDESIGN PROJECT

## Program Objectives and Description

Present systems and operations used in active/inactive member, retired member, investments, health benefits and actuarial activities have not been changed substantially since development, although they have been modified for numerous legislative changes, system growth, and hardware/software upgrades.

As a result of a budget augmentation in January 1976, PERS added a Redesign Project team for the development of a Redesign Master Plan. This plan was published on April 12, 1976 and has been approved by the State Data Processing Management Office of the Department of Finance. The inclusion of 35.5 positions in the 1976-77 budget enabled a full-scale effort directed at redesigning PERS systems.

Systems that will undergo redesign in the current and budget year include health benefits, retirement roster, public agency membership reporting and determination, employer roster and benefits.

Staffing has been increased by two positions in the budget year to aid in the accomplishing of the Project and Administration Support Task Plan (Task Plan 1).

## V. ADMINISTRATION

## Program Objectives and Description

This program provides the leadership and support services required to achieve the objectives of the system's programs.

Activities include the actuarial investigation into mortality and experience factors to establish appropriate benefit discounts, premiums and rates of contribution; determination of costs of proposed benefit changes; development of legislation desired by the System or other interested parties; analysis of all legislation affecting the System; prediction of future market trends; purchase and/or sale of securities resulting from analysis and comparison of current offerings; and provision of data processing, legal, personnel and fiscal services.

Staffing for the administration program has been increased by twelve positions in the budget year to meet increased workload resulting from growth in the membership of the system. Also, 1.1 positions of temporary help has been added in the budget year to aid in conducting the board member election to fill the board member's term that expires on January 15, 1978.

**VI. LEGISLATIVE MANDATE (Local Assistance)**

**Program Objectives and Description**

Section 2231(a) of the Revenue and Taxation Code requires the State to pay local governmental units the costs of any new program or increased level of service of a program mandated by legislation enacted after January 1, 1973. Within the program area of the Public Employees' Retirement System there is one legislative mandate. It is Chapter 1322, Statutes of 1974 (S.B. 1775). This mandate provides that the definition of dependent children, for purposes of special death benefits for safety members, includes full-time students under the age of 22.

## STATE TEACHERS' RETIREMENT SYSTEM

The system was established 64 years ago as the Public School Teachers' Retirement Salary Fund and Permanent Fund. It became the State Teachers' Retirement System in 1944. The Teachers' Retirement Board was formed in 1963 when the system was made independent of the Department of Education.

The board manages the system and has exclusive control over the moneys of the system, makes the rules, sets policies, controls investments, and has the power and authority to hear and determine all facts pertaining to application for benefits under the retirement system. The staff and the Teachers' Retirement Board manage the largest teachers' retirement system in the United States having 331,000 members on June 30, 1976, and 68,000 members on the retirement roll for a total membership of 399,000.

### PROGRAM REQUIREMENTS

Continuation of the verification project and limited-term positions .....	25	\$315,480

#### a. Service to Members and Employers

#### Program Objectives and Description

The objectives of the Teachers' Retirement Program are as follows:

1. To provide a financially sound plan for the funding of all approved benefits.
2. To provide adequate benefits on a timely basis for members of the State Teachers' Retirement System and their beneficiaries.
3. To develop and maintain a system, structured to aid in the maintenance of a qualified body of career teachers in the California public schools who intend to retire from the system.
4. To develop and maintain a comprehensive information program that will fully inform members, retirants, beneficiaries, the administration, the Legislature and employers about the plan and meet federal standards.
5. Provide progressive leadership, management, program development and support to insure that the other objectives are reached at the lowest possible cost at the approved level of service.

Historically, the system had operated on a pay-as-you-go basis. Chapter 1305, Statutes of 1971, for the first time placed the system on a reserve funding program. Currently all teachers, regardless of age or sex, contribute a uniform percentage (8%) of compensation to the fund. The local school districts will also contribute up to 8 percent of payroll by July 1978 to pay for the employers' share of the cost of current retirement service credit. The state is currently contributing 144.3 million dollars annually in direct payment to the system. This contribution is reflected in the budget "Contributions to Teachers' Retirement Fund" which is located in the Education section.

The system is responsible for the determination and computation of benefits to members and beneficiaries, and for the distribution of information to all members, employers and other interested groups. Generally, payment of an estimated service retirement allowance is made 45 days after date of retirement or receipt of application, whichever is later. Every effort is made to pay refunds 30 days following receipt of application. Family and death benefits are paid within 75 days after report of death. Disability benefits are paid approximately 45 days after proof of disability is established.

This budget reflects the continuation of 25 limited-term positions to complete the Verification Project and the addition of 1 limited-term professional position for the investment accounting section. Also reflected are augmentations for the biennial actuarial evaluation, reductions in refund fees, and increases for printing, rent, and the cost of services provided by other State Departments.

DEPARTMENT OF VETERANS AFFAIRS

The Department of Veterans Affairs has a threefold overall objective: (1) provide comprehensive assistance to veterans and dependents of veterans in obtaining benefits and rights to which they may be entitled under state and federal laws; (2) afford California veterans the opportunity of becoming homeowners through the medium of long-term low interest loans available to them under the Cal-Vet farm and home loan program; and (3) provide support for the Veterans Home of California where eligible veterans may live in a retirement community and where complete nursing care and hospitalization is provided.

I. FARM AND HOME LOANS TO VETERANS

Program Objectives and Description

Since 1921, the Cal-Vet loan program has successfully served the needs of over 300,000 World War I, World War II, Korean and Vietnam veterans for long-term housing and farm loans at low interest rates. Veterans Bonds voted on and approved by the people have been sold at intervals to provide funding for the program.

California veterans, except those who were wounded or are disabled from war service or were prisoners of war, have 25 years following their release from active military service to qualify and apply for loan benefits. Thus, lending will be directed to the Korean and Vietnam veterans. Maximum home loans are \$35,000. Maximum loans for farms are \$80,000.

Veteran purchasers are charged interest on their loans at the lowest rate which will cover all costs of the program. The interest rates charged have provided for redemption of the bonds, debt service and all program administrative charges, without any cost to the California taxpayer.

Authority

Article 4, Section 31 of the California Constitution. Article 3, Chapter 6, Division 4 of the California Military and Veterans Code.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78
Farm and Home Loans to Veterans (Veterans Farm and Home Building Fund of 1943)	181	193.2	191.9	\$370,811,893	\$414,430,304	\$463,574,831

c. Loan funding .....	2.3	2.3	2.3	160,030,941	155,172,154	162,483,675

a. Property Acquisition

This element encompasses the collection and evaluation of data regarding the applicant and his property selection. Loan decisions must protect the interest of both the veteran and the Cal-Vet loan program.

The military service documents of veterans, the records of veteran's widows, wives of prisoners of war, or persons missing in action, are inspected to determine the applicant's qualifications for a loan under the statute. This examination is integrated into the application process.

DEPARTMENT OF VETERANS AFFAIRS—Continued

b. Loan Service

Four interrelated task efforts combine to assure fulfillment of the obligations of the contracting parties: mortgage loan accounting, insurance and property damage claims adjustment and services, loan contract alterations, and contract performance services.

Mortgage loan accounting consists of routine billing, cashiering, account computation and recording of each borrower's payments.

Insurance services consist of determination and application of minimum coverages required for fire and hazard insurance and adjustment of disaster indemnity claims. When damage occurs, rapid repair and restoration of the contract property is arranged to assure satisfaction of the borrower and to protect the department's interest.

The contract enumerates certain contract alterations to which the department may consent. Among these are assignment of contract interest, rental, permission for secondary financing, change in legal description of property, and installment changes.

Contract performance services are those functions which logically occur in the course of the contract. Loans are paid in full by installments or are prepaid in advance. On fulfillment of the contract, the property is deeded and the account record is closed. During the life of the contract certain breaches of terms or conditions may occur. There is an element of risk in any loan and not all borrowers perform as agreed. Should a borrower become unwilling or unable to comply with the contract terms, it may be necessary to cancel the contract and either force a sale of the property or to repossess it. Repossessed properties are rehabilitated and sold or rented, depending upon the housing market.

Output	1975-76	1976-77	1977-78
Number delinquent accounts <sup>1</sup> .....	6,300	6,300	6,000

<sup>1</sup> These figures represent the total number of accounts showing a delinquent balance for any 3 months period during an entire fiscal year and for which a "Notice of Intent to Cancel Contract" is issued.

<sup>2</sup> These figures represent the number of properties actually repossessed or estimated to be repossessed during the fiscal year.

c. Loan Funding

Funds for Cal-Vet loans are derived from the sale of bonds authorized by the Legislature and approved by the electorate. Activities related to loan funding include sale, payment of interest, and redemption of Veterans Bonds. They are performed by the Veterans Finance Committee and the State Treasurer's Office in accordance with statutory provisions. All costs of such services are paid by the program. Proceeds from bond sales accrue to the Farm and Home Building Fund. These funds, together with prepayment of outstanding loans, are invested until required for authorized purposes. The differential between the interest earned on outstanding Cal-Vet loans and the average net interest cost on all outstanding bonds provides the total operating costs of the program. Work involved is in projecting the program's financial status at points in time to enable economic fund management to meet four annual bond redemption payments and to schedule one or more bond sales annually at the most favorable interest rates.

II. VETERANS CLAIMS AND RIGHTS

Program Objectives and Description

Over three million veterans now live in California; 800,000 of these are Vietnam war veterans. Federal and state laws relative to the well-being of veterans and their dependents are varied and complex and many new laws are enacted each year. The primary objectives of this program are to provide information to veterans and their dependents concerning the availability of these benefits and to assist eligible individuals in obtaining the benefits.

Types of benefits include hospital and out-patient medical and dental care, wheelchair homes, prosthetic devices, compensation, pensions, insurance, educational assistance, burial benefits, employment preference and others.

Authority

Military and Veteran's Code, Sections 699.5, 970-973; and California state civil service laws and rules, Article 4, paragraphs 18971-18976.

## DEPARTMENT OF VETERANS AFFAIRS—Continued

## a. Claims Representation

Veterans seeking benefits from the Federal Veterans Administration file claims with the Veterans Administration Regional Offices in San Francisco, Los Angeles and San Diego. Claims Representatives from the department appear before the Veterans Administration Rating Boards on behalf of veterans and review Veteran Administration decisions on claims to insure that maximum benefits are obtained. The claims involve initial ratings of service-connected disabilities, increases in existing disabilities, pensions, burial expenses and the full range of other federal benefits.

The number of veterans returning to civilian life is still increasing. Increased workload is also attributable to the increasing age of World War II veterans, whose needs for medical care and pensions are increasing.

*The Military has acknowledged that many of the 70,000 less-than-honorable discharges awarded California residents since 1956 were erroneously characterized. The impact on persons receiving the less-than-honorable discharges is that they are deprived of certain VA and State veterans benefits and may encounter difficulty in obtaining employment, education, job training, and licenses to enter certain professions. Increased staffing for 1977-78 will provide assistance to veterans receiving this type of discharge. This program will be accelerated in the current year by the addition of 8 positions to be supported by a \$125,000 allocation from the Public Works Employment Act of 1976 (Title II).*

Output	1975-76	1976-77	1977-78

Expenditures .....	25.6	26.9	34.4	\$432,120	\$502,522	\$636,459

## b. Employment Preference

Honorably discharged veterans meeting length of service requirements and widows of eligible veterans receive ten point preference on state civil service examinations. Veterans with a service-connected disability receive a 15 point preference. The department processes applications for veterans preference, verifies eligibility and certifies eligible veterans to the State Personnel Board.

Output	1975-76	1976-77	1977-78
Applications received .....	6,413	7,500	7,500

Expenditures .....	5.1	5.3	5.3	\$86,424	\$100,504	\$102,290

## c. County Subvention

Fifty-four counties have established Veteran Service Offices to assist veterans and their dependents at the local level. This element includes reimbursement to the counties of a portion of the cost of operating Veteran Service Offices. These local offices provide information and assistance to veterans and dependents which they would be other wise unable to obtain.

Many welfare applicants who are veterans or are veteran related are not aware of state or federal benefits to which they may be entitled. A system has been developed whereby welfare applicants identified as veterans or related to veterans are referred to county Veteran Service Offices for determination of veteran benefit eligibility. This program, developed jointly with the Department of Benefit Payments, is designed to obtain federal benefits for veterans in lieu of additional state welfare benefits.

Output	1975-76	1976-77	1977-78

III. EDUCATIONAL ASSISTANCE TO VETERANS DEPENDENTS

Program Objectives and Description

Dependents of veterans killed or totally disabled as a result of active military service are eligible for counseling and financial assistance. Children of servicemen currently Missing in Action are also eligible. Full-time college students receive \$50 per month and high school students receive \$20 per month. Above high school level, additional payments are made for tuition and fees.

The department accepts only those applicants who are most urgently in need of further education, taking into account both scholastic achievement and financial need.

*The number of dependents from World War II and the Korean conflict, continues to decline at a greater rate than the increased number of Vietnam Era dependents. The decline in enrollment reduces the level of funding required for the next two to three years.*

Authority

Military and Veteran's Code, Sections 981-981.8 and Sections 890-899.

IV. CARE OF SICK AND DISABLED VETERANS

Program Objectives and Description

The Veterans Home maintains an 849-bed medical and nursing unit (including 66 acute and intensive care beds) and domiciliary structures with a bed capacity of 1,489. It is one of the largest geriatric facilities in the country and has full support facilities. In addition, it has available the consulting services of a number of Veterans Administration hospitals in northern California.

Program objectives include provision of the following for war veterans who are California residents: Medical care and services at several levels (acute hospital care, skilled nursing care, and intermediate care); rehabilitation care and services; and residential care and services. The Veterans Home is licensed by the State Department of Health under Title 22, California Administrative Code.

The programs and services for residents of the Veterans Home are developed in cooperation with the Veterans Administration, other state agencies, local government, private organizations and educational facilities.

In progress currently are the final stages of planning for a fire and life safety project, already approved, to bring the hospital and nursing buildings up to current fire and safety standards.

*Federal legislation signed by the President in September 1976 increased Veterans Administration contributions to state veterans homes for the care of resident veterans. This change will result in an increase in federal funds for California of approximately \$500,000 for 1976-77 and \$800,000 for 1977-78. There will be a corresponding reduction in State General Fund requirements for support of the Veterans Home.*

*State legislation will be sought in 1977 to provide funds for a recent State Personnel Board Rule change which requires special compensation for certain classifications when work is required on holidays.*

*Beginning in 1977-78 the Department will convert from use of an intermittent firefighter classification to a security officer-firefighter classification to provide better protection at the Veterans Home.*

c. Rehabilitation care and services.....	27.6	28.5	28.5	569,026	644,668	663,944

## a. Residential Care and Services

Residential services at the Veterans Home are provided in six domiciliaries for male residents and one domiciliary (53 rooms) for women residents. Part of a domiciliary building is used to provide state-licensed residential care, which requires a slightly higher level of supervision and care than that provided for domiciliary residents. These buildings contain sleeping quarters, administrative and recreational facilities. Daily supervision of residents is provided by civil service personnel and resident member employees. An 840-seat main dining room provides food service for domiciliary and residential level residents except for a few whose special diet requirements are provided in the hospital dining room. Outpatient medical care for these levels is provided at the medical Treatment Center, and in-patient medical care is provided in the hospital and nursing units of the Veterans Home. All members of the Veterans Home are under the medical supervision of physicians and nursing personnel.

The current maximum fee for residential care is \$80 per month. The fee is based on the resident's income, and the number of dependents for which he receives exemptions.

Output	1975-76	1976-77	1977-78
Average residential membership.....	507	565	565

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	126	129.7	129.7	\$2,779,264	\$3,148,723	\$3,242,876

## b. Medical Care and Services

Medical care and services are provided in a full accredited hospital and nursing care unit (66 acute beds, 249 skilled nursing beds, and 522 intermediate beds). The complex includes medical wards, surgery, pharmacy, radiology, clinical laboratory, dental clinic, social services, and the service of professional consultants. For those specialties not available, resident members are temporarily transferred to one of the several Veterans Administration hospitals.

The Veterans Home, in addition to conducting its own in-service training programs for such personnel as registered nurses, geriatric nursing assistants, hospital workers, etc., also participates in providing clinical experience for students from local colleges who are studying to become psychiatric technicians, nurses, licensed vocational nurses, etc. Such participation eventually provides an additional source of trained personnel from which vacancies can be filled as they arise.

The present maximum rate for the fee for medical and nursing care is \$110.

Output	1975-76	1976-77	1977-78
Hospital patient days.....	148,305	150,000	150,000
Nursing Annex patient days.....	124,902	130,000	132,000

Expenditures.....	601.5	619.2	619	\$9,823,580	\$11,129,469	\$11,462,261

## c. Rehabilitation Care and Services

Rehabilitation services include: Occupational therapy, physical therapy, sheltered workshops, arts and crafts areas, volunteer services, recreational activities (including motion pictures, bowling, library, etc.), and a developing alcohol control and treatment program.

At the Veterans Home, rehabilitation involves the following:

a. Training and equipping the patient with several disabilities to function at his highest level, even though total recovery may not be possible (e.g., training a stroke patient to dress himself and feed himself).

b. Supplementing medical services in assisting residents with temporary disabilities to achieve total recovery, e.g., use of physical therapy following various types of surgery.

c. Once a patient has reached his highest level of functioning, helping both patient and nursing services in maintaining that level for as long a period as possible.

The Rehabilitation Service is directed by a physician, and great emphasis is placed on this element of the total operation of the Veterans Home.

V. GENERAL ADMINISTRATION

Program Objectives and Description

The general administration program provides for implementation of policies by the California Veterans Board and the Director for all departmental operations. Fiscal, legal, personnel, and other administrative functions, not specifically assigned to the basic programs are included under this program to provide specialized staff services to management.

# **BUSINESS AND TRANSPORTATION**

## DEPARTMENT OF ALCOHOLIC BEVERAGE CONTROL

The principal objective of the Department of Alcoholic Beverage Control is to administer the provisions of the Alcoholic Beverage Control Act, which gives the Department exclusive right and power to license and regulate the manufacture, sale, purchase, possession and transportation of alcoholic beverages within the State, and subject to certain laws of the United States, to regulate the importation and exportation of alcoholic beverages into and from the State.

The workload is divided into three elements: licensing, compliance, and administration.

### PROGRAM REQUIREMENTS

	1975-76	1976-77	1977-78
Administration of the Alcoholic Beverage Control Act .....	\$9,333,538	\$10,454,734	\$10,727,549
Reimbursements .....	- 170,587	- 164,106	- 164,582
NET TOTALS, PROGRAM (General Fund) .....	\$9,162,951	\$10,290,628	\$10,562,967
Personnel years .....	433	438.3	440.3

### SIGNIFICANT PROGRAM CHANGES

Program	Description	Personnel years	Dollars
1c	Internal affairs office—reclassified from existing position .....	(1)	\$12,000
1c	Training officer and clerical support .....	2	32,000

### PROGRAM ANALYSIS

Revisions of the license fee structures will be proposed to increase revenue to more closely match proposed expenditures.

*In the event fee increases are not forthcoming the administration intends to reduce expenditures to realize a full attrition budget.*

### ADMINISTRATION OF THE ALCOHOLIC BEVERAGE CONTROL ACT

c. Administration .....	50.1	50.7	52.7	1,267,495	1,418,459	1,488,777

#### a. Licensing

There are three co-equal objectives of the licensing function. One is to license only qualified persons who apply to engage in the sale, production or distribution of alcoholic beverages. The qualifications are set forth in the Constitution and statutes and are interpreted by regulations and policy statements. The second objective is to issue licenses at properly zoned locations. The third objective is to allow legitimate community protests (by public agencies and/or private parties) against the issuance of a license to be heard by an Administrative Law Judge. Based on the validity of the evidence presented, a license will be issued or denied.

Annual fees vary with the type of license and range from \$24 a year for an off-sale beer and wine license to \$580 a year for an on-sale general license. These fees are deposited in the Alcohol Beverage Control Fund, 90% of the amount collected in the various cities and counties being returned to the respective jurisdictions. There are also original fees for new licenses; transfer fees for moving from one location to another or for transferring from one entity to another. Original fees are placed in the State General Fund. General license are limited in number, one on-sale for each 2,000 inhabitants of a county and one off-sale for each 2,500 inhabitants.

Article XX, Section 22 of the California Constitution, and Division 9 of the Business and Professions Code.

DEPARTMENT OF ALCOHOLIC BEVERAGE CONTROL—*Continued*

## b. Compliance

The objective of the compliance element is to ensure adherence to the laws and regulations by persons licensed to sell, manufacture or otherwise deal in alcoholic beverages. The Department focuses its attention on those violations which have an adverse effect on the community, such as serving obviously intoxicated patrons, minors, or those premises which foster or permit conditions of drug trafficking, prostitution, gambling, etc. Following original issuance or transfer of a license, other investigations are necessary to make certain that unqualified persons do not obtain control of the business through unreported changes in the ownership of licensed businesses.

Department investigations also involve the violation of business practices such as fair trade, price posting, tied-house restrictions, advertising limitations, and prohibitions against the giving of free goods in connection with sales of alcoholic beverages. Additional fees are assessed off-sale general wholesale and manufacturing licensees for support of these investigations by the department.

## c. Administration

General administration of the Department's program is carried out through a line organization consisting of the director, chief deputy director, assistant directors and district administrators. A staff organization, quartered principally in Sacramento, performs legal and administrative duties for the department. For administrative purposes, the State is divided into two divisions with assistant directors in charge. The State is further subdivided into eighteen districts with five districts maintaining branch offices. A district administrator directs the work of the Department in each district.

The administrative staff at Headquarters is responsible for the final review of license transactions, issuance and annual renewal of licenses, maintaining the official files of the department and for performing the major part of financial management, personnel, training, support services and price posting activities for the Department.

The legal staff advises the director on legal matters, drafts legislation believed necessary to more effectively regulate the liquor industry, submits requests for departmental regulations, represents the Department at disciplinary hearings, represents the department before legislative committees and answers inquiries from the public and from members of the Legislature. *The Department intends to reclassify an investigator position to an Internal affairs officer in the budget year. At the present time there is no formal internal affair procedures. To meet the increased demands for training, a training officer and clerk are proposed for establishment in the budget year.*

# ALCOHOLIC BEVERAGE CONTROL APPEALS BOARD

## Program Objectives and Description

The objective of the Alcoholic Beverage Control Appeals Board is to provide an inexpensive and expeditious remedy of appeal to people who are dissatisfied with a decision of the Department of Alcoholic Beverage Control ordering any penalty or issuing, denying, transferring, suspending or revoking any alcoholic beverage license. Following the filing of an appeal and the receipt of the transcript and record and submission of written briefs, the board conducts an open hearing on the appropriateness of the Department decision. After this hearing, the board prepares, publishes and distributes a formal written opinion on all cases. Parties seeking review of Appeals Board decisions must go to the Courts of Appeal by filing a petition for writ of review (Business and Professions Code, Sections 23090-23090.7).

## Authority

Authority for the Alcoholic Beverage Control Appeals Board, which consists of three members appointed by the Governor, stems from Article XX, Section 22, of the California Constitution and Division 9, Business and Professions Code.

## ADMINISTRATIVE REVIEW

### Workload Factors

During fiscal year 1975-76, the Department of Alcoholic Beverage Control received 17,301 applications for liquor licenses and conducted 2,837 investigations on complaints and referrals. As a result of enforcement and investigatory actions taken by the Department and other policing agencies, 2,146 accusations were filed, and 857 administrative hearings were held. The Department issued 857 decisions from which 137 appeals were filed with the Alcoholic Beverage Control Appeals Board. Judicial review of decisions issued by the Appeals Board was requested in 47 cases. Of these, only 2 petitions for writ of review were granted by the Courts of Appeal.

## STATE BANKING DEPARTMENT

The State Banking Department is primarily concerned with protecting the public from economic loss resulting from bank and trust company failures. In addition to encouraging observance of sound banking practices, the Department regulates transmitters of money abroad and certifies securities as legal investments. Also, the Superintendent of Banks functions as the administrator of local agency securities. The programs of the State Banking Department are supported by the State Banking Fund which is replenished annually by assessment of banks and trust companies, license and application fees, and charges for specific services. The Banking Fund decreased substantially in 1975-76 due to a very low assessment and higher than expected costs. The 1976-77 budget, together with the June 30, 1976 assessment, restores the surplus to a level consistent with safe budget management.

### SUMMARY OF PROGRAM REQUIREMENTS

### I. LICENSING AND SUPERVISION OF BANKS AND TRUST COMPANIES

#### Program Objectives and Description

To protect the public from widespread economic losses that often result from failure of banks and trust companies, without depriving the public of reasonably priced, convenient banking and trust services.

#### Authority

California Financial Code, Division 1, Chapters 3, 4, 12, 14, 16, 17, and 19 (Banking Laws)

b. Continuing supervision of existing banking facilities .....	105.8	129	143.8	2,766,106	3,501,952	3,787,654
c. Continuing supervision of trust activities.....	7.1	8.3	9	185,481	225,278	240,288

#### a. Investigation of Applications for New Facilities

Because the establishment of new banks, new trust companies, branches of existing banks, trust departments of existing banks and title companies and other new facilities increases the potential risk of loss for the organization involved and therefore the public, the prior approval of the Superintendent of Banks is required. In each case, the application requesting the approval is investigated to determine whether statutory and administrative requirements are satisfied. The intensity of the investigation depends in large part on the degree of exposure to loss involved. The report and recommendations of a senior bank examiner are analyzed by the executive staff prior to submission to the Superintendent of Banks for his decision. Other types of investigations generally are less detailed and therefore are less costly.

## STATE BANKING DEPARTMENT—Continued

## b. Continuing Supervision of Existing Banking Facilities

Periodic examinations of all banking institutions are necessary to protect depositors and assure the maintenance of a sound banking system. Each bank under State jurisdiction is required by statute to be examined at least annually; with problem institutions subject to more frequent examination. The examining procedure is complex and requires highly skilled examiners to appraise and evaluate the most difficult of large unsecured credits, including a verification of assets and liabilities, appraisal of asset quality, analysis of liquidity position, and a review of operations. Unsafe practices or statutory violations are brought to the attention of the bank for corrective action and assets of questionable value are written down or charged off from the assets of the bank. Institutions in serious financial condition may be placed in liquidation or under the control of a conservator.

An important part of the supervisory function is the investigation of complaints received from the general public and cooperation with law enforcement agencies in connection with crimes affecting banks. Confidential investigations are a necessary part of this supervision.

There have been one bank and one trust company closed thus far in 1976. These closings were the first failures of a State chartered bank or trust company in over fifteen years. The Department attempts to strengthen banks that are in trouble before the bank is subject to the necessity of being closed, and the Department plans to further strengthen this effort by establishing a pilot bank overseer program. The program will enable certain senior examiners to develop a longer range purview of a bank, separate from and in addition to the normal annual examination, in order to suggest recommendations for improvements to avoid potential failures in the future. *To fully implement the overseer program, the Department is requesting six additional examiner positions and two clerical support positions.*

## c. Continuing Supervision of Trust Facilities

Annual examinations of trust companies and trust departments of banks and title insurance companies form the basis of supervision of the trust business. Trust examining is highly specialized and includes the verification of trust assets, the reconciliation of accounts, a review of the legal aspects of transactions, a study of the administration of trust accounts, and an evaluation of the ability and capacity of the senior trust officers. Reports are rendered to the trust company or trust department with recommendations for corrective action.

In 1975, in accordance with the statutory examination requirements, the Department examined all trusts. Due to some particularly time consuming problems with certain trust institutions, we anticipate not being able to complete all trust exams by the end of the 1976 calendar year.

STATE BANKING DEPARTMENT—*Continued*

## III. CERTIFICATION OF SECURITIES

## Program Objectives and Description

As there are no longer any provisions for savings banks in California, certification of securities as legal investments for commercial and savings banks is anachronistic. However, many public retirement funds, employee benefit trust accounts, state credit unions and state savings and loan associations may invest in securities only if such securities are legal investments for savings banks.

## Authority

## IV. ADMINISTRATION OF LOCAL AGENCY SECURITY

## Program Objectives and Description

The Superintendent of Banks is designated as administrator of local agency security, who, utilizing a pool concept, acts as an agent for approximately fifteen hundred local treasurers in verifying the amount and quality of collateral pledged to secure deposits of public funds made by local agencies. This year since savings and loan institutions were made eligible for such deposits this Department will carry the added responsibility of administering local agency security for savings and loans.

## Authority

## VI. TERM LOAN PROGRAM

## Program Objectives and Description

The California Term Loan Program is designed to substantially increase the volume of bank loans to small businesses and thereby provide an effective incentive for job creation. Subject to the enactment of enabling legislation to be introduced by the Department, loss reserve funds would be established for participating banks to cover losses ranging from 6 to 15 percent of the total loans made under the program. The State's contribution to the reserve, of from 2 to 5 percent of the loan, will be matched equally by the bank and the borrower/business.

The budget shows a proposed state commitment of \$3,000,000 in premium contributions for the loss reserve funds. It is anticipated that this funding level would generate between sixty and one hundred fifty million in loans to small businesses. Also, it is proposed that \$300,000 be appropriated to provide initial administrative support for the program. Once operative, it is expected that all subsequent administrative costs would be charged against the fund.

## Program Elements

	75-76	76-77	77-78	1975-76	1976-77	1977-78
a. Executive and administrative services .....	6.5	8	10	\$169,807	\$217,135	\$274,275
b. Legal and legislative services.....	7.8	12.5	14	203,768	328,113	356,354
c. Research and information services .....	4	6	9	104,496	162,851	279,066

## a. Executive and Administrative Services

The cost of administrative services is reflected in this category. It includes support for the executive staff, staff personnel, and fiscal and clerical services. It is proposed that \$12,000 be added to secure the services of a part-time EEO/training officer.

## b. Legal and Legislative Services

Proposed legislation, both at the State and federal level, on matters affecting the functions of the State Banking Department and financial institutions are analyzed to assist the Superintendent and the Governor in making recommendations to legislative bodies. The drafting of proposed legislation, regulations, interpretive communications, and legal support for line personnel, supported by legal research, is conducted to respond to changing circumstances and public need. The Department is presently involved in the drafting and promulgation of an extensive volume of banking regulations. A significant portion of this work will continue into the budget year. The continuing increase in the number of institutions combined with the closing of two institutions has necessitated the addition of two attorneys and one clerk in the midyear. It is requested that these positions be continued in 1977-78, and that \$10,000 be added to cover Attorney General fees.

## c. Research and Information Services

This element includes preparation and publication of the weekly bulletin and the annual report and the development of statistics and information regarding banking practices and economics for the internal use of the State Banking Department.

In 1976-77 the Department received a U.S. Department of Commerce grant to analyze the flow of capital in California. As it is expected that the grant will be renewed in 1977-78, it is proposed that two reimbursable staff services analyst positions be added to work on the study. Also, \$40,000 is requested to support an interagency task force on electronic funds transfer systems.

## CALIFORNIA JOB CREATION PROGRAM

The California Job Creation Program Board encourages and assists the formation of Regional Job Creation Corporations by the private sector for the purpose of providing financial assistance to small businesses, with priority to those with economically disadvantaged ownership or willing to locate in economically disadvantaged areas and unable to obtain loans through normal financial channels.

The program also provides through contracting organizations a variety of technical assistance to small businesses to obtain capital; solve management, marketing, accounting and production problems; and increase small business' share of procurement awards through prequalification and bonding assistance.

The ultimate purpose of the programs administered by the board is to create employment opportunities for the economically disadvantaged, youth and the handicapped through the establishment and expansion of small businesses.

## CALIFORNIA JOB CREATION PROGRAM

Under the guidance of a newly appointed Board and recently hired Executive Director, the California Job Creation Program has been substantially revamped in accordance with criticisms and recommendations made by program audits conducted within the past two years by the Auditor General and the Department of Finance. Loan fund guarantee reserve requirements have been reduced by a substantial margin to increase program leverage, management controls of expenditures have been improved, and the problem of duplication of effort among public small business assistance agencies is being addressed.

The State Loan Guarantee Program, administered by the Board, permits banks and other financial institutions which have formed regional corporations under the Act to make loans to businesses unable to obtain loans through other available channels. The corporations make or approve bank loans to the small businesses relying on the reserve fund provided by the California Job Creation Board to cover possible losses. Presently there are three corporations established in California: Opportunity Through Ownership in San Francisco servicing the Bay Area counties and Sacramento, San Joaquin and Yolo Counties; Southern California Job Creation Corporation serving all of the counties in the southern half of the State, with the exception of Kern and San Diego Counties; and San Diego Job Development Corporation serving San Diego County. Loans are made to establish or expand existing businesses operated by financially disadvantaged owners, or to businesses willing to locate in economically depressed areas which will result in employment of at least 15 disadvantaged persons.

Opportunity Through Ownership and the Southern California Job Creation Corporation have been using a piggyback loan feature, whereby the corporation provides a 100% loan guarantee to their clients for equity capital to qualify them for Small Business Administration loans. Greater emphasis will be placed on this type of lending in the future. In the past, 100% guarantees have been provided for both equity and capital loans. In response to concerns pointed out in the three recent audits performed on Cal Job Programs, the 100% guarantee feature will only be used in some cases of equity funding. Guarantees for other debt capital loans will be reduced to approximately 50%. (This implies an 8-1 leverage for General Fund moneys.) This will provide greater incentive for the corporations and their clients to fulfill their respective obligations. Loan guarantee funds will hereafter be distributed on the most cost-efficient basis.

The San Diego Job Development Corporation has been operating at an extremely low level and has been found to be ineffective. This corporation will be dissolved as provided by statutes, and unused guarantee funds will revert to the State Loan Guarantee Fund. Establishment of a new regional corporation is under way, and at least one other will be established in the next fiscal year. Membership of these new corporations will be diversified and so comprised that they will be able to provide the broadest spectrum of services available. These new corporations are committed to a maximum 50% loan reserve requirement.

The Small Business Assistance Program has been redirected to achieve the objectives recommended by the program audits. In the past, the Small Business Assistance Program has had three major elements: First, generalized assistance by contractors whose main efforts were to assist new and existing businesses obtain capital through private and federal financial sources and also provide general business advice; the second element provided in-depth technical assistance beyond the capabilities of the generalized assistance contractors through "on call" subcontractors; the third element promoted increased small business participation in procurement contracts through a Statewide Minority Suppliers' Directory directed toward purchasing agents. Prequalification and post-award assistance, including financial, technical and bonding assistance have been provided. Emphasis in the coming year will be on coordination of the State Loan and Small Business Assistance Programs to facilitate the State loan clientele meeting their loan commitments. Monthly monitoring will provide early detection of potential problems. Loan packaging in areas where this service is already available from organizations funded by non-state sources will be de-emphasized to minimize duplication of effort. This new approach will reduce losses and provide for evaluation of the cost effectiveness of the services purchased.

Four new program initiatives have been installed: (1) a user-owned surety company has been funded; (2) a program designed to allow elderly owners of established businesses to transfer ownership while retaining the option of employing their experience to the benefit of the new entrepreneur; (3) a program designed to bring federal contracts to small California firms; (4) a small lender assistance program will increase the leverage of State funds by insuring credit instruments invested by small institutions. The insurance will permit them to invest aggressively in higher yield notes. This process will allow expansion of their capital base. This will result in an increased ability of small lenders to assist small businesses in their communities.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

## b. Office of Minority Business Enterprise

The State Office of Minority Business Enterprise (OMBE) is funded under a grant by the federal Office of Minority Business Enterprise to carry out three principal programs designed to (a) obtain an equitable amount of state procurement contracts for minority-owned business; (b) work with the college and university systems to encourage and assist in the development of business education and training programs for minority-owned business; and (c) assist state agencies to redirect existing programs and develop new programs to increase opportunities for minority-owned businesses. These activities will provide more opportunities for the minority-owned business to compete in the economic mainstream. Effective October 1, 1975, the Department of General Services became the prime contractor under the federal OMBE grant.

DEPARTMENT OF CORPORATIONS

Program Objectives

The principal objectives of the Department of Corporations are:  
To provide, through the Investment Program, appropriate controls over the solicitation, marketing and sale of securities and franchises to California residents; to install and maintain adequate deterrents and safeguards against unfair or unscrupulous promotional schemes; to take suitable enforcement action when dishonest and questionable practices occur in such sales.  
To fulfill, through the Lender-Fiduciary Program, statutory demands to provide regulatory surveillance over companies engaged in the business of lending money or receiving funds from the public in a fiduciary capacity.  
To fulfill, through the Health Care Service Plan Program, statutory requirements to provide regulatory surveillance over companies engaged in the business of providing health care to plan enrollees.  
To provide, through the Administration Program, service functions essential to the operation of the department and to furnish leadership and guidance to the staff and general public concerning matters under the jurisdiction of the Department of Corporations.

SUMMARY OF PROGRAM REQUIREMENTS

	1975-76	1976-77	1977-78
I. Investment program .....	\$3,847,987	\$4,524,312	\$4,661,144
II. Lender-fiduciary program .....	2,415,811	2,680,007	2,797,519
III. Health care service plan program .....	155,222	1,576,872	1,864,396
IV. Legislative mandates .....	-	11,300	3,450
V. Administration—distributed to other programs .....	(339,861)	(360,945)	(370,290)

I.	Investment program workload increase .....	0.6	\$19,674
II.	Add programmer analyst to lender-fiduciary program .....	1	28,113
III.	Health care service plan workload increase .....	16.4	351,334

I. INVESTMENT PROGRAM

Securities worth billions of dollars are sold and issued to residents of the State of California annually. The Corporate Securities Law requires that the Commissioner find that the sale of securities is not unfair, unjust or inequitable. As an adjunct, full disclosure of relevant financial and legal information is generally considered essential in public offerings in order that all investors, especially those who are less sophisticated, may be apprised of the risks inherent in investments of this type. The Franchise Investment Law requires full disclosure to the would-be purchaser.  
Over 30,000 broker-dealers, agents and investment advisers are licensed in the State of California. Persons aggrieved by the allegedly improper sale and issuance of securities or other violations of the Corporate Securities Law require an agency through which their complaints can be investigated and acted upon. *Six-tenths of an attorney position is requested due to workload increases in the qualifications and regulations element and the enforcement element.*

Authority

Corporations Code, Sections 2500-25804; 29500 et seq.; 31000-31516.  
California Administrative Code, Title 10, Sections 250.1-250.25; 260.000-260.617; 310.505; 50.000-350.541.1.

d. Commodities .....	4.1	8.5	8.5	100,361	203,595	208,866

a. Qualifications

The sale and issuance of nonexempt securities in the State of California must be qualified pursuant to the Corporate Securities Law through the filing of an application, including current financial statements and other relevant exhibits.  
Specific conditions may be imposed on the qualification if it is found that otherwise the sale of securities could be unfair, unjust or inequitable. Qualification can be by coordination, notification or permit.

Output	1975-76	1976-77	1977-78

DEPARTMENT OF CORPORATIONS—*Continued*

## b. Franchises

No franchise may be offered or sold in the State of California unless the offer has been registered or exempted from registration. In order to register, an application must be filed disclosing certain relevant information. Under certain circumstances defined in the Franchise Investment Law, the Commissioner may summarily issue a stop order denying the effectiveness of or suspending or revoking the effectiveness of any registration.

Output	1975-76	1976-77	1977-78
Franchise registrations.....	133	150	180

	1975-76	1976-77	1977-78
	\$130,665	\$117,632	\$120,678

## c. Regulations and Enforcement

Prospective broker-dealers, agents, and investment advisers must file applications for certificates to operate in California. A review of the pertinent documents containing information concerning the applicant's background, business experience, reputation and financial condition enables a knowledgeable decision to be made as to whether or not the certificate should be issued.

Complaints filed by the general public, as well as possible and potential infractions of the Corporate Securities Law noted by the staff or members of other regulatory agencies are thoroughly investigated. As a result of the department's findings, one of the following steps is taken: no further action may be deemed necessary; punitive action including suspension or revocation of a certificate, license, or permit may be taken; and/or criminal or civil proceedings may be instituted by other enforcement agencies.

Output	1975-76	1976-77	1977-78

## II. LENDER-FIDUCIARY PROGRAM

## Program Objectives and Description

Check sellers and cashers, credit unions, escrow agents, industrial loan companies, personal property brokers, retirement systems, small loan companies, and trading stamp companies render services to California residents, providing them with assistance in financial and fiduciary matters. Over 4,000 licensees serve Californians in this manner under the several laws covered by this program.

Many individuals dealing with these entities are persons whose financial situation is such that they can least afford to suffer losses. In regulating these classes of licensees, it is desirable to correct mismanagement and misrepresentation and to minimize the possibilities and probabilities of manipulative, deceptive, or other fraudulent schemes.

Periodic regulatory examinations of the books and records of licensees are conducted for the purpose of discovering and correcting errors of interpretation and procedure; determining and evaluating the financial condition of certain licensees, and detecting breaches of financial trust and other violations of the various laws and regulations.

Complaints filed by the public and potential violations of the law under this program are thoroughly investigated. If warranted by the department's findings, punitive action including suspension or revocation of a license or permit may be taken; and/or the matter may be referred for criminal and/or civil proceedings. A staff programmer analyst position is requested to facilitate the audits of licensees who utilize computerized accounting systems. Additionally, \$20,000 is requested to provide this department's share of the costs of an interagency task force on electronic funds transfer systems.

g. Trading Stamp Law .....	0.3	0.3	0.3	7,070	8,040	8,248

## a. Check Sellers and Cashers Law

Check sellers and cashers' major functions are to sell money orders and to accept money to be transmitted to others in payment of utility bills. Such services are utilized primarily by those unable or unwilling, for financial reasons, to maintain a checking account at a bank.

Proraters receive money from their debtor-clients and distribute it, according to a predetermined plan, to the creditors of the debtor-clients. Those individuals who find themselves seriously financially overextended may engage a prorater in an attempt to rectify their situation.

## Authority

Financial Code: Section 12000 et seq. California Administrative Code, Title 10: Sections 1760-1805, inclusive.

## c. Escrow Law

Escrow agents act as disinterested third parties to a transaction between two parties generally involving real property. They maintain possession of documents and money to be transferred in such a transaction until it is consummated or cancelled. All money received must be segregated and deposited into a trust fund; disbursements from this fund may be made only upon written instructions of the parties to the escrow.

## d. Industrial Loan Law

Industrial loan companies make loans to individuals and other entities, normally taking as security real or personal property; they may also lend on an unsecured basis. A portion of their financing is normally derived from the public through the sale of thrift certificates.

The Industrial Loan Law imposes restrictions on the type of receivables that may be contained in the portfolio of such companies; this necessitates a diversification of risk among borrowers and among types of collateral.

## Authority

## e. Personal Property Brokers Law and California Small Loan Law

Personal property brokers and small loan companies are commonly referred to as finance companies. These companies make loans secured by personal property such as automobiles and household goods, at a rate of charge not exceeding that set forth in the law.

The Personal Property Brokers Law and California Small Loan Law require full disclosure of the terms of the loan to the borrower including the date of loan; the amount and maturity of the loan contract; how and when repayable; the nature of the security for the loan; and the agreed rate of charge.

## Authority

## f. Retirement Systems Disclosure Law

All pension plans, profit-sharing plans, stock bonus plans, and similar benefit plans in the State of California qualifying under Section 401 of the Internal Revenue Code are subject to this law. Retirement systems anticipate the payment of stated benefits and/or accumulated amounts to the participants or beneficiaries upon the occurrence of a certain contingency such as retirement or death.

Unless exempted, a report setting forth all investment transactions conducted during the preceding year must be filed with the Commissioner and is to be made available for inspection by participants and beneficiaries of the retirement system.

This law has been repealed effective January 1, 1977 by SB 140/Chapter 534, Statutes of 1976.

## Authority

III. HEALTH CARE SERVICE PLAN PROGRAM

Program Objectives and Description

With the enactment of AB 138, Chapter 941, Statutes of 1975, the regulatory responsibility for health care service plans was transferred to the Commissioner of Corporations from the Attorney General. The scope of the regulatory function has been significantly expanded to insure the delivery of medical and health care services to the people of the State of California who subscribe for services rendered by a health care service plan. This program is supported entirely by reimbursements and revenues collected pursuant to Chapter 941/75. AB 4038, Chapter 974, Statutes of 1976, provided a special appropriation of \$189,261 in the current year for support of this program. Full year funding is requested for thirteen positions added to this program by the 1976-77 budget as partial personnel years since actual workload has met or exceeded original projections.

Authority

Health and Safety Code, Sections 1340-1399 inclusive.

a. Licensing .....	1.2	10.2	13.1	\$31,571	\$240,926	\$329,646
b. Financial and administrative examinations ..	2.7	23.1	30.5	71,034	421,888	615,007
c. Medial survey .....	0.7	5.6	7.2	18,416	468,881	529,620
d. Enforcement .....	1.3	17.2	15.7	34,201	445,177	390,123

a. Licensing

The commissioner has the responsibility of licensing health care service plans, solicitor firms and solicitors. The applicants must file license applications which include information concerning the applicants' background, experience, proposed method of operation, financial statements, and other pertinent documents which will enable the commissioner to make a knowledgeable decision as to whether or not the license should be issued. One and four tenths years of attorney time and one half year clerical support is proposed to handle unanticipated workload increases.

Output	1975-76	1976-77	1977-78
Licenses Issued:			
Health care service plans.....	-	120	6
Solicitor firms .....	-	2,000	360
Solicitors .....	-	3,000	1,080
Material modifications filed .....	-	120	120
Plan contracts reviewed.....	-	360	360
Solicitors tested.....	-	11,000	2,520

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	1.2	10.2	13.1	\$31,571	\$240,926	\$329,646

b. Financial and Administrative Examinations

Each plan shall have the organizational and administrative capacity to provide marketed health care services to enrollees. The Commissioner must determine that each plan is financially stable and that medical decisions are made unhindered by fiscal and management constraints. This element will monitor the plans' financial solvency through periodic examinations and review of required financial and statistical reports.

Output	1975-76	1976-77	1977-78
Plan examinations .....	-	30	61
Financial reports analyzed .....	-	1,120	1,174
Solicitor firm examinations .....	-	100	100

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	2.7	23.1	30.5	\$71,034	\$421,888	\$615,007

c. Medical Survey

The commissioner is required to conduct onsite medical surveys of the health delivery system of each plan at least once every five years. Surveys conducted by this element will review internal procedures for assuring quality of care, and the overall performance of the plan in providing health care benefits and meeting the health needs of the subscribers and enrollees.

Output	1975-76	1976-77	1977-78
Plans surveyed .....	-	60	66

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	0.7	5.6	7.2	\$18,416	\$468,881	\$529,620

d. Enforcement

Complaints received against the plans or solicitors are investigated. If the investigation establishes that there has been a violation of the law the commissioner may suspend or revoke the license or assess civil penalties. AB 4038 provided a special appropriation of \$189,261 to fund a special investigative unit to handle unanticipated problems arising in the state's regulation of prepaid health plans. One attorney and .5 years of clerical support is proposed to allow the timely investigation of suspected violations.

## IV. LEGISLATIVE MANDATES

Section 2231(a) of the Revenue and Taxation Code requires the state to pay local government units the costs of any new program or increased level of service in a program mandated by legislation enacted after January 1, 1973. Within the program area of the Department of Corporations there is one legislative mandate, Chapter 941/75 (AB 138) Knox-Keene Health Care Service Plan Act of 1975.

Program Requirements	1975-76	1976-77	1977-78
Continuing program requirements ( <i>General Fund</i> ) .....	-	\$11,300	\$3,450

## V. ADMINISTRATION

The Commissioner of Corporations, with the assistance of his executive staff, suggests needed legislation or amendments to current laws and regulations for the improved protection of the residents of California; establishes departmental policy; and directs the allocation of personnel between the programs and among the program elements.

The accounting and personnel office prepares the budget and supporting materials; negotiates leases and contracts; maintains the books, financial and attendance records and prepares appropriate payroll documents.

# DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT

## Program Objectives

To provide decent housing in suitable living environments for California citizens of all socioeconomic levels.

To protect the public from inadequate construction, manufacture, repair or rehabilitation of buildings, particularly dwelling units, and from improper living environs through the establishment and enforcement of health and safety standards.

To seek solutions to California's housing and community development problems through research, development of policy proposals and to provide information and technical assistance to citizens, private businesses and governmental entities.

## SUMMARY OF PROGRAM REQUIREMENTS

	1975-76	1976-77	1977-78

## DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT—Continued

## a. State Housing Law and Earthquake Protection Law

The State Housing Law and departmental regulations establish minimum standards for the design and construction, maintenance, use and occupancy of buildings used for human habitation. The Earthquake Protection Law and regulations establish minimum requirements for the design and construction of buildings to resist lateral forces such as earthquakes.

Both laws designate local authorities as the enforcement agencies. The Department is the enforcement agency in the event of nonenforcement by local authorities. Local jurisdictions may also contract with the Department for enforcement. The Department currently has enforcement responsibility in Mariposa County.

Under the provisions of the State Housing Law, the following tasks, which have statewide impact, have been undertaken by the staff of this program element in the past and current fiscal years.

(1) Coordinating with the Office of Noise Control in developing rules and regulations for noise insulation standards for residential buildings other than detached dwellings.

(2) Development of standards of energy insulation for residential buildings to conserve fuel resources.

(3) Development of less restrictive codes for owner-built single-family dwellings built in rural areas. This development amended existing building occupancy classifications and provided for alternative designs and materials for dwellings in rural areas throughout the state.

(4) Development of guidelines to encourage the rehabilitation of existing houses.

*The Department proposes the continuation of three positions, added administratively in the current year, to enforce energy conservation standards promulgated by the State Energy Resources Conservation and Development Commission (SERCDC). These activities will be reimbursed by SERCDC.*

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	7.3	10.5	7.7	\$165,348	\$248,940	\$206,258

## b. Employee Housing Act

Current statutes require the establishment and enforcement of construction, maintenance, use, and occupancy standards for labor camps, labor supply camps, and employee housing.

The Department is the designated enforcement agency except where a city or county has assumed responsibility for enforcement. The Department is mandated to annually evaluate the performance of a local enforcement agency and to determine the qualifications of the local agency's inspection personnel.

Operators of labor camps are required to obtain annual permits to operate from the enforcement agency. Prior to issuance of a permit to operate, labor camps are required to have preoccupancy inspection and to comply with maintenance, use, and occupancy requirements.

*In order to assure continuity of enforcement efforts statewide it is proposed that three inspectors be added to provide training to local building officials.*

*Also, it is proposed that eight temporary help investigators, added to mount a one-time monitoring of enforcement activity, be deleted, as this task is now complete. As a follow up, the Department is requesting an augmentation of 3.5 positions in the current year and 8.5 positions in the budget year to set up three sanitation assistance teams to work with facility operators and farmworkers. This augmentation is to be funded by a pending grant from the U.S. Department of Health, Education and Welfare.*

Output	1975-76	1976-77	1977-78
Registered camps under state jurisdiction.....	631	790	989
Occupancies under state jurisdiction .....	18,034	21,117	24,725

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	19.4	27.1	33.6	\$410,791	\$760,728	\$1,059,366

## c. Mobilehome Parks and Accessory Structures

The Department has responsibility for administration and enforcement of the Mobilehome Parks Act, except where a city or county has assumed responsibility for enforcement. Uniform standards are necessary to permit moving mobilehomes and their accessory structures from one locality to another.

There are approximately 6,400 parks in California and approximately 27% are under the State's jurisdiction. The Department also provides advisory assistance to local jurisdictions and monitors local enforcement activities to assure uniformity and compliance with State law.

Output	1975-76	1976-77	1977-78
Parks under state jurisdiction.....	1,711	1,780	1,800
Spaces in parks under state jurisdiction .....	87,456	88,100	88,800

Expenditures.....	56.6	70.1	66.9	\$1,313,060	\$1,642,438	\$1,627,521

## d. Mobilehomes

Federal regulations have preempted the state requirements for construction of new mobilehomes. The state will continue to be the enforcement and inspection agency for the mobilehome industry. The state retains the responsibility for developing regulations regarding commercial coaches and recreational vehicles, as well as for discharging enforcement and inspection responsibilities.

A consumer service center, to handle mobilehome complaints, has been set up in conjunction with the Department of Motor Vehicles. This allows a consumer to file a complaint with a single governmental unit, eliminating duplication of effort and providing better service to the consumer.

Output	1975-76	1976-77	1977-78
Number of units manufactured .....	100,874	122,181	146,617

Expenditures.....	64.9	65.1	65.1	\$1,493,097	\$1,506,034	\$1,564,100

DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT—*Continued*e. **Factory-Built Housing Law**

The California Factory-Built Housing Law requires the Department to regulate the design, manufacture, and inspection of factory-built housing units. Upon departmental approval an insignia is affixed which allows those units to be installed in any locality subject to local use, zoning and other site requirements.

The Department has developed regulations permitting a manufacturer to build a unit which may be either a mobilehome or factory-built housing unit. This is expected to increase the number of factory-built housing units manufactured and sold in California. Manufacturing of building components is increasing and is expected to gain momentum during the next few years as the industry refines this method of construction.

				1975-76	1976-77	1977-78
<b>Output</b>						
Dwellings manufactured .....				1,080	1,300	1,600

f. **Special Projects**

Special project activities of the Department are varying and generally of limited duration; they include

1. Membership in the National Conference of States on Building Codes and Standards.
2. Membership on the Coordinating Council consisting of state agencies concerned with building standards relating to all building occupancies.
3. State disaster response planning activities.
4. Consultative assistance to the State Energy Commission.
5. Participation in development of national standards with the National Fire Protection Association.
6. Legislative analysis and advocacy.

<b>Input</b>						
Expenditures .....	1.7	3.5	3.5	\$33,089	\$75,991	\$76,134

II. **COMMUNITY AFFAIRS PROGRAM****Program Objectives and Description**

To provide an opportunity for every citizen to have access to decent and safe shelter within a healthy community. The California Statewide Housing Element reports that over 700,000 housing units in the state need rehabilitation; an additional 300,000 units are beyond repair; more than 500,000 households are over-crowded; and, more than 1,750,000 state residents cannot afford the housing they need.

The California Indian Assistance Program concentrates on the housing and related needs of Native Americans utilizing available resources at the federal, state and local government levels. A major component is the development of low rent housing through the formation of Indian Housing Authorities and assisting existing authorities to expand their housing resources. The Economic Development Program seeks to strengthen the economic base of rural and urban areas through technical assistance, administration of a federal (EDA) loan/grant program, and economic research and data dissemination for local government. The Housing Assistance Payments element operates a statewide program providing federal housing subsidies to developmentally disabled, mentally disordered, and physically disabled adults and to a limited number of rural low income families in a number of Northern California counties. The Rural Community Development element assists local government and housing sponsors to qualify for relevant federal and state funds to promote community development projects for subsidized housing in the rural areas of the state. As a counterpart to the rural section, the Urban Community Development element delivers technical assistance of a similar nature to the non-rural areas of the state. Emphasis is upon rehabilitation and preservation of housing, HUD block grant applications, urban renewal, relocation assistance, home management counseling, and citizen participation assistance.

e. Urban community development .....	9.6	10.7	10.6	283,500	401,063	269,968

a. **California Indian Assistance**

There are about 200,000 Indians in the state of which 65,000 are native California Indians. The Department has authority to engage in a variety of assistance functions, among which is assistance to Indian housing authorities and governmental agencies on reservations. The Department has been under contract to the Office of Planning and Research for four years to implement this program using HUD "701" funds to offset a portion of program expenditures.

# DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT—Continued

## b. Economic Development

This element has three major responsibilities: (1) technical assistance to local government to help assess local economic needs, develop strategies, and implement economic plans; (2) research activities to analyze economic problems, identify trends and provide a data base for planning functions; and (3) grant and loan administration involving the preparation of applications to the Economic Development Administration (EDA) for federal loan and grant funds, reviewing and awarding of grants to local public and private entities and monitoring and evaluating program results. The federal EDA is encouraging greater state participation in its programs through funding allocations; hence, this program should show steady growth in the future.

It is proposed that \$125,000 in increased state match be added to generate \$500,000 more in federal EDA funds and that 2 staff positions be added to package these loan and grant funds.

Pass through (grants and loans) .....				1,223,757	2,421,878	3,125,000

## c. Housing Assistance Payments

Under Section 41166, et seq. of the Health and Safety Code, the Department has the authority to provide a statewide program of rental subsidies, using federal housing assistance payments to developmentally disabled, mentally disordered, and physically disabled adults and to low income families in general. Since November 1976, the Department has been operating two programs of housing assistance funded by the U.S. Department of Housing and Urban Development; the first on a statewide basis to persons determined eligible by the State Health Department and requiring continuing care services; and the second to low income families in non-metropolitan and rural areas of the state. During the first year of the program, the Department will allocate about \$4.0 million in federal rental subsidy payments statewide. It is anticipated that additional federal grants will become available to the Department with which to increase the scope of the program in subsequent years and provide housing to a greater number of disabled persons and low income families.

## d. Rural Community Development

This element assists local government and housing sponsors to qualify for federal and state funds to promote community development projects, including water and sewer facilities, as well as low and moderate income housing projects in non-metropolitan areas of the state. It is proposed that a Community Development Representative and .5 clerical position be added to administer the Housing Predevelopment Loan Program (Ch. 1335/76.)

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	8.6	10.9	13	\$249,856	\$711,977	\$668,536

## e. Urban Community Development

Assistance is provided to local government and housing sponsors to maximize the utilization of federal, state, local government, and private sector funds in community development activities. Emphasis is upon rehabilitation and preservation of existing facilities, HUD block grant applications, urban renewal, relocation assistance, home management counseling and citizen's participation assistance.

Expenditures.....	9.6	10.7	10.6	\$283,500	\$401,063	\$269,968

# III. RESEARCH AND POLICY DEVELOPMENT PROGRAM

## Program Objectives and Description

To identify housing and community development needs and problems and to develop recommendations for ways to meet these needs. The objectives are carried out through the development and updating of the California Statewide Housing Plan; review and coordination with the plans of other state departments and local government, and the maintenance of data resources. 3.9 personnel years have been added in the current year to complete mandates described and funded in AB 1X/75.

c. Planning coordination and review .....	3.2	7.7	7.2	79,056	171,926	166,841

<sup>1</sup> The program element formerly entitled "California Statewide Housing Plan" has been divided into the Policy and Program Development and the Research and Statistics program elements.

## a. Policy and Program Development

Pursuant to statutory requirements, the activities of the Policy and Program Development element include the following:

(1) Recommendations to the Legislature for public and private action to meet California's housing goals.

(2) Submission of an annual update of the California Statewide Housing Plan to the Legislature.

(3) Continual evaluation of the impact upon the state of federal policies and programs affecting housing and community development and annual submission to the Legislature of recommendations for changes in federal laws.

## DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT—Continued

Policy activities are carried out in cooperation with other state departments, regional and local government, private housing industry, and private organizations. It is proposed that 1.5 personnel years be added to research and recommend means to control or reduce the cost of housing, exclusive of financing costs.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	5.9	12.2	13.5	\$146,627	\$311,256	\$360,729

## b. Research and Statistics

The Research and Statistics program element is responsible for the development, collection and maintenance of statistics and reference materials on housing and community development. Pursuant to Health and Safety Code Section 41132, specifications for the structure, functions, and organization of a housing and community development information system are to be developed and a report submitted to the Legislature. Statistical material is prepared for the annual update of the California Statewide Housing Plan. This includes summaries of housing needs and conditions and one- and five-year goals for construction, rehabilitation, and housing assistance.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	3.4	8.2	5.3	\$85,195	\$277,338	\$179,795

## c. Planning Coordination and Review

This element is involved in the development of guidelines and regulations. It also reviews, for comment or approval, a variety of documents.

Guidelines or regulations which are promulgated or periodically reviewed include:

(1) Guidelines for housing elements of local general plans. Local housing elements are reviewed for compliance with the Government Code and the guidelines.

(2) Guidelines for affirmative plans pursuant to Government Code Section 65008. These plans must be approved by the Department before a city or county can treat governmentally assisted housing differently than other housing.

(3) Guidelines for relocation assistance. The relocation plans and activities of redevelopment agencies are reviewed periodically.

(4) Certain regulations of the California Housing Finance Agency, specified in Health and Safety Code Section 41137.

Cities and counties desiring to qualify as local housing agents apply to the Department for certification. If certified, the local government becomes authorized to disapprove applications to the California Housing Finance Agency for loans. Certifications are periodically reviewed.

This element will provide coordination with other state departments whose activities will have a significant impact on housing and community development.

Plans being prepared by other state departments are reviewed. If the plan will have a significant impact on housing and community development, input and coordination are provided throughout the course of development of the plan.

This element also develops and reviews federal grant applications and environmental impact statements and comments on them if they have a significant impact on housing and community development.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	3.2	7.7	7.2	\$79,056	\$171,926	\$166,841

## IV. ADMINISTRATION PROGRAM

## Program Objectives and Description

To provide direction, operating policy determination, interpretation of pertinent law and administrative services necessary for the statewide operation of Departmental programs.

The program is administered by the director and deputy directors. Policy guidance for operating programs is provided by the Commission of Housing and Community Development, for which the director is secretary ex officio.

Funding for the Special Assistant to the Commission exempt entitlement and added per diem and travel funds are proposed to facilitate a more active role for the Commission.

## V. RURAL AND MIGRANT AFFAIRS

In conformance with Executive Order B-17-76, the Health and Welfare Agency, through the Rural and Migrant Affairs Coordinator, is undertaking a comprehensive review of all services to the rural and migrant populations. This Department provides services to a segment of this group and therefore is identifying resources expended for them.

# CALIFORNIA HOUSING FINANCE AGENCY

## Program Objectives and Description

Legislation establishing the California Housing Finance Agency became effective on September 26, 1975, with the enactment of Chapter 1, Statutes of 1975, First Extraordinary Session.

The principle function of the Agency is to sell tax-exempt bonds and use the proceeds to finance housing at below market level interest rates.

The Agency is authorized to: (1) make direct loans to developers of multifamily rental housing; (2) purchase single family mortgages originated by qualified mortgage lenders; and (3) purchase loans and provide loan insurance in neighborhood preservation areas on mortgages originated and serviced by qualified mortgage lenders.

The Agency functions as a source of mortgage capital, making funds available directly or through qualified mortgage lenders for new construction or the rehabilitation of existing housing. Construction financing as well as permanent financing are allowable under the Agency's statutory authority. Specific priority considerations consonant with the Agency's social role include providing assistance to low and moderate income persons and families, servicing the housing needs of the elderly and large families, stimulating the reinvestment of capital back to mortgage deficient areas, and achieving high design quality standards.

The 1975-76 budget includes \$15.75 million in appropriations from the General Fund to provide the following:

1. \$10 million as a secondary security reserve for the revenue bonds authorized in Chapter 1, Statutes of 1975, First Extraordinary Session. This appropriation is in lieu of the so-called "moral obligation" clause and clearly limits the general taxpayers' liability for the bonds. Provision is included for repayment as surplus funds become available or upon passage and sale of General Obligation Bonds.

2. \$5 million as initial funding for a bond and loan insurance program for rehabilitation, refinancing or acquisition of residential structures. This appropriation is a loan and is to be repaid by January 1, 1986.

3. \$750,000 for the Agency's initial expenses. This appropriation is to be repaid by January 1, 1986.

The 1976-77 budget includes the following:

1. \$5 million in appropriations from the General Fund to provide supplemental funding for the bond and loan insurance program for rehabilitation, refinancing or acquisition of residential structures.

2. \$3,567,375 from fee and interest revenues.

The revenue and expenditure figures for the current year are based on the anticipated sale of \$100 million in bonds under the Mortgage Purchase Program, \$70 million in bond anticipation notes for the Direct Lending Program, and \$11.25 million in bonds under the Neighborhood Preservation Program.

As a public service enterprise fund, no budget detail is presented.

## Authority

Division 31 of the Health and Safety Code.

## DEPARTMENT OF INSURANCE

The principal objective of the Department of Insurance is the protection of insurance policyholders in the state. The Department is organized into seven divisions: legal, actuarial, rate regulation, administrative services, surveillance and analysis, field examination and consumer affairs.

### SUMMARY OF PROGRAM REQUIREMENTS

	1975-76	1976-77	1977-78
I. Regulation of insurance companies .....	\$5,175,043	\$6,088,050	\$6,557,094
II. Regulation of insurance producers .....	2,804,538	3,335,594	3,351,422
III. Administration—distributed .....	(1,111,834)	(1,371,985)	(1,520,191)
TOTALS, PROGRAMS .....	\$7,979,581	\$9,423,644	\$9,908,516
Reimbursements .....	-2,306,857	-2,822,437	-2,878,729
NET TOTALS, PROGRAMS (General Fund) .....	\$5,672,724	\$6,601,207	\$7,029,787
Personnel years .....	325.8	372.5	370.5

### SIGNIFICANT PROGRAM CHANGES

Program	Description	Personnel Years	Dollars
I.a.	Distribute auto insurance buyers guide .....	-	\$100,000
I.c.	Augment regulatory program .....	4	87,600
II.b.	Reduce complaint processing staff .....	-6	-88,569

### I. REGULATION OF INSURANCE COMPANIES

#### Program Objectives and Description

The objective of this program is to prevent losses to policyholders, beneficiaries or the public due to the insolvency of insurers and to prevent unlawful or unfair practices by insurers as defined in the Insurance Code. To accomplish the objectives of this program, the Department conducts field examinations, regulates rates, maintains solvency surveillance, collects and audits taxes, regulates proxy solicitations, manages financially distressed companies, admits qualified companies, maintains surveillance of admitted companies, reviews policy forms and investigates consumer complaints.

#### Authority

The Insurance Code.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78
Continuing program costs .....	212	242.1	242.1	\$5,175,043	\$6,109,231	\$6,306,674

c. General regulation .....	146.3	167.1	171.1	3,572,516	4,213,307	4,524,206

#### a. Company Consumer Services

A staff of insurance officers and rate analysts process inquiries and complaints about insurance rates and the treatment of their claims. This service is a source of information for the Department about insurance company rating practices and claims management. It also assists policyholders and beneficiaries to obtain a fair and equitable treatment in connection with disputed premium charges and claims. *It is proposed that \$100,000 be added to fund the printing and distribution of auto insurance buyers guides.*

Output	1975-76	1976-77	1977-78
Rating complaints investigated and adjusted .....	389	500	600
Rating inquiries handled .....	10,492	12,500	15,000
General complaints formally investigated and closed .....	36,528	38,350	40,270

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	57.2	64.3	64.3	\$1,408,324	\$1,630,107	\$1,780,621

#### b. Tax Collection

The Department is responsible for the proper collection of more than \$200,000,000 in taxes from approximately 1,100 insurers and surplus line brokers who file over 6,000 tax returns annually covering quarterly prepayments and annual payments of premium taxes, retaliatory taxes and surplus line brokers taxes.

Output	1975-76	1976-77	1977-78
Amount of taxes collected .....	\$232,000,000	\$273,000,000	\$299,000,000
Number of deficiency assessments .....	210	230	250
Number of extensions granted or denied .....	13	12	10
Number of refunds .....	83	65	50

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	8.5	9.7	9.7	\$194,203	\$244,636	\$252,267

DEPARTMENT OF INSURANCE—Continued

c. General Regulation

Functions included in this element are: field examination of insurers, at least once every three years; rating and underwriting examination of insurers, at least once in five years; monitoring of financial information on insurers for advance detection of conditions that could lead to insolvency, determining that proper disclosures are made to the insurance investing public by reviewing proxy statements and other solicitations, management of financially distressed insurance companies, and review of policy forms for disability insurance, group life policies, variable annuity contracts, workers' compensation policies, credit life and credit disability policies and all fraternal benefit society forms.

*It is proposed that one accountant and \$25,000, to purchase a programmable calculator, be added to facilitate the automation of financial analysis of casualty insurers. Also, due to an increase in companies under hazardous control and the need to evaluate the accuracy of cash reserves of casualty companies it is requested that one conservation and liquidation officer and two claims examiners, respectively, be added.*

Output	1975-76	1976-77	1977-78

## DEPARTMENT OF INSURANCE—Continued

## a. Producer Licensing

The Department is responsible for insuring that applicants for producer licenses possess adequate knowledge of the business of insurance and of pertinent laws and regulations. Activities include review of an applicant's qualifications; preparing, administering and grading written examinations; license approval and issuance; and recordkeeping. *To improve control of the automated licensing system it is proposed that a data processing manager, established administratively in the current year through reclassification of an existing position and revision of EDP contract amounts, be continued.*

## Output

	1975-76	1976-77	1977-78
Producer Examinations:			
Notified to take examinations.....	34,891	36,984	39,203

Expenditures.....	67.6	70.6	70.6	\$1,667,755	\$1,989,942	\$2,052,360

## b. Producer Compliance

The Department maintains a staff of insurance officers in Sacramento, San Francisco, Los Angeles and San Diego to receive complaints from the public concerning alleged misconduct by insurance agents or brokers. Complaints are investigated and, if there has been a violation of law, prompt corrective action is undertaken. *It is proposed that 6 vacant investigator positions be deleted.*

## Output

## RIOT AND CIVIL DISORDERS INSURANCE

The objective of this program is to make available adequate property insurance coverage against losses from riots and civil disorders to areas of the state which are unable to obtain such insurance at the present time. During the period 1970-71 through 1975-76, the State has paid total premiums of \$6,383,144. Premium refunds in the amount of \$1,601,649 have been received making the net total cost for this coverage \$4,781,495. Additional premium refunds are anticipated in the current and budget years.

## DEPARTMENT OF REAL ESTATE

### Program Objectives and Description

The Department of Real Estate's objective is to protect the public in offerings of subdivided property, real property securities, real estate syndicate securities, and in real estate transactions handled through agents. To accomplish this a minimum level of competence is established for the licensing of real estate agents, and disclosure and affirmative standards are set for subdivision offerings. A special unit assists homeowner associations to understand their duties and to exercise their rights.

Prevention of fraud, deceit and misrepresentation in the real estate marketplace is a departmental responsibility. The Department of Real Estate takes disciplinary, civil and criminal action against licensees and others who have violated the real estate law and the Subdivided Lands Act.

In addition, the department assists in the advancement of education and research in the field of real estate to aid the consumer in understanding real estate and to encourage a professional orientation of those in the real estate business. Nonlicensees constitute over 50% of those currently enrolled in college-level real estate courses. All activities of the department are supported by fees from licensees, subdividers and applicants for license or permit.

IV.	Distribute home buyers guides .....	-	93,200

### I. TRANSACTION ACTIVITIES

#### Program Objectives and Description

The consumer is relatively uninformed of the technicalities of real estate law and the problems associated with real estate transactions. Because dealing in real property is often a once-in-lifetime activity for a large segment of the public, it is in the public interest that the state should license and regulate only qualified persons to competently and honestly transact real estate business between buyers, sellers, and renters of real estate.

#### Authority

Business and Professions Code, Division 4, Part 1.

## DEPARTMENT OF REAL ESTATE—Continued

## a. Licensing

The examination section prepares and submits suggested questions to a committee for review. The approved questions are placed in a questions library which contains approximately 2,500 questions and requires continual updating. The examination section draws on these questions to prepare examination booklets which are supplied to all offices where examinations are given throughout the state. All examinations are scored and notices of test results are sent to applicants. Some other states have elected to administer to their applicants the uniform portion of the California examination. They fully reimburse the Department of Real Estate for this.

There has been a dramatic, unanticipated increase in the licensing workload of the Department during the 1976-77 budget year. This includes substantial increases in examination applications received, examinations scored, salesman original license applications processed, and broker original license applications processed. As a result 7.5 positions were added in the midyear by deficiency authorization to reduce large backlogs and maintain an acceptable level of service to current and prospective licensees. It is proposed that two more clerical positions, in addition to those administratively established, be funded for the budget year to deal with projected continued workload increases.

Output	1975-76	1976-77	1977-78
Total licensees.....	254,236	275,000	296,500
Original broker licenses issued.....	5,245	6,031	6,935
Original salesman licenses issued.....	26,993	31,042	35,698

Salesman examinations.....	57,620	66,263	76,202
Input	75-76	76-77	77-78
Expenditures.....	94.8	105.3	108
	1975-76	1976-77	1977-78
	\$1,543,264	\$1,782,277	\$1,841,047

## b. Regulatory and Recovery

Investigations are made of complaints received from the public, and by motion of the district offices. If the investigation shows that there has been a violation of Real Estate Law, formal action may be taken against the licensee. Normally, an accusation is issued and a formal or administrative hearing is held which can result in the suspension or revocation of the license. The hearing may also result in the issuance of a restricted license. Many of these investigations result in the issuance of Desist and Refrain Orders, Civil Injunctions and criminal prosecutions. Licensees involved in subdivision violations are subject to disciplinary action against their licenses.

When a member of the public suffers a financial loss and obtains a fraud judgment against a licensee who is unable to satisfy the judgment, he may file a claim against the Real Estate Recovery Fund. A court hearing is held to determine whether the claimant satisfied all of the requirements of law to justify the claim. Prior to the court hearing, the recovery fund staff investigates the transaction on which the claim is based. When a claim is held valid and paid, the license of the broker or salesman is suspended until the licensee repays the claim in full to the fund, together with 4 percent interest.

It is proposed that regulatory enforcement efforts receive renewed and expanded emphasis both during the balance of the current year and in the budget year. Substantial present and projected increases in complaints received and in the number of active licensees supports the requested new positions which are categorized as follows for the 1977-78 budget year: (1) Five additional positions to handle existing and anticipated complaint workload increases. (2) Nine additional positions to combat the proliferation of illegal subdivision activity statewide. (3) Six additional positions are proposed for the Anti-Discrimination regulations promulgated by the Department under the authority of Business and Professions Code, Section 125.6. (4) Six additional positions are proposed to institute a demonstration audit program to assess the value to the consumer of increased monitoring of broker trust fund accounts.

Output	1975-76	1976-77	1977-78
Complaints.....	6,643	7,100	7,500

	\$2,721,074	\$2,984,858	\$3,582,935

## II. OFFERINGS AND SECURITIES

## Program Objectives and Description

The purchase of real property is the largest investment made by most families. The subdivision laws are designed to assure that developers will do what they promise and that purchasers will get that for which they bargained. Completion of projects or adequate financial arrangements to assure completion is required before the developer can offer his property for sale. Since condominiums and planned development subdivisions involve the complexities of common ownership of land, a "reasonableness" test is applied in qualifying such offerings. Because sales of out-of-state land are often made sight unseen, a regulatory test of fairness is applied to such offerings.

The sale of notes and trust deeds often constitutes a real property security. To prevent fraud in these sales the fair, just and equitable test is applied. Real estate syndicate securities sold to the public and issued by real estate syndicates formed for the sole purpose of acquiring an interest in real property are also subject to fraud and misrepresentation. Public protection is provided through laws administered by this department.

## Authority

Business and Professions Code, Division 4, Parts 1 and 2.

## DEPARTMENT OF REAL ESTATE—Continued

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78
Totals, Offerings and Securities .....	53.7	64.6	73.2	\$1,347,798	\$1,680,631	\$1,924,965

c. Syndicate securities .....	2.9	2.9	2.9	80,464	100,334	103,123

## a. Subdivisions

Subdividers of in-state lands are required to obtain a public report before the subdivided land may be offered for sale. The public report discloses facts concerning each subdivision which are of fundamental interest to a prospective buyer. Before a public report is issued, the subdivider must file an application and documentation in proof of statements made therein, and in some cases, he must demonstrate that adequate financial arrangements have been made for the completion of improvements. The application and documents are reviewed, the subdivision is inspected, and a determination is made that the offering is not fraudulent before a final public report is issued. In subdivisions which have a common facility, a determination is made that the offering is reasonable. Common facility subdivisions, such as condominiums, are increasing on an accelerated basis. In land projects advertising is screened and purchasers have rescission rights for 14 days.

*Subdivision filings during the first three months of 1976-77 were up 36 percent over 1975-76 levels, necessitating a deficiency authorization in the current year to fund 12 positions. Eight additional positions are proposed for the 1977-78 budget year to cope with projected workload increases.*

*One additional position is requested to increase the capability of the Homeowner Association Assistance Desk, which monitors the performance of subdividers following the issuance of a public report. Since July 1975, the Desk has been instrumental in causing the recovery of over \$1,323,000 by homeowner associations by effecting collection of overdue assessments from subdividers and obtaining assurance that promised facilities will be completed.*

Output	1975-76	1976-77	1977-78
Subdivision filings.....	2,791	3,400	3,800
Number of lots .....	90,635	108,000	121,000

Advertising screened .....	202	238	270
Impound audits .....	233	240	250

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	48.5	59.4	68	\$1,171,506	\$1,460,804	\$1,699,027

## b. Real Property Securities

The regulation of subdivisions of land located outside of California is more rigorous. In addition to the in-state requirements, a determination must be made that the offering of the subdivided land is fair, just and equitable. To assist in this determination, an appraisal of the property is required before a public report and permit can be issued. The cost of appraisal, report and permit is paid by the subdivider.

Public reports and permits expire at the end of one year and generally are renewed for at least one more year. The file, public report and permit are brought up-to-date. Approximately nine renewal permits are now issued annually for each original permit, reflecting the continuing work generated by subdivisions that were first issued permits as long as ten years ago.

Anyone who sells notes secured by trust deeds to the public must make application for a permit when the notes are classed as real property securities. Applications are screened, appraisals are required, and a determination is made that the sale of the securities will be fair, just and equitable.

Output				1975-76	1976-77	1977-78
Out-of-state subdivision filings .....				11	19	26
Input				75-76	76-77	77-78

				1975-76	1976-77	1977-78
				\$95,828	\$119,493	\$122,815

## c. Syndicate Securities

Real Estate syndicates of one hundred or less investors (other than corporations) formed for the sole purpose of acquiring an interest in real property must make application for a permit before the real estate syndicate securities may be offered or sold to the public. Applications are screened, valuations are required, and a determination is made that the sale of securities will be fair, just and equitable.

Output				1975-76	1976-77	1977-78

## III. EDUCATION AND RESEARCH

## Program Objectives and Description

Knowledge of real estate law, principles and practices, real estate financial and construction markets and of other real estate problems such as population shifts, housing needs, and urban, suburban and rural development is essential to real estate agents and to related industries such as title insurance, escrow, savings and loan, mortgage and construction, as well as sections of the general public and government. A primary source of such knowledge is provided by the education and research program. Competent real estate agents are necessary to ensure continued consumer confidence in the real estate industry. Publications are provided to maintain the professional level of competence of licensees and to inform the consumer on real estate matters.

## DEPARTMENT OF REAL ESTATE—Continued

## Authority

Business and Professions Code, Division 4, Part 1.

b. Publications .....	2.9	2.9	2.9	252,844	329,811	431,482

## a. Education and Research

The education activity is directed toward developing and screening curriculum and education programs to improve the level of competence of license applicants and licensees and to provide real estate consumer education for the general public. The research portion is directed to all phases of real estate activity including study of the needs of real estate education, marketing financing, and land use, urban problems and other factors of real estate economics that benefit the general public as well as real estate licensees.

As a result of the passage of SB 1697 (Chapter 271) in 1976 the Real Estate Education Research and Recovery Fund will be abolished January 1, 1977. After that date all funding will be from the Real Estate Fund. Separate accounts will be maintained in the Real Estate Fund for Education and Research as well as Recovery allocations.

Output	1975-76	1976-77	1977-78

## b. Publications

Publications prepared and distributed by the Department include the Real Estate Examination Study Manual and the Real Estate Reference Book. These are essential professional tools for licensees, subdividers, as well as title insurance, escrow, savings and loan and mortgage companies. The Real Estate Bulletin, published quarterly, is furnished to all licensee to keep them abreast of changes in real estate law, the Real Estate Commissioner's policy, and educational opportunities and activities. Various pamphlets, reports and consumer oriented brochures are also published and distributed as sources of information regarding real estate.

*It is requested that \$93,200 be added to cover materials and distribution costs of a consumer education program.*

Expenditures .....	2.9	2.9	2.9	\$252,844	\$329,811	\$431,482

## IV. ADMINISTRATION

## Program Objectives and Description

The Real Estate Commissioner, chief executive of the department, is charged with interpreting and applying the policies of the Governor, controlling the operations of the Department's offices, and acting as official spokesman for the Department. The administrative services provided by this program include personnel, business, and accounting. *It is proposed that a personnel analyst and a CEA III position be added to facilitate a reorganization of the Department in response to both the considerable growth the Department is experiencing as a result of workload increases, as well as policy redirection.*

## DEPARTMENT OF SAVINGS AND LOAN

The principle objectives of the Department of Savings and Loan are to protect the funds of the savings and investing public held by state-licensed associations, to assure compliance by associations with consumer protection and anti-discrimination laws and regulations, and to assure the continued financial growth of these associations consistent with public need and convenience.

The department's program titled Supervision and Regulation consists of these elements: examination, appraisal, facilities licensing and legal assistance, economic and financial information, boards of inquiry, and administration.

### PROGRAM REQUIREMENTS

	1975-76	1976-77	1977-78
I. Supervision and regulation .....	\$4,117,980	\$5,205,748	\$5,567,942
Reimbursements .....	-2,662	-25,000	-25,000
NET TOTALS, PROGRAM ( <i>Savings and Loan Inspection Fund</i> ) .....	\$4,115,318	\$5,180,748	\$5,542,942
Personnel years .....	154.6	176	180

### SIGNIFICANT PROGRAM CHANGES

Program	Description	Personnel Years	Dollars
I.a.	Add fair lending examiners.....	2	\$51,663
I.b.	Add fair lending appraiser .....	1	25,831
I.d.	Expand Economic and Financial Information Division capabilities .....	-	150,000
I.f.	Add clerical support .....	1	11,278

### I. SUPERVISION AND REGULATION

#### Program Objectives and Description

There are approximately 6.7 million savings and share accounts in state-licensed associations which represents an increase of over 400,000 in the number of these holdings over the prior year. The average amount in these accounts is \$4,600. Associations channel these public funds into loans for residential and commercial building development and construction. To protect these funds and to assure that the saving and borrowing public are properly and legally served, supervision and regulation activities are directed at the prevention of conditions or practices which would threaten the safety and solvency of associations or are detrimental to public need and convenience.

#### Authority

California Financial Code, Sections 5000 through 11650.

Program Elements	75-76	76-77	77-78	1975-76	1976-77	1977-78
a. Examination.....	67.7	75	77	\$1,682,699	\$2,100,409	\$2,230,191
b. Appraisal .....	33.5	34	35	930,386	984,989	1,038,449
c. Facilities licensing and legal assistance .....	5.3	7	7	202,806	291,571	300,242
d. Economic and financial information .....	12.2	16	16	423,398	755,264	878,931
e. Boards of inquiry .....	-	4	4	-	170,942	182,581
f. Administration.....	35.9	40	41	878,691	902,573	937,548

#### a. Examination

The purpose of this element is to provide information to the Commissioner that verifies compliance with law, regulations and directives, evaluates the soundness of operating policies and procedures, and ascertains the financial condition and solvency of the association. The information is obtained from examination of assets and activities as reflected in books, records, securities and papers of the association, its holding company, service corporations, and other related entities. By law, associations must be examined at least once in a two-year period. However, most of them are examined with greater frequency. Usually, the holding company, service corporation and related entities are examined concurrently. *Two additional examiners are proposed in connection with added fair lending responsibilities.*

Output	1975-76	1976-77	1977-78
Association assets (billions) .....	\$41.7	\$46	\$50
Number of associations .....	87	89	90
Assets examined (billions) .....	\$31.6	\$35.1	\$38.7
Association examinations .....	83	89	95
Holding company examinations .....	21	21	21
Service corporation examinations .....	30	38	38
EDP installations and service center examinations .....	25	26	26
Enforcement of Fair Lending Practices:			
Loan files reviewed .....	-	38,500	38,500
Denied applications reviewed .....	-	115,500	115,500

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	67.7	75	77	\$1,682,699	\$2,100,409	\$2,230,191

#### b. Appraisal

The purpose of this element is to provide the Commissioner with information to determine whether statutory limits on loan to value ratios have been exceeded, whether assets have been precisely valued and whether imprudent or unsafe appraisal practices exist. The information is obtained by revaluation of property or investments of an association and of any property which constitutes security for a loan held by an association. The test appraisal is the principal method of revaluation. This element is also responsible for ascertaining whether association appraisers are classified properly and perform in conformance with class requirements. For the appraisal element, the number and types of loans recorded is the chief workload determinant. *An additional appraiser is proposed to handle increased workload related to the enforcement of fair lending regulations.*

Output	1975-76	1976-77	1977-78
Appraisal examinations .....	99	102	104
Appraisal reports .....	5,675	6,370	6,405
Fair lending appraisal reviews .....	5	250	250

## DEPARTMENT OF SAVINGS AND LOAN—Continued

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	33.5	34	35	\$930,386	\$984,989	\$1,038,499

## c. Facilities Licensing and Legal Assistance

The purpose of this element is to enable the Commissioner to certify corporations to conduct a savings and loan business in California, to license association branches and service offices, to approve mergers and acquisitions of existing associations, to approve change of locations of association branches and to approve change of name of associations. It also is responsible for legal assistance in promulgating, amending, and revising administrative regulations, in proposing and drafting new legislation, in analyzing other proposed legislation and in providing interpretation of existing laws and regulations. This element is also responsible for consumer inquiries and complaints.

Output	1975-76	1976-77	1977-78
Facilities licensing hearings.....	178	192	206
Facilities decisions.....	278	290	300

Expenditures.....	5.3	7	7	\$202,806	\$291,571	\$300,242

## d. Economic and Financial Information

The purpose of this element is to provide the Commissioner with information about the financial condition and performance of individual associations, and about state mortgage lending patterns. It assists in the analysis of merger, branch, and new association applications and is responsible for departmental electronic data processing. *Additional funds are proposed to allow implementation of the recommendations made in a recently completed analysis of the Department's management information system. However, no allocations will be made for this purpose until a feasibility study is submitted to, and approved by, the State Data Processing Management Office. Funds are also requested to provide consultant services for special research projects, including participation in an interagency task force on electronic funds transfer systems (EFTS).*

Output	1975-76	1976-77	1977-78
MIS financial reports.....	364	368	380
MIS loan records, edited and processed.....	177,000	350,000	325,000

Computer programs developed/maintained.....	18	24	26
Facilities applications reviewed.....	128	130	130

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	12.2	16	16	\$423,398	\$755,264	\$878,931

## e. Boards of Inquiry

This element provides the mechanism to review individual complaints of violations of the Fair Lending (anti-redlining) regulations and applicable provisions of law. The boards determine whether a complaint has been substantiated and report all findings of violations to the Business and Transportation Agency Secretary and the Commissioner for possible enforcement action.

## Output

This element provides policy direction and administrative and clerical support to the other program elements. *An additional clerk is requested to support proposed additions to professional staff in other program elements.*

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	-	4	4	-	\$170,942	\$182,581

## STATE TRANSPORTATION BOARD

The principal objective of the State Transportation Board is to advise and assist the Secretary of the Business and Transportation Agency and the Legislature in formulating and evaluating state policy and plans for transportation programs within the state. In addition, the Board will provide the Secretary and the Legislature with advice, recommendations and assistance concerning the effectiveness and compatibility of public and private transportation programs in relationship to statewide objectives, policies and plans, such as, but not limited to environment, energy, socio-economic, and land use matters. The Board provides leadership through policy guidance to the Department of Transportation, and to transportation planning agencies for the development of coordinated and comprehensive transportation plans, and exercises approval of state and regional transportation planning funds.

## ADMINISTRATION OF STATE TRANSPORTATION BOARD

## Program Objectives and Description

The State Transportation Board has been charged with the responsibility of maintaining a broad overview of the effectiveness and compatibility of public and private transportation programs so as to provide the Secretary of the Business and Transportation Agency and the Legislature with advice and assistance in formulating and evaluating State policy and plans for the State's transportation programs. This responsibility includes the Board's adopting, amending, or disapproving the Department of Transportation's submitted California Transportation Plan and subsequent plan updates. In the development of this Plan, the Board provides financial assistance to the regional planning agencies and to the State Department of Transportation from the Transportation Planning and Research Account. Inconsistencies among the regions and conflicts between regional plans and the State Plan are resolved by the State Transportation Board.

Concurrent with these responsibilities, the State Transportation Board also (1) reviews the Department of Transportation budget to assure the conformance with the plans and policies adopted by the Board; (2) pursuant to new legislation, Chapter 1340, Statutes of 1976, approves Transportation Planning activities funded from the Transportation Planning and Research Account; (3) provides recommendations in cooperation with affected public entities and utilities on transportation uses of railroad lines proposed to be abandoned; (4) provides findings, conclusions and recommendations on fulfillment of the legislative intent of the Transportation Development Act (Chapter 1400, Statutes of 1971); and (5) approves applications for funds for public mass transit guideways pursuant to Proposition 5, 1974 as being in conformance with Regional Transportation Plans and the California Transportation Plan.

The California Transportation Plan (CTP)—Policy Element prepared by a Task Force established under authority of the Agency Secretary and with assistance by Caltrans is directed at the achievement of a coordinated and balanced multimodal transportation system for the State that is consistent with the State's social, economic, and environmental goals. Caltrans is continuing preparation and updating of the State planning and programming portion of the Plan pursuant to Board direction. Assembly Bill 69 (Chapter 1253/1972) requires the Board, after holding public hearings, to adopt the CTP and transmit it to the Legislature not later than January 1, 1976. The Board, however, cannot adopt a Plan until the Legislature has passed an act which "shall constitute a legislative declaration of statewide transportation goals, objectives and policies". It is anticipated that the Business and Transportation Agency, Caltrans, and the State Transportation Board will use portions of the Policy Element of the CTP as administrative policy guidelines until such time as the Board has legal authority to adopt a Plan. *Consultant services are reduced \$50,000 in the Budget Year.*

## DEPARTMENT OF TRANSPORTATION

The overall goal in this budget is to strive towards a balanced and interconnected transportation system that considers all modes within realistic funding levels consistent with social, economic, and environmental objectives.

CalTrans' first obligation is to protect the enormous investment that has already been made in the existing highway system through maintenance and operational improvements to that system. A large portion of the system is middle-aged and each successive year results in additional deterioration unless corrective measures are taken. The interstate system within California is nearly complete, and attention is now focused on closing the few remaining gaps. Construction of new highway facilities, however, still represents nearly one-half of all planned capital outlay expenditures.

The latest six-year highway planning program prepared by CalTrans, of which this budget represents the first year, enables CalTrans to match all apportioned Federal-Aid over the next six years without a tax increase. The programming of highway projects over the six-year period also stabilizes the level of staffing without the foreseeable need for sudden man-power reductions or increases.

CalTrans recognizes that the vast majority of travel will continue to take place by private automobile. Steps can be taken, however, to utilize existing facilities more efficiently by encouraging multiple occupancy of vehicles during commuting hours and by using the present highway system as the basic network for improved public transportation services. Expansion into alternate forms of surface transportation will assist not only in relieving highway congestion but also in fulfilling basic transportation needs of the disadvantaged, the elderly, and the handicapped. Funding for bicycle facilities has also been included in this budget.

The Department is concerned about transportation's impact upon the environment — its contribution to air pollution, the consumption of energy, excessive noise, effects upon scenic and environmentally sensitive areas, and changes in land use patterns. This budget proposes specific efforts to assist in mitigating adverse noise and aesthetic effects of highways in residential areas and schools.

## SUMMARY OF PROGRAM REQUIREMENTS

	1975-76	1976-77	1977-78

## I. TRANSPORTATION PLANNING

## Program Objectives and Description

The character, role and scale of the Transportation Planning program for fiscal 1977-78 will be similar to that of 1976-77.

The 1978 Transportation Plan, concentrating on state-level transportation policy, will have been completed early in 1977.

The 1977-78 budget emphasizes activities that implement State transportation policies. This includes developing realistic capital outlay plans (both by CalTrans and regional planning agencies) which incorporate the social, environmental, energy and economic policies of the plan, developing program direction and regional planning guidelines that translate policy decisions in the state plan into a program of actions, and developing a legislative program based on the policy plan.

A second element of this budget is the effort necessary to produce the 1978 California Transportation Plan. By July of 1977, the 1978 Transportation Plan refining 1977 policy issues and defining policy actions will be in draft. After July, the draft plan will be released to the public and hearings will be held covering the plan, and its financial and environmental components. As a result, the plan will be further analyzed, changed and presented to the State Transportation Board.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

<sup>a</sup> Nongovernmental cost revenues and expenditures are excluded from budget totals.

<sup>b</sup> Federal funds and expenditures therefrom are not included in budget totals.

## DEPARTMENT OF TRANSPORTATION—Continued

A third major class of activity is State involvement, through staff assistance and subventions, in regional transportation planning. This activity has resulted in the creation or further development of 43 regional planning agencies and annual or biannual production of comprehensive transportation plans in each of the agencies.

## Authority

Chapter 1253, Statutes of 1972.

## Output

## Summary of Major Products

## Regional

- Ten regional transportation plan updates responsive to State policies, by metropolitan planning organizations.
- Air quality consistency determinations by 10 metropolitan planning organizations.
- Statements of Air Quality Alternatives by 10 metropolitan planning organizations and the California Tahoe Regional Transportation Planning Agency.

- Transportation Improvement Programs and Transportation Systems Management Elements by 10 metropolitan planning organizations.
- Regional work programs covering the 1978–79 Fiscal Year.

## State

- 1978 California Transportation Plan emphasizing action plans to implement state policy.
- Environmental Impact Report for 1978 California Transportation Plan.
- CalTrans program direction.
- Economic analysis of transportation alternatives.
- Summary reports of regional plan updates.
- Guidelines and certification process for regional products.
- Statewide system plans of aviation, highway, transit and nonmotorized facilities
- Statewide Transportation Control Plan incorporating air quality and energy conservation alternatives.
- Public Participation Documentation Report.
- Regional policy analysis models.
- Work programs for 1978–79.
- Organizational and program budgets for 1978–79.

Program Requirements	75–76	76–77	77–78	1975–76	1976–77	1977–78
Totals, Transportation Planning Program .....	433.9	364.8	382	\$15,123,527	\$14,244,176	\$13,639,100

## Fund Source

Transportation Planning and Research Account .....	11,981,456	9,604,404	8,955,949
Reimbursements: Federal .....	142,071	250,000	268,151

## Program Elements

a. Regional planning .....	240.5	195	189	\$9,372,927	\$9,212,676	\$7,546,100
b. Statewide systems planning .....	71.1	73.4	88	1,894,000	2,256,100	2,964,600
c. State studies .....	23.5	23.0	18	844,000	758,600	774,200
d. Liaison .....	12.6	8.3	12	307,400	234,200	388,200
e. Program support .....	86.2	65.1	75	2,705,200	1,782,600	1,966,000

## a. Regional Planning

This program element provides financial and technical assistance to the 43 regional planning agencies to fulfill the State's responsibilities in cooperative regional transportation planning. The element funds subventions which pay for the activities of regional planning agencies and reimburse CalTrans for direct technical support for preparing regional transportation plans. In addition, regional planning involves subvention administration, monitoring, coordination and liaison with the local and regional agencies to ensure that timetables and requirements called for by the California Transportation Act of 1972 are met.

The regional process is primarily oriented toward facilities, operations, programming, implementation and recommendations on state programs and interregional systems. The regions deal with issues which require regional action and meet Federal and State requirements for regional plans.

Regions also assist in identifying issues which require State actions. Each of the regions provides general technical support on local or interregional planning issues. These efforts and subsequent regional plans provide recommendations on issues or facilities of statewide concern and helps the State assess the need for new or changed transportation programs.

Input	1975–76	1976–77	1977–78
Expenditures .....	\$9,372,927	\$9,212,676	\$7,546,100
Personnel years .....	240.5	195	189

## b. Statewide Systems Planning

The primary purpose of Statewide Systems Planning is the development of action plans to implement State transportation policy. It also incorporates the process of collecting, analyzing and integrating information.

Additional information is obtained through public participation hearings and regional plans. Omissions and areas of conflict are located and dealt with and alternatives are formulated. A short-range program of State legislative and administrative actions will be developed. Further steps will include development of the means to implement policy decisions and monitor effectiveness of the actions taken. This program relies on the input generated through State Studies to develop new programs that respond to changing State concerns.

# DEPARTMENT OF TRANSPORTATION—Continued

## Output

- 1978 California Transportation Plan.
- 1978 California Transportation Plan Environmental Impact Report.
- 1979-80 Planning Guide.
- Certified Energy and Air Quality Elements of State and Regional Plans.
- Transportation systems management program demonstration projects.
- Energy conservation and air quality models.
- Transportation/Land use policies and guidelines.
- Statewide systems of aviation, highway, rail transit and nonmotorized facilities.
- CalTrans program direction.
- Statewide Person Travel Analysis and Forecast Report.
- Certified Financial Elements of Regional Financial Transportation Plan.

## Input

	1975-76	1976-77	1977-78
Expenditures .....	\$1,894,000	\$2,256,100	\$2,964,600
Personnel years .....	71.1	73.4	88

## c. State Studies

This element of the program addresses specific unresolved issues or gaps identified in developing the California Transportation Plan and throughout the continual planning process. The focus is on the development of state transportation issues. The purpose of these special studies is to provide decision makers with the necessary information to arrive at objective conclusions on multiregional or statewide issues. This element of the program fits closely with the activities described in Regional Planning and Statewide Systems Planning. Although capable of functioning autonomously, the studies themselves receive input from various regional bodies.

Studies are also designed to provide either policy decisions or general solutions leading to more specific studies.

## Output

- Policy Study Reports
  - Economic Consideration of Transportation Alternatives
  - Cost and Regulation of Freight Transportation.
  - Deep Water Ports.
  - City and County Roads and Streets Needs.
- Corridor Study Reports
  - West Coast Corridor Study.
  - Sacramento-Tahoe Corridor Study.
- Intraregional corridor studies.
- Identification of corridor problems.

## Input

	1975-76	1976-77	1977-78
Expenditures .....	\$844,000	\$758,600	\$774,200
Personnel years .....	23.5	23	18

## d. Liaison

Liaison consists of activities and related documentation involving planning efforts outside CalTrans. The purpose is to become involved in legislation affecting planning for transportation in California, to keep informed about and respond to other governmental programs, to be aware of business plans and programs which may affect statewide planning and to insure that public groups, elected officials, government agencies and private citizens can affect transportation decision-making.

## Output

- Position papers on proposed legislation.
- Legislative testimony.
- Resolution of conflicts between planning studies.
- Involvement in external planning.
- Support for advisory groups.
- Transportation planning workshops.
- Annual public participation documentation report.

## Input

	1975-76	1976-77	1977-78
Expenditures .....	\$307,400	\$234,200	\$388,200
Personnel years .....	12.6	8.3	12

## e. Program Support

Program Support involves technical, managerial and administrative activities supporting the mainline transportation planning programs. Administrative, clerical and managerial services for the allocation of resources, personnel matters and the monitoring of administrative charges in the eleven transportation districts are provided on a routine basis. Data management assures that needed data is available without redundancy and that new analytical techniques are developed to analyze the impact of policy decisions.

## Output

- Management of the planning effort in CalTrans.
- Work space, equipment and administrative services.
- Work programs, program and organization budgets, accounting services.
- Manuals and guides for detailed computer related activities.
- Sketch planning model.
- Statewide origin and destination information.

## DEPARTMENT OF TRANSPORTATION—Continued

## Input

	1975-76	1976-77	1977-78
Expenditures .....	\$2,705,200	\$1,782,600	\$1,966,000
Personnel years .....	86.2	65.1	75

## II. MASS TRANSPORTATION

## Program Objectives and Description

California's changing transportation needs require a much greater emphasis on improved public transportation services and facilities. Economic conditions, environmental concerns and the needs of the elderly, the handicapped and the poor are basic reasons why the State has a responsibility to provide a central direction to public transportation development and to contribute a share of the resources necessary for that development. The funding gap between local and Federal support to improve public transportation necessitates an increasing State involvement, both in terms of providing actual dollars, and determining statewide priorities for allocation of the limited funds.

The program consists of two basic elements: (1) participation in local transit decision-making as a basis for the allocation of State and Federal funds and providing management and technical assistance to local transit agencies; and (2), planning and implementation of interregional public transportation services and facilities. This program has provided State government with its first tools for addressing the problems and needs of transit in California by establishing a base of technical expertise for a more efficient program of public transportation development.

The Mass Transportation Program's short-term goal is to increase the use of existing public and private transportation systems through improved service — service which better meets the public needs and desires. The longer range goal is to improve the level of public transportation consistent with the goals, priorities, and objectives of the regional and statewide comprehensive transportation system plans as well as Administration policies.

This program is primarily funded from the Transportation Planning and Research Account from monies collected under the Transportation Development Act of 1971.

## Authority

- Article XIX, California State Constitution
- Chapter 1400, Statutes of 1971.
- Chapter 1253, Statutes of 1972.
- Chapter 1428, Statutes of 1974.
- Chapter 1470, Statutes of 1974.
- Chapter 1130, Statutes of 1975.
- Chapter 1139, Statutes of 1975.
- Chapter 1333, Statutes of 1976.
- Chapter 1348, Statutes of 1976.
- Chapter 1349, Statutes of 1976.

## Output

Some past and current year accomplishments include: implementation of bus and rail demonstration projects; construction of the Richmond cross-platform terminal; comprehensive transit related training such as the "State of the Art Workshop" and "Small Urban Transit Systems Workshop"; many special studies and reports on transit related matters; successfully obtained Federal funds for demonstration, research, and training projects; and staff review and recommendations on transit projects competing for State and Federal Funds.

During fiscal year 1977-78, the Mass Transportation Program will administer the provisions contained in Chapter 1130, Statutes of 1975 (SB 283) including:

- Implement Bus Demonstration Programs.
- Conduct Rural Public Transportation Projects.
- Expand Improvements to Amtrak and Commuter Service.
- Acquire Abandoned Railroad Right of Way for alternative transportation uses.
- Design and implement a comprehensive "Bus Operator Training Program".
- Continue to seek Federal funds for many demonstrations and special studies in public transit.
- Provide technical assistance through consultation and personnel loans to local planning agencies and transit operators.
- Evaluate and report upon the Richmond cross-platform terminal.
- Publish safety guidelines for lift equipment for wheelchairs and test results of wheelchair securement systems.
- Maintain the data bank of public transit related history, trends and forecasts of costs, performance, and transportation needs for elderly, handicapped and rural citizenry for use in decision-making by local planning agencies, transit operators, and the State.

d. Research and development .....	14.2	2.5	(4)	571,381	350,300	(374,900)

DEPARTMENT OF TRANSPORTATION—Continued

a. Technical Programs

This element provides for the development of public transportation technical programs which will maximize use of existing facilities and respond to the needs of the unserved and underserved segments of the public transportation market.

This element covers activities to encourage the establishment of "the appropriate mix of transportation modes—to provide economical and efficient transportation service consistent with the desires for mobility" as expressed in the legislation establishing the Department of Transportation.

The individual activities to support these efforts are grouped into the following categories:

Transit Management Assistance – includes activities to improve public transportation services through upgrading of management, training, planning environmental considerations and meeting the needs of special groups.

Transit Operational Assistance – includes activities to improve public transportation services through the development of better equipment and operational procedures. Emphasis is on determination of criteria to evaluate services, identify unmet needs and optimize existing facilities through coordination, multiple uses and innovation. Vehicle improvement studies and demonstrations are focused on the needs of the elderly and handicapped.

Transit Service Assistance – includes activities to improve public transportation services through the development of better user information systems, marketing, coordination of existing services and identifying the needs of special groups such as the elderly, handicapped and underprivileged.

Transit Program Development – includes activities to improve public transportation services through the implementation of demonstration projects including new bus and rail operations and innovative operational, management, marketing and similar efforts to improve public transportation.

Output

During the past and current years, this element developed the successful "Bay Area Urban Transit Institute" and "State-of-the-Art in Public Transit" training programs, initiated technical studies on safer wheelchair loading and securement systems, revised the manual of engineering design and planning standards for transit guideways, published a self-instructional transit planning program for small communities, began implementation of the various projects mandated by Chapter 1130, Statutes of 1975 including the Abandoned Railroad Report, began construction of the Richmond cross-platform terminal, implemented, or initiated various demonstration projects.

Anticipated outputs for 1977-78 include:

—Will conduct special studies and prepare reports covering such items as required by legislation or as necessary to maintain a leadership role in public transit.

—Administer and evaluate demonstration grants established by Sections 5, 6 and 9 of Chapter 1130, Statutes of 1975 (SB 283).

—Determine public transit training needs and develop appropriate courses such as "Bus Operator Training Program".

—Implement additional bus and Amtrak service improvements in the San Diego/Los Angeles and San Francisco/Stockton/Sacramento corridors.

Input	1975-76	1976-77	1977-78
Expenditures <sup>1</sup> .....	\$953,134	\$8,415,592	\$11,191,816
Personnel years <sup>1</sup> .....	31.5	51.8	56.7

b. Financial Programs

This element includes the administration of State and Federal transit financial assistance programs for which the Department is responsible and analysis of transit financial issues.

Major objectives of this element include assisting implementing agencies in obtaining transit funding on an expeditious and equitable basis in compliance with State and Federal laws, rules, and regulations and in conformance with State, regional, and local transportation plans and Administration policies.

Federal transit financial assistance programs administered include capital and operating assistance grants under Section 5 of the National Mass Transportation Assistance Act of 1974, capital assistance grants to private non-profit organizations providing transit assistance to the elderly and handicapped under Section 147 of the Federal Highway Act of 1973. Participation in the Federal Aid Urban Program, continued under Section 105 of the 1976 Federal Highway Act, is also continued to ensure that public transportation projects receive their fair share of these funds which can be used either for streets and roads or transit.

State transit financial assistance programs administered include the Transportation Development Act of 1971 (SB 325), as amended, and the Article XIX of the California Constitution, transit guideway funding program.

This element also provides for exercising the Department's responsibilities under Chapter 1139, Statutes of 1975 (SB 580) for reviewing and approving the policies, procedures and performance standards of public entities proposing to utilize State or Federal funds for new or improved public mass transit guideways and their related facilities.

Output

—For the Governor, assist private non-profit organizations to provide transportation to the elderly and handicapped by administering \$1.5 million of UMTA Section 16(b) (2) funds for acquiring specialized transit vehicles and related safety equipment and related special equipment ensuring that services to be implemented with existing transit service.

—For the Governor, assist transit operators obtain \$8.3 million of UMTA Section 5 operating and capital assistance grants used to maintain or expand those transit services which conform with State, regional and local transportation plans and Administration policies.

—Encourage and assist transit interests in applying for Federal-Aid Urban funds for transit projects which conform with current plans and policies.

—Administer \$1.3 million capital and operating assistance grants under the Section 147 Rural Highway Public Transportation Demonstration Program.

—For the Secretary, administer approximately \$220 million of Transportation Development Act of 1971, Chapter 1400, Statutes of 1971 (SB 325) funds as amended, and ensure that transit receives its appropriate share of available funds in conformance with State laws and rules.

—Administer the Article XIX transit guideway funding program and evaluate proposed projects in conformance with State Transportation Board, California Highway Commission, and Administration policies.

—Administer provisions of Chapter 1139, Statutes of 1975 (SB 580) regarding review and approval of transit guideway projects proposed by public entities to utilize State and Federal funds to ensure that adequate process methods and project management control systems are used for effectively performing and accomplishing a project's development.

Input	1975-76	1976-77	1977-78
Expenditures <sup>1</sup> .....	\$1,480,254	\$5,617,103	\$5,574,700
Personnel years <sup>1</sup> .....	15.1	24.8	30

c. Program Administration

The element provides management and legal, fiscal and general administrative services for support of the Mass Transportation Program. It includes administrative, clerical and management services for personnel and training matters, contract administration, technical publications, allocation of resources and monitoring of administrative charges to the program.

DEPARTMENT OF TRANSPORTATION—*Continued*

## Output

- Provide administrative services.
- Coordinate and conduct training.
- Administer contracts and agreements.

## Input

	1975-76	1976-77	1977-78
Expenditures <sup>1</sup> .....	\$577,112	\$249,240	\$385,950
Personnel years <sup>1</sup> .....	18.7	8	13

<sup>1</sup> Costs were accumulated in a four-element breakdown in 1975-76 and 1976-77. A three-element distribution of costs is shown for these years for informational purposes.

## III. AERONAUTICS

## Program Objectives and Description

An evaluation of this program is currently underway for the Legislature. Therefore, the 1977-78 budget request is level with the 1976-77 budget for display purposes only. Decisions resulting from the evaluation will be presented at the earliest possible date.

California has six of the ten busiest airports in the U. S. One of every six planes and pilots in the U. S. is based in California, and the country's busiest air transportation corridor, Los Angeles/San Francisco, is in California. Such aviation activity creates problems of aircraft noise, potential hazards to fliers and the general public, and the need for a high-quality airport system. The existing Aeronautics Program supports the State's aeronautical activities primarily through a statewide system of safe, environmentally compatible airports by:

- Promoting aviation safety.
- Adopting and upholding standards for safe airports and heliports.
- Providing financial assistance to local government for safe, well-planned aviation facility development.
- Developing the California Aviation System Plan as part of a statewide transportation system integrated with the nationwide transportation system.
- Advocating airports vital to the State transportation system.
- Reducing nuisance of aviation noise.

The Aeronautics Program also administers the California regulations pertaining to sport parachuting.

## Authority

Public Utilities Code, Division 9.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78

d. Planning and noise .....	2.9	5.7	5.7	88,408	173,569	181,550

## a. Safety and Regulation

The Safety and Regulation element is responsible for the enforcement of State aeronautical laws and regulations. This includes conducting safety and permit inspections of airport facilities; issuing airport/heliport and parachute drop zone permits; maintaining a California airport inventory; regulating sport parachuting activities; and reviewing airspace utilization and obstruction case studies.

## Output

	1975-76	1976-77	1977-78
Permanent airport/heliport permits .....	14/11	25/20	25/20
Temporary airport/heliport permits .....	6/61	4/70	4/75
School and state building site safety inspections .....	21	20	20
Airspace utilization request evaluations .....	300	300	300
Airport regulation compliance inspections .....	12	20	20
Airport regulation compliance legal actions .....	3	5	10

## Input

Expenditures .....	\$221,463	\$247,259	\$261,790
Personnel years .....	6	7.1	7.1

## b. Local Assistance

Aviation consultants assist local governments in planning, developing and maintaining safe operating facilities; make recommendations regarding existing or proposed facilities; assist airport owning entities in obtaining financial aid to develop well-constructed, safe, and environmentally compatible aviation facilities; and advise in developing airport zoning and land use plans.

The Aeronautics Board reviews local assistance applications, insuring that they conform to statewide plans and standards; they also set project priorities, and allocate moneys for airport facilities development.

## DEPARTMENT OF TRANSPORTATION—Continued

Output	1975-76	1976-77	1977-78
Airport Planning and Development Consultations for:			
Annual \$5,000 grants to publicly owned airports .....	178	181	209

Personnel years .....	8.4	12.9	12.9

## d. Planning and Noise

This element (formerly Planning and Research) provides aviation planning expertise: for the development of the California Aviation System Plan; to local airport land use commissions; county and regional transportation entities; the Division of Transportation Planning; and the Public Utilities Commission. It also provides advice, reports and evaluations to airport land use commissions and to county and regional entities. Additionally, it is responsible for the administration of the California Airport Noise Standards.

Output	1975-76	1976-77	1977-78
Airport noise monitoring studies conducted .....	3	4	4
Airport noise monitoring evaluation reports .....	3	4	4
Airport noise monitoring system approvals .....	3	1	1

Airport noise variance hearings held .....	4	6	6
<b>Input</b>			
Expenditures .....	\$88,408	\$173,569	\$181,550
Personnel years .....	2.9	5.7	5.7

## IV. HIGHWAY TRANSPORTATION

## Program Objectives and Description

California's roads, streets, and highways serve over 99 percent of all the travel demand of Californians. In terms of vehicle miles traveled, more than half are recorded on the State highway system — less than 10 percent of the total roadway miles in the state. Highway facilities serve over three-fourths of California's commodity movement, and public transportation is overwhelmingly dependent upon buses using streets and highways.

The role of the Highway Transportation Program has been modified. Reduced state growth, energy and environmental concerns, and continuing erosion of financing have caused a change of emphasis from new facilities to maintenance, rehabilitation and operation of the existing system.

Ten major issues are exerting significant pressure on the Highway Transportation Program. These are:

- Increasing maintenance costs due to inflation and the growing inventory of highway facilities.
- A greater need for operational and rehabilitation improvements to protect the investment in the system as the existing highway facilities age.
- A continued high level of subventions to other entities such as cities and counties.
- Increasing costs of other State agencies that have first claim on common nongrowth revenues.
- A continued higher level of contribution to the Federal Highway Trust Fund than is returned to the State through Federal programs.
- Increasing community demand for completion of "their" projects regardless of program levels or costs.
- A larger-than-necessary backlog of freeway route adoptions in light of future program levels and a shift to more cost-effective alternative projects.
- Correcting the imbalance of expenditures in favor of the "North" county group which occurred during the 1975-76 capital outlay moratorium.
- The seemingly large State fund and Federal apportionment balances.
- Overcoming the effects of Departmental reorganization following an extensive period of staff reduction.

The Department, in view of these issues, has proposed a State highway program which emphasizes our responsibility to maintain and operate the existing State highway system at the highest levels of safety and service that resources will allow. It places increased emphasis on improving the appearance of the roadsides and on providing community compatibility improvements such as landscaping and noise barriers. It also programs nonmotorized facility improvements and projects using traffic management techniques whose objective is to move greater numbers of people in fewer vehicles. At the same time, it provides funds for projects which close some of the essential gaps in existing highways and freeways and makes substantial progress toward completing the Federal Interstate System. The current level of subventions is maintained to aid local and regional highways. Potential funding for mass transit guideway projects is also provided. No increase in gas tax is required to fund the program.

DEPARTMENT OF TRANSPORTATION—*Continued*

<sup>1</sup> Includes State Highway Account funds carried forward from 1975-76 as indicated in Fund Sources.

<sup>2</sup> Costs were formerly accumulated in a five-element breakdown which is shown below for information.

a. Operations and maintenance .....	6,516	6,811	(6,811)	\$165,640,223	\$208,166,000	(\$219,028,000)
b. Rehab. and operating improvements ..	2,677	2,640	(2,634)	81,375,261	274,621,000	(225,750,000)
c. Local assistance .....	244	238	(238)	98,540,609	153,974,111	(159,918,689)
d. Program administration .....	1,787	1,892	(1,892)	37,389,377	49,696,000	(49,761,000)
e. New facilities .....	2,877.2	2,001	(2,007)	378,926,285	277,094,126	(390,512,916)

## a. Maintenance and Rehabilitation Improvements

The activities in this element preserve the qualities of aesthetic and ecological compatibility, comfort, traffic service, safety, and the structural integrity of the existing State highway system through appropriate maintenance and rehabilitation improvements.

## Maintenance

Over 15,000 miles of State highways and eight toll bridges are maintained under this component of the program. Expenditures are primarily for personnel, equipment and materials; however, capital outlay is included for constructing new maintenance facilities and truck weighing stations. Both roadside rest and landscape maintenance are a part of this component. While the level of service has been reduced over the last several years to make more money available for other critical program areas, costs continue to increase.

## Output

	1975-76	1976-77	1977-78
Lane-miles maintained .....	52,177	52,696	53,178
Transportation and encroachment permits issued .....	139,000	139,000	121,000

## Input

Expenditures .....	\$143,752,514	\$172,591,000	\$180,051,000
State Highway Account .....			\$174,395,000
Toll Bridge Funds .....			5,656,000
Personnel years .....	5,505	5,801	5,807

## Reconstruction and Restoration

This work restores highway facilities, which have deteriorated by usage or weathering, to safe and economically maintainable standards. Major damage and disaster restoration projects correct damage caused by storms or other violence. Much of the highway system is approaching middle age requiring increasing amounts of structural repair. The moratorium on advertising for bids constrained this program in 1975-76.

## Output

	1975-76	1976-77	1977-78
Number of bridges rehabilitated or replaced .....	70	90	96
Lane miles reconstructed .....	145	744	956
Reconstruction and major damage restoration projects .....	16	45	50
(The number of damage restoration projects depends on weather and other unforeseen circumstances.)			

## DEPARTMENT OF TRANSPORTATION—Continued

## Input

Expenditures .....	\$19,509,171	\$85,828,000	\$66,352,000
State Highway Account.....			\$66,194,000
Toll Bridge Funds .....			158,000
Personnel years.....	537	517	513

## Resurfacing

Resurfacing preserves older pavements with thin layers of asphalt concrete. Priorities are based on number of cracks, extent of wear, and roughness. These thin layers also reestablish skid resistance for safety, and smoothness for driver comfort. The moratorium on advertising for bids constrained this program in 1975-76.

## Output

	1975-76	1976-77	1977-78
Lane miles resurfaced .....	207	1,732	2,115

## Input

Expenditures (State Highway Account) .....	\$5,716,087	\$19,853,000	\$22,240,000
Personnel years.....	133	104	104

## Protective Betterments

Activities in this component extend the life of existing highways by adding features such as rock slope protection, stabilization trenches, culverts, drainage channels, underdrains and slope corrections. The moratorium on advertising constrained this program in 1975-76.

## Input

	1975-76	1976-77	1977-78
Expenditures .....	\$3,454,606	\$10,282,000	\$12,329,000
State Highway Account.....			11,537,000
Toll Bridge Funds .....			792,000
Personnel years.....	129	163	157

## b. System Operations and Operating Improvements

This element covers activities that preserve the qualities of aesthetic and ecological compatability, comfort, transportation service and safety of the existing State highway system.

## Safety Improvements

These projects reduce the frequency and severity of accidents occurring on State highways. This component includes:  
 Spot improvements to correct problems at specific locations of accident concentration. Typically these are signal installations, channelization, warning signs, lighting, curve and wet pavement corrections.  
 Blanket improvements to reduce incidence or severity of specific types of accidents. Typical are median barriers, protective fencing, crash cushions, removal or protection of roadside obstacles, railroad grade crossing protection, railroad grade separations, protective screening on overcrossings, off-ramp cleanup, guardrail, edgelines, raised pavement markers and improved sign standards.

## Output

	1975-76	1976-77	1977-78
Estimated lives saved .....	485	875	470
Estimated accidents prevented .....	16,200	29,200	15,750
Projects constructed .....	347	430	386

## Input

Expenditures .....	\$25,786,422	\$55,646,000	\$43,701,000
State Highway Account.....			42,946,000
Contributions .....			624,000
Toll Bridge Funds .....			131,000
Personnel years.....	841	720	717

## System Operations

This component includes emergency road service, toll collection, snow removal, traffic control, signs and signals, special event traffic handling, operational analysis studies and electrical power for highway and toll bridge facilities.

## Input

	1975-76	1976-77	1977-78
Expenditures .....	\$21,887,709	\$35,575,000	\$38,977,000
State Highway Account.....			25,760,000
Toll Bridge Funds .....			13,217,000
Personnel years.....	1,011	1,010	1,004

## Compatibility Improvements

This includes projects which reduce State highway traffic noise in adjacent school buildings and residential areas. (Retrofit projects in other than school areas are planned to begin in 1977-78.) Appropriate highway planting is included to provide a safe, pleasing and environmentally compatible highway transportation system. Facilities such as safety roadside rests and scenic viewpoint are also provided where motorists may rest and return to the highway safer and more alert. This component also includes scenic highway development, screening or removal of junkyards, and removal of billboards.

Increased emphasis has been placed on compatibility improvements in 1977-78 because of a growing backlog of needed work.

## DEPARTMENT OF TRANSPORTATION—Continued

	1975-76	1976-77	1977-78
<b>Output</b>			
Roadside rests constructed .....	6	3	5
Noise abatement projects.....	9	8	60
Acres of landscaping installed .....	102	493	477
Billboards removed .....	120	500	650
<b>Input</b>			
Expenditures .....	\$4,174,336	\$12,993,000	\$35,517,000
<i>State Highway Account</i> .....			35,357,000
<i>Contributions</i> .....			60,000
<i>Environmental Protection Program Fund</i> .....			100,000
Personnel years.....	99	157	168

**Traffic Operational Improvements**

These activities improve traffic flow on existing highways and correct problems that have developed since the facility was originally constructed.

Included are:

Projects to reduce delay and improve safety at existing problem locations. Examples include passing lanes, auxiliary lanes, on-ramp controls, and left-turn pockets.

Projects to improve traffic service. Examples include sign upgrading and widening lanes and shoulders on narrow two-lane roads.

These improvements provide safer travel and reduce travel time with attendant reduction in vehicle emissions and energy consumption. The 1975-76 program was constrained because of the bid advertising moratorium.

	1975-76	1976-77	1977-78
<b>Output</b>			
Estimated cumulative savings in fuel costs (20-year period) .....	\$38,000,000	\$58,000,000	\$75,000,000
Estimated cumulative accidents cost savings (20-year period) .....	84,000,000	129,000,000	168,000,000
<b>Input</b>			
Expenditures .....	\$24,362,630	\$64,335,000	\$51,905,000
<i>State Highway Account</i> .....			49,553,000
<i>Contributions</i> .....			755,000
<i>Toll Bridge Funds</i> .....			1,597,000
Personnel years.....	977	911	923

**High Occupancy Vehicles**

This component (new in 1976-77) responds to the need for lowering transportation costs, conserving fuel, improving air quality, alleviating parking problems, and making more effective use of existing highways by encouraging multioccupancy vehicles.

Activities include assisting the public in forming car, van and bus pools, furnishing information on transit schedules, providing preferential treatment for high occupancy vehicles, and encouraging work schedules which are conducive to group transportation. Efforts are also directed at multimodal facility utilization through construction of exclusive bypass lanes for buses and carpools.

The amount budgeted year by year results from project phasing in the major metropolitan areas. Only one new project is planned until current experimental projects are evaluated.

	1975-76	1976-77	1977-78
<b>Output</b>			
Preferential lane-miles in operation.....	63	48	156
Ramp bypasses in operation .....	25	58	138
Persons placed in carpools .....	13,500	15,000	17,000
<b>Input</b>			
Expenditures ( <i>State Highway Account</i> ) .....	<sup>3</sup>	\$30,595,000	\$6,894,000
Personnel years.....	<sup>3</sup>	129	118

<sup>3</sup> Expenditures for this component are included in Highway Research for 1975-76.

**c. Local Assistance**

This element helps local governments provide services and improvements on city and county streets and roads. The Department coordinates disbursement of funds and provides technical assistance in conformance with State and Federal laws.

**Federal-Aid Secondary**

This component covers a cooperative endeavor between Federal, State and County governments to improve the 9,700-mile Federal-Aid Secondary system of feeder roads to the State highway system. Federal funds are made available to the counties based on area rural populations and postal route mileage.

The Department's role is to disburse funds, provide statewide coordination, and assist in developing projects. Funding levels are based on the availability of Federal revenues. Dollar fluctuations are due to varying carryover of appropriations.

	1975-76	1976-77	1977-78
<b>Output</b>			
Projects processed .....	40	40	40
<b>Input</b>			
Expenditures ( <i>State Highway Account</i> ) .....	\$21,657,530	\$20,199,000	\$16,223,000
Personnel years.....	41	43	43

## DEPARTMENT OF TRANSPORTATION—Continued

## City and County Urban Extensions

This component is being terminated. City and county urban extensions are now included in the Federal-Aid Urban System element. The expenditures shown are for phase-out of the program.

Output	1975-76	1976-77	1977-78
Projects processed .....	10	4	1
<b>Input</b>			
Expenditures (State Highway Account) .....	\$2,640,468	\$2,033,000	\$515,000
Personnel years .....	6	4	2

## TOPICS

TOPICS projects increased the effectiveness of city streets and county roads in congested urban areas. Neither the 1973 nor the 1976 Federal-aid Highway Acts provided funds for the continuation of the TOPICS program. Effort will be entirely on projects submitted during prior fiscal years. This component will be terminated when the remaining work is completed.

Input	1975-76	1976-77	1977-78
Expenditures (State Highway Account) .....	\$192,442	\$103,000	\$74,000
Personnel years .....	6	4	2

## Railroad Crossings

Train-vehicle collisions on city streets and county roads are reduced by constructing grade-separation structures and installing and maintaining grade-crossing protection devices. The program is developed primarily by the California Public Utilities Commission and financed jointly by cities, counties, railroads and the State. Dollar fluctuations are due to varying amounts of time between project processing and actual construction payments.

Output	1975-76	1976-77	1977-78
Grade projects processed .....	167	257	231
Crossings maintained .....	2,500	2,364	2,364
<b>Input</b>			
Expenditures (State Highway Account) .....	\$8,518,591	\$20,524,000	\$21,141,000
Personnel years .....	18	25	25

## Unassigned Local Assistance

Miscellaneous services to cities and counties are in this component of the program, including maintaining apportionment records, providing engineering assistance, coordinating storm damage programs, administering the Special Bridge Replacement Program, furnishing road system mapping, and providing other administrative services. More bridge replacement work at the local level is included in 1977-78 than in previous years.

Input	1975-76	1976-77	1977-78
Expenditures (State Highway Account) .....	\$1,578,322	\$1,205,000	\$2,424,000
Personnel years .....	15	6	10

## Federal-Aid Urban System

This component provides for financing of improvements on the Federal-Aid Urban System, including both State highways and local streets and roads. Also eligible for financing are fringe parking facilities, transit system capital improvements, and bus and rail rolling stock. Funds are allocated on the basis of population to urban (5,000 to 50,000 population) and urbanized (over 50,000 population) areas.

CalTrans is assisted in administering the FAU program by an advisory committee which represents cities, counties, public-owned transit lines, and organizations of highway users.

To encourage orderly transportation improvement, local expenditure programs were developed which fully utilized the three years of funding under the 1973 Federal Highway Act. The three-year programs are processed through regional transportation planning agencies, CalTrans and the State Transportation Board prior to their approval by the California Highway Commission. The 1976 Highway Act continues the funding level for two years (1976-77 and 1977-78). These funds are appropriated by the Legislature in accordance with the provisions of Chapter 1470, Statutes of 1974. Dollar fluctuations are due to varying amounts of time between project processing and actual construction payments.

Output	1975-76	1976-77	1977-78
Projects processed .....	370	400	400
<b>Input</b>			
Expenditures (State Highway Account) .....	\$57,704,869	\$92,246,000	\$96,478,000
Personnel years .....	149	116	116

## Bicycle Facilities

By providing separate bicycle paths or shoulders on existing roadways for bicycle use, the safety and capacity of the highway is increased. Because the use of bicycles is an energy conserving, healthful mode of transportation, cooperative projects with local agencies have been encouraged, and additional capital outlay has been provided for 1977-78.

Output	1975-76	1976-77	1977-78
Bikeway-miles .....	10	20	70
Projects processed .....	30	30	65

DEPARTMENT OF TRANSPORTATION—*Continued*

## Input

Expenditures .....	\$356,760	\$3,100,111	\$4,424,689
State Highway Account.....			1,608,000
Contributions .....			42,000
Bicycle Lane Account .....			360,000
Transportation Planning and Research Account .....			2,414,689
Personnel years.....	11	36	36

## Highway Safety Improvements on Local Roads

This component provides projects to improve safety on local roads as specified in the Highway Safety Acts of 1973 and 1976. Dollar fluctuation is caused by varying amounts of time between project processing and actual construction payments.

## Output

	1975-76	1976-77	1977-78
Projects processed .....	170	300	250

## Input

Expenditures (State Highway Account) .....	\$7,444,614	\$11,109,000	\$7,710,000
Personnel years.....	11	13	13

## Federal Aid for Off-System Roads

This component provides for administration of funds for construction, reconstruction, and improvement of any road which is not part of a Federal-aid system. This includes urban roads as well as rural roads, and involves both cities and counties. The improvements may include, but are not limited to, the replacement of bridges and the elimination of high-hazard locations and roadside obstacles. An increased number of projects is anticipated since the inclusion of urban roads was a recent addition to this program.

## Output

	1975-76	1976-77	1977-78
Projects processed .....	57	100	100

## Input

Expenditures (State Highway Account) .....	\$266,833	\$8,118,000	\$13,622,000
Personnel years.....	4	8	8

## d. Program Development

This element provides the necessary program development and research for the Highway Transportation Program.

## Research

Research provides knowledge which will facilitate a more effective response to the need for safe, efficient and environmentally compatible highway transportation service. Facility research is conducted that will contribute to greater safety, improvement of traffic flow, environmental compatibility, increased efficiency in planning, design, construction and maintenance of highways. It includes theoretical and applied research, development, testing and evaluation, and demonstration projects.

Environmental research improves our ability to avoid negative impact on the physical and social environment. It focuses on such typical issues as air pollution, water pollution, noise, landscape preservation, and natural and socioeconomic environment.

## Input

	1975-76	1976-77	1977-78
Expenditures (State Highway Account) .....	\$5,434,327	\$5,456,000	\$5,139,000
Personnel years.....	151	208	208

## Program Development

These activities produce information that can be used by top management, the California Highway Commission and the Legislature regarding the most beneficial arrangement of a road, street and highway system. Specific activities include: Programming and budgeting State highway funds; Administering the State-Federal Cooperative Highway Planning and Research Program; reviewing legal and administrative systems of highways and recommending as to classification, jurisdiction and priority for development; inventorying highways, monitoring and rating performance, recommending improvement or addition; geodetic control surveys, mapping; traffic counting, classifying, weighing, travel analysis; studies of motor vehicle registration, vehicle and motor fuel taxes, and other fiscal data; advising on the highway work plans for all planning activities.

## Input

	1975-76	1976-77	1977-78
Expenditures (State Highway Account) .....	\$5,338,428	\$7,325,000	\$7,508,000
Personnel years.....	277	280	280

## e. New Facilities

This element responds to the need for new, improved transportation facilities. Inflation, decreased revenues and Federal funding reductions have resulted in a sharply reduced new facility construction program.

## New Highway Construction

This component includes:

- Constructing highways on new alignments to supplement or replace existing facilities.
- Adding new lanes to existing highways to accommodate increasing traffic volume.
- Adding new connections such as ramps or interchanges.
- Constructing highways to serve new areas and assist in appropriate regional development.

## DEPARTMENT OF TRANSPORTATION—Continued

## Output

It is estimated, on the basis of past experience in providing these new facilities, that approximately 260 accidents, 4 deaths, 140 injuries, \$600,000 in property damage, and \$3 million in delay will be prevented or saved over a 20-year period for each \$1 million of construction funds expended.

Input	1975-76	1976-77	1977-78
Expenditures .....	\$373,873,519	\$237,178,126	\$335,447,916
State Highway Account .....			324,494,916
Contributions .....			10,903,000
Toll Bridge Funds .....			50,000
Personnel years .....	2,710.2	1,790	1,775

## New Toll Bridge Construction

This includes all projects which provide new or expanded toll bridge service. Landscaping within each toll bridge limit is also included. It covers the following facilities:

Richmond-San Rafael Bridge  
San Diego-Coronado Bay Bridge  
Antioch Bridge  
San Francisco-Oakland Bay Bridge  
San Mateo-Hayward Bridge  
Dumbarton Bridge  
Carquinez Bridge  
Benicia-Martinez Bridge  
Vincent Thomas Bridge

Capital outlay for 1976-77 and 1977-78 reflects commencement of work on the Antioch Bridge and Dumbarton Bridge, respectively.

Input	1975-76	1976-77	1977-78
Expenditures (Toll Bridge Funds) .....	\$207,400	\$28,466,000	\$37,420,000
Personnel years .....	35	63	79

## f. Administration

This element includes necessary professional and administrative services to manage and support the program.

## Management, Legal and Administrative Services

These are services needed by executive management to accomplish highway programs. Management information, legal activities, personnel management, business management and accounting services are included in this component.

Input	1975-76	1976-77	1977-78
Expenditures (State Highway Account) .....	\$21,661,655	\$30,266,000	\$30,859,000
Personnel years .....	1,093	1,168	1,168

## Real Property Services

This provides for rental or lease of rights of way being held for future construction. It also includes disposal of surplus property, airspace leases, and monumentation (land surveying) to establish property lines affected by the State highway system.

Input	1975-76	1976-77	1977-78
Expenditures .....	\$6,352,522	\$8,525,000	\$8,019,000
State Highway Account .....			7,972,000
Toll Bridge Funds .....			47,000
Personnel years .....	342	306	306

## V. GENERAL SUPPORT

## Program Objectives and Descriptions

Overall management is needed to provide direction to the total Transportation Program.

The objectives to meet this need contribute to the accomplishment of the Transportation Program by providing general management and services for the Department as a whole, and to provide services, materials, and equipment necessary to support the other programs. Specifically it is to provide general services of executive management, legal and administrative services, office buildings, and lease area management.

## Program Elements

a. Executive and executive services.....	113.2	117	117.8	\$3,335,000	\$3,647,996	\$4,000,797
b. General services .....	305	368	368	10,066,995	9,986,700	10,695,113
c. Miscellaneous services <sup>1</sup> .....	17	132	98	412,000	8,750,100	20,242,300

<sup>1</sup> This element includes Work for Others in the 1976-77 and 1977-78 Fiscal Years, formerly shown in the Highway Transportation Program.

## a. Executive and Executive Services

This element provides top management for the total Transportation Program, together with related staff services. It includes the services of the Director, the Director's staff, the District Directors, and some of the staff personnel performing services in the areas of public information, legislative affairs, operations security, and management audit and review.

Input	1975-76	1976-77	1977-78
Expenditures .....	\$3,335,000	\$3,647,996	\$4,000,797
Personnel years.....	113.2	117	117.8

## b. General Services

Included in this element are support services, such as financial management and budgeting, legal services, fiscal management, manpower services, management analysis, data processing, material and facility management, non-maintenance land and buildings, affirmative action, labor relations, and personnel safety, which are directed toward all components of the Transportation Program.

Input	1975-76	1976-77	1977-78
Expenditures .....	\$10,066,995	\$9,986,700	\$10,695,113
Personnel years.....	305	368	368

## c. Miscellaneous Services

This element provides for the General Fund Administrative and Legislative Pro Rata Charges and minor Board of Control Claims. This element also includes miscellaneous services provided by CalTrans, which have been requested by cities, counties and outside agencies and which are fully reimbursed. The services are consistent with the CalTrans programs and include such things as special studies for the Federal Highway Administration, materials testing and inspection, snow removal, signal timing and other engineering assistance.

Input	1975-76	1976-77	1977-78
Expenditures .....	\$412,000	\$8,750,100	\$20,242,300
Personnel years.....	17	132	98

## VI. LEGISLATIVE MANDATES

Section 2231(a) of the Revenue and Taxation Code requires the State to pay local governmental units the costs of any new program or increased level of service of a program mandated by legislation enacted after January 1, 1973. Within the program area of the Department of Transportation there are two legislative mandates.

Program Requirements	1975-76	1976-77	1977-78
Continuing program costs (General Fund) .....	\$3,000	\$15,000	—

## Program Elements

a. Chapter 1086/75 (SB181)—Late Claims for Chapter 571/73 (AB 24) .....	\$3,000	—	—
b. Chapter 1245/75 (SB1066)—Department notification by county planning commissions .....	—	\$15,000	—

## a. Chapter 1086/75 (SB 181) Late Claims for Chapter 521/73 (AB 24)

## General Description

Chapter 1086 appropriated additional funds to cover late claims filed for reimbursement of Chapter 521/73 (AB 24) which required the San Francisco Bay Area Rapid Transit District to hold an election to fill the offices of its board of directors and to determine if directors were to be appointed or elected. The State Controller was appropriated \$43,200 from the General Fund for allocation and disbursement to the local agencies for the cost of adding to the June, 1974 ballot the question as to whether to have appointed or elected directors.

## Fiscal Data

The State Controller was appropriated \$3,000 from the General Fund to provide reimbursements for late claims filed pursuant to Chapter 521.

Input	1975-76	1976-77	1977-78
Expenditures .....	\$3,000	—	—

## b. Chapter 1245/75 (SB 1066) Department Notification by County Planning Commissions

## General Description

Chapter 1245 requires county planning commissions to notify the Department of Transportation of any application for a building permit for a building costing \$5,000, or more. In order to give the department an opportunity to purchase the right-of-way from the applicant with respect to state highways in the county.

## DEPARTMENT OF TRANSPORTATION—Continued

## Fiscal Data

In 1975-76 the State Controller was appropriated \$15,000 from the General Fund for the reimbursement of any local agency for costs incurred based on claims for direct or indirect costs filed as prescribed by the State Controller. As of this date, no claims have been filed by local agencies for reimbursements.

Input	1975-76	1976-77	1977-78
Expenditures .....	—	\$15,000	—

## PROGRAM DETAIL

## Transportation Planning Program

APPROPRIATIONS	1975-76	1976-77	1977-78
Budget Act appropriation .....	\$6,896,740	\$5,469,000	\$6,495,949
Allocation for salary increase .....	395,792	184,136	-
Allocation for employees benefits .....	344,608	-	-
Allocation for health benefits .....	-	22,110	-
Transfer to General Support .....	-244,693	-	-
Totals, Available .....	\$7,392,447	\$5,675,246	\$6,495,949
Unexpended balance, estimated savings .....	-1,480,991	-	-
TOTALS, EXPENDITURES .....	\$5,911,456	\$5,675,246	\$6,495,949

## Mass Transportation Program

APPROPRIATIONS	1975-76	1976-77	1977-78
Budget Act appropriation .....	\$765,325	\$1,041,679	\$1,296,750
Allocation for salary increase .....	126,788	43,799	-
Allocation for employees benefits .....	110,412	-	-
Allocation for health benefits .....	-	5,259	-
Chapter 1428, Statutes of 1974 .....	234,167	-	-
Chapter 1130, Statutes of 1975 .....	9,063,000	-	-
Prior Year Balance Available:			
Chapter 1349, Statutes of 1976 .....	-	1,000,000	-
Chapter 1130, Statutes of 1975 .....	-	4,000,000	3,006,885
Chapter 1349, Statutes of 1976 .....	-	-	880,000
Totals Available .....	\$10,299,692	\$6,090,737	\$5,183,635
Balance available in subsequent years .....	-9,000,000	-3,886,885	-899,785
Unexpended balance, estimated savings .....	-291,967	-65,789	-
TOTALS, EXPENDITURES .....	\$1,007,725	\$2,138,063	\$4,283,850

## Highway Transportation Program

APPROPRIATIONS	1975-76	1976-77	1977-78
Budget Act appropriation .....	-	\$1,400,000	-
Allocation for salary increase .....	-	24,105	-
Allocation for health benefits .....	-	2,894	-
Prior Year Balance Available:			
Chapter 1130, Statutes of 1975 .....	-	5,000,000	\$3,070,889
Totals Available .....	-	\$6,426,999	\$3,070,889
Balance available in subsequent years .....	-	-3,070,889	-656,200
Unexpended balance, estimated savings .....	-	-	-
TOTALS, EXPENDITURES .....	-	\$3,356,110	\$2,414,689

## OFFICE OF TRAFFIC SAFETY

The principal objective of this office is to coordinate an effective attack on the problem of traffic safety, and to assist in assuring that the limited resources available are used most efficiently. This is accomplished through an annually updated California Traffic Safety Program which implements a comprehensive statewide plan to assist the activities of the approximately 3,100 public agencies and private organizations, now spending over \$500 million per year on traffic safety.

Participating traffic safety grants to state agencies and local governmental entities approximating \$6.5 million per year are reviewed, approved, and monitored by this office. The administrative costs are fully reimbursed from federal funds.

### Authority

Chapter 1492, Statutes of 1967 and Chapter 138, Statutes of 1969.

STATE HIGHWAY USERS TAX STUDY COMMISSION

The State Highway Users Tax Study Commission was created by Chapter 1557, Statutes of 1971, to study the current methods of allocating highway users tax revenues between government entities and geographical areas of the State. The commission consists of eight members: two appointees by the Governor representing local governments, a designee of the State Transportation Board, the Secretary of the Business and Transportation Agency, or his designee, a designee from each the County Supervisors Association and the League of California Cities, the President pro tempore of the Senate, or his designee, and the Speaker of the Assembly, or his designee.

Program Objectives and Description

The objective of this activity is to accomplish a study and recommend modifications or revisions to the current methods of allocating highway users tax revenues between governmental entities and geographical areas of the State to assure that maximum benefits consistent with statewide transportation needs are realized from existing revenues. The commission submitted its report to the Legislature February 1, 1976, at which time the Commission terminated.

Authority

#### a. Accident Control

The California Highway Patrol patrols 14,149 miles of state highway and 83,099 miles of county roads on which personnel are deployed based upon analysis of traffic accident report data. The purchase of 27 radar sets estimated to cost \$62,100 is proposed to determine how the use of radar in traffic speed enforcement affects the number of traffic collisions.

## DEPARTMENT OF THE CALIFORNIA HIGHWAY PATROL—Continued

	Effectiveness Levels			
	Actual		Estimated	
	74-75	75-76	76-77	77-78
<b>Measures of Effectiveness—Program</b>				
1. Traffic collision accident rate per 100 million motor vehicle miles of travel (CHP jurisdiction)				
a. Fatal accident rate	2.2	2.2	2.2	2.1
b. Injury accident rate	53.5	52.8	51.4	50.5
c. Noninjury accident rate	107.5	111.1	109.5	108.1
2. Injury rate per million motor vehicle miles of travel (CHP jurisdiction)				
a. Mileage death rate	2.6	2.6	2.5	2.4
b. Mileage injury rate	81.7	80	77.1	74.8
3. Annual dollar value				
a. Fatal accidents	\$490,000,000	\$520,000,000	\$540,000,000	\$550,000,000
b. Injury accidents	560,000,000	585,000,000	605,000,000	625,000,000
c. Noninjury accidents	50,000,000	55,000,000	60,000,000	60,000,000

**Program Size Indicators**

1. Number of traffic collisions:				
a. Fatal	2,093	2,206	2,300	2,350
b. Injury	49,886	52,238	54,000	56,000
c. Property damage	100,231	109,842	115,000	120,000

DEPARTMENT OF THE CALIFORNIA HIGHWAY PATROL—Continued

II. REGULATION AND INSPECTION

Program Objectives and Description

The major objectives of the program are to protect the public by establishing conditions for the safe operation of specified vehicles, securement of loads, sale of automotive equipment, the reduction of motor vehicle noise pollution; to protect schoolchildren by providing supervision for school crossing guards in certain counties of the state; to protect the highways by control of vehicle weight; and to abate abandoned/public nuisance vehicles from public and private property.

Authority

The multiple authority for the program is stated within the elements.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78

a. School Pupil Transportation Safety

The objectives of this element are to reduce schoolbus accidents by ensuring that schoolbus drivers meet and maintain certification requirements and that all school buses are free of mechanical defects. As mandated by SB 2199 (Chapter 945/76), beginning in 1976-77, six Assistant Motor Carrier Operations Specialist positions costing \$122,905 were added to this element to expand the current inspection program to include school buses operated by common carriers.

Authority

Vehicle Code, Sections 2807, 12522, and 12519; Education Code, Section 16852, Administrative Code, Section 14204.

## b. Regulated Special Purpose Vehicles

The purpose of this element is to protect the public health and safety by adopting and enforcing reasonable regulations regarding the operation, equipment, and certification of drivers of emergency ambulances, by licensing the operation of armored cars and privately owned emergency ambulances, and by issuing permits for certain specified vehicles to be equipped and operated as authorized emergency vehicles.

## Authority

Vehicle Code, Sections 2416, 2417, 2501, 2510, and 2512.

	Effectiveness Levels			
	Actual 74-75	75-76	Estimated 76-77	77-78
<b>Measures of Effectiveness—Program</b>				
1. Percent of armored cars, ambulances, and other authorized emergency vehicles found in compliance at the time of the periodic inspection .....	71%	87%	87%	89%
<b>Program Size Indicators</b>				
1. Number of:				
a. Ambulance licensees.....	286	285	290	295
b. Armored car licensees .....	10	10	11	12
c. Authorized emergency vehicle permittees .....	282	275	280	285
d. Public agencies operating ambulances .....	150	156	163	170
2. Number of ambulance and armored car licenses and authorized emergency vehicle permits:				
a. Issued.....	402	489	410	470
b. Denied .....	13	23	25	25
c. Canceled .....	57	82	50	75
d. Outstanding.....	572	570	580	590
3. Number of ambulance and armored car identification cards:				
a. Issued.....	473	714	735	755
b. Canceled .....	254	211	217	255

Nonuniformed .....	3.8	3	2.9

## c. Transportation of Hazardous Materials and Dangerous Articles

The Department inspects vehicle equipment and loading, shipment preparations identification on containers and in shipping documents, and other requirements to ensure against container leakage and to provide detailed information data in event of highway accident involving these materials.

## Authority

Vehicle Code, Sections 34500 et. seq.

Measures of Effectiveness—Program	Effectiveness Levels			
	Actual 74-75	75-76	Estimated 76-77	77-78
1. Percent of carriers involved in hazardous materials incidents (spills, container failure or other release of contents) .....	13	13	13	13
2. Percent of explosives transporters involved in accidents involving vehicle operation .....	1.8	1.8	1.8	1.8
3. Annual dollar value of property damage .....	\$950,000	\$950,000	\$1,000,000	\$1,000,000
Program Size Indicators				
1. Number of hazardous materials transported (by shipping name) .....	1,500	1,500	1,500	1,500
2. Number of for-hire and private carriers transporting hazardous materials .....	5,600	5,600	5,600	5,600
3. Number of terminals handling hazardous materials:				
a. Subject to inspection .....	8,500	8,500	8,500	8,500
b. Inspected .....	600	2,000	2,600	3,000
4. Number of individual requirements per material (depending on size of container, type of solution or mixture, whether solid, liquid or gaseous, etc. ....)	5	5	5	5
5. Number of DOT container specifications .....	165	165	165	165
6. Number of explosives transportation licenses issued .....	170	165	160	160
7. Number of prelicense inspections made (explosives) .....	170	165	160	160
8. Number of hazardous materials inspections made .....	600	2,500	2,800	3,000
9. Number of violations corrected, excepting on-highway enforcement activities .....	884	2,991	3,500	4,000

Input	1975-76	1976-77	1977-78
Expenditures .....	\$67,834	\$77,557	\$72,080
Personnel years .....	2.6	2.6	2.5
Uniformed .....	0.3	0.3	0.3
Nonuniformed .....	2.3	2.3	2.2

## d. Farm Labor Transportation Safety

The objectives of these activities are to reduce accidents involving vehicles transporting farm workers by ensuring the vehicles are in proper mechanical order and that farm labor vehicle drivers are qualified.

## Authority

Vehicle Code Sections 12519 and 31401.

Measures of Effectiveness—Program	Effectiveness Levels			
	Actual 74-75	75-76	Estimated 76-77	77-78
1. Farm labor vehicle injury accident rate per million farm labor vehicle miles .....	N/A	1	1	1
Program Size Indicators				
1. Number of farm labor vehicles:				
a. Inspected .....	N/A	2,378	2,378	2,400
b. Subject to inspection .....	N/A	2,378	2,378	2,400
2. Number of reinspections .....	N/A	832	700	600
3. Number of farm labor vehicle terminals:				
a. Inspected .....	N/A	792	792	792
b. Subject to inspection .....	N/A	792	792	792
4. Number of farm labor vehicle driver applications processed ..	N/A	400	400	400

## e. Commercial Vehicle Inspection and Enforcement

The objectives of the commercial vehicle enforcement and inspection program are to protect the public from the potential hazards of trucks and truck-trailer combinations which are unsafe to operate due to hazardous loads or faulty equipment, protect the public investment in highways by ensuring that truck overloads are reduced to a minimum or eliminated, and to ensure that proper registration fees are paid in order to provide funds for highway maintenance and construction.

## Authority

Vehicle Code, Sections 2802, 2804, 2805, and 2813.

Measures of Effectiveness—Program	Effectiveness Levels			
	Actual 74-75	75-76	Estimated 76-77	77-78
1. Commercial vehicle accidents per 100 million miles resulting from mechanical defects:

## i. Motor Carrier Safety Operations

The objective is to protect the public from personal injury, loss of life, and loss of property resulting from "mechanical defect-caused" and "driver fatigue-caused" heavy duty commercial vehicle accidents.

## Authority

Vehicle Code, Section 31401, Div. 14.8.

	Effectiveness Levels			
	Actual 74-75	75-76	Estimated 76-77	77-78
<b>Measures of Effectiveness—Program</b>				
1. Percent of regulated vehicles involved in mechanical defect-caused accidents:				
a. Property carrying vehicles .....	5.5	5.3	5.3	5.3
b. Passenger carrying vehicles .....	5.5	5.3	5.3	5.3
2. Percent of regulated vehicles involved in driver fatigue-caused accidents:				
a. Property carrying vehicles .....	3	3	3	3
b. Passenger carrying vehicles .....	3	3	3	3
3. Annual dollar value of property damage .....	\$9,750,000	\$10,000,000	\$10,300,000	\$10,300,000
<b>Program Size Indicators</b>				
1. Number of public, private, and for-hire carrier terminals:				
a. Subject to inspection .....	27,000	35,700	36,000	36,000
b. Inspected .....	10,594	16,172	17,000	18,000
2. Number of motor carrier vehicles:				
a. Subject to inspection .....	290,000	300,000	300,000	300,000
b. Inspected .....	48,207	68,000	70,050	72,000
3. Number of drivers hours-of-service records:				
a. Subject to inspection .....	135,000	150,000	155,000	155,000
b. Inspected .....	33,000	49,692	51,000	52,000
4. Number of injury and fatal accidents:				
a. Truck/trailer combination accidents .....	3,200	3,000	3,000	3,000
b. Bus accidents .....	900	875	875	875
<b>Input</b>				
Expenditures .....		1975-76	1976-77	1977-78
Personnel years .....		\$1,475,925	\$1,639,659	\$1,689,542

Nonuniformed .....		0.5	0.5	0.5
		59.8	61.8	61.9

## j. Vehicle Abatement

Vehicle Abatement is a statewide program to provide for removal of abandoned vehicles from public and private property, excluding streets and highways, for the beautification of the state, protection of public health and reclamation of valuable recyclable metals.

The Abandoned Vehicle Trust Fund, which funds the Abandoned Vehicle Abatement Program, was created in 1973 with the one-time one dollar service fee paid in addition to the 1973 vehicle registration fees. Surplus money investments have provided the only additional revenue to the fund. At the current estimated rate of expenditure, the monies in the fund will provide support for a reduced program in the budget year with no funds available in subsequent years.

## DEPARTMENT OF THE CALIFORNIA HIGHWAY PATROL—Continued

## Authority

Vehicle Code, Section 22710.

	Effectiveness Levels			
	Actual		Estimated	
	74-75	75-76	76-77	77-78
<b>Measures of Effectiveness—Program</b>				
1. Total number of derelict vehicles abated .....	37,265	31,891	20,000	13,000
2. Number of derelict vehicles abated from priority areas .....	7,216	6,378	4,400	2,860
3. Dollar value of recycled metal <sup>1</sup> .....	\$704,322	\$746,244	\$740,000	\$520,000

<sup>1</sup> Does not revert to State—monies put back into general economy

## Program Size Indicators

1. Number of abandoned vehicles abated .....	37,265	31,891	30,000	18,200
2. Number of cities and counties participating in the program ..	278	245	200	130

## Input

	1975-76	1976-77	1977-78
Expenditures .....	\$1,177,652	\$2,135,862	\$1,439,460

Nonuniformed .....	4.1	4.3	4.2	-	-	-

## a. Vehicle Theft Control

The objectives of this element are: (1) to protect the public from economic loss as a result of vehicle theft through an increased recovery rate of stolen vehicles and a reduction in the incidence of vehicle theft; and (2) to motivate the public to protect their vehicles from theft which costs citizens of California an estimated \$100 million annually.

	Effectiveness Levels			
	Actual		Estimated	
	74-75	75-76	76-77	77-78
<b>Measures of Effectiveness—Program</b>				
1. Percentage change in the per capita rate .....	-5.7	-1	-1	-1.5
2. Percentage change in the recovery rate of stolen vehicles .....	6.3	0.1	2	2
<b>Program Size Indicators</b>

## DEPARTMENT OF THE CALIFORNIA HIGHWAY PATROL—Continued

## a. Management and Command

This element contains those functions and activities directly concerned with determining the purpose, establishing the methods, and controlling the execution of the Department's role in state government. The following organizational units, together with directly related staff services, are included:

1. Office of the Commissioner;
2. Office of the Assistant Commissioner—Field;
3. Office of the Assistant Commissioner—Staff;
4. Offices of Division Commanders;
5. Offices of the Zone Commanders;
6. Offices of the Area Commanders.

The functions performed by this element are policy formulation, direction, and coordination.

Input	1975-76	1976-77	1977-78
Expenditures .....	\$6,670,103	\$7,296,161	\$7,502,955
Personnel years .....	254.2	255.3	257.4
Uniformed .....	146.1	144.3	147.9
Nonuniformed .....	108.1	111	109.5

## b. Budget and Fiscal Management

The various operations involved in fiscal management are divided between two organizational units—the Accounting Section and the Budget Section.

Input	1975-76	1976-77	1977-78
Expenditures .....	\$850,412	\$991,419	\$1,020,737
Personnel years—Nonuniformed .....	55	56.5	56

## c. Planning and Analysis

This element contains the necessary resources for analysis of the traffic environment and the preparation of plans for the use of uniformed personnel, equipment, and facilities.

Input	1975-76	1976-77	1977-78
Expenditures .....	\$959,635	\$1,007,693	\$1,043,190
Personnel years .....	49.6	44.7	44.8
Uniformed .....	17.6	17.4	17.9
Nonuniformed .....	32	27.3	26.9

## d. Training

The various types of training given to personnel enable them to provide protection of property and life, traffic enforcement, and services to the motoring public.

Input	1975-76	1976-77	1977-78
Expenditures .....	\$2,268,319	\$2,739,042	\$2,813,032
Personnel years .....	106.2	113.1	114
Uniformed .....	39.6	37.8	38.7
Nonuniformed .....	66.6	75.3	75.3

## e. Administrative Services

This element contains auxiliary and specialized services essential to the administration and operation of the Department, including automotive management; electronic communications; personnel management; facilities management; supply management; information and education; graphic arts and photographic services; central files; and duplicating, mail, and messenger services. *An additional warehouse worker and a departmental gunsmith costing \$33,808 are proposed to provide and maintain police protective equipment which Peremptory Writ of Mandate 244844 orders the Department to provide its uniformed members.*

Input	1975-76	1976-77	1977-78
Expenditures .....	\$9,303,609	\$10,795,872	\$11,305,608
Personnel years .....	324.9	339.5	336.7
Uniformed .....	17.2	17.7	18.2
Nonuniformed .....	307.7	321.8	318.5

## f. Statewide Integrated Traffic Records System (SWITRS)

This system is the record keeping network for departmental operations and is the only source of certain operational data for the California Department of Transportation and the Department of Motor Vehicles.

Input	1975-76	1976-77	1977-78
Expenditures .....	\$962,826	\$1,122,224	\$1,156,124
Personnel years .....	60.3	61.9	61.1
Uniformed .....	1.1	1	1
Nonuniformed .....	59.2	60.9	60.1

## DEPARTMENT OF THE CALIFORNIA HIGHWAY PATROL—Continued

## DEPARTMENT OF MOTOR VEHICLES

The Department of Motor Vehicles' objectives are:

- a. To protect public interest by identifying ownership through the process of vehicle registration.
- b. To promote safety on highways by licensing and controlling drivers.
- c. To provide public protection by licensing and regulating occupations and business related to manufacture, transporting, sale, and disposal of vehicles and to the instruction of drivers in safe operation on the highways.
- d. To provide a source of compensation through the Compulsory Financial Responsibility Law to those who suffer injury or damage to property in automobile accidents.
- e. To provide services, not directly related to motor vehicles or drivers' licensing, to the public and to other state agencies as required by statute.

## SUMMARY OF PROGRAM REQUIREMENTS

	1975-76	1976-77	1977-78
I. Vehicle Licensing and Titling .....	\$57,979,906	\$66,130,862	\$69,274,452
II. Driver Licensing and Control.....	48,547,978	55,171,333	57,571,325

VI.	Undistributed Chapter 1179/75 (SB 192), Unpaid Parking Violations .....	-	1,500,000

## I. VEHICLE LICENSING AND TITLING

## Program Objectives and Description

The Department, through the Vehicle Licensing and Titling Program, identifies and issues identifying indicia to approximately 17,000,000 vehicles in California, determines and issues evidence of ownership, collects fees and revenue, maintains vehicle records and provides vehicle information, records and statistics. The Department is proposing reductions of 69.6 personnel years and 67.6 personnel years for the 1976-77 fiscal year and the 1977-78 fiscal year of the workload positions from the number of positions authorized in the 1976-77 final budget. In addition, the following budget adjustments are proposed:

1. 1976 Statutes reflected in the budget include:

a. Chapter 902/76, which requires the department to issue a salvage certificate for any total loss vehicle, as defined, with specified exclusion. The budget provides 11.1 personnel years and 20.9 personnel years for the 1976-77 fiscal year and 1977-78 fiscal year respectively at a cost of \$126,000 and \$252,000 for the two years.

b. Chapter 931/76, changes the basis for compiling monthly reports by DMV to the State Controller. The budget year reflects a reduction of 5.9 personnel years and \$72,337 for this program.

2. The budget proposes the addition of \$15,000 to establish a new DMV facility in Vacaville. The pro rata share of this program is reflected under Program II, Driver Licensing and Control.

## Authority

The Vehicle Code, Division 2, Chapter 1, Articles 1, 2 and 3 and Division 3, Chapters 1 through 6;  
The Revenue and Taxation Code, Division 2, Part 5.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

Administration distribution .....	278.5	307.2	293.3	4,981,537	5,838,191	5,861,947

## a. Vehicle Ownership, Registration Documentation and Certificate Issuance

Documentation is the act of gathering together a group of forms and legal documents which (1) prove degrees of ownership, determine the rights of ownership, and record their interest in the vehicles; (2) implement collection and evaluation of data to insure that vehicles are lawfully entitled to be registered; (3) provide a basis for fee computation, statistical reports and reconciliation of bank deposits; and (4) provide the basis for assignment and issuance of registration and ownership certificates and license plates and validating devices.

## Output

Vehicle Registrations Processed:	1975-76	1976-77	1977-78
New vehicles .....	1,314,000	1,445,000	1,554,000
Non residents .....	296,000	297,000	305,000
Renewals .....	14,958,000	14,925,000	14,839,000
Prorates .....	239,000	252,000	259,000
Subtotals, Fee Paid Vehicle Registrations .....	16,807,000	16,919,000	16,957,000
Exempt registrations .....	242,700	252,500	262,500
Totals, Vehicle Registrations Processed.....	17,049,700	17,171,500	17,219,500

## Input

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	1,672.3	1,767.1	1,811.6	\$27,134,146	\$30,851,576	\$32,869,358

## b. Vehicle Fee Collection and Accounting

Revenue is collected to support the Department of Motor Vehicles, California Highway Patrol and vehicle-related programs of other departments as well as producing income for the State Highway Account. Vehicle license fees, which are essentially an in lieu property tax on vehicles, are collected for apportionment to cities and counties. The basic fees collected are registration, weight, service and vehicle license fees. The registration, weight and vehicle license fees are collected yearly when due.

## Output

	1975-76	1976-77	1977-78
Transportation Tax Fund:			
Motor Vehicle Account:			
Registration, weight and related fees and miscellaneous revenue .....	\$361,596,976	\$351,757,000	\$359,721,600
Motor Vehicle License Fee Account:			
Motor vehicle license fees .....	\$376,360,408	\$423,000,000	\$444,000,000

## Input

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	990.3	1,048.9	1,055.2	\$18,378,340	\$20,785,906	\$21,726,130

## c. Vehicle Record and File Maintenance

To help process applications for vehicle registrations and titles and to meet the demands of the public, private companies and law enforcement for vehicle registration and ownership information, records of registrations and title transactions are maintained in the Department's Sacramento headquarters.

	75-76	76-77	77-78	1975-76	1976-77	1977-78
Input						
Expenditures.....	338.7	358	347.2	\$4,977,826	\$5,803,571	\$5,885,091

## d. Vehicle Information and Sale of Records

The Department supplies information or copies of records of vehicle information concerning vehicles or their owners on two bases: (a) to governmental agencies without charge and (b) to private citizens and companies for a charge equivalent to the cost for producing the information.

## Output

Information Requests:	1975-76	1976-77	1977-78
Fee requests—item count .....	935,000	976,000	1,029,000
Fee requests (income) .....	\$728,204	\$761,000	\$804,000
No fee requests—item count.....	10,769,000	11,217,000	11,603,000
Records produced for private companies (EDP)—item count .....	12,542,825	12,782,000	13,097,000
Records produced for private companies (EDP) (income) .....	\$313,570	\$320,000	\$327,000

## DEPARTMENT OF MOTOR VEHICLES—Continued

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	179.3	186.7	185.3	\$2,508,057	\$2,851,618	\$2,931,926

## II. DRIVER LICENSING AND CONTROL

## Program Objectives and Description

The objective is to promote highway safety by insuring that all drivers: (1) are identified, (2) demonstrate the ability to drive safely, (3) have adequate knowledge of the driving laws, (4) maintain all capabilities for safe driving, and (5) do not suffer from any disability which would preclude safe driving.

The major budget adjustment to this program is the reduction of 62.2 personnel years and 59 personnel years for the 1976-77 fiscal year and the 1977-78 fiscal year of the workload positions from the number of positions authorized in the 1976-77 Budget.

## Authority

California Vehicle Code, Divisions 6 and 7, Chapters 2, 3 and 4.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78

Administration distribution .....	237.1	274.1	252.2	4,385,925	5,284,997	5,155,911

## a. Drivers' License Issuance

Applications for drivers' licenses are processed at local departmental offices or travel service locations. Renewal applications are produced at Sacramento and mailed to the driver prior to expiration. Examination consists of each applicant being required to demonstrate fitness to drive. This is accomplished via a series of law, vision, and, when required, driving tests.

Output	1975-76	1976-77	1977-78
Drivers' licenses issued .....	4,621,000	4,746,000	4,899,000
Drivers' license fees .....	\$14,720,453	\$15,250,000	\$15,900,000

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	1,549.4	1,591.8	1,619.6	\$26,888,210	\$30,683,403	\$32,394,227

## b. Post-licensing Control

The Department's post-licensing control, together with law enforcement and the courts, constitutes the primary effort of California to insure safety on our highways.

The statutes require withdrawal actions against drivers convicted of driving under the influence of intoxicating liquors and/or drugs, and felonies involving use of a motor vehicle; failure to comply with the implied consent law, and judgement debtors in unsatisfied civil process. Following licensing, physical or mental deterioration may occur which affects a person's ability to drive safely. Through rigid adherence to due process, appropriate control actions are instituted. Negligent operators are treated through a series of warning letters, group educational meetings and face-to-face exchange with a driver improvement analyst. Appropriate control actions are instituted if deemed necessary. The Department is continually evaluating its post-licensing control methods to insure optimum cost benefits.

Output	1975-76	1976-77	1977-78
Warning letters sent (negligent operator).....	113,000	116,500	119,900
Persons called to group meetings (GEM) .....	48,400	50,000	52,000
Hearings and reexaminations .....	84,200	87,900	90,700
Licenses suspended, revoked, cancelled or driver placed on probation.....	176,900	186,350	192,100
Reinstatement of driving privilege .....	136,000	143,000	147,000

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	761.5	767.8	767	\$12,510,942	\$13,794,366	\$14,329,146

## c. Certificate Issuance

Operators of schoolbuses, ambulances, farm labor vehicles, and heavy equipment require special testing and proof of acceptable medical standards. Schoolbus and farm labor certificate examinations are conducted by the California Highway Patrol with the processing and issuance accomplished by Department of Motor Vehicles.

Output	1975-76	1976-77	1977-78
Certificates issued.....	15,200	19,100	17,400

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	12	13.9	12.9	\$239,318	\$317,465	\$308,699

## DEPARTMENT OF MOTOR VEHICLES—Continued

## d. Information Services

Driver record information, as permitted by law, is provided to governmental agencies through the California Law Enforcement Telecommunications System, teletype, telegram, microwave radio, telephone, remote inquiry devices, and mail. The general public may secure allowable information at the Department headquarters, any of its field offices or by mail.

Output	1975-76	1976-77	1977-78
Drivers' License Information Services:			
Fee request—items .....	8,174,000	7,981,000	8,214,000

Expenditures .....	283	292.5	294.7
	1975-76	1976-77	1977-78
	\$4,523,583	\$5,091,102	\$5,383,342

## III. OCCUPATIONAL LICENSING AND REGULATION

## Program Objectives and Description

## a. Department of Motor Vehicles

This program is designed, structured and administered to provide protection to the consumer-motorist through the licensing and regulation of the automotive industry, including vehicle dealers, manufacturers, distributors, dismantlers, transporters, verifiers, salespersons, representatives, driving schools and driver instructors.

The objectives of this program are to minimize and, where possible, prevent public injury through maximum enforcement, education and preventative efforts; to provide methods of recovery action for victims of financial losses; and, to initiate appropriate actions against persons engaged in fraudulent, deceptive or otherwise unlawful practices. The department is proposing reductions of 8.9 personnel years and 24.2 personnel years for the 1976-77 fiscal year and the 1977-78 fiscal year of the workload positions from the number of positions authorized in the 1976-77 Budget. In addition, there are provisions in the budget for the following 1976 Statute:

Chapter 1284/76, which develops a new licensing program for vehicle lessors and renters who retail vehicles to consumers and expands the Automobile Leasing Act to include provisions of the federal truth-in-leasing bill. The budget provides for 4.3 personnel years and 5.3 personnel years for the 1976-77 and 1977-78 fiscal years at a cost of \$60,000 and \$72,000 for those two years.

## b. New Motor Vehicle Board

The purpose and objectives of the New Motor Vehicle Board are to prescribe rules and regulate governing matters committed to its jurisdiction; to hear and consider appeals by occupational license applicants and holders; to consider matters concerning the activities or practices of persons applying for or holding an occupational license; to review and arbitrate complaints between licensees and consumers; to hear and consider franchise protests; and to refer appropriate matters to the Department of Motor Vehicles for investigation relating to new motor vehicle dealers, manufacturers, distributors and representatives of distributors and manufacturers.

## Authority

## a. Occupational Licensing (Licensing of Vehicle Dealers, Manufacturers, Manufacturers' Branches, Distributors, Distributors' Branches, Transporters, Dismantlers, Salespersons and Representatives, Driving Schools and Instructors)

Through the Department's licensing and related investigative processes, persons who are declared to be unqualified, financially irresponsible or morally unfit are denied the opportunity of engaging in a business or occupation in which the public would otherwise remain unprotected.

Public needs within this element can only be served by developing and presenting evidence through legal processes to deny licenses to unsatisfactory applicants.

## IV. COMPULSORY FINANCIAL RESPONSIBILITY LAW

## Program Objectives and Description

It is the public policy of this State that those owning or operating motor vehicles on a street or highway shall be financially capable of providing monetary protection to those suffering injury to their person or damage to their property as a result of an automobile accident. Each driver and/or owner of a motor vehicle involved in an accident where property damage is in excess of \$250 or where any personal injury or death arises from the accident is required to file a report to the Department. Upon failure to file a report, the driving privilege of the driver and/or owner must be suspended for a period of one year or until such time as the accident report is received. Whenever the accident is reportable under the requirements of the law, the uninsured driver and owner must file and maintain with the Department some form of proof of financial responsibility for a period of three years. Any person who drives any motor vehicle or permits the vehicle to be driven upon a highway without having some form of financial responsibility in effect is guilty of an infraction. Proof of financial responsibility may be established if the owner or operator, with respect to all motor vehicles owned or operated by the individual, is a self-insurer or is insured under a form of liability insurance or bond, is the United States of America, the State, any municipality or subdivision thereof, or has deposited security in the amount of \$35,000 with the Department. Drivers and owners subject to the suspension provisions are entitled to a due process hearing on specific grounds within 60 days from demand. *The major budget adjustment to this program is the reduction of 28.4 and 31.5 workload positions for the 1976-77 fiscal year and the 1977-78 fiscal year respectively from the level of staffing authorized in the 1976-77 Final Budget.*

## Authority

California Vehicle Code, Division 7, Chapter 1.

DEPARTMENT OF MOTOR VEHICLES—*Continued*

## V. DEPARTMENT OF MOTOR VEHICLES ASSOCIATED SERVICES

## Program Objectives and Description

As directed by the Legislature, the Department of Motor Vehicles provides certain services not directly related to motor vehicles or drivers licensing through its headquarters operation and network of field offices. Those services include: (1) California identification card issuance, (2) undocumented vessel registration, titling and fee collection, (3) environmental license plates registration and fee collection, (4) use tax computation and collection, (5) off-highway vehicle registration, titling and fee collection, and (6) bicycle licensing. *The budget provides for the reductions of 20.1 personnel years and 6.9 personnel years of workload positions for the 1976-77 fiscal year and 1977-78 fiscal year respectively from the level of staffing authorized in the 1976-77 Final Budget.*

## Authority

The Vehicle Code, Sections 13000-13007, 14902 and 14903; Division 3.5; Division 3, Article 8.5; Division 16.5; Section 4750.5; and Division 16.7. Revenue and Taxation Code Sections 6248 and 6249 and Chapter 3.5.

## a. California Identification Card Issuance

Applications for identification cards are processed in all the Department of Motor Vehicles' offices and travel service locations. The process is similar to that of a drivers license except for the testing procedure.

Output	1975-76	1976-77	1977-78
Identification cards outstanding.....	645,000	894,000	1,188,000
Identification cards issued.....	248,640	345,780	446,460
Identification card fees.....	\$795,599	\$1,106,000	\$1,428,000
Input	75-76	76-77	77-78
Expenditures.....	51.9	55.7	59.4
	\$918,689	\$1,082,044	\$1,211,858

## b. Undocumented Vessel Registration, Titling and Fee Collection

The Department accepts applications for original, renewal, transfer of ownership and duplicate certificates or stickers on undocumented vessels through a headquarters operations, Departmental field offices, authorized automobile clubs and authorized undocumented vessel agents.

Output	1975-76	1976-77	1977-78
Registered vessels.....	519,000	551,000	585,000
Original registrations.....	49,600	52,600	54,900
Renewal registrations.....	507,000	539,000	574,000
Revenue.....	\$1,791,380	\$1,926,200	\$2,045,000
Input	75-76	76-77	77-78
Expenditures.....	72.5	76.7	74.5
	\$1,060,041	\$1,112,261	\$1,158,692

## c. Environmental License Plates Registration and Fee Collection

The 1970 Legislature initiated a program of personalized license plates in response to public demand. Fees collected provide funds for the support of the California Environmental Protection Program.

Output	1975-76	1976-77	1977-78
Original registrations.....	57,100	60,100	64,900
Renewal registrations.....	172,000	209,000	246,000
Interchanges.....	21,100	25,200	29,600
Revenue.....	\$3,640,045	\$3,892,500	\$4,437,700
Input	75-76	76-77	77-78
Expenditures.....	48.9	54.1	56.1
	\$755,808	\$854,599	\$977,858

## DEPARTMENT OF MOTOR VEHICLES—Continued

## d. Use Tax Computation and Collection

In 1963, the Legislature determined that revenue should be raised by the collection of a use tax on the retail sale of vehicles between individuals. The Department of Motor Vehicles collects the use tax when due on application for registration or transfer of registration. As of November 4, 1976, use tax is collected at the rate of 6% of the purchase price. An additional one-half percent use tax is collected in certain counties for the Bay Area Rapid Transit system and for the Santa Clara County.

Output	1975-76	1976-77	1977-78
Use tax collected for Board of Equalization.....	\$71,045,086	\$72,892,000	\$74,715,000
<b>Input</b>	<b>75-76</b>	<b>76-77</b>	<b>77-78</b>
Expenditures.....	140.8	134.5	137.2
	1975-76	1976-77	1977-78
	\$1,737,892	\$1,890,531	\$1,947,288

## e. Off-Highway Vehicle Registration, Titling and Fee Collection

The Off-Highway Vehicle Law of 1971 requires the registration (identification) of most vehicles used exclusively off the highway for recreational purposes. The primary purpose of the fees collected is to establish and maintain recreational areas for the use of off-highway vehicles by the public.

Output	1975-76	1976-77	1977-78
Off-Highway Vehicle Registration:			
Original registrations.....	58,200	58,200	59,400
Renewal registrations.....	44,900	49,200	48,900
Off-Highway Vehicle Revenue:			
Transportation Tax Fund, Motor Vehicle Account, service fees (\$5) and miscellaneous fees (\$3).....	\$632,394	\$678,000	\$699,600
Off-Highway Vehicle Fund, recreational fees (\$6).....	599,156	646,500	652,000
Off-Highway License Fee Fund, in-lieu tax (\$4).....	399,469	431,000	434,600
<b>Input</b>	<b>75-76</b>	<b>76-77</b>	<b>77-78</b>
Expenditures.....	59.4	53.3	61.4
	1975-76	1976-77	1977-78
	\$880,638	\$961,944	\$1,110,870

## f. Bicycle Licensing

Bicycle licensing is the responsibility of those cities and counties which have adopted a bicycle licensing ordinance or resolution. The Department of Motor Vehicles is required by law to procure and distribute bicycle licensing indicia and registration forms to the cities and counties. It is also required to collect from those cities and counties a specified fee, not to exceed departmental cost for such indicia issued.

Output	1975-76	1976-77	1977-78
Indicia issued.....	530,000	500,000	500,000
<b>Input</b>			
Expenditures.....	\$39,518	\$32,705	\$34,365

## VI. ADMINISTRATION

## Program Objectives and Description

The California Vehicle Code provides that the Department of Motor Vehicles will be under the control of a civil executive officer known as the Director of Motor Vehicles. The director has the responsibility for administering and enforcing the provisions of the Vehicle Code, Revenue and Taxation Code and other codes relating to the Department. He has the authority to adopt and enforce rules and regulations as may be necessary to carry out the provisions of these codes. The director's immediate executive staff includes two deputy directors who coordinate the various line and staff functions through the six division chiefs. The division chiefs have the responsibility of carrying out the Department's program policies. The director's staff includes Office of Program Development and Evaluation, Legislative Liaison Section, Internal Audits, Information Office and the Legal Section. The Division of Administration provides the staff support for effecting the director's administrative programs. *The department proposes the budgeting of \$50,000 for the preparation of a developmental study that will be conducted by the department during the fiscal year 1977-78. This proposal would enable the department to further develop the administrative adjudication concept prior to the passage of enabling legislations.*

*The budget also proposes the addition of \$1,500,000 to implement the provisions of Chapter 1179/75. The statute requires the Department of Motor Vehicles to refuse the renewal of registration on a vehicle if the registered owner or lessee has failed to comply with a notice of violation for a parking offense unless the person pays the department at renewal the full amount of undeposited bail and a fee for administrative costs in enforcing the provisions of this law. This statute becomes operative January 1, 1978.*

*The proposed 1977-78 budget includes the following EDP proposals:*

## COMPUTER REPLACEMENT

*The Legislature in its Supplementary Report of the Committee on Conference for the 1975-76 Budget directed the department to submit a plan for replacement of its interim computer system to the Joint Legislative Budget Committee by April 1, 1976. The report prepared by the department in response to this legislative direction recommended the procurement of a new computer system. The budget includes \$158,306 to provide funds to begin the replacement of the present computer system.*

## EDP HARDWARE MONITOR

*This proposal provides for a computer performance evaluation equipment and an analyst position at a cost of \$94,815 to tune the departmental computer system so that it will handle the present and projected workload.*

## EDP VIDEO REPLACEMENT

*This is to provide for the replacement of the obsolete data entry devices and associated controllers with newer improved up-to-date data entry equipment. The new equipment will eliminate the need to rebuild the current devices, provide for easier expansion capabilities and provide the department with the flexibility needed to meet its commitments. The budget reflects a net savings of \$56,103 from this proposal.*

## DEPARTMENT OF MOTOR VEHICLES—Continued

## COMPUTER ISSUANCE

The Legislature in its Supplementary Report of the Committee on Conference for the 1975-76 Budget directed the department to submit a study and preliminary plan for implementation of computer issuance of vehicle registration and drivers licenses to the Joint Legislative Budget Committee by April 1, 1976, with an interim report by December 1, 1975, if computer issuance is determined to be compatible with the department's long range plan. The implementation plan submitted called for implementation over a 8½ year period. In order to adhere to the proposed implementation schedule, the department is proposing in this budget an initial funding of \$220,520 to be used for a more in depth analysis.

## STEPHEN P. TEALE CONSOLIDATED DATA CENTER

The principle objective of the Teale Data Center remains the responsive and cost-effective operation of a large scale computer center. Continued emphasis will be placed on:

1. Improving the average level of the Teale Data Center resource utilization.
2. Making EDP Managers and nontechnical staff of user departments aware of EDP products available from the Teale Data Center.
3. Security and confidentiality of data and facilities.

The Teale Data Center Budget is based only on known costs and excludes provisions for future growth or program expansion. This allows for the establishment of charging rates which reflect the cost of providing the specific Teale Data Center services at the time of budget submission.

### SUMMARY OF PROGRAM REQUIREMENTS

	1975-76	1976-77	1977-78

### I. FACILITIES OPERATIONS

#### Program Objectives and Description

The goal of this program is the operation and support of a major large scale computing facility in a manner which will:

- (1) Ensure efficient utilization of Teale Data Center resources within the confines of current and proposed user workload characteristics.
- (2) Economically and effectively process the data and applications currently necessary to provide effective EDP support to user organizations.
- (3) Expand the level of service so that Teale Data Center EDP products are more accessible to the managers and nontechnical staff of user departments.

Three major elements of the Facilities Operations Program are required to fulfill the objectives of this program:

- (1) Machine Operations—The functions performed by this element are concerned with operating the Teale Data Center central computers and some outlying satellite minicomputers to operated to meet the user's schedules. Normal operations are 24 hours a day, five days a week and the day and swing shifts on Saturday. If users require it, the computers are operated on holidays and the balance of the weekends by prior arrangements.
- (2) Systems Support—This element is primarily concerned with maintaining the software operating system for the computers, maintaining the telecommunication system, maintaining the on-line inquiry systems, and installing and implementing vendor supplied proprietary software packages. In addition, this element compiles and analyzes workload and resource utilization data as well as providing consultation and advice to both current and new users on the use of the above.
- (3) Customer Services—This element's primary function is to represent the Teale Data Center to the user and represent the user's needs to the Teale Data Center. In addition, this element is responsible for the scheduling of work flow and miscellaneous user support functions including keeping the Teale Data Center management aware of the user's requirements, problems and financial status.

### II. ADMINISTRATION

The objective of this program is to provide administrative support to the programs administered by the Stephen P. Teale Consolidated Data Center such as providing staff support to line functions including personnel, fiscal, billing, budget, planning, contract administration, and general administrative services.

## I. TAHOE REGIONAL PLANNING COMPACT

## Program Objectives and Description

The Tahoe Regional Planning Compact is established as a bi-state agreement between Nevada and California. The compact has been approved by the State of Nevada and the Congress.

The act requires adoption of both interim and comprehensive regional plans by the Tahoe Regional Planning Agency relative to effective environmental controls in the Lake Tahoe Basin. Subsequently, Chapter 988, Statutes of 1968, made certain amendments to the original legislation and appropriated funds to carry out the purposes of the compact. The program was later modified by Chapter 1064, Statutes of 1973.

## Authority

Chapter 1589, Statutes of 1967 as amended by Chapter 988, Statutes of 1968 and Chapter 1064, statutes of 1973.

## Program Requirements

	1975-76	1976-77	1977-78
Continuing program costs .....	\$30,000	\$100,000	\$50,000

## II. WATERWAYS MANAGEMENT PLANNING

## Program Objectives and Description

The program involves development of management plans for the rivers and portions of rivers in the California Wild and Scenic Rivers System and administration of the program as required by the Wild and Scenic Rivers Act. In addition, waterway management plans are prepared for the rivers contained in the Protected Waterways Program (Chapter 761, Statutes of 1971). These plans are prepared in close cooperation with and assisted by local government. Grants are made to local governments on a reimbursable basis for their assistance in plan development. Another aspect of the program involves the classification of rivers or segments of rivers as to wild, scenic or recreational status as required by the Wild and Scenic Rivers Act.

The program is administered by the Resources Agency through the Department of Fish and Game which provides staff for the program. Collection of data and preparation of preliminary management plan information is handled through contracts with private consulting firms who provide the broad range of technical skills required on an interim basis.

## Work Program for Current Year 1976-77

Activities and programs in 1976-77 include finalization of plans for the Van Duzen, Salmon and Lower American rivers. Preliminary plans for the Scott and Upper American rivers will also be completed. These plans are to meet the requirements of the Wild and Scenic Rivers Act. In addition, a preliminary report will be prepared in a cooperative program with Santa Cruz County for the San Lorenzo River. This report is to be prepared as part of the planning activities for the Protected Waterways Program. Contacts are maintained with a number of counties and contracts will be established or continued with four counties to reimburse their costs associated with waterway management plan preparation.

Additional planning activities will be initiated on the Smith River. Activities shifted from the Klamath River to the Smith when it became apparent that considerable additional work was necessary on the Smith.

Memoranda of Understanding which set up coordination procedures and cooperative planning actions were entered into with the U.S. Forest Service and the U.S. Bureau of Land Management. These provide for information sharing and cooperative planning efforts and should reduce some of the problems which have delayed the program in the past as well as facilitating future actions.

## Work Program for Budget Year 1977-78

Work will continue in 1977-78 and 1978-79 to complete a detailed plan for the Smith River. A Citizens Advisory Committee has been established to provide local input on the planning program. Detailed studies will be continued and coordination maintained with water quality agencies including U.S. Geological Survey, Department of Water Resources and the Water Resources Control Board. Cooperative efforts with local governments will continue with reimbursable grants being made to the involved counties.

Final plans will be prepared for the North Fork American and Scott Rivers following public hearings in the involved counties. Cooperative work on the San Lorenzo River will continue with Santa Cruz County acting as lead agency.

Planning efforts will be initiated on the Trinity as part of the cooperative program involving various state and federal agencies. Partial funding for this activity will be provided by the U.S. Bureau of Reclamation.

Staff support will be provided to the Secretary for Resources for administration of the program. These activities include project review, agency coordination and review of domestic water diversion applications for wild and scenic rivers.

Contacts and coordination will be maintained with State and Federal agencies and project sponsors to assure that proposed projects are in concurrence with the objectives of the Wild and Scenic Rivers Act.

Continuing program costs .....	\$477,529	\$500,000	\$500,000

## SPECIAL RESOURCES PROGRAMS—Continued

## IV. STATE COASTAL CONSERVANCY

## Program Objectives and Description

Chapter 1441, Statutes of 1976 established the State Coastal Conservancy within the Resources Agency. The principal responsibilities of the Conservancy are to implement a program of agricultural land protection, area restoration and resource enhancement in the coastal zone within policies and guidelines established pursuant to the California Coastal Act of 1976 (Chapter 1330).

Funding to provide for the purchase and lease back of coastal lands, the awarding of grants for restoration projects and other authorized activities, as well as necessary support costs, is initially provided for by the Nejedly-Hart State, Urban and Coastal Bond Act of 1976 (Chapter 259).

To assist the Conservancy in meeting its responsibilities, two new positions, the Executive Officer and one stenographer, are being established, effective February 1, 1977. The current year program will be funded with a General Fund loan to be repaid from the State Coastal Conservancy in the budget year. One additional staff member is proposed for 1977-78.

Specific acquisition, grant and restoration projects will be proposed after the Conservancy is established.

## Authority

Total (State Coastal Conservancy) .....	-	-	-	-	(\$26,116)	\$226,531

## V. MAINTENANCE DREDGING COORDINATION

## Program Objectives and Description

Chapter 1274, Statutes of 1974, established the Resources Agency as the state coordinating agency for all applications for permission to conduct maintenance dredging in the area described as included in the area of jurisdiction of the San Francisco Bay Conservation and Development Commission. The activity was a pilot program attempting to streamline and expedite dredging permit application procedure. The program was effective until July 1, 1976. The Resources Agency was responsible for a report to the Legislature of its evaluation of permit procedures, identifying problems, and making recommendations concerning ways to expedite the process. The agency was also to advise the Legislature on the feasibility of a statewide application of the new procedures. The report was submitted to the Legislature in January, 1976.

## Authority

## VI. LOCAL ASSISTANCE

## California Tahoe Regional Planning Agency

## Program Objectives and Description

The California Tahoe Regional Planning Agency is a special body created by the Legislature as a political subdivision of the state. It is neither a city nor a county; rather, it is a regional agency. The interests of the State of California in negotiations with the Tahoe Regional Planning Agency are the primary concern of this body. Chapter 1064, Statutes of 1973, revised the membership of the agency, and provided for state funding of the body deleting provisions of the earlier legislation calling for assessment of counties within the Tahoe region to support the agency.

## Authority

### ENVIRONMENTAL PROTECTION PROGRAM

The Marks-Badham Environmental Protection and Research Act of 1970 established the California Environmental Protection Program Fund into which fees are deposited for carrying out the purposes of this act. The source of revenue for this program is the sale of personalized motor vehicle license plates by the Department of Motor Vehicles. The Secretaries for Resources and Business and Transportation develop environmental protection plans and recommend apportionment of funds.

In addition to the projects listed here funds have been allocated directly to those state agencies given the responsibility to carry out specific-approved programs.

#### Authority

Chapter 779, Statutes of 1970.

#### PROGRAM REQUIREMENTS

	1975-76	1976-77	1977-78
Environmental Protection Program (California Environmental Protection Program Fund) .....	—	—	\$301,000

#### Program Elements

##### a. Department of Forestry

#### Five-point Fire Prevention Program:

Provide for a program of Environmental Education, Conservation and Fire Prevention for grades Kindergarten through Third to teach and train children in the dangers and use of fire and its relation to the environment. The proposed funding would continue this program which was initiated with an earlier allocation of funds.

#### Input

	1975-76	1976-77	1977-78
Expenditures .....	—	—	\$25,000

##### b. Department of Navigation and Ocean Development

#### Ecological Information, Pamphlet (Upper Sacramento River):

Provide for a program to gather information for the Upper Sacramento River (Colusa to Redding). The information would be organized into a pamphlet tailored to the perspective of recreationists who propose to float down this ecologically diverse section of the river. The pamphlet, written in layperson's terms, would describe the various biological and physical characteristics and interrelationships of the river such as stream bed ecosystems and riparian vegetation as well as their importance for fish and wildlife habitat. The necessity for protecting these sensitive ecological areas from disturbances commonly attributable to river recreational activity would be explained.

The purpose of this effort is twofold—first, to provide ecological information regarding interrelated land-water ecosystems which are subject to increasing disturbance because of accelerating rafting activity; and secondly, to increase river users' awareness of the need to protect these resources, and thereby curtail the level of trespass, vandalism and environmental degradation in wildlife habitat areas and on private property.

The development of this pamphlet would be coordinated with the Upper Sacramento River Task Force, Fish and Game, and the Sacramento Boating Trails Study to insure the objectives of all three are complimentary.

With minor modification as appropriate, this pamphlet could be used as the basic resource document for publication of similar pamphlets covering all waterways of the State.

#### Input

	1975-76	1976-77	1977-78
Expenditures .....	—	—	\$3,500

#### Ecological Information Boating Pamphlet (Impact of boating facilities on environment):

Provide for a program to compile data describing the positive and negative environmental impacts of boating and boating facilities. For instance, the marine ecosystems that develop with a marina could be described along with the negative impacts such as boat wakes on eroding shorelines, sewage and trash dumping in waterways, shoreline, trespass and vandalism, etc. A discussion of these impacts together with an explanation of the need for controlling the negative impacts could be developed into a pamphlet designed to illustrate to the public the impact of their activity upon the environment.

#### Input

	1975-76	1976-77	1977-78
Expenditures .....	—	—	\$3,500

##### c. Department of Parks and Recreation

#### Educational Use of State Parks:

Provide for a program to allow the Department to develop and present a series of workshops for teachers and rangers, plus allow intensive monitoring and revamping of the course and materials where necessary to enable implementation on a statewide basis.

With funding from the State Parks Foundation, the Department of Parks and Recreation has prepared a model set of guides to help teachers make the most effective educational use of parks. The need now is to provide a coordinated mechanism whereby individuals who could be making use of this material (the classroom teacher and the park ranger) are made aware of its existence and instructed in how to use the new system for maximum benefit to both.

While the pilot program would serve primarily schools in San Luis Obispo County and the San Joaquin Valley, it would serve as a statewide model and thus ultimately be of statewide significance.

# ENVIRONMENTAL PROTECTION PROGRAM—Continued

Input	1975-76	1976-77	1977-78
Expenditures .....	-	-	\$20,000

## Urban Environmental Career Education:

Provide a grant to Outward Bound Adventures, an already successful program in the urban core areas of Watts and East Pasadena, so they could develop a State Parks element in their program patterned after a successful program previously developed in Pittsburg. This, in turn, would provide a springboard for developing other programs in the Los Angeles Area. About 200-300 students would be directly affected, with spinoff to their peers and into their communities.

Input	1975-76	1976-77	1977-78
Expenditures .....	-	-	\$14,000

## Junior Ranger Program:

Provide a program for the children of people camping in the State Parks. Its purpose is to teach these children and future campers the basic principles of ecology and good campership through a series of outdoor classes and "supervised camp tasks".

The program is conducted by rangers as part of their regular interpretive workload; requested funds are for materials—leaders' guidelines, task sheets, badges, etc. for juniors. With 40 units now involved, total participation could reach 30,000 in 1977.

Input	1975-76	1976-77	1977-78
Expenditures .....	-	-	\$10,000

## Environmental Education Facility Needs on State Park Lands:

About 30 school districts operate facilities in park-type areas where children can spend one week of their school year in an intensive environmental education program. Many other districts want such programs but cannot afford the capital outlay for facilities and feel the State should provide them, as does the State of Washington, with the school paying only a fee for their use. Such facilities have been proposed for Salt Point State Park, and for Rustic Canyon in the Santa Monica Mountains. A study is needed to determine (1) if such facilities are needed and what the demand would be; (2) what kind of facilities would be necessary to meet both park and education requirements; (3) how should such facilities be operated, and by whom, and (4) what would the costs be and how could they be funded?

A typical outdoor education facility services about 130 children per week.

Input	1975-76	1976-77	1977-78
Expenditures .....	-	-	\$20,000

## d. Department of Water Resources

### Pilot Project for Use of Integrated Pest Management at Resources Agency facilities:

Most of the departments of the Resources Agency manage land and water areas which occasionally require control of undesirable vegetative growth and pests. This pilot study, which would be managed by the Department of Water Resources for the Resources Agency, would seek to explore the opportunities for substituting biological, mechanical or other methods of control for the use of chemical toxicants in a program of integrated pest management. The study would be undertaken in consultation with appropriate elements of the Agriculture and Services Agency and the Health and Welfare Agency, as well as persons in the scientific community interested in such a study. The goal would be to produce a report on the possibilities of increased use of integrated pest management, including comparative cost and effectiveness data for various alternative pest control methods.

Input	1975-76	1976-77	1977-78
Expenditures .....	-	-	\$30,000

### Capitol Area Water Conservation Demonstration Garden:

The Department of Water Resources, in cooperation with other agencies, is planning a Capitol area water conservation residential garden as a public information and research project.

The garden will be located for high public visibility on State-owned lands in the Capitol Area Plan area. The garden will include demonstrations of compost management, plantings of low water-using plants and those that produce usable products (e.g., strawberry plants for ground cover and low water demand fruit trees), and various irrigation techniques, including drip irrigation.

Input	1975-76	1976-77	1977-78
Expenditures .....	-	-	\$20,000

### Cooperative Water Conservation Education Program:

A comprehensive and well-executed set of water conservation education materials for grades kindergarten through 12 (the Captain Hydro Program) has been developed by the East Bay Municipal Utility District. Department of Water Resources will, in conjunction with the State Department of Education, seek cooperation and additional funding from local schools, water districts, cities, and power utilities to educate teachers in the use of the materials and infuse the materials into classrooms in the State. Environmental Protection Fund monies will be used to sponsor teacher education conferences, purchase and reproduce relevant materials, purchase initial stocks of curriculum materials, and provide incentives to local agencies and schools to participate in the program. The Department of Water Resources will have primary program fund control, and work would be shared with the Department of Education. This project will be the first step toward a cooperative effort to integrate water conservation ethics and practices in the regular curriculum of the California public schools system.

Input	1975-76	1976-77	1977-78
Expenditures .....	-	-	\$100,000

## e. Resources Agency

### Soil Resources Symposium:

An inch of topsoil requires 10,000 years to produce. The soil resource is as basic to the long-term welfare of the people as air and water for continued production of food and fiber. In addition to existing long-term productivity, loss of this resource severely impacts water quality and the ability of our system of rivers and lakes to support fish and wildlife. It also lessens the useful life of manmade reservoirs in some instances. Yet, loss of the soil is probably not well understood by the public as a critical resource issue. Several inches of this essentially nonrenewable resource were lost during the last 200 years. These losses were caused by agricultural practices, forest practices and a wide range of other land disturbances.

Responsibility for management of the soil resources is largely in the hands of individual land owners with the advice, and in some instances regulatory oversight, of a number of state, local, and federal agencies including the University of California Agricultural Extension Service, the U.S. Soil Conservation Service, the U.S. Forest Service, the Bureau of Land Management, the California Department of Food and Agriculture, and the Department of Forestry. The purpose of the proposed symposium is to assemble a number of nationally recognized experts in this field for an intensive public interchange of facts and ideas. The goal would be to better understand the current status of this critical resource problem and develop recommendations for action by state, local and federal agencies, and private and governmental land holders. The symposium and its written product

## ENVIRONMENTAL PROTECTION PROGRAM—Continued

would also be intended to provide information and recommendations understandable by the general public to increase broad recommendation of the importance of this resource issue for the future of the people.

For maximum benefit, substantial staffwork prior to and after the symposium would be required. The work would be managed by the Resources Agency in coordination with the University, elements of the Agriculture and Services Agency, and other elements of state and local government.

Input	1975-76	1976-77	1977-78
Expenditures .....	-	-	\$30,000

### Personalized Motor Vehicle License Plate Promotion:

Funds will be allocated on a contractual basis to other state departments for programs to stimulate the sale of personalized plates to expand Environmental Protection Program Fund revenue sources.

Input	1975-76	1976-77	1977-78
Expenditures .....	-	-	\$25,000

## CALIFORNIA POLLUTION CONTROL FINANCING AUTHORITY

### Program Objectives and Description

The issuance of pollution control revenue bonds was approved by a vote of the people November 7, 1972. Enabling legislation is contained in the California Pollution Control Financing Act (Division 27, Chapter 1 of the Health and Safety Code, commencing with Section 44500 as amended by Chapter 277, Statutes of 1973, Chapter 1473, Statutes of 1974, Chapters 1165 and 957, Statutes of 1975, and Chapters 1381 and 1384, Statutes of 1976). The bonds carry interest which is exempt from income taxes, as provided for in Section 103 of the Internal Revenue Service Regulations.

The program provides an opportunity for industrial firms and agricultural producers to utilize this method of financing to acquire, construct, or install pollution control facilities to meet the air and water quality standards mandated by federal, state and local governments. The interest tax exemption has resulted in annual financing rates of from 2% to 5% below comparable conventional methods.

An initial maximum of \$200,000,000 in bonds or notes was authorized by the Act. As of November 1, 1976, 23 issues of bonds totaling \$102,072,000 have been sold. The Authority has reserved the balance of the authorization for small businesses and agricultural producers, and others which can demonstrate the public benefits which will accrue through the use of this type of financing. Twelve issues for \$10,908,000 have been sold to finance projects for small businesses and agricultural producers. The Authority's program is available for the financing of projects using resource recovery as a means of disposal of solid waste, but no amount of bonds are yet authorized.

Companies which received financing through the program have included food processors, cooperatives, manufacturers, recreational facilities, petroleum producers, refiners and marketers, and public utilities. The Authority has consulted with lenders and investors to tailor programs for specific needs. There is no minimum size, and individual projects costing \$155,000 to \$16,000,000 have been funded. Companies using this financing are also eligible for rapid amortization, depreciation and investment tax credit incentives for mitigating negative cash flow impacts of pollution control financing.

The Authority estimates that over \$2.6 billion will be needed by California industries to meet air and water quality standards, and to reduce the volume of solid wastes by 1983. A substantial portion of this capital would be eligible for financing through the Authority. Toward this end, the Authority is undertaking a study to project more specifically the needs of California industry to meet existing and proposed standards. From this the Authority will determine the need for additional amounts of authorization. It is not anticipated that additional bonds will be authorized prior to March 1977.

Projects costing less than \$2,500,000 have generally been financed with banks or other sources that are familiar with the company. Companies with public markets for their securities or with well-known public names have been able to get a public underwriting for their issues. The Authority has been able to find purchasers for twelve of 22 proposed issues for small companies.

The Authority has undertaken a Small Business Financing Assistance Program using 100% guarantees of the credit of participating businesses by the Federal government as provided for in Public Law 94-305, enacted by Congress in 1976. The guarantees should enable the Authority to assure that all credit-worthy businesses can have access to the long-term tax-exempt credit markets for this purpose. In this connection, the Authority has also set up its own Common Bond Reserve Fund, to complement the Federal program.

## CALIFORNIA POLLUTION CONTROL FINANCING AUTHORITY—Continued

The California Pollution Control Financing Authority Act specifically provides that any incurred indebtedness shall not be secured by the taxing power of the State, nor any of its political subdivisions. Under no circumstances shall the Authority create any debt, liability, or obligation on the part of the State payable from any source whatsoever other than project revenues or other moneys received by the Authority. This is a trust activity and involves no State revenues or expenditures.

A loan from the Emergency Fund was made to the Authority in 1972-73 and 1973-74 for its initial administrative costs. The 1972-73 loan has been repaid from revenues obtained from participating companies and it is anticipated that the 1973-74 loan will be repaid prior to June 30, 1977, together with interest. In addition, the Authority works with the staffs of the State Water Resources Control Board, the Air Resources Board, the Solid Waste Management Board, the Attorney General, and the State Treasurer and reimburses them for their costs incurred on behalf of Authority's projects.

## CALIFORNIA CONSERVATION CORPS

The California Conservation Corps, established by Chapter 342, Statutes of 1976, was created to accomplish two important and interrelated goals: (1) to further the development and maintenance of the natural resources and environment of the State and (2) to provide to the young men and women of the State meaningful, productive employment, training in employable skills, and educational opportunities. The Legislature established the following specific objectives upon which the Corps shall focus: (1) accomplish useful and needed public works projects that will protect the natural environment; (2) develop the natural environment to provide opportunities for greater public use; (3) maintain the current fire prevention and fire suppression capability in rural areas; (4) instill in the corpsmembers an understanding and an appreciation of the natural environment; (5) provide an opportunity for the personal growth and development of the corpsmembers; and (6) provide on-the-job training to corpsmembers so that they may acquire employable skills, experience, and sound work habits.

Fire prevention and suppression receive major emphasis in the rural part of the program. The Secretary of Resources has designated certain rural Conservation Corps centers to insure an emergency capability for fire fighting and natural disaster relief. The State Department of Forestry administers these centers, which are former Ecology Corps centers, in accordance with the policies of the Conservation Corps.

### SUMMARY OF PROGRAM REQUIREMENTS

### I. TRAINING AND WORK PROGRAM

#### Program Objectives and Description

In keeping with intent of the Legislature "that young men and women be selected for the program authorized by this division (Chapter 342) on the basis of motivation for hard work, personal development, and public service and without regard to their prior employment or educational background", the youths selected to enter the California Conservation Corps have varied backgrounds and experiences.

The diversified nature of the group offers significant advantages and also presents a challenge. The Corps must choose a setting and create an environment in which work, training, and routine aspects of living are carried on in a spirit of cooperation. The achievement of the objectives of the program depends upon the development of the cooperative spirit. To achieve the program objectives, the Corps will operate two Orientation and Training Centers and sixteen Base Centers and will employ over 1,000 corps members in the 1977-78 fiscal year.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78
Continuing fund costs.....	-	69.2	136.2	-	\$3,157,798	\$6,649,057
General Fund .....	-	-	-	-	3,051,698	6,007,657
Reimbursements .....	-	-	-	-	106,100	641,400

#### Program Elements

a. Orientation and training centers .....	-	18.1	33.6	-	\$936,321	\$1,406,089
b. Base centers .....	-	51.1	102.6	-	2,221,477	5,242,968

#### a. Orientation and Training Centers

The objectives of the Orientation and Training program are to orient the members toward the goals of the program, develop group cohesiveness, establish the living schedule and provide basic skill training to prepare for project work.

The corpsmembers will be engaged in: (1) preparing meals, and cleaning and maintaining sleeping quarters and common areas; (2) training in fire fighting, tool safety and use and basic first aid; (3) taking courses in environmental studies, social awareness and group responsibility in the camp community; (4) physical conditioning through calisthenics and sports; and (5) training in the basics of survival and camping skill to enable the corpsmembers to perform back country projects. The O&T Center will provide an environment in which the social, physical, and avocational skills of all the corpsmembers can be shared.

The candidates chosen to participate in the Corps will stay at an O&T center for the first four weeks of the program. The center operates 24 hours a day, seven days a week in order that the community responsibility aspects of the program can be fully developed. During the initial phases of the orientation and training of the California Conservation Corps, each professional member of the base center staff will receive training at an Orientation and Training Center. The staff program is three weeks: one prior to the arrival of the members followed by two weeks shared with the corpsmembers. The California Conservation Corps' first orientation and training center, initially designed to train 13 staff members and 60 corpsmembers every six weeks, is to be established in February, 1977. A second O&T center will be operational by January, 1978 to provide a sufficient number of corpsmembers to undertake the conservation projects available. When corpsmembers successfully complete the Orientation and Training program they are assigned to a base center.

#### Output

1. Provide initial training and orientation for new base center staff and corpsmembers.
2. Undertake conservation projects.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	-	18.1	33.6	-	\$936,321	\$1,406,089

## CALIFORNIA CONSERVATION CORPS—Continued

## b. Base Centers

The major objectives of the Conservation Corps program are accomplished through the projects undertaken at base centers. Projects are selected that develop and/or maintain the natural resources of the State and concurrently offer training, meaningful experience and skill development to the corpsmembers.

As directed by the statutes, the projects are undertaken by agreements with State agencies, with other governmental bodies, and with environmentally oriented private organizations. The base centers also have a major training function to prepare corpsmembers to serve in fire prevention and suppression positions under the direction of the State Department of Forestry.

The base centers are the corpsmembers' homes. They are self-contained units that provide for the total needs of the members. Each center has a permanent, professional staff and is operated on a 24-hour day, 7 day a week basis. In addition base centers also run temporary camps that are established as needed to handle project work. Average corpsmembers strength at a base center is sixty.

## Output

1. Provide in-depth training for corpsmembers
2. Undertake conservation projects

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	-	51.1	102.6	-	\$2,221,477	\$5,242,968

## II. PROGRAM SUPPORT

This program is composed of three major functions: executive, administrative services, and project development. The executive section includes the executive staff and a site acquisition and preparation staff. The administrative services section includes four major activities: financial operations, business services, personnel operations, and recruitment. The third major function, project development, is designed to identify and evaluate potential projects, to execute contracts for selected projects and to evaluate the completed projects. Project sponsors must provide the equipment, supplies, technical supervision, and other special requirements for the project (e.g. unusual transportation or special temporary (spike) camps, required to carry out the project). State agencies will not reimburse the Corps for labor costs. Federal agencies will reimburse the Corps for labor costs on a unit, project, or man-day basis. The policy for local agencies reimbursement is to require at least 20% of the direct costs of the project in matching expenditures for the equipment, supplies and technical supervision for that project.

The California Conservation Corps contracts with the Department of Forestry to administer the eight Corps centers, which have the primary mission of aiding the Department of Forestry in fire prevention and fire suppression activities. Approximately 500 young men and women are employed under the contract. Funding in the amount of \$4,888,274 is included for this contract in the 1977-78 fiscal year.

The current year budget reflects \$195,000 in state funds to contract with the Department of Parks and Recreation to administer the federal Youth Conservation Corps program which provides summer jobs to approximately 400 young people. For the 1977-78 fiscal year it is proposed to fund this program directly within the Department of Parks and Recreation.

## ENERGY RESOURCES CONSERVATION AND DEVELOPMENT COMMISSION

The objective of the Energy Resources Conservation and Development Commission is to insure the continuance of a reliable supply of energy at a level consistent with the State's needs for protection of the public health and safety and for promotion of the general welfare. The Commission's programs are directed toward processing utility applications for siting additional thermal power plants; establishing measures to reduce waste and inefficient use of energy, and developing new and/or alternative means of conserving, generating, and supplying energy, while complying with statewide environmental, public safety, and land use goals.

## ENERGY RESOURCES CONSERVATION AND DEVELOPMENT COMMISSION—Continued

## SIGNIFICANT PROGRAM CHANGES

Program	Description	Personnel years	Dollars
I.a.	Increase energy and electric planning, demand conformance and assessment of energy conservation matters	37.6	\$2,036,053
I.b.	Increase level of activity of processing power plant siting applications based on an increased number of applications in-house	68.8	\$2,087,793
I.c.	Develop and implement energy conservation concepts in the industrial, residential and commercial sectors	85.8	\$1,794,535
I.d.	Provide additional legislative bill analysis support	1	\$38,704
I.e.	Increased workload in the Public Information Office	1	\$25,419
II.	Provide in-house program expertise in research and development by shifting contract dollars to personal services	14.2	\$405,854
III.	Increase administrative services because of additional workload and staffing	19	\$1,228,831
III.	Establish a Nuclear Assessments Program Office primarily funded through existing resources to begin work on the mandates contained in Chapters 194, 195 and 196, Statutes of 1976	13.3	\$372,337

## I. ENERGY RESOURCES CONSERVATION AND DEVELOPMENT

## Program Objectives and Description

The objectives of the program are to: (1) assess and forecast energy demands and supplies; (2) promote the conservation of energy resources; (3) consider permits for the siting of powerplants and facilities; (4) develop contingency plans for addressing possible shortages of electrical energy of fuel supplies; and, (5) insure that a reliable supply of electrical energy is maintained at a level sufficient for the protection of the public health and safety, for promotion of general welfare, and for consistency with good environmental practices.

d. Office of governmental affairs	4.9	4	5	117,951	148,656	189,056
e. Public information	5	3.1	4.1	185,335	113,168	146,369

## a. Energy Assessments

The primary objective of the Energy Assessments element is to: (1) make independent staff forecasts of electricity demand, implement a common methodology for all utilities to use, and critically evaluate utility demand forecasting; (2) analyze technical, economic, and fuel-related aspects of electric supply; (3) integrate environmentally-sensitive long-range planning into the Commission's policy and regulation activities; and (4) provide a staff capability to cope with major energy and electricity issues.

During 1977-78, there are activities to: (1) manage the Commission's electrical planning program; (2) assess impacts on the State economy of changes in energy supply, demand, and energy-related policies; (3) develop a method for forecasting demand by end-use in the residential sector, and (4) provide essential environmental, economic, and social impact analysis for the Commission's conservation, alternative technology and siting activities.

Of the 30 new professional positions proposed, nine will be added to assess the proposed construction of generation plants for conformance with electrical energy demands; eight will be used to perform EIR assessments of conservation measures; eight will expand existing methods of forecasting electric and non-electric energy end-use and develop new methods; three will improve the existing capability to assess the financial implications of utility expansion plans; and two will develop a uniform approach for assessing electric system reliability. Two clerical and 5.6 temporary positions will provide support for the increased professional staff.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures	57.5	88.9	125.4	\$2,972,835	\$2,919,209	\$5,005,759

## b. Energy Facility Siting

The primary objective of this element is to certify sites and related facilities for thermal electric power plants that are needed in the best interests of the State. In accomplishing this objective, work effort is focused primarily on the processing of Notices of Intent to file for Site Certification (NOI), and Applications for Certification of Generating Facilities (AFC). Standards and regulations, and monitoring systems for the design, construction and operation of energy generating facilities will be developed. This will insure that needed power plants are sited, constructed and operated in a manner consistent with the site-specific, regional and statewide environmental, economic, social and health and safety criteria.

During 1977-78, an estimated four NOI's and two AFC's will be submitted to the Commission for processing and decision. Work will also begin in the budget year on three AFC's to be filed early in 1978-79, since a substantial amount of staff work is required prior to actual receipt. In addition, eight NOI's will be carried into the budget year from 1976-77.

In 1977-78, forty-one professional, five clerical and 1.8 temporary positions are proposed to process the expected workload. Of these positions, 36.1 were added administratively during the current year. An additional twenty-one positions not directly related to site-specific work are proposed as follows: eight to establish NOI/AFC review procedures and Commission minimum standards acceptable to local, regional, state and federal permit issuing authorities; five to establish, implement and enforce standards necessary to safeguard public health and safety; two to develop the capability to identify specific health and safety-related issues and develop a competent monitoring program; two for the compilation and analysis of data on all aspects of facility conversion, deactivation and decommissioning; and one professional and three clerical positions for program planning and support.

ENERGY RESOURCES CONSERVATION AND DEVELOPMENT COMMISSION—*Continued*

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	25	85.8	115.3	\$1,022,350	\$2,689,356	\$4,197,811

## c. Conservation

The energy resources conservation program represents a consistent and compatible set of policies and implementation actions designed to bring about less waste, more efficiency, and more economy in the use of energy resources in California. The principal efforts in this program are to reduce the level and the rate of increase of energy use by: (1) the setting of standards for energy use by new buildings, appliances, industrial processes and proposed utility expansions; and (2) provision of technical and financial assistance to existing energy users, including other state, regional, and local governmental agencies, in better utilizing energy resources in their own operations and planning processes.

During 1977-78, this program will involve development and adoption of standards for new buildings, commercial and residential appliances, management of electrical loads, and power plant and system efficiency. Work will be done to insure that the approval of proposed power plants is linked to the implementation of necessary energy conservation actions. Efforts will be extended towards modifying utility rate structures to be more responsive to energy conservation considerations, assisting in the retrofitting and weatherization of several thousand residences statewide (as part of federal programs to be implemented in California), auditing and modifying several hundred state buildings for energy efficiency in coordination with the Department of General Services, directly assisting other governmental agencies in improving the energy efficiency of their operations, and the further investigation and implementation of pilot programs to improve the marketability of energy conservation methodologies and devices. Also, within the Conservation element is the emergency planning function, which will provide technical expertise and leadership in the area of developing contingency plans to cope with possible shortages of energy supplies.

Sixty-seven professional, thirteen clerical and 5.8 temporary positions are proposed as follows: two to develop energy shortage contingency plan implementation procedures; eight to assess new energy conservation opportunities, monitor and evaluate ongoing projects and coordinate actions with other governmental and non-governmental activities; twenty-nine to develop and implement methods to improve the operating efficiencies of buildings and appliances; two to develop and implement methods to reduce the level and rate of growth in demand for energy within the industrial sector; nineteen to develop and implement the means to meet consumer electric demands with existing or minor utility expansions; and nine to provide technical and educational support in the practical application of energy conservation concepts. The 13 clerical and 5.8 temporary positions will provide support for the increased professional staff.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	38.2	61.6	140.4	\$1,968,980	\$1,947,538	\$5,619,809

## d. Office of Governmental Affairs

The objective of the Governmental Affairs element is to provide liaison between local, federal and state government entities. The office is responsible for specific priorities which include: (1) identification and contact with persons responsible for energy problems in local government jurisdictions including municipal and private electric utilities; (2) compilation and maintenance of an up-to-date roster of federal and local government officials or employees involved with energy problems. Also, assisting local governments in dealing with the activities of the Commission and providing input to the Commission on local government activities; (3) development of a thorough understanding of local rules and regulations that may affect or be affected by actions of the Commission; (4) provide coordination with Department of Finance, Resources Agency, the Governor's Office, and legislative committees on energy-related matters of mutual concern; analyze and make recommendations to the Commission on proposed or recommended legislation.

One professional position is added for legislative bill analysis.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	4.9	4	5	\$117,951	\$148,656	\$189,056

## e. Public Information

The goal of the Public Information element is to maintain and disseminate information to the public about mandated functions in all areas of Commission activity. This function is carried out through media, public schools, colleges and universities, community groups and organizations, and local governments.

One technical position is added to meet increased workload requirements.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	5	3.1	4.1	\$185,335	\$113,168	\$146,369

## II. RESEARCH AND DEVELOPMENT

## Program Objectives and Description

The element will initiate and carry out a program of research, development and demonstration of new energy systems with the goal of rapid and widespread use in the State of new and useful energy systems and technologies. Research and development will look at the economic, and social aspects of: solar and geothermal energy; utilization of urban and agricultural waste for fuel production; advancement in methods to reduce wasteful uses of energy; and development of other energy systems which will benefit the state. This increase is the total of the integrated research program as specified in Section 25603 of the Public Resources Code. A detailed project-by-project listing will be submitted separately.

In 1977-78, 23 positions are being added and 8.8 temporary positions will be deleted for a net increase in staff of 14.2 positions. This shift in staff to permanent positions, and a corresponding reduction of contract dollars will allow for a greater in-house expertise.

## Authority

## ENERGY RESOURCES CONSERVATION AND DEVELOPMENT COMMISSION—Continued

## III. ADMINISTRATION

## Program Objectives and Description

Administration provides management direction and administrative support to the line programs. Executive Management includes the Commissioners' Office, Executive Office, General Counsel, Policy and Program Assessments Office, Public Advisor's Office, Nuclear Assessments Program Office, and the Secretariat. This function has two primary roles: (1) to set policies and priorities which recognize and meet the changing energy needs and demands of the State of California and their impacts on consumers, producers and the environment; and, (2) insures the full and adequate participation by all interested groups and the public at large in all Commission activities. Administrative Services provides centralized support and management services which include fiscal management, personnel management, training, business services, central office services, data processing, library and publication services.

The following positions are proposed to meet workload and program increases: one professional for Policy and Program Assessment; one professional for the Public Advisor's Office associated with the increased workload of the Commission hearings; eleven professionals and three clerical for handling formal hearing and regulatory processes in the General Counsel; one professional and one clerical for the Secretariat associated with increased Commission hearing workload; one professional for the increased Personnel Office workload; and ten clerical for Fiscal Services converted from temporary help funds.

Ten professionals, one clerical and 2.3 temporary positions are proposed for the Nuclear Assessments Program Office. This Office will do the staff work required of the Commission in advising the Legislature on undergrounding of nuclear powerplants, adequacy of fuel reprocessing facilities, and permanent disposal methods for high energy wastes. These mandates are required by Chapters 194, 195 and 196, Statutes of 1976.

## SOLID WASTE MANAGEMENT BOARD

The objectives of the Solid Waste Management Board are to work with local government in order to protect California from further environmental degradation of the land mass; and to investigate and promote more effective and efficient methods of recovering waste materials, resources and energy. Enlightened management of solid wastes is an area of growing public concern. As the air and water quality standards are increasingly upgraded, more wastes removed from the air and the water are deposited on the land. Until December 1974 when the Board adopted standards for solid waste management there had been no standards existing in California in this important environmental area. Consequently there had been no regulation of, or assistance to local government in order to upgrade solid waste operations to lead to a balanced preservation and enhancement of California's environment.

The Board is responsible for the statewide development and implementation of minimum standards and policies for solid waste management and for the review, approval and technical assistance to local government for implementation and enforcement of the required county solid waste management plans. Statewide attention is necessary because of rapid population increases, decentralized urban growth, industrial expansion, and technological developments in the manufacturing, packaging and marketing of consumer and industrial products. This collectively places new pressures on existing solid waste disposal facilities and the institutional entities who manage them.

The Board is also responsible for studies and demonstration projects on the recovery of resources and useful energy from solid wastes. Reduction, recovery, conversion and recycling of all solid wastes are essential to the long-range preservation of the health, safety and well-being of the public; to the economic productivity and environmental quality of the state; and to the conservation of its remaining resources. Development of funding plans to finance and to bring urban resource recovery to the selection of sites for these facilities based on economic feasibility is now also required of the Board.

c. Add two new public members and change the Chairman from part-time to full-time. Add a legal counsel and additional clerical staff. Increase the contract amount for administrative services. ....		4	193,117

## SOLID WASTE MANAGEMENT

### Program Objectives and Description

The purposes of the Solid Waste Management Program are to upgrade operations, protect the public health and reduce the need for new natural resources by promoting recovery, recycling and reuse of waste materials.

Conventional solid waste management operations includes the collection, storage and transfer of the solid wastes to a point of disposal. The objectives of this activity within solid waste management are to work with the local officials who administer solid waste management programs within their jurisdictions to maintain those programs within the county plans and the established state policies and minimum standards. Technical assistance is also provided on improved methods of collection and disposal, and on techniques for the reduction of solid wastes with a community.

Resources recovery and energy conversion involve new approaches to solid waste management which will reduce our dependence on new or imported natural resources. The technology involves equipment and institutional arrangements for the collection, transportation and separation of usable materials such as metals, paper and glass, with the remainder going to energy conversion or other uses or to landfill for disposal.

The Board must take the lead in developing markets for recycled materials from the waste stream and provide technical assistance to both government and private entities to encourage development of resource recovery facilities. The tracking of markets, prices, dissemination of this information and constant monitoring of new approaches and technology is vital to success of this activity.

Another aspect of solid waste management which has an indirect effect on the safety and well-being of the public is the proper handling and disposal of chemical and liquid industrial wastes. Continued safe disposal of these wastes requires development of control and development strategies as well as legislation to upgrade handling and disposal methods. The solution to this growing problem can have a direct effect on not only public health but the continued economic growth and output of industry.

The ultimate objective of the activities discussed above is to preserve and possibly enhance the environment with particular emphasis on the land mass. But each activity has an impact on air and water quality. The Board must assess the environmental impact of each project on air and water quality, leading to a balanced environment.

### Authority

Government Code Section 66700 et seq. and Health and Safety Code Section 4500 as amended by Chapter 342, Statutes of 1972.

## SOLID WASTE MANAGEMENT BOARD—Continued

## a. Planning and Implementation

The major activities geared primarily to conventional solid waste management are to:

1. Assist local entities in developing, updating and implementing their solid waste management plans.
2. Refine current standards and develop enforcement legislation.
3. Provide statewide surveillance of the solid waste operations and update data on the existing 400 solid waste landfill facilities and determine what is needed to bring these facilities into conformance with the State minimum standards.
4. Prepare and implement a statewide solid waste management information storage and retrieval system.
5. Provide information and assistance to local governments, the private sector, and the general public, on factors relating to environmental protection and the techniques available in solid waste disposal activities to correct problems and protect the environment.
6. Provide technical training to state and local agencies in the planning operation of solid waste management programs.
7. Review environmental impact reports relative to solid waste disposal.
8. Address the problems of liquid and hazardous waste disposal in cooperation with the State Department of Health, and develop a program based on the recommendations contained in the report to the Legislature under ACR 79 (1975 Legislative Session).

An additional 12.5 positions and \$311,437 will be required to carry out monitoring of the enforcement of county solid waste management plans in accordance with Chapter 1309, Statutes of 1976; followup on the waste planning aspects of the recommendations made in the report to the Legislature pursuant to ACR 79; coordination of water quality matters at dump sites with the State Water Resources Control Board (reimbursable from federal sources); and continuation of the review and implementation of county solid waste management plans.

Output	1975-76			1976-77			1977-78

Expenditures .....	10.5	11.6	24.5	\$467,659	\$506,892	\$967,069			

## b. Resource Recovery Implementation

The recovery of usable materials and conversion of organic fractions to energy can serve to diminish the need for new natural resources, enhance the environment, protect water supplies, reduce the need for prime land used for landfills, curb the use of fossil fuels and supplement our energy demands. In order to pursue these goals the Board conducts the following activities:

1. Tracks available and changing markets and prices for materials and energy and provides this information to the public and local governments.
2. Monitors the latest technology, evaluate for environmental impact and communicates this information to all concerned.
3. Develops funding sources for resource recovery projects.
4. Provides incentives or disincentives by development of legislation and removal of impediments.
5. Assists local entities in implementing resource recovery projects.
6. Develops and implements a data gathering information system to further public education programs and provide assistance to local entities.
7. Assists local entities in implementing source reduction techniques, works on packaging standards, and develops source separation demonstration projects.

Resources Recovery Implementation will require an additional 9 positions and \$370,253. In addition to an increased effort in the ongoing work, one position will be used to assess the recovery potential of hazardous and environmentally dangerous wastes pursuant to the recommendations contained in the report requested by the Legislature in ACR 79. Finally, 6 positions will be used to carry out investigations of suitable sites and equipment leading to both urban and agricultural resources recovery demonstration projects as required by Chapter 1246, Statutes of 1976.

## c. General Support

General Support provides essential management, policy and program direction and administration including public information, legislative liaison, and legal support. Administrative services are provided through contract with the State Water Resources Control Board.

Two new public members and a change in status of the Chairman from part-time to full-time is required by Chapter 1246, Statutes of 1976. A legal counsel position and two clerical positions are also added, for a total cost of \$135,476.

The contract for administrative services furnished by the State Water Resources Control Board is increased by \$57,641. The increase is because of increased workload and a change in the method of allocating the costs of services.

## AIR RESOURCES BOARD

### Program Objectives and Description

The Air Resources Board has primary responsibility for controlling air pollution in California. In fulfilling that responsibility, the Board establishes ambient air quality standards for specific pollutants and reviews such standards adopted by the U.S. Environmental Protection Agency. It then develops a plan for the attainment and the maintenance of such standards. The plan includes emission limitations for vehicular sources established by the Board and measures for the control of stationary sources established by the Board and local air pollution control districts.

### SIGNIFICANT PROGRAM CHANGES

Program	Description	Personnel years	Dollars
a.	Increase EDP funds to operate air quality simulation models; increase measurement of hydrocarbon concentrations associated with new petroleum-related facilities; increase the level of contracted research.....	1	\$225,153
b.	Increase effort in the Air Conservation Program.....	1	88,939
c.	Expand vehicle emission control to include after-market parts, identification of emission control deficiencies for manufacturer recall, and manufacturer repair of warranted emission control systems.....	6	220,440
e.	Develop stationary source control strategies and regulations.....	5.3	132,908
f.	Additional technical support to develop and evaluate emission control strategies.....	12	448,543
g.	Increase surveillance of major sources of pollution and encourage uniform enforcement standards.....	4	92,245
h.	Augment contract with State Water Resources Control Board to meet increased workload and revised cost allocation basis.....	(-)	227,652

### AIR POLLUTION CONTROL PROGRAM

#### Program Objectives and Description

Air pollution harms the health of people in California; it impairs productivity; it reduces crop yields; it lessens our enjoyment of our surroundings; and it lowers property values. Control of air pollution is the objective of the Air Resources Board. In order to meet that objective, the Board develops and implements a variety of control strategies.

The research element conducts and sponsors research on the composition, the chemical processes and the distribution trends of pollution in the atmosphere and on measures for control of such pollution.

The planning element works closely with local governmental and private agencies in developing comprehensive air quality maintenance and conservation planning, and reviews environmental impact reports for anticipated effects on air quality of proposed private, commercial and industrial development.

The vehicle emission control element develops emission standards for new and in-use vehicles and develops and uses test procedures to evaluate such vehicles and their subsystem components.

The vehicle inspection element provides for the inspection of vehicles operating in California upon change in ownership, and also for the monitoring and certification of "smog stations" which certify whether in-use vehicles comply with emission control standards. These activities are carried out by the Department of Consumer Affairs under an interagency agreement with the Air Resources Board.

The stationary source control element focuses on developing and evaluating procedures and strategies to monitor and control emissions from industrial facilities. It works with local air pollution control districts to encourage the uniform application of improved monitoring and control procedures and strategies, and manages the Board's subventions program.

The technical services element collects and analyzes data on meteorology and air quality, maintains an inventory of pollution emissions and provides programmatic data processing services.

The legal affairs and enforcement element investigates complaints against polluters, assists local districts in resolving complaints and prepares documentation on chronic and flagrant violators for referral to local or State prosecutors.

The general support element provides executive leadership, policy guidance and administrative services.

Program Elements	75-76	76-77	77-78	1975-76	1976-77	1977-78

#### a. Research

The Air Resources Board requires, as a basis for its regulatory and standards-setting decisions, the fullest and most accurate scientific and technical information in a wide range of disciplines. The Research element provides the Board with some of the technical information necessary to formulate regulations and standards.

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

## AIR RESOURCES BOARD—Continued

In order to provide this information, the Research element conducts and sponsors laboratory research; develops and applies air quality simulation models; coordinates review of federal and state ambient air quality standards; monitors health-effects research conducted by federal and state agencies; and maintains the Air Resources Board reference library.

One additional staff member and \$27,168 will permit measurement of hydrocarbon concentrations associated with major new petroleum-related facilities by comparing levels before and after operations have begun. Data gained will be helpful in identifying suitable locations for future facilities. An additional \$171,275 will be used for data processing services to operate the air quality simulation models and apply them in developing more effective control strategies and projecting probable impact of proposed industrial developments. Finally, an additional \$26,710 will be used to augment the extramural research effort.

Output	1975-76	1976-77	1977-78
Staff—research reports completed .....	10	10	10
Research contracts administered .....	28	28	21
Establishment of library (% completed) .....	—	60%	80%

<b>Input</b>	<b>75-76</b>	<b>76-77</b>	<b>77-78</b>
Expenditures .....	36.4	44.3	45.2
	<b>1975-76</b>	<b>1976-77</b>	<b>1977-78</b>
	\$4,194,903	\$4,734,991	\$5,208,629

## b. Planning

This element is involved in a variety of federal and State legislated programs which relate planning and decision making to air quality at the federal, state, and local level. This element provides assurance that present and future air quality will be protected by meaningful planning and coordination. These activities include:

Development of an Air Quality Maintenance Plan (AQMP) for the State for urbanized areas of the State.

Development of an Air Conservation Plan to help provide directions for economic growth and also to help protect natural resources in non-urbanized areas from air quality degradation.

Review, comment on, and function as technical liaison for clean water grants, areawide wastewater planning programs, the California Transportation Plan and regional transportation plans.

Review and comment on Environmental Impact Reports required by the National Environmental Policy Act and the California Environmental Quality Act.

Coordinate the development of the State of California's Implementation Plan for achievement and maintenance of the national standards of air quality.

An additional staff member and \$88,939 are required to expand the State Air Conservation Program. This is a joint local, state and federal effort to develop a program to protect superior levels of air quality where it exists in California.

Output	1975-76	1976-77	1977-78
Complete Phase I AQMP .....	Yes	—	—
Initiated development of Air Conservation Program Plan Development .....	Yes	—	—
Completed Land Use/Oxidant Precursors Emissions Study Draft .....	Yes	—	—
Provide liaison/training involving State and local agencies to include air quality concerns as appropriate in the land use/transportation planning and decision-making process in California .....	Yes	Yes	Yes
Analyze and disseminate methodologies for long-term emissions projections .....	Yes	Yes	Yes
Prepared and disseminated <i>Emissions and Air Quality Assessment Methodologies Report</i> for use by planners throughout the State .....	Yes	—	—
Initiate Phase II AQMP .....	—	Yes	—
Approach completion of Phase II AQMP in most of State (SCAB will not be complete) .....	—	—	Yes
Complete and distribute Air Conservation Program. Initiate the development of an Air Conservation Plan for California that complies with federal requirements .....	—	Yes	Yes
Complete, print, and distribute <i>Air Quality and Land Use: A Primer for California</i> .....	—	Yes	—
In cooperation with the Department of Transportation, complete trip-end motor vehicle emissions assessment methodology for use by transportation, land use, and air pollution control agencies in estimating trip-end mobile source emissions. ....	—	Yes	—
Examine land use/emissions scenarios for relative oxidant air quality impacts. Disseminate findings to federal, State, and local planning and regulatory agencies. ....	—	Yes	Yes
Initiate long-term motor vehicle failure mode emissions assessment methodology .....	—	—	Yes
Initiate transportation model split scenario analysis in cooperation with the Department of Transportation .....	—	—	Yes
<b>Input</b>	<b>75-76</b>	<b>76-77</b>	<b>77-78</b>
Expenditures .....	41.4	44.5	44.5
	<b>1975-76</b>	<b>1976-77</b>	<b>1977-78</b>
	\$1,275,177	\$1,875,915	\$1,530,632

## c. Vehicle Emission Control

The most severe air pollution problem in the United States exists in the South Coast Air Basin (generally the Los Angeles Metropolitan area). Motor vehicles are the major source of carbon monoxide and the photochemical smog producing air pollutants: hydrocarbons (55%) and oxides of nitrogen. Air quality standards are being exceeded in two other major urbanized air basins: The San Francisco Bay Area and the San Diego Metropolitan Area.

The purpose of the Vehicle Emission Control element is to minimize the contribution of mobile source emissions to the air pollution problem by:

1. Implementing and enforcing laws and regulations limiting mobile source emissions, including initiating and implementing programs to measure both new and in-use vehicle emissions and the effect on emissions of replacement parts, emissions control devices, fuel additives, etc.

2. Developing test procedures for vehicles, engines, emission components and devices, fuel additives and test equipment to assure that emission standards are being met and that control systems remain effective.

3. Coordinating with federal, district, other state agencies and industry in support of the goal of the Air Pollution Control Program.

4. Conducting training seminars for emission control system mechanics and inspectors.

To insure a continuing level of effective vehicle emission control, this element must assure: That all aftermarket parts (replacement parts and add-on parts) comply with vehicle emission control standards; that manufacturers and dealers uniformly repair defective emission control systems at no cost to the customer; and that manufacturers recall and correct emission control deficiencies when recurrent emission control failures are identified. An increase of 6 staff members and \$220,440 are required to carry out these activities.

# AIR RESOURCES BOARD—Continued

## Output

### 1. New Vehicles

Enforcement on new vehicles results in cars being delivered to California motorists meeting California's stringent emissions standards. This effort includes inspecting automobile assembly plants, reviewing quality audit data (submitted by the manufacturer), testing randomly selected new vehicles and inspecting new vehicles at distribution centers and dealerships. Implementing these controls requires certification of all new vehicles at the start of a model year.

	1975-76	1976-77	1977-78
New vehicle surveillance tests.....	889	900	900
New vehicle surveillance test evaluations .....	216	400	400
Assembly plant inspections tests .....	75	88	88
Dealership inspections tests.....	485	984	1,107
Exhaust system evaluations and certifications .....	175	175	180
Evaporative system evaluation and certifications.....	50	50	50
Quality audit evaluations.....	134	134	140

### 2. In-Use Vehicles

In fiscal year 1976-77, Surveillance Testing of in-use vehicles was revamped to test by the CVS (Constant Volume Sampling) certified method. Surveillance test data (the evaluation of vehicles being driven by California motorists) are used for source inventory, strategy planning and a measure of the effectiveness of emission standards. California has adopted a new compliance test technique for measuring evaporative losses on hot soak and breathing losses from the carburetor and fuel system of cars. The purpose of aftermarket parts evaluation is to assure that emissions systems are not degraded by installation of replacement parts which deviate significantly from original equipment parts. Special emissions tests include the testing of vehicles, engines, emissions components, fuel additives and catalytic test equipment.

	1975-76	1976-77	1977-78
Surveillance tests .....	841	780	1,060
Special emissions tests .....	1,468	1,625	1,690
Evaporative tests.....	400	600	600
Aftermarket parts emissions tests.....	103	300	500
Aftermarket parts evaluations.....	36	110	205

### 3. Training Seminars

Training seminars are conducted by field representatives to teach emission control system requirements to licensed installers.

	1975-76	1976-77	1977-78
Training Seminars .....	9	12	15

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	99.5	116.7	122.1	\$3,148,946	\$3,825,692	\$4,302,854

### d. Vehicle Inspection

The vehicle inspection program is being designed to identify vehicles which are gross emitters because of component failure or improper adjustment. Without a vehicle inspection program the full potential of California's vehicle emission control program will not be realized and air quality will suffer as a result. In addition, the pilot program underway in the city of Riverside has shown that fuel economy improvements occur when problem vehicles are identified and corrected through an inspection program.

This element functions through vehicle inspection and smog station licensing. Through use of a computer diagnosis, vehicle owners can have failing vehicles repaired quickly and economically to meet emission standards. Smog station certification is designed to ensure that a vehicle complies with emission standards before it is re-registered when vehicle ownership changes.

While state enforcement of motor vehicle-related pollution control activities is, in general, centralized in the Air Resources Board, smog station certification and mandatory vehicle inspection are performed by the Bureau of Automotive Repair, Department of Consumer Affairs under interagency agreement.

In 1977 legislation will be introduced to transfer the smog station inspection and vehicle emissions inspection program and staff from the Department of Consumer Affairs to the Air Resources Board.

Chapter 1282, Statutes of 1976 delayed the implementation of the change-of-ownership phase of the vehicle inspection program to January 1, 1979. Rather than commence an expansion to the required 23 stations in 1977-78, the existing pilot program consisting of two stations will be continued at the same lower level. This will reduce the loan requirement from the Motor Vehicle Account, State Transportation Fund to \$3,100,000 in 1976-77 and 1977-78 rather than \$10,787,000 in each of those years as originally planned.

Output	1975-76	1976-77	1977-78
Vehicle exhaust emission tests .....	38,000	-	-
Vehicle exhaust emission, safety and diagnostic tests .....	-	15,000	17,000

<sup>1</sup> Inspection personnel contained in budget of the Department of Consumer Affairs (Bureau of Automotive Repair).

## AIR RESOURCES BOARD—Continued

## e. Stationary Source Control

As part of the Board's comprehensive effort to reduce air pollution, this element focuses on controlling emissions from energy-related and other stationary sources. The element evaluates innovative control systems technology and process modifications; evaluates the potential air-quality impact of proposed new stationary sources of pollution; cooperates with the U.S. Environmental Protection Agency and with local districts in developing improved, uniform regulations for adoption and implementation by local districts and by the Air Resources Board. In addition this element provides technical assistance, such as source testing and engineering support, to districts which lack these capabilities; and it also administers the subventions to local districts, reviewing district operations to assure that they maintain active, effective programs.

*Timely development of source-specific regulations which address the technological and economic feasibility of reducing emissions of oxides of nitrogen and hydrocarbons from diverse industrial sources, and the evaluation of alternative methods to extract sulfur from fuels and from flue gases will require 5.3 additional staff members and \$132,908.*

Output	1975-76	1976-77	1977-78
Source tests performed .....	10	87	100
Control strategies evaluated and developed .....	7	14	19

## f. Technical Services

The Technical Services element provides the technical support necessary to develop and implement the complex Air Pollution Control Program. This support is provided in terms of gathering and inventorying emission and aerometric data, the analysis of this data for developing and evaluating air pollution control strategies, and making daily agricultural burning announcements and predictions of air pollution episodes.

Specifically this element represents the continuous effort of the Air Resources Board to:

1. Maintain an up-to-date inventory of air pollution sources in California and the kinds and amounts of pollutants discharged into the atmosphere.
2. Monitor ambient air pollutant concentrations in all air basins of the state.
3. In cooperation with local agencies, improve the accuracy, spatial and temporal representations of air quality and emissions data by special studies, quality assurance measures, and interlaboratory comparisons.
4. Process by computer the statewide emissions, meteorological and air quality data, and provide electronic data processing services and support to other Air Resources Board elements.
5. Issue daily agriculture burning notices which are based on evaluation of real-time aerometric data and established meteorological criteria for all air basins of the state.
6. Make daily predictions of air quality in critical air basins during seasons of potentially severe air pollution episodes.

*To provide the technical support necessary to develop and evaluate increasingly complex air pollution control strategies, this element will require an additional 12 staff members and \$448,543. Specifically, this program increase will allow the Air Resources Board to: monitor fine particulates, sulfates, nitrates, and organics; assess air quality in the Sacramento-San Joaquin Delta Region; collect and analyze sulfate data on a scheduled basis; broaden and update the present emissions inventory data base; and improve air sample chemical analysis.*

Output	1975-76	1976-77	1977-78
1. Notices issued for purposes of permitting agricultural burning only on days that meet weather criteria .....	8,300	8,300	8,300
2. Predictions of air quality for purposes of public health in accordance with emergency action plan .....	3,600	3,600	3,600
3. Air observations:			
Air quality data observations .....	5,300,000	5,800,000	6,200,000
Meteorological observations .....	500,000	600,000	800,000
Emission inventory systems records .....	107,000	148,000	170,000
Stationary source data update .....	30%	90%	100%
Area source data update .....	10%	20%	90%
Motor vehicle data update .....	100%	100%	100%
(for purposes of developing control strategies and assessing effectiveness of control measures.)			
4. Air Monitoring Stations:			
Network air monitoring stations .....	50	50	52
Mobile monitoring stations .....	4	4	4
Telemetered monitoring stations .....	19	22	28
Number of air monitoring channels:			
Continuous .....	318	318	326
Manual .....	68	68	70
(for purposes of assessing air quality in all air basins of the state.)			

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	78.7	85.7	96.7	\$3,909,029	\$4,096,513	\$4,929,862

## AIR RESOURCES BOARD—Continued

## g. Legal Affairs and Enforcement

The Legal Affairs and Enforcement element was established during the current year by consolidating the legal-related functions of staff counsel (including vehicular enforcement) with the compliance monitoring and enforcement functions for stationary sources of air pollution. The objectives of this element are five-fold:

- (1) Assure adequate information on legal considerations for decisions and actions of Air Resources Board members and staff, as well as actions by local districts;
- (2) Assist in documenting stationary and vehicular enforcement cases;
- (3) Assure effective control of stationary sources of air pollution by local districts;
- (4) Assure adequate training for state and local pollution investigators;
- (5) Assure expeditiousness and legality of abatement orders and variance/compliance schedules.

Activities include legal counseling to the Board, to executive and program staff and to local districts as requested; processing of requests for information under the Public Records Act; development and referral of prosecution cases to local prosecutors or the State Attorney General; review of local enforcement programs and activities for compliance with current Federal and State requirements; and inspection and monitoring of stationary sources subject to New Source Review (NSR) rules. The element also monitors agricultural burning, and works with local districts and growers to encourage compliance with regulations; monitors open-burning dumps, and works with local agencies to phase out those dumps. The staff of this element prepares quarterly and annual reports for EPA's national compliance data system.

Four additional staff members and \$92,245 will permit this element to more actively verify compliance of stationary sources and coordinate district activities to assure more uniform enforcement standards throughout California.

Output	1975-76	1976-77	1977-78
Regulations reviewed for board consideration/adoption .....	66	72	72
Vehicle enforcement cases referred to prosecutor .....	1	3	6
Stationary source violations referred to prosecutor .....	243	1,140	500
Agricultural burning cases referred to districts for action .....	50	60	60
ARB contracts and grants reviewed .....	20	45	45
Stationary sources inspected-local, state, federal limits .....	162	215	260
State and local investigators trained at Smoke School .....	459	405	420
Variance/compliance schedule reviewed .....	570	600	600
Review of local district actions.....	45	90	90

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	17.1	26.9	30.6	\$590,508	\$1,038,063	\$1,028,897

## h. General Support

The objective of the General Support element is to provide executive and administrative support to the line functions of the Board.

The executive office provides essential management, policy and program direction including public information, and legislative liaison.

Administrative services, which provides fiscal, personnel and business services support, is performed under contract with the State Water Resources Control Board.

An additional \$227,652 is required in the contract with the State Water Resources Control Board for administrative services. The revised amount is a result of a change in the allocation method, and provides for increased workload in fiscal and business systems.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures (distributed) .....	29	33.2	33.2	(\$1,284,869)	(\$1,769,352)	(\$2,225,380)

## CALIFORNIA ADVISORY COMMITTEE

## Program Objectives and Description

The committee participates in planning for regional developments of water resources and provides advisory services to the Western States Water Council, the Legislature and interstate commission members.

The Advisory Committee was abolished by Chapter 52, Statutes 1976, effective July 1, 1976. It consisted of one member of the Assembly appointed by the Speaker of the Assembly, one member of the Senate appointed by the Rules Committee of the Senate, one member of the California Water Commission appointed by the Commission, and four members of the public appointed by the Governor. The per diem, travel and compensation expenses of Governor's appointees to the Western States Water Council, who are not officers or employees of the State, were paid from the Advisory Committee budget. Pursuant to Chapter 52, Statutes 1976, expenses and compensation of members of the Western States Water Council will be paid from the budget of the Department of Water Resources beginning with the 1976-77 fiscal year.

# CALIFORNIA-NEVADA INTERSTATE COMPACT COMMISSION

## Program Objectives and Description

The purpose of the California-Nevada Interstate Compact Commission was to work with its counterpart, Nevada Commission, with federal agencies, and with legislative and congressional groups to obtain final approval of the California-Nevada Interstate Compact. The proposed purpose of the Compact was to allocate the use of the interstate streams, and the Truckee, Carson and Walker Rivers. To become effective, the compact must be ratified by Congress. However, the commission has been unsuccessful in securing congressional ratification. In accordance with legislation of 1974 this commission will be abolished on January 1, 1977.

# COLORADO RIVER BOARD OF CALIFORNIA

The principal objective of the Colorado River Board is to protect California's rights and interests in the water of the Colorado River system. This is accomplished through investigations, negotiations with the other basin states and federal agencies, and administrative actions, and, if necessary, through litigation. Activities include analyses of the engineering, legal and economic matters concerning the Colorado River resources of the seven basin states (Arizona, California, Colorado, Nevada, New Mexico, Utah, and Wyoming) and all factors involved in the 1944 Mexican Water Treaty obligation to deliver Colorado River water to Mexico. The board develops a single position among the agencies having established water and power rights on the Colorado River, working closely with the Attorney General, the board's counsel. The board also collaborates with other California agencies, primarily the Department of Water Resources, State Water Resources Control Board, and Department of Fish and Game.

Effective January 1, 1977, and pursuant to the provisions of Chapter 485, Statutes of 1976, board membership will increase from six to eleven members appointed by the Governor. The board will consist of three members appointed from the public at large, the Directors of the Departments of Water Resources and Fish and Game as ex-officio members, and one member from each of the six major public agencies having rights to the use of water or power from the Colorado River. These agencies are: Palo Verde Irrigation District, Imperial Irrigation District, Coachella Valley County Water District, The Metropolitan Water District of Southern California, San Diego County Water Authority, and City of Los Angeles, Department of Water and Power.

## PROTECTION OF CALIFORNIA'S COLORADO RIVER RIGHTS AND INTERESTS

### Program Objectives and Description

California's rights and interests in the Colorado River Basin must be preserved in order to continue the successful irrigation of about 700,000 acres in the Palo Verde, Yuma, Imperial, and Coachella Valleys of California and the furnishing of municipal, industrial, and agricultural water supplies and hydroelectric energy to portions of the six counties comprising the coastal area of Southern California. The area served by Colorado River water and power has a population of about eleven million—more than half the state's population—and represents more than half the state's assessed valuation. The public agencies having the rights to use Colorado River water and power have invested about \$800 million in facilities for diversion and beneficial use of approximately five million acre-feet of water per year and for the generation and transmission of three and a half billion kilowatt hours of hydroelectric energy annually.

Protection of California's Colorado River rights, including water quantity, water quality, and hydroelectric power, requires a continuous effort. The foreseeable future uses of the basin's water supply by the seven states and the Republic of Mexico exceed the long-term dependable supply. As the other states increasingly utilize their apportionments of Colorado River water, the river's problems become more severe. It is expected that California's use of river water will be cut from about 5 to 4.4 million acre-feet annually in the 1980's after the federal government completes the Central Arizona Project. Even after California's State Water Project is at full development, the major portion of the water used in Southern California will still come from the Colorado River.

Fulfillment of the board's functions and obligations is a continuing program, requiring swift reactions to the actions of other states, federal agencies, Indian tribes, or private entities which could affect California's rights and interests.

The major objectives of the program are as follows:

1. Achieve salinity levels in the Lower Colorado River at or near 1972 levels through (a) implementation of Title II of the 1974 Colorado River Basin Salinity Control Act, and (b) implementation of the salinity control plan to meet the standards approved in August 1975, by the seven-state Colorado River Basin Salinity Control Forum, and adopted by the state on September 18, 1975.

2. Work with the federal government and other states to assure that settlement of the Mexican Water Treaty problems will not damage California's rights.

# COLORADO RIVER BOARD OF CALIFORNIA—Continued

3. Work toward settlement of the rights of Indian reservations in both the Lower and Upper Basins. Existing or potential Indian claims include proposed enlargement of reservations (and water rights) through boundary changes, enlargement of present perfected rights through resurveys and redefinitions of irrigable lands, and quantification of the 1907 Winter's Doctrine rights of the vast Navajo Indian Reservation. The work includes studies of Indian reservations and accompanying claims, engineering studies related thereto, cooperation with the California Attorney General's office, and participation in meetings working towards settlement of the claims.

4. Continue efforts to obtain a stipulated judgment that will quantify California's present perfected rights to Colorado River water pursuant to the decree in *Arizona v. California*.

5. Work with Arizona, Nevada, water users, and the federal government to determine acceptable methods for measuring subsurface return flows to the Lower Colorado River through studies and negotiating meetings. These measurements would allow establishment of credits for return flows under Article V (B) of the decree in *Arizona v. California* for each diverter from the mainstream.

6. Work with the federal government and the other basin states on annual river operations that would be of maximum short- and long-term benefit to California. The work entails development of operational plans that are in compliance with the general operating criteria for Colorado River reservoirs.

7. With the forecasted temporary surplus of Colorado River Basin water supplies between the time of filling of Lake Powell and Lake Mead and the initiation of diversions by the Central Arizona Project, the board's staff will analyze proposals to change the operating criteria to maximize power generation and minimize flooding along the river, while at the same time, maximize the retention of water in storage.

8. Assist in establishing the means whereby lands in California along the Colorado River that presently have no rights to water will be able to obtain a permanent water supply. Studies are being made of alternative sources of water supply and the feasibility of establishing a water district along the river to contract for water. The major purpose of the studies is to obtain a water supply for recreational and domestic uses (not agricultural) and for federal lands without a permanent water supply.

9. Work towards the peaceful settlement of the basic disagreements between the four Upper Colorado River Basin states and the three lower basin states over interpretation of the Colorado River Compact. The major disagreement concerns the magnitude of the obligation of the upper basin states relative to the U.S.-Mexico treaty guarantee of a delivery of 1,500,000 acre-feet/year to Mexico. This effort requires engineering analyses of the basin's hydrology, review of the Compact, and meetings with the basin states.

10. Assess growth in demands for Colorado River water within the basin, especially monitoring growth in the upper basin's energy development industries, to assure that developments as they proceed will not be adverse to California's interests.

11. Implement the California policy on the Bureau of Reclamation's Lower Colorado River Management Program and associated environmental aspects. This will be accomplished through working on the state-federal committees charged with review of the management program.

## Authority

California Water Code, Division 6, Part 5, Sections 12500-12553.

## DEPARTMENT OF CONSERVATION

This Department was modified under provisions of Chapter 1300, Statutes of 1976 effective January 1, 1977. Under these provisions, the former Division of Forestry became the Department of Forestry.

The principal objective of the Department of Conservation is the protection, conservation, and development of the State's soil, mineral and petroleum resources.

The Department is organized into two program divisions: Mines and Geology; and Oil and Gas; as well as several boards, commissions and other services. These include the State Mining and Geology Board, the State Resource Conservation Commission, and the Geothermal Resources Board. These boards and commissions provide varying degrees of input to the Governor, the Legislature, the Resources Agency Secretary and the Department's Director, for management and policy direction.

### II. GEOLOGIC HAZARDS AND MINERAL RESOURCES CONSERVATION

#### Program Objectives and Description

This program, managed by the Division of Mines and Geology develops information about the geology and seismology of California to assist public agencies and the private sector in the wise and safe use of the earth's crust, terrain, and mineral resources.

Emphasis is placed on the safety of persons and property from geologic hazards, intelligent land use planning, responsible development of mineral resources, effective reclamation of mined lands, and the wise development and use of marine geological resources.

This program's objective is to identify and provide timely delineation of geologic and seismic hazards, render technical assistance to local government for the reclamation of mined lands, and to identify, map and evaluate mineral deposits, both onshore and offshore, and encourage their utilization consistent with the best conservation practices.

The Division proposes to increase its staff by three positions, at a cost of \$77,528 in order to render technical assistance to local government in the review of plans to reclaim mined lands and to begin the classification of land areas according to mineral content.

In 1977-78 a team of three associate level positions will be established to review and investigate geologic conditions of proposed nuclear power generation facilities. Funding for this purpose will be provided by the Energy Resources Conservation and Development Commission.

#### Authority

Public Resources Code, Division 1, Chapter 2, Article 3, and Division 2.

For the list of standard (lettered) footnotes, see the end of the Governor's budget.

b. Mineral resources conservation.....	19	14	17	514,159	394,038	488,053
c. Geologic information and publications.....	22.5	22	23	575,848	602,209	653,333
d. Administration.....	16.8	24.8	27.5	529,671	781,722	838,601

## a. Land Use Geology

This element addresses the need for accurate understanding of those geologic and seismic conditions that affect the use of the land. Factors investigated include landsliding, earthquake shaking, land subsidence, fault location, fault rupture, erosion, tsunamis (seismic sea waves), liquefaction and basic geology. The identification of geologic and seismic hazards and conditions provides valuable information for making informed land use decisions and better protects lives and property.

Program Element Components	75-76	76-77	77-78	1975-76	1976-77	1977-78
1. Geologic hazards.....	24.8	26.3	26.3	\$672,636	\$781,468	\$810,456
2. Earthquake hazard reduction.....	25	27.3	30.3	672,621	817,697	926,274
3. Strong motion instrumentation.....	9	9	12	484,625	621,176	650,400
<b>Totals.....</b>	<b>58.8</b>	<b>62.6</b>	<b>68.6</b>	<b>\$1,829,882</b>	<b>\$2,220,341</b>	<b>\$2,387,130</b>

## a.1. Geologic Hazards

The objective of this component is to identify and evaluate geologic hazards and conditions, not related to earthquakes, which must be considered for informed land use planning. Examples of activities include: development of Bouguer Gravity Maps, the investigation of regional and statewide geology, cooperative investigations with local government, landslide abatement studies, and studies in coastal and marine geology.

Output				1975-76	1976-77	1977-78
Coastal and marine maps and reports.....				1	1	1
Geologic maps and reports .....				13	13	13
Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	24.8	26.3	26.3	\$672,636	\$781,468	\$810,456

## a.2. Earthquake Hazard Reduction

The objective of this component is to provide for safety of persons and property from earthquake shaking and other seismic hazards. Current activities directed toward this objective include: developing historic earthquake data, seismic monitoring of faults, mapping, evaluating, and zoning active faults, measuring crystal strain, reviewing and evaluating structure sites, and developing basic data useful in the prediction of earthquakes.

Output				1975-76	1976-77	1977-78
Fault zone maps.....				82	35	35
Hospital site reviews.....				130	130	130
Nuclear plant site reviews.....				1	3	9
Misc. seismic maps and reports.....				10	10	10
Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	25	27.3	30.3	\$672,621	\$817,697	\$926,274

## a.3. Strong Motion Instrumentation

The objective of this component is to install and maintain strong motion accelerographs in representative structures and geologic sites throughout the State. These instruments measure ground and structure responses to earthquake shaking. This information is utilized for the design and construction of safer buildings, and for the further understanding of earthquake-related phenomena. This component is funded by a special Strong Motion Instrumentation Fund.

Output				1975-76	1976-77	1977-78
Installations in structures .....				13	40	70
Other installations .....				69	53	31
Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	9	9	12	\$484,625	\$621,176	\$650,400

# DEPARTMENT OF CONSERVATION—Continued

## b. Mineral Resources Conservation

This element has as its objectives the wise and orderly development of the State's mineral resources and the reclamation of mined lands. Division activities include providing information concerning the location, type, extent, and grades of critical mineral resources, the mitigation of the effects of surface mining by providing assistance to local government, the classification of urban lands according to mineral content, and encouraging the development of the State's mineral resources in accordance with good conservation practices. Much of the work effort is performed in cooperation with the U.S. Bureau of Mines.

Mined lands reclamation.....		1	2	5	27,061	55,760	135,621
Totals .....		19	14	17	\$514,159	\$394,038	\$488,053

## c. Geologic Information and Publications

The Division has the responsibility for making geologic information widely available in printed form. This information must be transmitted in terms meaningful to the general public and useful to those requiring it.

This element has two separate functional components: disseminating technical information and processing maps and publications. The information staff prepares technical presentations and news releases, answers technical letters, and produces the monthly magazine *California Geology* and technical information pamphlets. The publications staff drafts maps, prepares reports and maps for publication and ensures proper distribution. Information and publications sales desks are located at all Division offices, and an extensive technical geologic library and mineral exhibit is located at the Division's San Francisco office.

Output		1975-76		1976-77		1977-78	
'California Geology' by subscription .....		13,000		15,000		15,000

## III. OIL, GAS, AND GEOTHERMAL PROTECTION

### Program Objectives and Description

The Division of Oil and Gas regulates the oil, gas, and geothermal resources operations within the state. This program is concerned with administration of state laws for the conservation of oil, gas, and geothermal resources, to prevent waste and damage and ameliorate land subsidence. Activities include supervision of drilling, operation, maintenance, and abandonment of oil, gas, and geothermal wells both onshore and offshore; of oil production stimulation projects; of gas storage projects; and of operations for the abatement of subsidence of lands overlying oil fields. The state is fully reimbursed for these activities by annual assessments and fees from the respective industries.

The program's objectives are to prevent waste or damage to the hydrocarbon or geothermal reservoirs, to the immediate environment and other natural resources; provide for greater recovery of oil, gas and geothermal resources; and prevent contamination of freshwater supplies penetrated by wells.

*It is proposed to increase the engineering staff by two positions to provide the capability to develop and maintain oil and gas reserve estimates and pool production capability in the state's active oil and natural gas fields. In addition, one technician is being added to insure the timely updating of subsurface geologic reference maps used in regulatory and environmental efforts.*

## DEPARTMENT OF CONSERVATION—Continued

## a. Regulation of Oil and Gas Operations

The purpose of this element is to prevent damage to the hydrocarbon reservoirs, the environment, wildlife, and other natural resources as a result of oil and gas operations; to encourage the development of oil and gas resources commensurate with sound conservation practices; to minimize resource waste and provide for methods that will maximize the ultimate recovery of these resources; to protect correlative rights so that landowners, royalty owners, producers, and the general public realize and enjoy the greatest possible benefits from these vital resources; and to publish statistics, maps, geologic and engineering studies, and other data relating to oil and gas operations.

The 1972 session of the Legislature added requirements to the Public Resources Code concerning the abandonment of deserted wells. There are thousands of idle wells in the state. Programs are now in effect to catalog and document information on these wells in order to initiate abandonment actions.

## Output

Products of the regulation of oil and gas operations include publications, such as the Annual Report of the State Oil and Gas Supervisor, oil and gas field maps, technical geologic and engineering reports, a weekly summary and map revision letter, and monthly production report; geologic and engineering studies of oil and gas fields; answers to proposals to drill, rework, and abandon wells; inspections of oil and gas wells to ensure that state regulations are being followed; inspections of environmental problems related to oil and gas operations; surveillance of well stimulation and disposal projects; and hearings and orders on regulatory matters.

Expenditures .....	87.7	91.8	93.8	\$2,198,012	\$2,849,285	\$2,965,053

## b. Regulation of Geothermal Operations

The purpose of this element is to provide controls on drilling, operation, maintenance, and abandonment of geothermal resources wells, including wastewater injection wells, to prevent damage to the geothermal reservoirs and other resources; to safeguard property, public welfare, and the environment; and to encourage the maximum economic development of geothermal resources.

Geothermal energy is indigenous to California and has the potential to lessen — when developed — California's dependence on imported fuels. It can be developed within the acceptable environmental standards with due consideration in certain critical areas, such as The Geysers, where development is taking place on unstable terrain. To mitigate the problem at The Geysers, a full-time regulatory engineer has been moved to the area to provide surveillance.

## a. Land Use and Resource Protection

A new element is proposed for land use and resource protection in order to give increased emphasis to the state's non-renewable resources. This increased emphasis will include the development of recommendations related to current and projected trends in the supply and demand of non-renewable resources of the state, with periodic reporting of an inventory of the state's natural resource data; assessment of natural resource impacts of proposed energy projects; and protection of the state's special land resources as they are affected by state and local land use decisions. Six new positions are included in this budget for these purposes.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	—	—	6	—	—	\$205,788

## DEPARTMENT OF CONSERVATION—Continued

## b. Open-Space Subvention and Environmental Impact

The open space subvention program is administered by the Department of Conservation for the Secretary of Resources. Under this program cities and counties are reimbursed, in part, for tax revenue losses resulting from reduced assessments of lands restricted to agricultural and open space uses under the provisions of the Williamson Act and other open space legislation. These lands are assessed on the basis of income produced rather than market value.

To meet statutory requirements, environmental documents must be prepared for many of the projects under the jurisdiction of the divisions within the department, and the environmental documents prepared by others must be reviewed.

Output	1975-76	1976-77	1977-78
Open-space plans reviewed .....	7	5	3

## c. Resource Conservation Commission

The Resource Conservation Commission provides direction and leadership for resource conservation activities being carried on by Resource Conservation Districts throughout the State. The Commission's objectives are to strengthen Resource Conservation Districts, provide information on all federal and State programs, evaluate and offer guidance on District Programs, and coordinate and set priorities that best protect the State's interest in the conservation of its soil and other resources.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	-	2	2	-	\$91,011	\$98,718

## d. Soil Vegetation Survey

The Soil-Vegetation Survey is a long range project to inventory and map physical and biological environmental features of soils, plant communities, and soil-vegetation relationships on wildlands and rate the productivity of the land for timber and range production. It provides information with many applications to land use planning, management of renewable resources, and environmental analysis.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures .....	-	-	-	-	\$276,156	\$269,819

## V. ADMINISTRATION

## Program Objectives and Description

The objective of this activity is to provide executive leadership, policy direction, and administrative services required for the successful completion of the many program objectives; to provide uniform departmentwide staff services; to assure coordination at the policy level with other state, federal, and local government agencies; and to provide specialized staff services to management. A uniform departmentwide application of policy and procedure is essential to maintain effective program operations.

Administrative activities are performed at several organizational levels within the department. Departmental headquarters provides executive leadership from the directorate and central services in accounting, budgeting, management analysis, personnel, office services, training and safety. More specialized management leadership and staff services are provided through two division headquarters which support programs in the fields of mines and geology and oil and gas. Division subunits provide localized general support services throughout a variety of locations in the state.

Program Requirements	75-76	76-77	77-78	1975-76	1976-77	1977-78
Departmental support .....	112.7	105.5	24.3	\$2,304,669	\$2,358,567	\$623,338
Forestry support .....	142.9	191.3	-	3,937,674	5,883,875	-
Mines and geology support .....	13.3	14.3	14.3	458,226	479,537	499,600
Oil and gas support .....	5.7	6	4.5	163,550	167,049	169,391
Totals, General Support .....	274.6	317.1	43.1	\$6,864,119	\$8,889,028	\$1,292,329
Less Amounts Charged to Other Programs:

<sup>1</sup> The Summary by Object reflects 8.7 positions in the current year under total adjustments. This net figure is comparable to the total adjustments for both Departments of Conservation and Forestry presented in this section. In order to reconcile total workload and administrative adjustments and proposed new positions to the Summary by Object, it is necessary to refer to the budget presentation for the new Department of Forestry.

## DEPARTMENT OF FORESTRY

(formerly Division of Forestry, Department of Conservation)

This Department was created by Chapter 1300, Statutes of 1976, effective January 1, 1977. Under provisions of this statute the Division of Forestry, formerly within the Department of Conservation, is abolished. This new Department has as its principal objectives the prevention and suppression of fires occurring on state owned and private forest, brush and grass covered lands, land management programs such as the administration and enforcement of forest practice rules, forest advisory services, range improvement programs, production of nursery stock, management of state forests, and underwriting forest and fire research programs. The State Board of Forestry and the Professional Forester Examining Committee are also within the Department.

Expenditures for the past year and first half of the current year are shown under the Department of Conservation.

I.a.2.	Modification of aircraft to tankers (3) .....	-	270,300
I.a.2.	To meet annual mobile equipment needs .....	-	289,715

### I. WATERSHED AND FIRE PROTECTION

#### Program Objectives and Description

California's forest, brush, and grass covered wildlands provide a rich but limited abundance of natural resources which require protection from potential damage resulting from fires, diseases, insects, and misuse by man. The Watershed and Fire Protection Program is managed by the Department of Forestry for the purpose of providing the required protection on private and state-owned watershed lands of statewide interest and of enhancing the quality and usefulness of the resources.

The budget contains an augmentation of \$300,000 for increased costs of worker's compensation payments.

As a result of extensive meet and confer sessions with fire suppression employee groups the workweek for permanent fire suppression personnel will be reduced from 84 to 72 hours beginning July 1, 1977. This will require a deficiency appropriation in the current year of \$76,400 and an increased cost of \$5,297,978 in 1977-78 of which \$2,988,205 will be funded from additional reimbursements. An additional 254 personnel years will thus be funded to maintain the current fire suppression capability at the reduced workweek of 72 hours.

#### Authority

Constitution, Public Resources Code (principally), Health and Safety Code, Penal Code, Welfare and Institutions Code, Military and Veterans Code, Governor's executive orders, administrative orders, Board of Forestry policy, Administrative Code, federal law, contracts and agreements.

c. Resource management .....	(135.2)	180.6	178.8	(5,039,761)	5,859,741	5,798,135
d. Civil defense and other emergencies .....	(3.8)	4.7	4.7	(89,641)	129,055	130,858

#### a. Fire Protection, State Responsibility

The objective of fire protection is to protect life, property and natural resources from damage by forest fires in all State Responsibility Areas and in those wildland areas which the Department of Forestry protects under contract with other agencies. This also provides for the prevention and suppression of any uncontrolled fire which threatens to become a forest fire.

(Program) Element Components	75-76	76-77	77-78	1975-76	1976-77	1977-78
1. Fire prevention, state responsibility .....	(152.9)	169	155.2	(\$4,265,359)	\$5,246,189	\$4,742,320
2. Fire control operations .....	(2,103.4)	2,033.8	1,990.2	(63,731,768)	61,926,351	64,384,030
3. Conservation camps .....	(158.1)	192.4	192.4	(4,844,779)	5,875,102	5,949,000
4. Ecology corps .....	(69.9)	-	-	(2,063,999)	-	-

For the list of standard (lettered) footnotes, see the end of the Governor's Budget.

### a.1. Fire Prevention, State Responsibility

This charge is carried out by influencing people to act in a fire-safe manner and to minimize physical hazards or risks. Fire cause investigations show that 75 percent of California's human-caused wildfires are preventable. This component provides fire prevention personnel to educate the public in the safe use of fire and to regulate the use of fire or potential ignition sources in such a way that "uncontrolled fires", as defined in Section 4104 Public Resources Code, are restricted to an acceptable level.

## Output

### Input

### a.2. Fire Control Operations

It is proposed to convert three military S-2 aircraft to fire retardant carrying air tankers to complete the updating of the fleet with modern aircraft. The one-time cost is \$270,300. Additionally, one new management level position is proposed to insure that all state owned aircraft are properly maintained.

The budget reflects an increase of \$289,715 for mobile equipment replacement. These additional funds provide a more appropriate level to meet annual replacement needs.

*In 1977-78, \$266,000 is being provided to permit the ongoing replacement of high-priority safety clothing and personnel protection equipment acquired through a previous multi-year augmentation.*

Effective January 1, 1978, the former Ecology Corps Center at Los Osos will be replaced by a California Conservation Corps Center at Bollinger Canyon. Funds are included in the Department of Forestry's capital outlay section for acquisition of the new site. Through reimbursements from the California Conservation Corps, staffing will be returned to its previously authorized level with three additional positions in order to provide 24-hour supervision.

.....	(2,105.7)	2,055.8	1,790.2	(\$03,751,700)	\$01,220,551	25,000,000
-------	-----------	---------	---------	----------------	--------------	------------

## DEPARTMENT OF FORESTRY—Continued

## a.3. Conservation Camps

The Department of Forestry operates 18 adult conservation camps and one adult training center in cooperation with the Department of Corrections, six youth conservation camps and one youth conservation camp training center in cooperation with the Department of the Youth Authority, two camps in cooperation with San Diego County and one camp in cooperation with Shasta County. In 1976-77 camp populations are budgeted for 1,130 for adult camps, 450 for youth camps and 200 for county camps.

This element provides a trained labor force for backup firefighting when regular fire control personnel are insufficient to meet emergency fire conditions. When not engaged in firefighting duty, camp inmates work on fire defense improvements for the Department of Forestry and on conservation projects for other state agencies.

Output				1975-76	1976-77	1977-78

## a.4. Ecology Corps

The objective of the California Ecology Corps was to provide a fully trained and properly equipped force for use on high-priority conservation projects. In addition to performing duties required on reimbursed conservation projects, corps personnel were also available and trained for immediate dispatch to fires, floods, mountain rescue work and other emergencies. Personnel were assigned to eight main ecology centers year-round and worked from several spike camps on a seasonal basis. Peak population was about 500 corpspersons.

With the establishment of the California Conservation Corps in 1976, the Ecology Corps was eliminated. However, the California Conservation Corps is now contracting with the Department of Forestry to administer the eight California Conservation Corps centers which have the primary mission of aiding the Department of Forestry in fire prevention and fire suppression activities. Reimbursed funds in the amount of \$4,888,274 for this activity in the 1977-78 fiscal year are reflected under the Fire Control Operations element.

## b. Fire Protection, Local Government Contract

The Department of Forestry administers 31 contracts in 24 counties for local responsibility fire protection service. In some areas local fire stations and county equipment are used with the state reimbursed for manning the facilities. In other areas, existing Department fire stations are supplemented by the counties for the additional costs of fire protection to lands and structures inside and outside the Department's state responsibility area.

## c. Resource Management

The purpose of this element is to protect state and private forest, brush and watershed lands from pests, deterioration and misuse.

Activities include control of forest pest epidemics; producing tree seedlings at three nurseries for reforestation and erosion control; revegetation of burned watershed; regulation of controlled burning of brush lands; regulation of private timber harvesting operations; advisory assistance to small owners on forest timber yield tax matters; and various investigations in reforestation methods, forest practices, brush control and soil erosion related to timber harvesting.

Full implementation of the provisions of the Forest Practice Act of 1973 has been achieved. District forest practice rules have been adopted by the Board of Forestry and Department of Forestry personnel have been trained and are performing site inspections under the new rules.

## d. Civil Defense and Other Emergencies

Because of its statewide depth in manpower and equipment and its communication system, the Department of Forestry has been assigned civil defense responsibilities in the areas of fire, rescue and radiological monitoring. In addition, agreements with the Department of Water Resources provide for assistance to that organization in meeting their responsibilities for the maintenance and patrol of levee systems in the Sacramento, San Joaquin and delta areas during periods of high water. As a fire protection organization, the Department of Forestry is frequently requested to respond to a variety of rescue calls, accidents and other types of local emergencies requiring public assistance.

Input	75-76	76-77	77-78	1975-76	1976-77	1977-78
Expenditures.....	(3.8)	4.7	4.7	(\$89,641)	\$129,055	\$130,858

## II. ADMINISTRATION

## Program Objectives and Description

The objective of this activity is to provide executive leadership, policy direction, and administrative services required for the successful completion of the many program objectives; to provide uniform departmentwide staff services; to assure coordination at the policy level with other state, federal, and local government agencies; and to provide specialized staff services to management. A uniform departmentwide application of policy and procedure is essential to maintain effective program operations.

Administrative activities are performed at several organizational levels within the department. Departmental headquarters provides executive leadership from the directorate and central services in accounting, budgeting, management analysis, personnel, office services, training and safety. Department field units provide localized general support services throughout a variety of locations in the state.
